# 2023 SRF LIGHTNING COMPLEX INCIDENT ACTION PLAN

SCAN FOR INCIDENT INFORMATION

SCAN FOR INCIDENT INFORMATION

# SRF LIGHTNING COMPLEX CA-SRF-00986 P5QKB4 (0510)

REDWOOD LIGHTNING COMPLEX
QJ5R (1522)

OPERATIONAL PERIOD 08/29/2023 - 08/30/23

0700 HRS - 0700 HRS

# **INCIDENT OBJECTIVES (ICS 202)**

1. INCIDENT NAME: SRF Lightning Complex 2. DATE: 8/28/2023

3. TIME: 1900 hrs.

4. OPERATIONAL PERIOD (DATE/TIME):

08/29/2023 thru 08/30/2023 0700 to 0700

5. OBJECTIVES:

#### Strategic Framework

Confine, contain, or control all fires utilizing a full suppression strategy. Values at risk include human safety, private timberlands, communities, cultural, critical infrastructure, and associated improvements. Apply tactics that offer the highest probability of success.

#### Leaders Intent

Provide the highest level of customer service to all involved with or impacted. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by implementing Center of Disease Control, California Department of Public Health, and agency guidelines.
- Professional behavior, and timely/effective communication.

### **Management Objectives**

- Prior to engagement, stop and discuss strategies and tactics to ensure sound risk management principles are in place to provide for firefighter and public safety.
- Implement fire suppression activities in accordance with Incident Resource Advisors.
- Minimize impacts to cultural, resources, infrastructure, and private property inholdings.

#### **Control Objectives**

Keep Fires within the Six Rivers National Forest:

- Within remote National Forest areas to protect heritage, cultural, natural resources.
- Away from private lands, Hoopa, Orleans, and Hwy 96 to protect the communities along the Klamath River corridor and private lands

Keep Fires within the Redwood National Park:

<ul> <li>A</li> </ul>	s small a	s possib	le and	within	park	land:	s to	protect	old	growth	redwoods	, private	timber	land	l and	cultura	ıl val	lues.

# 2023 SRF Lightning Complex (Branches XX, X & V) Weather Forecast

FORECAST NO: 12

FORECAST FOR: Tue, Aug 29th Day/Night Shift FORECAST ISSUED: Aug 28, 2023, 1900 PDT

NAME OF FIRE: 2023 SRF Lightning Complex

SIGNED: /s/ Ryan Walbrun - IMET

**WEATHER DISCUSSION:** Smoke and low clouds in the river valleys to start the day with only a slow clearing of any smoke, especially for the Mosquito and Pearch fires. Smoke and onshore winds will keep temperatures and humidity mild which will keep the overall fire environment moderate for today's operational period. A weather system passing to our north will allow the ridgetop winds to switch to a more north/northeast direction overnight into Wednesday morning. However, these winds will remain relatively light and confined to the highest ridges and if anything bring more smoke from the Happy Camp Complex towards the fires in and around Orleans.

For Lost Fire weather, please see next page

**FORECAST FOR TODAY:** Morning clouds and smoke with hazy skies during the afternoon. Stronger onshore flow with more widespread northwest winds. The inversion will begin to lift around 1400-1500.

Branch XX Fires: Branch V & X Fires:

Max Temperature: 74-81° (Trend of 2-4 cooler)	Max Temperature: 78-85° (Trend of 2-4 cooler)
Min RH: 35-48% (Slightly higher humidity trend)	Min RH: 30-40% (Trend of 5% wetter)
20 FT Winds	20 FT Winds
Slopes/Valleys: N 3-5 mph becoming NW 4-7 mph with gusts up to 12 mph	Slopes/Valleys: N 2-5 mph becoming NW 4-8 mph with gusts to 12 mph
Ridges: W 4-6 mph becoming NW 7-12 mph with gusts up to 15-18 mph	Ridges: W 3-6 mph becoming NW 6-10 with gusts up to 15-18 mph

<u>OUTLOOK FOR TONIGHT:</u> Smoky skies with clouds decreasing overnight. Winds turning Northeast ridges with good humidity recovery.

