## FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 27	TYPE OF FIRE: Wildland
FIRE NAME: Mosquito	OPERATIONAL PERIOD: 10/06-10/12/2022, Day Shift

Warm and Dry. Mostly sunny.

Temp: 76-86 max; 57-64min  
RH: 18-35% min; Night 30-50% max  
Wind (20'): General daytime transport wind SW 5-8mph Gust 10-15 ridges; AM Ridgetop E 3-8 becoming SW in the afternoon; 2200: ENE and Down-canyon 4-7mph

**10/12/2022: Forecasted wind ENE 8-15mph Gusts of 20mph Day and Night, see IMET for specifics.**

### OUTPUTS

#### FIRE BEHAVIOR

**GENERAL AREA:** (In the event fire spots outside the line or we support a new IA) Surface Fire activity. Expect slow to moderate rates of spread unless fire lines up with slope and wind especially in areas with continuous grass and brush, if this occurs, torching is possible. Review pocket cards to track trends and thresholds for the area.

Fine dead fuel moistures support fire spread, break point is FDFM <5. Rates of spread generally 1-8ch/hr. If fire gets established in an open area aligned with wind and slope, spread rates increase to 8-22ch/hr.

Torching possible. Spotting distances will be short range less than 3/10 of a mile max (wind speed dependent).

Fire activity continues in areas of the fire that are inaccessible as heavy fuels and duff layers continue to hold heat. Expect hot spots to show themselves in the afternoon.

#### ENF Pocket Card ERC-Y

#### TNF Pocket Card BI-G

**ERC Forecast from WIMS:** South area of fire, ENF FDRA 335: 55-63 Moderate-High; (Energy Release Component does not include wind)  
**BI Forecast from WIMS:** North area of fire, TNF FDRA 350/354: 45-72 Moderate-High; (Burning Index Includes Wind)

#### SPECIFIC:

**Branch 10:** Existing containment lines are expected to hold. Smoldering and creeping fire. Minimal fire spread/growth in the forecast. Isolated inaccessible areas still hold heat.

**Branch 25:** Smoldering and creeping fire. Containment lines expected to hold. Minimal fire spread/growth in the forecast. Isolated inaccessible areas still hold heat.

#### AIR OPERATIONS:

Moderate inversion sets up overnight, light smoke settling in drainages in the AM.  
See daily weather forecast for specifics.

### SAFETY

On relatively small fires or deceptively quiet areas of large fires. (IRPG Common Denominators)  
Fire weakened timber poses overhead hazards. Stump holes will continue to hold heat.

## **Health & Safety Message**

<b>Incident:</b> Mosquito CA-TNF-001371	<b>Date/Op Period:</b> 10/10/22 Day Shift 0700-1900

### **Hazards & Risks**

**Hazard Tree Removal:** When working in a Hazard Tree area there are increased risk of you, or your vehicle being struck by a falling tree. Select a safe spot to park your vehicle. Some environmental conditions that increase risk of working in these areas are, strong or gusty winds, steep slopes, and fire weakened timber. Mitigation measures to discuss with your Modules. Minimize exposure by limiting the amount of time you are in the area or staying out of the area all together. Use heavy equipment when possible. Use lookouts and maintain communications with lookouts. Always know evacuation times & have a medical plan in place for the worst-case scenario.

**Working around and with Heavy Equipment:** Remember the limited visibility of the operator. If you can't see his or her face, chances are they can't see you. When working directly with Heavy Equipment maintain a safe distance and eye contact. If you are just in the area of Heavy Equipment that is working just keep eyes on them and maintain a safe distance. Sometimes radio communications can be challenging, with the noise levels in the area so talk 'with the operator before they start working and have a plan.

**Heat Related Illness:** Warm and dry conditions are forecast for the fire. Know the signs and symptoms of heat related stress. Staying well hydrated throughout your entire shift is essential. Good nutrition, fitness level and drinking plenty of electrolyte-replacing fluids along with frequent rest breaks will help reduce the chances of becoming sick.

- **Understand that heat stroke is a life-threatening condition!**
- Review the signs & symptoms and patient treatment guidelines found in the IRPG.

**Stay Hydrated and take frequent breaks!**

## Human Resource Message

### **All I Really Need to Know I Learned in Kindergarten** by Robert Fulghum

Wisdom is not obtained at the top of the graduate-school mountain, it was learned in the sand pile out on the playground in kindergarten. These are the things Robert Fulghum learned:

1. Share everything.\*
2. Play fair.
3. Don't hit people.
4. Put things back where you found them.
5. Clean up your own mess.
6. Don't take things that aren't yours.
7. Say you're sorry when you hurt somebody.
8. Wash your hands before you eat.
9. When you go out into the world, watch for traffic, hold hands, and stick together.

**Need to speak with an HRSP? Please contact  
Linda Overton (located near the kitchen)

**\*In the spirit of sharing, we will be setting up boxes around camp where you can deposit the non-perishable food items you do not want. Non-perishable food items will be collected and donated.**
