# 2023 SRF LIGHTNING COMPLEX INCIDENT ACTION PLAN

FRIDAY

SCAN FOR INCIDENT INFORMATION

**CA-SRF-000986**

**P5QKB4 (0510)**

**OPERATIONAL PERIOD**

**08/25/2023 – 08/26/23**

**0700 HRS - 0700 HRS**

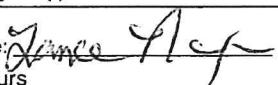

FRIDAY

<b>INCIDENT OBJECTIVES (ICS 202)</b>	1. INCIDENT NAME: SRF Lightning Complex	2. DATE: 8/24/2023	3. TIME: 1900 hrs.																				
4. OPERATIONAL PERIOD (DATE/TIME): 08/25/2023 thru 08/26/2023 0700 to 0700																							
<p>5. OBJECTIVES:</p> <p><u>Strategic Framework</u></p> <p>Confine, contain, or control all fires utilizing a full suppression strategy. Values at risk include human safety, private timberlands, communities, cultural, critical infrastructure, and associated improvements. Apply tactics that offer the highest probability of success.</p> <p><u>Leaders Intent</u></p> <p>Provide the highest level of customer service to all involved with or impacted. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:</p> <ul style="list-style-type: none"> <li>• Personal safety and the safety of others, including driving slowly and defensively.</li> <li>• Manage fatigue by taking breaks and maintaining work/rest cycles.</li> <li>• Minimize risk and limit exposure to infectious disease by implementing Center of Disease Control, California Department of Public Health, and agency guidelines.</li> <li>• Professional behavior, and timely/effective communication.</li> </ul> <p><u>Management Objectives</u></p> <ul style="list-style-type: none"> <li>• Prior to engagement, stop and discuss strategies and tactics to ensure sound risk management principles are in place to provide for firefighter and public safety.</li> <li>• Implement fire suppression activities in accordance with Incident Resource Advisors.</li> <li>• Minimize impacts to cultural, resources, infrastructure, and private property inholdings.</li> </ul> <p><u>Control Objectives</u></p> <p>Keep Fires within the Six Rivers National Forest:</p> <ul style="list-style-type: none"> <li>• Within remote National Forest areas to protect heritage, cultural, natural resources.</li> <li>• East of Hoopa, Orleans and Hwy 96 to protect the communities along the Klamath River corridor.</li> </ul> <p>Keep Fires within the Redwood National Park:</p> <ul style="list-style-type: none"> <li>• As small as possible and within park lands to protect old growth redwoods, private timber land and cultural values.</li> </ul>

## 2023 SRF Lightning Complex (Branches XX, X & V) Weather Forecast

**FORECAST NO:** 8  
**FORECAST FOR:** Fri, Aug 25th Day/Night Shift  
**FORECAST ISSUED:** Aug 24, 2023, 1900 PDT

**NAME OF FIRE:** 2023 SRF Lightning Complex  
**SIGNED:** /s/ Rebecca Muessle - IMET  
**PHONE NUMBER:** (971)394-0798

**WEATHER DISCUSSION:** More settled weather as low pressure returns to the coast. Return to diurnally driven wind. East to northeast in the morning transitioning to the west-northwest in the afternoon. Exposed ridgetops will see the gustiest conditions from both directions during the peak swing in temperatures. Marine stratus will move into the coast and elevations below 1000 ft. Stratus will be stagnant with minimal mixing. Fog likely below the inversion at 1000 ft but will lift when temperatures begin to rise.

**For Lost Fire weather, please see next page**

**FORECAST FOR TODAY:** Partly cloudy (25-35%) skies becoming clear in the late morning. Patchy fog and settled smoke in Branch X within the valleys and near the ICP. General onshore flow so temperatures will be mild and daytime humidity will be above critical levels. Inversion lifts around 1330. Lingering smoke will dampen temperatures.