**Branch XX Fires:** 

#### Branch X & V Fires:

Min Temperature: 54-62°	Min Temperature: 55-60°
Max RH: 75-95%	Max RH: 80-95%
20 FT Winds	20 FT Winds
Slopes/Valleys: NW 4-7 mph becoming NE 3-7 mph	Slopes/Valleys: NW 2-4 mph becoming downslope
Ridges: NW becoming NE 4-8 mph gusts 12 mph	Ridges: NW 4-6 mph with gusts up to 12 mph becoming NE 4-8 mph gusts 12-15 mph.

<u>OUTLOOK FOR WEDNESDAY:</u> A noted change in the weather for Wednesday behind the frontal passage. Temperatures will be warmer, back into the mid 80s to mid 90s with humidity values lowering 20-30%. The biggest change will be drying northerly winds that will be strongest above the ridgelines but tend to allow the smoke columns to clear and the fire to breath. The biggest wildcard will be the smoke impacts from upstream fires over the Happy Camp Complex and if they will shade the SRF Lightning fires or not.

Extended Forecast: Slight cooling trend starts Thursday ahead of the next incoming weather system that will bring a chance (40%) of showers to the region by Friday. Rain amounts of 0.10-0.20 are possible with the biggest impact being cooler temperatures and higher humidity for a season slowing event as we head into Labor Day weekend.

# 2023 SRF Lost Fire Spot Weather Forecast

FORECAST NO: 9

NAME OF FIRE: 2023 SRF Lightning Complex FORECAST FOR: Tue, Aug 29th Day/Night Shift

SIGNED: /s/ Ryan Walbrun - IMET

FORECAST ISSUED: Aug 28 2023, 1900 PDT

<u>Discussion:</u> Incoming weather system on Tuesday will keep Northwest winds in place that will increase this afternoon with ridgetop gusts 20 mph. For the Lost Fire the onshore winds will keep humidity values high with temperatures remaining fairly mild. The winds will help to break the marine inversion and clearing skies may allow for better ventilation of the fires and any remaining heat this afternoon. Winds will ease and turn light northerly tonight before North/Northwest winds increase again Wednesday afternoon but with humidity remaing high.

For Branches XX, X, & V fire weather, please see previous page

#### **FORECAST FOR TODAY:**

Valleys & Slopes (below 1000 ft) Ridgetops and Above 1000 ft

Max Temperature: 73-84°

Min RH: 70-80%

Min RH: 37-49%

20 FT Winds: Northwest 4-8 mph gusts 12-15 mph

20 FT Winds: NW 6-10 mph increasing during the afternoon with gusts 20-22 mph.

#### **OUTLOOK FOR TONIGHT:**

Valleys & Slopes (below 1000 ft) Ridgetops and Above 1000 ft

Min Temperature: 50-58°	Min Temperature: 49-57°
Max RH: 90-99%	Max RH: 80-90%
20 FT Winds: NW becoming drainage 2-5 mph	20 FT Winds: NW 7-10 mph gusts 12-15 mph becoming N 4-8 mph overnight.

<u>OUTLOOK FOR WEDNESDAY:</u> More sunshine expected on Wednesday in a post-frontal environment that should give a good test of containment lines with continued onshore/northwest winds that will gust 20-25 mph along the ridges Wednesday afternoon. The onshore winds will keep humidity values relatively high but still an overall drying trend expected Wednesday afternoon with values lowering to around 60% lower elevations and 30% ridges.

Extended Forecast: Slight cooling trend starts Thursday ahead of the next incoming weather system that will bring a chance (20-30%) of showers to the region by Friday. Rain amounts of 0.05-0.15 are possible with the biggest impact being cooler temperatures and higher humidity for a season slowing event as we head into Labor Day weekend. Winds will remain onshore Thursday and Friday. The upper trough starts to move eastward by the second half of the weekend with temperatures remaining near to below normal. Less marine clouds due to the unstable upper low over the region.

## FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 11	TYPE OF FIRE: Wildfire
FIRE NAME: SRF Lightning Complex	OPERATIONAL PERIOD: August 29, 2023 24hr
DATE ISSUED: 8/28/23	TIME ISSUED: 1800
UNIT: CA-SRF	SIGNED:
*	Typed/printed: Dennis Burns/s/

#### **INPUTS**

#### **WEATHER SUMMARY:**

\*\*\*Slightly Cooler Slightly Higher RH\*\*\*

Temps: Inland Day 74-81 Night 55-60 Redwood Day 75-84 Night 50-60 RH: Inland Day 30-40% Night 75-95% Redwood Day 38-58% Night 80-99%

Winds: Day Inland NW 7-12mph gusts to 18mph. Redwood W 10-12 gusts to 19mph. Night Inland NE 4-8mph, gusts 12mph Redwood NE 8-10mph gusts to 17mph.

FUELS SUMMARY: Dense mixed conifer, old-growth timber, heavy dead/down, mixed ground fuels.

#### **OUTPUTS**

#### FIRE BEHAVIOR

#### **GENERAL:**

Minor changes in the forecast until tomorrow night when the winds begin to ramp up. Fire activity will depend on what time the smoke and marine inversions mix out and the smoke has the potential to not mix out well. If the smoke inversion does mix out, expect to see moderate fire behavior to include single and group tree torching with short crown runs on aligned slopes. Primary fire spread will be active backing surface fire. Roll out will also contribute to fire spread. Rapid upslope runs are possible when fire reaches drainage bottoms and reverses slope. Spotting from torching trees will be in the range of 400 feet. With the large amount of snags, surface fire will be resistant to control. With the steep multiple intersecting drainages, active fire has a high probability of generating fire whirls.

Probability of ignition 30-60%

If any resources are dispatched to assist with IA expect slow to moderate rates of spread with mainly surface fire and some torching in the denser tree stands.

#### SPECIFIC:

Branch V: No forward fire progression is expected fire behavior will be smoldering and creeping.

**Branch X:** Expect active backing and flanking fire spread. Keep a heads up for fire spread or rollout that could lead to slope reversals. Fire established on an aligned slope will have rapid rates of spread and the potential for short crown runs. With the heavy dead down component, fires will be resistant to control. Very little moisture made it through areas with dense canopy cover as a result there are potentially opportunities to initiate firing operations.

**Branch XX:** Expect active surface fire with single and group tree torching. With the fires located on exposed ridges, keep a heads up for spot fires from the torching trees. The new start at the N/M break is ¼ acre being held by a road minimal spread expected.

**Redwood Fires:** Lost Fire: Expect mainly backing fire with smoldering and creeping. Minimal to no forward fire progression is expected. Bridge: Minimal to no forward fire progression is expected, rollout will continue to challenge containment lines. As the wind increases, fire weakened trees will start coming down.

**Night Shift:** With the RH recovery, minimal forward fire progression is expected on any of the fires. As the wind increases expect, fire weakened trees to come down, check your work/parking areas before dark.

AIR OPERATIONS: Expect the smoke to limit air operations until the inversion mixes out, potentially as late as 1530.

#### SAFETY

- Make sure Lookouts are posted in places where they can see potential spotting.
- Fire weakened timber poses a threat to personnel working in timber areas.

# SAFETY MESSAGE

Fire fighter safety comes first on every fire, every time

INCIDENT: SRF Lightning Complex

Date: 8/29/23 thru 8/30/23

Operational Period: 0700-0700

# **Personal Hygiene**

The most important thing that you can do to keep from getting sick is to wash your hands.

By frequently washing your hands you wash away germs that you have picked up from other people, or from contaminated surfaces, or from animals and animal waste.

What happens if you do not wash your hands frequently? You pick up germs from other sources and then you infect yourself when you:

- Touch your eyes
- Or your nose
- Or your mouth

One of the most common ways people catch colds is by rubbing their nose or their eyes after their hands have been contaminated with the cold virus. You can also spread germs directly to others or onto surfaces that other people touch. And before you know it, everybody around you is getting sick.

