#### Today's General Fire Behavior:

Significant heating and drying today. Poor overnight recoveries will extend the burn period and increase fire activity over the next operational periods. All the local thresholds were exceeded: 20' winds over 6 mph, RH less than 42%, Temperature over 76°, 1000 Hr. fuel 16%. Benign areas may transition from minimal to moderate fire behavior. Be mindful of your location on the landscape.

#### Specifics:

#### Branch V

**Division SS:** Minimal fire behavior, continued backing on Hwy 199, smoldering and creeping in Stony Creek and Coon Creek.

Division VV: Minimal fire behavior, interior smoldering and creeping.

**Division YY:** Moderate fire behavior, interior smoldering and creeping, backing in Washington Flat near DP56 and Siskiyou South Fork.

#### **Branch XX**

**Division LL:** Minimal fire behavior, interior smoldering and creeping, limited activity near Bear Basin and Little John Creek drainage.

Division MM: Minimal fire behavior, interior smoldering and creeping.

**Division PP:** Moderate to active fire behavior, backing and upslope movement with alignment in Coon Creek.

**Night Shift:** Fire activity may continue into the evening hours based on day operation's environmental factors and fire behavior. Expect poor recovery above 3500ft. West winds becoming East after midnight and downslope in the valleys. Inversion will set in at approx. 2300.

**Initial Attack:** Warm and dry conditions continue. New starts in the area outside of marine influence will likely have minimal to moderate fire behavior with backing, flanking, and single tree torching.

#### Aviation Safety/Watch out:

For larger helicopters, increase the distance ground personnel must standby from the drop zone.

#### Safety Message/ Watch Out Situations:

Short intense fire runs are possible. Make sure you know where your safety zone is and the time it takes to get there.

# <u>Smith River Complex South – Safety Message</u>

INCIDENT #CA-SRF-000968

DATE: 09/14-15/23 TIME: 0700-0700 Day/Night Shift

# Base all actions on current and expected fire behavior

- Can you observe the area or use scouts?
- Have escape routes and safety zones been thoroughly scouted?
- Have potential dangers been located, and can they be dealt with?
- Do you have access to weather and fire behavior forecasts?
- Do you get a thorough briefing?

# **Hazard Mitigation Through Risk Management**

Situational Awareness - Obtain information, scout the fire, identify hazards

Hazard Assessment – Assess hazards to determine risks

Hazard Control – Determine the best approach to mitigate or control the risk

**Decision Point** – Are controls in place? Are tactics appropriate? Are instructions given and understood?

Evaluation – Ensure controls are implemented and accomplished to standards.

# **Retardant and Water Drop Safety**

- Be aware of the location and flight patterns (final approach, drop zone)
- Ensure you have positive contact with the pilot before the drop
- Clear personnel out of the target area before the drop is conducted
- Use caution when working in an area covered by retardant. Surfaces are slippery
- Wash the retardant off your skin as soon as possible to prevent irritation

# **Fuel Geysering**

- Keep containers in the shade and away from any external heat source
- Never open a fuel tank within 20 feet of any heat source
- Gently shake the container to release surface tension. Too much agitation will create pressure
- Open the container slowly, pointing the opening away from you and others
- Fuel levels above ½ tank are more likely to geyser

# **Attitude Check**

We do not always have control over every aspect of out lives.

We didn't have control over the color of our eyes,
or how tall we ended up being. We don't have control over family
members or teammates.

What we do have control over from the time we wake up to the time we bed down is our attitude.

Take control of your attitude and make it your intent to have a positive attitude through the circumstances the day brings.

Don't let a bad attitude ruin the day whether it's yours or somebody else's.

Attitudes are contagious, make yours worth catching.

Feel free to call/text HRSP if you have questions, concerns, or just want to chat.