**Branch XX Fires:**

**Branch V & X Fires:**

<b>Max Temperature:</b> 78-86°	<b>Max Temperature:</b> 80-89°
<b>Min RH:</b> 38-48%	<b>Min RH:</b> 32-40%
<b>20 FT Winds</b>	<b>20 FT Winds</b>
<b>Slopes/Valleys:</b> NE 2-4 mph becoming NW 4-7 mph with gusts up to 12 mph	<b>Slopes/Valleys:</b> NE 2-5 mph becoming NW 5-9 mph with gusts to 15 mph
<b>Ridges:</b> NE 4-6 mph with gusts to 12 mph becoming NW 8-11 mph with gusts up to 18 mph	<b>Ridges:</b> NE 2-5 mph becoming NNW 8-11 with gusts up to 19 mph

**OUTLOOK FOR TONIGHT:** Partly cloudy (25-35%) through the night which will cause lower temperatures. Inversion will establish after 2300 at 1000 ft which will cause smoke to settle into the valleys. Humidity recovery will be less favorable in areas that remain clear or above the inversion.

**Branch XX Fires:**

**Branch X & V Fires:**

<b>Min Temperature:</b> 55-59°	<b>Min Temperature:</b> 50-61°
<b>Max RH:</b> 68-80%	<b>Max RH:</b> 75-91%
<b>20 FT Winds</b>	<b>20 FT Winds</b>
<b>Slopes/Valleys:</b> NW 4-7 mph becoming NE less than 5 mph.	<b>Slopes/Valleys:</b> NW 2-4 mph becoming downslope
<b>Ridges:</b> NW 5-7 mph becoming NE 5-7 mph with isolated gusts up to 13 mph	<b>Ridges:</b> NW 4-6 mph with gusts up to 11 mph becoming NE 3-6 mph.

**OUTLOOK FOR SATURDAY:** Minimal changes as the pattern remains stagnant. The inversion will fill in right before sunrise which will cause smoke to sink into valleys and drainages. Onshore flow will dominate the region with diurnal winds. North-northeast in the morning becoming westerly in the afternoon. Temperatures will be seasonable with highs in the low to mid 80s, though cooler in areas that remain under smoke through the day. Low temperatures will see little change from the previous night in the low to mid 50s. Humidity will follow a similar trend as previous days.

## 2023 SRF Lost Fire Spot Weather Forecast

**FORECAST NO:** 5  
**FORECAST FOR:** Fri, Aug 25th Day/Night Shift  
**FORECAST ISSUED:** Aug 24, 2023, 1900 PDT

**NAME OF FIRE:** 2023 SRF Lightning Complex  
**SIGNED:** /s/ Rebecca Muesle - IMET  
**PHONE NUMBER:** (971)394-0798

**Discussion:** Weather will settle and return to a typical summer pattern. Onshore flow will maintain marine stratus in the morning, and cooler air will enhance the inversion layer that keeps it trapped at the surface. Northeasterly winds overnight will become northwesterly during the afternoon. Exposed ridges will see the highest gusts - especially in the southern portion of the Redwoods. Favorable overnight humidity recoveries.

For Branches XX, X, & V fire weather, please see previous page

### FORECAST FOR TODAY:

Valleys & Slopes (below 1000 ft)	Ridgetops and Above 1000 ft
<b>Max Temperature:</b> 72-79°	<b>Max Temperature:</b> 73-83°
<b>Min RH:</b> 51-58%	<b>Min RH:</b> 38-50%
<b>20 FT Winds:</b> Variable becoming upslope 5-9 mph	<b>20 FT Winds:</b> East 6-9 mph then W 9-12 mph with gusts to 18 mph

### OUTLOOK FOR TONIGHT:

Valleys & Slopes (below 1000 ft)	Ridgetops and Above 1000 ft
<b>Min Temperature:</b> 51-58°	<b>Min Temperature:</b> 50-60°
<b>Max RH:</b> 89-97%	<b>Max RH:</b> 76-88%
<b>20 FT Winds:</b> NW becoming drainage 2-5 mph	<b>20 FT Winds:</b> W 7-10 mph becoming NE 6-9 mph with gusts up to 16 mph

**OUTLOOK FOR SATURDAY:** Minimal change in the conditions as the broad low pressure system remains nearly stationary over the coast. This will be the trend for the next few days. The pattern will lead to a rinse and repeat of marine stratus moving into the lowest levels of the fire, with the inversion forming at 1000 ft. The inversion will aid in keeping the stratus in place through much of the day until after 1300 when we will see partial clearing. With trapped smoke and sky cover, temperatures will be a few degrees cooler than previous days (around 70-75 degrees) and humidity ranging from near 55% in the lower elevations, and 45% above the inversion. Overnight, humidity recoveries will be high, and temperatures will trend on the warmer side.