Maintain Your Health: long hours – cumulative fatigue. Practice good hygiene – it is very important to eat right, drink enough liquids, get good rest, and wash your hands frequently.

# We need you for the long haul!

We still have a high potential for an injury to incident personnel. Let's work together to identify the hazards specific to our assigned areas of work. Assess our vulnerabilities and reduce and mitigate our risk through preplanning and management of human and environmental factors. Look up, look down, look around!

# Keep up the excellent work!!

**TEAM SAFETY OFFICERS:** 

Linda Ferguson, John Nickey, Annamaria Echeverria, Doug McKelvey, Matt Lipson

6. Work Assignments:									

Utilize indirect firing strategies to secure control lines from the J/Z break through DP14 and along the control line to the north to DP11 to reduce fire intensity on impact.

#### 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk. Utilize drafting as primary water source.

Jason Nez (ARCH), Sarah Brey (READ(t) working across DIV J and DIV Z.

6. Work Assignments:								
For missions of these property of the control of								

Utilize indirect firing strategies to secure control lines from the J/Z break through DP14 and along the control line to the north to DP11 to reduce fire intensity on impact.

# IHC PLUMAS MIKE SHERMAN 9/11 20 C-49

#### 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk. Utilize drafting as primary water source.

Jason Nez (ARCH), Sarah Brey (READ(t) working across DIV J and DIV Z.

6. Work Assignments:			I at start						
Prepare the 12N12 road north from	the fire	's edg	e to DP21 for indirect firing	g strategies to	o secure the i	ndirect control	line.		
0 " '01'' '0 " ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' '	22								

Secure the 12N12 road to limit eastern fire progression.

Secure control lines and the Cedar Camp Road to limit southern fire progression.

Construct indirect control lines from Cedar Camp Rd to the west to Bluff Creek to limit southern fire progression.

# 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk. Utilize drafting as primary water source.

Heather Rickard (CULS), Jessica Conrad (CULS), Roy Ammon (CULS) Kevin Colegrove (REAF), Kevin Lane (REAF), Eric Blake (READ), Tim Breen (READ), Roy Sutcliff (READ(t) and Caw Tep Silvia (REAF) are working across Branch XX

6. Work Assignments:							

Prepare the 12N12 road north from the fire's edge to DP21 for indirect firing strategies to secure the indirect control line.

Secure the 12N12 road to limit eastern fire progression.

Secure control lines and the Cedar Camp Road to limit southern fire progression.

Construct indirect control lines from Cedar Camp Rd to the west to Bluff Creek to limit southern fire progression.

#### 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk. Utilize drafting as primary water source. 6. Work Assignments:		-			

Secure and mop up from Holter Ridge Road to Lost Man Creek to limit northern fire progression.

Scout for direct and indirect control line opportunities in Lost Man Creek to limit the fire progression to the west.

#### 7. Special Instructions:

Keep the fire footprint as small as possible to reduce impacts to private lands and Old Growth Forest within the park.

Use Redwood tree specialist Holbrook to minimize the impact of fire to any old growth Redwood trees on the division.

Coordinate with cooperating agencies to ensure control lines established meet incident needs.

LREAD Gabe Goff, ARCH David Neiss, Alex Leigh will be working across Branch XL

REMS Cosumnes, EMPF Schecter and Hoese covering Divisions AA and ZZ

8. MEDICAL EMERGENCY PROCEDURES

# **LINE "MEDICAL-EMERGENCY" PLAN:**

- Crew Supervisor to contact Division Supervisor/Operations with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency.
  - Priority 1/Red & 2/Yellow patients trigger Incident within Incident (IWI).
- Division Supervisor/Operation contacts Communications/Dispatch:
  - Division Supervisor or POC\* will run "Medical –Emergency" on the Command frequency.
  - Division Supervisor or POC\* to use "Medical Incident Report" worksheet on back of this page or back of IRPG.
  - Communication contacts Medical Unit Leader on the Command frequency or cell phone (916) 591-9031 (Medical Emergencies Only).

