MAP	Condition	Action	Impact	Status
15b	Fire established across drainage from Handglen Celler Tunnel.	Consider firing operation to keep fire west of US 199. Provide structure protection to known values at risk.	Commerce infrastructure, rest area, communication infrastructure.	Active
17b	Fire established adjacent to AG Inspection site.	Consider firing operation to keep fire west of US 199. Consider point protection of known values at risk including AG Inspection station.	Ag inspection station.	Active
18	Fire established above the E. Fork Illinois River	Consider elevating Sunstar and Takima evacuation levels. Activate structure protection in pre-determined zones.	Elevation of evacuation levels in Sunstar and Takima.	Active
50	Fire established within 1.5 miles of Gilligan Butte.	Discuss/Propose elevated evoc. levels. Move CDOCI closure to D125 limiting traffic to local and commerce vehicles. Evaluate additional immediate response from OSM and evaluate need to activate contingency. Activate structure protection in pre-determined zones. Consider firing operations off of primary line south of Gilligan Butte.	Level 1 evacuation to level 2. Level 2 evacuation to level 3. Discuss additional evacuation levels.	Active
51	Fire crosses direct line that connects transmission corridor to US 199.	Discuss/Propose elevated evoc. levels. Communicate with local fire chief and JCSO Sheriff for potential change in evacuation levels.	Communicate with local fire chief and JCSO Sheriff for potential change in evacuation levels.	Active
52	If fire becomes established across primary line connecting the transmission corridor to US 199.	Recommend elevated evacuation levels within Josephine County. Communicate with local fire chief and JCSO Sheriff for potential change in evacuation levels.	Communicate with local fire chief and JCSO Sheriff for potential change in evacuation levels.	Active
53	Fire established adjacent to primary line connecting transmission corridor to Rough and Ready Drainage.	Discuss/Propose elevated evoc. levels. Communicate with local fire chief and JCSO Sheriff for potential change in evacuation levels.	Communicate with local fire chief and JCSO Sheriff for potential change in evacuation levels.	Active
54	Fire crosses MAP 54	Initiate OSM Contingency. As containment lines are identified as secured adjacent to MAP 54, a reduction of evacuation levels will be evaluated by the Smith River Complex North Evacuations Group for supplying recommendations to the JCSO Sheriff.		Active