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 7	<b>TYPE OF FIRE:</b> Wildfire
<b>FIRE NAME:</b> SRF Lightning Complex	<b>OPERATIONAL PERIOD:</b> August 25, 2023 24hr
<b>DATE ISSUED:</b> 8/24/23	<b>TIME ISSUED:</b> 1800
<b>UNIT:</b> CA-SRF	<b>SIGNED:</b> _____
	<b>Typed/printed:</b> Dennis Burns/s/

### INPUTS

**WEATHER SUMMARY:** **\*\*\*Warm and Dry\*\*\***  
 Temps: Inland Day 78-89 Night 54-61 Redwood Day 72-83 Night 50-60  
 RH: Inland Day 32-48% Night 80-91% Redwood Day 38-58% Night 76-97%  
 Winds: Day Inland NW 4-7mph gusts to 12mph. Redwood W 9-12 gusts to 18mph.  
 Night Inland NE 4-7mph Redwood NE 6-9mph gusts to 16mph.

**FUELS SUMMARY:** Dense mixed conifer, old-growth timber, heavy dead/down, mixed ground fuels.

### OUTPUTS

#### FIRE BEHAVIOR

##### GENERAL:

Expect active fire behavior once the inversion mixes out, this includes single and group tree torching with short crown runs on aligned slopes. Primary fire spread will be active backing surface fire. Roll out will also contribute to fire spread. Rapid upslope runs are possible when fire reaches drainage bottoms and reverses slope. Spotting from torching trees will be in the range of 400 feet. With the large amount of snags, surface fire will be resistant to control. With the steep multiple intersecting drainages, active fire has a high probability of generating fire whirls.

Probability of ignition 70%

If any resources are dispatched to assist with IA expect moderate to rapid rates of spread with mainly surface fire and some torching in the denser tree stands.

##### SPECIFIC:

**Branch X:** No forward fire progression is expected fire behavior will be smoldering and creeping.

**Branch XX:** Expect active backing and flanking fire spread. Keep a heads up for fire spread or rollout that could lead to slope reversals. Fire established on an aligned slope will have rapid rates of spread and the potential for short crown runs. With the heavy dead down component, fires will be resistant to control. Expect active surface fire with single and group tree torching, with the fires located on exposed ridges, keep a heads up for spot fires from the torching trees.

**Redwood Fires:** Lost Fire: Expect backing fire with minimal flame lengths. Some single and group tree torching is probable with short range spotting. Keep a heads up for fire movement south across Lost Man Creek which will lead to a slope reversal up Holter Ridge. 100-1000hr fuels are what is carrying the fire. Devil and Glen Fires: Continued smoldering with no new forward fire movement expected.

**Night Shift:** With the RH recovery minimal forward fire progression is expected on any of the fires.

**AIR OPERATIONS:** Expect the smoke to limit air operations until the inversion mixes out, potentially as late as 1430.

### SAFETY

- Make sure Lookouts are posted in places where they can see potential spotting.
- Fire weakened timber poses a threat to personnel working in timber areas.

<b>Incident:</b> SRF Lightning Complex CA-SRF-000986	<b>Date:</b> 9-25-2023 to 9-26-2023	<b>Operational Period:</b> 0700-0700
---	--	---

# SAFETY MESSAGE

*Fire fighter safety comes first on every fire, every time*

## Major Hazards and Risks:

**Boil Water Notice:** The community of Orleans is in a Boil Water Notice. All fire personal only use drinking water from Orleans Spike Camp. Do not use and/or consume any drinking water in the Orleans Community.