POC\* (Point of Contact) and/or Operations

# **LINE "NON-EMERGENCY INCIDENT" PLAN:**

- Crew Supervisor to contact Division Supervisor with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency.
  - Priority 3/Green, (Minor) Patients do not trigger Incident within Incident (IWI).
- Division Supervisor to contact Communications/dispatch:
  - Division Supervisor or POC\* will run "Non-Emergency Incident" on the Command frequency.
  - Division Supervisor or POC\* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
  - Communications contacts Medical Unit Leader on the Command frequency or cell phone (916) 591-9031 (For medical related incidents only).

#### IN-CAMP – 24 HOUR MEDICAL

- Contact 911 and Medical Unit (916) 591-9031 with:
  - · Patient Complaint, Condition and Location

ICS 206

#### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

#### Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.
Requesting air ambulance to Forest Road 1 at (Lat/Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

	THIS WIN DO INC THOS	it incadon incacai incideii	i, io is it ED Jones. Ein i Silikii	is providing medical care.

# HUMAN RESOURCE MESSAGE

#### **Three Simple Rules in Life**

- 1) If you do not GO after what you want, you will never have it.
  - 2) If you don't ASK, the answer will always be NO.
- 3) If you do not step forward, You'll ALWAYS be in the same place.

Tony Torres – HRSP 505-249-2341 or Anthony.torres@usda.gov

- Federal Finance documents collected at Hoopa, Orleans, and Orick
- See Finance QR Code for email to submit documents (Agreements, Resource Order, Equipment Inspections, CTRs and Shift Tickets)
- PDF format is preferred for submitted documents.
- Note Comp/Claims QR Code for appropriate forms;
   also can call Cassie @ 805-450-4513
- Early assigned resources visit a Finance representative to see if your paperwork is in order.
- PRIMARY FINANCE LOCATION- HOOPA FIRE DEPT- Finance trailer hours 0600-2130 Daily
- Demob from SRF Lightning Complex occurring at Hoopa location

**CONTACT FINANCE @ 925-532-5440** 

# CAL FIRE FINANCE MESSAGE

- CAL FIRE Finance Section is located at Redwood Acres Fair Grounds
- Please come by the Time Unit and start and update your FC-33
- Vendors, please drop off your agreements to the Time Unit

# CAL OES AREP

(916) 634-8498

#### TRAINING SPECIALIST MESSAGE

#### To assure proper documentation for your assignment:

- 1. Scan the QR Code on the IAP cover.
- 2. Complete the Trainee Registration Form.

#### At the end of your assignment:

**Trainee:** Complete the exit interview form. Use the exit interview QR code to access the document.

**Trainer:** Fill in the Position Task Book as completely as possible for this incident.

Trainer: Complete the ICS 225 performance evaluation and discuss with your Trainee.

Make sure it's signed by both the Trainer and Trainee.

Take a picture/copy of the ICS 225 and send it to imt2training@gmail.com

The Training Specialist will send the training documents to the email address you provided. For training related questions, call/text Dominic Panno (TNSP) at 530-913-8251 or email-imt2training@gmail.com

# Thanks for Recycling Right:

- ✓ Sort your trash
- ✓ Put recycling in a Blue Bag
- Empty liquids and remove caps from bottles
- Only non-perishable foods

Blue Recycling Bags available at Recycling Center and Refer.

# **Public Information**

GET YOUR PHOTOS TO US!
EMAIL TO: 2023.LIGHTNINGCOMPLEX@FIRENET.GOV

IF you have photos or video from this fire PLEASE come by the PIO Trailer to share or send to the email address above and we can post them to Inciweb and the Forest Facebook page.

#### **REMEMBER:**

- Be safe when taking pictures
- Make sure Firefighters are wearing all PPE
- Give us the time and date, location, crew or person shown, etc.
- Don't take photos of accidents, injuries, near misses, etc.

#### THINK BEFORE YOU POST

- Does this photo show your agency in a positive way?
- DO NOT post pictures of any accident, injuries, or victims

WE HAVE: LOST & FOUND

PACKAGE PICK-UP (MUST HAVE YOUR E/O NUMBER ON

THE LABEL)

Six Rivers Lightning Fire Camp

11121 Hwy. 96 Hoopa, CA. 95546

FIRE PUBLIC INFORMATION LINE: (531) 530-0767

#### **RESOURCE ADVISOR MESSAGE**

Our goal is to support the mission of containing this wildfire wile minimizing resource damage to the extent practical.

- The area where the fire is burning is culturally and naturally significant. Fostering good working relationships and minimalizing impact to cultural sites will result from working closely, communicating early and often with specialists from the Karuk Tribe and Local archaeologists.
- Please coordinate with REAF's and Heritage Consultants prior to initiating line construction and limit falling ops as snags and other vegetation can have cultural significance.
- Yellow/White stripped flagging is utilized for identifying resource concerns.
- Please be mindful of diminishing water levels at drafting sites. Utilize fish screens and the appropriate decon procedures for drafting.
- Clean Fire Equip. prior to arriving and leaving the incident, weed wash is located at ICP.
- See information regarding Port-Orford-Cedar Root Disease on information boards.

# DEMOB INSTRUCTIONS

Make sure your supervisor is aware of your demob date.

If you are driving, come see DEMOB on your last work day.