**Saw Use:** Heads up for fire weakened trees, identify and flag hazard. Make sure you follow your agency policy on Fireline Power Saw Use. Have all proper PPE from hiking to and from work site, bucking and falling. Use lookouts for falling operations and keep area clear 2 ½ times the height of the tree. Know where your saw tips is at all times when cutting. **See IRPG page 20.**

**Power lines:** Remember to LOOK UP, LOOK DOWN & ALL AROUND! These are aerial hazards, as well. **Treat all powerlines as live!** Flag areas where lines are down and report this through your divisions to Safety.

### Indirect Line Construction

- Does your work area have the most exposure to indirect line hazards.
- Establish strong, positive LCES that doesn't solely rely on aircraft.
- Construct Safety Zones as needed to progress at intervals appropriate for the fuels and fire progression speeds.

Establish trigger points that give ample time to disengage and depart the area without resorting to a mad scramble. Make sure you include conversation for the long travel times on this fire.

### IWI-Incident Within an Incident

As the fire progresses the hazards and operations change. What does not change, is the constant threat of experiencing an incident within the incident. Are you ready?

- Discuss the process with your crew
- Know and brief the communication plan to request assistance.
- Teach the procedure to others in case it is **you** that needs help.
- Consider your position on the fire relative to reflex time of resources.
- Be clear about your needs when initiating an IWI.

***Train like you fight so you'll fight like you've trained!***

**Team Safety Officers: Linda Ferguson, Annamaria Echeverria, John Nickey, Doug McKelvey, Matt Lipson**

**8. MEDICAL EMERGENCY PROCEDURES**

**LINE "MEDICAL-EMERGENCY" PLAN:**

- Crew Supervisor to contact Division Supervisor/Operations with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency.
  - Priority 1/Red & 2/Yellow patients trigger Incident within Incident (IWI).
- Division Supervisor/Operation contacts Communications/Dispatch:
  - Division Supervisor or POC\* will run "Medical –Emergency" on the Command frequency.
  - Division Supervisor or POC\* to use "Medical Incident Report" worksheet on back of this page or back of IRPG.
  - Communication contacts Medical Unit Leader on the Command frequency or cell phone (916) 591-9031 (Medical Emergencies Only).

POC\* (Point of Contact) and/or Operations

**LINE "NON-EMERGENCY INCIDENT" PLAN:**

- Crew Supervisor to contact Division Supervisor with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency.
  - Priority 3/Green, (Minor) Patients do not trigger Incident within Incident (IWI).
- Division Supervisor to contact Communications/dispatch:
  - Division Supervisor or POC\* will run "Non-Emergency Incident" on the Command frequency.
  - Division Supervisor or POC\* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
  - Communications contacts Medical Unit Leader on the Command frequency or cell phone (916) 591-9031 (For medical related incidents only).

**IN-CAMP – 24 HOUR MEDICAL**

- Contact 911 and Medical Unit (916) 591-9031 with:
  - Patient Complaint, Condition and Location

9. PREPARED BY  
Scott Mohlenbrok (MEDL) 

10. REVIEWED BY  
Safety Officer 

**Medical Incident Report**

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

**Use the following items to communicate situation to communications/dispatch.**

- 1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)  
Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."
- 2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.  
Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.)  
\*This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.  <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.  <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> Ex: Sprains, strains, minor heat-related illness.
Nature of Injury or Illness & Mechanism of Injury	Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request	Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location	Descriptive Location & Lat. / Long. (WGS84)
Incident Name	Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander	Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Crew Patient Care	Name of Care Provider (Ex: EMT Smith)

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Agency Affiliation: (NO PATIENT NAMES)      Federal      Contractor      Local Government

Patient Assessment:      Age:      Weight:      Chief Complaint:

(If pertinent to Injury)      Skin Signs: (color/moisture/temp)      Level of Consciousness:      BP:      HR:      Respirations:

Treatment:

**4. TRANSPORT PLAN:**  
Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards)      Patient's ETA to Location:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**  
Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY: Considerations:** If primary options fail, what actions can be implemented in conjunction with primary evacuation method?  
Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, etc.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training  
Be Alert - Keep Calm - Think Clearly - Act Decisively  
\*\*\* Follow up with MEDL upon return to ICP \*\*\*

## TEAM 2 FINANCE MESSAGE

### 2023 LIGHTNING COMPLEX: QKB4

- NOW accepting either electronic or hard copy documentation, SEE QR CODE page in the IAP for Finance email link. (Agreements, Resource Order, Equipment Inspections, CTRs and Shift Tickets)
- PDF format is preferred for submitted documents.
- If you have not checked in with Finance, please come in and visit us.
- Early assigned resources check in to see if your paperwork is in order.
- FINANCE LOCATION- HOOPA FIRE DEPT- Finance trailer hours 0600-2130 Daily

### LOST INCIDENT: QJ5R

## FEDERAL FINANCE MESSAGE

- NOW accepting either electronic or hard copy documentation, SEE QR CODE page in the IAP for Finance email link. (Agreements, Resource Order, Equipment Inspections, CTRs and Shift Tickets)
- PDF format is preferred for submitted documents.
- If you have not checked in with Finance, please submit documents electronically via QR code.
- Early assigned resources check in to see if your paperwork is in order.
- FINANCE Representative will be at morning briefing in Orick, come see us for questions!

## CAL FIRE FINANCE MESSAGE

### CAHUU 008310 HUU LOST INCIDENT SUPPORT

- CAL FIRE Finance Section is located at Redwood Acres Fair Grounds
- **No Off-Site Feeding.** All feeding is provided by the Food Unit at the Incident Base.
- Please come by the Time Unit and start and update your FC-33
- Vendors, please drop off your agreements to the Time Unit
- Shift Tickets need to be completed by line supervisor and turned in at the end of each shift.
- All injuries and potential claims need to be reported to the COMP/CLAIMS Unit @ Matt Boone 530-789-1985
- All property damage must be reported and documented.

## Human Resource Message

### Listen More

A wise man once told me that we have 2 ears and 1 mouth for a reason – to listen twice as much as we speak; and if you notice, our ears always stay open, while our mouths have a hinge so it can be closed.

Also, note that “listen” and “silent” are spelled with the same letters. Is that just a coincidence, or is it that you need to be silent in order to be able to really listen? Check that out and think about it!

Let’s try really listening to each other more and see if we can resolve our issues and/or concerns that we may have much faster.

#### **Take Home Message:**

**Good listening allows us to demonstrate that we are paying attention to the thoughts, feelings and behaviors of the other person (seeing the world through their eyes). This is crucial to maintaining productive relationships, and sometimes the only way to establish communication**

The Human Resources Specialist is here on assignment to help you and your teams manage the operational stress keeping your crews safe, positive, and productive increasing your situational awareness.

Human Resources Specialist – Tony Torres  
505.249.2341 (call/text) or email @ [Anthony.Torres@usda.gov](mailto:Anthony.Torres@usda.gov)

## Protect our Forest from Port-Orford-cedar Root Disease

### What is it?

Port-Orford-cedar root disease is a pathogen call *Phytophthora lateralis*, a water mold related to brown algae. It spreads by producing spores that infect the roots of Port-Orford -cedar trees. In the early stages the tree foliage yellows before becoming brown. Large trees die within two to four years after infection; seedlings die within a few weeks. *In areas impacted by this disease up to*

### How does it spread?

This pathogen is spread by spores that are carried in wet soils and in water from infected areas to unaffected stands of Port-Orford-cedar (POC). Spores can be carried on the vehicle tires and under-carriage, boots, pump hoses and other equipment.

### Where is it found?

Currently, infected stands occur in areas of Southern Oregon and Northern California including the Smith River District and the Orleans district in the Bluff Creek drainage. BUT, not all stands are infected!

### Prevention:

1. Wash vehicles and equipment in weed wash the includes a bleach solution, before entering areas with un-infected POC areas.
2. Where possible, avoid driving through areas with wet soils where diseased POC trees are present. Wash vehicles and equipment in weed wash after leaving infected areas.
3. Avoid drafting in areas within or below streams with infected POC.
4. Clean off boots and tools after working in infected stands of POC.