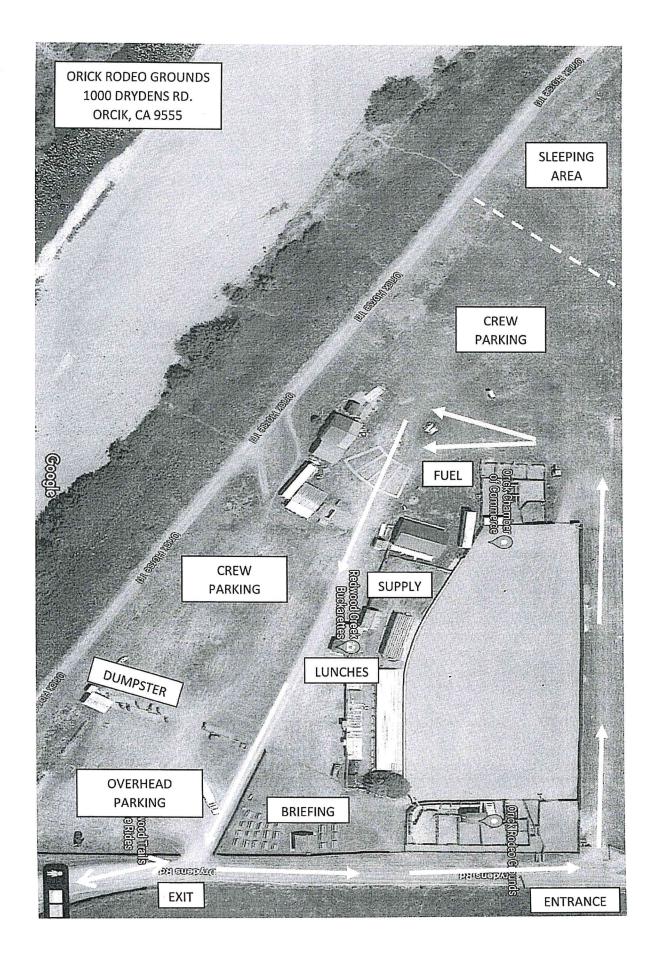

If you are flying, come see DEMOB three days before your last work day

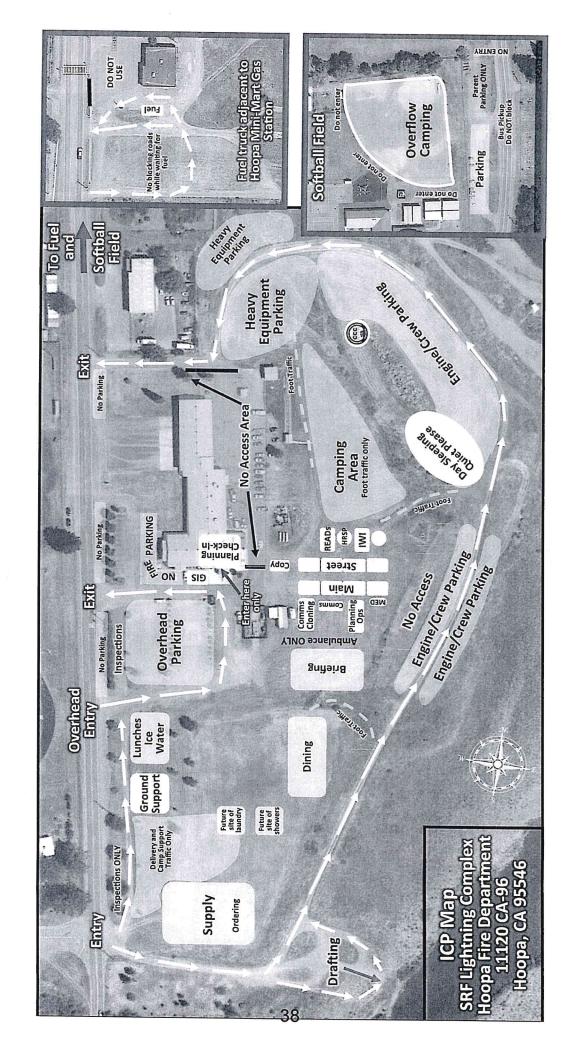

Questions?

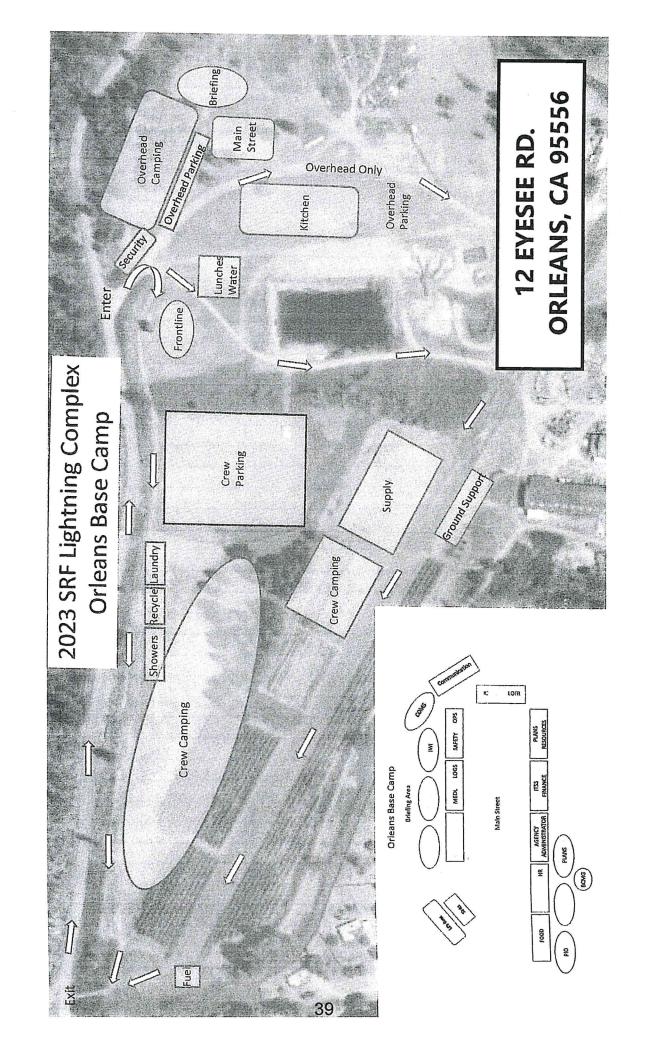

Phone: 925-783-7744