Please talk to a resource advisor is you need additional information.

**Thank you!**

# RECYCLING IS HERE!

## On the SRF Lightning Complex

PAPER AND CARDBOARD

PLASTIC BOTTLES, GLASS  
BOTTLES AND ALUMINUM  
CANS

NON-PERISHABLE FOOD  
DONATIONS (Chips,  
Snacks, etc.)

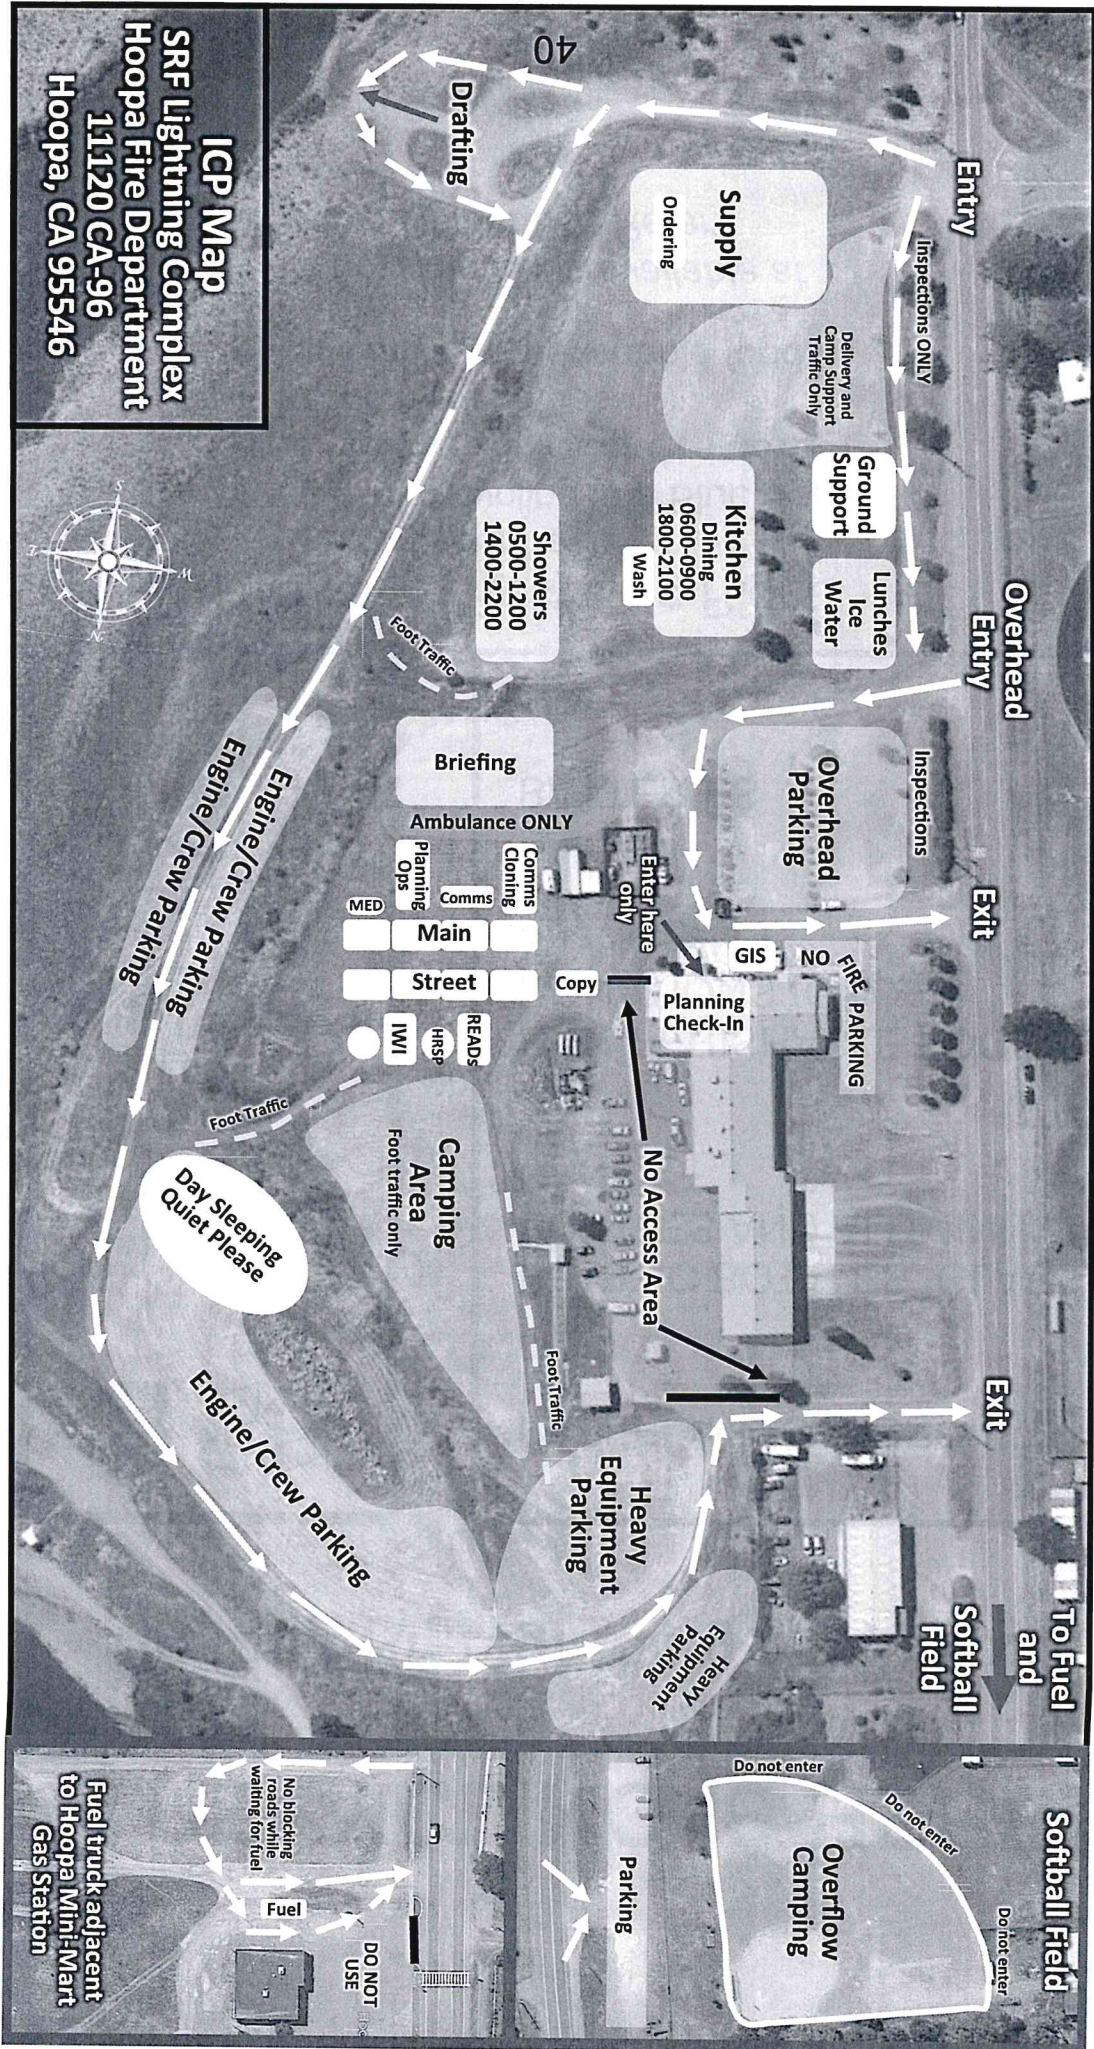

BATTERIES

Thanks for Recycling Right:

- Sort your trash
- Put recycling in a Blue Bag
- Empty liquids and remove caps from bottles
- Only non-perishable foods
