

# **SRF LIGHTNING COMPLEX**

CA-SRF-000986 - P5 QKB4 (0510)

# REDWOOD LIGHTNING COMPLEX

PP QJ5R (1522)

# FRIDAY, SEPTEMBER 8, 2023

Day Operational Period 0700 – 2100 Night Operational Period 1800 – 0800

# **Rocky Mountain CIMT1**

Dan Dallas, IC Mark Giacoletto, Deputy IC Justin Conrad, ICCI(t)

PUBLIC FIRE INFORMATION: 530.536.0767
BRIEFING LINK: <a href="https://srflightningcomplex2023.com">https://srflightningcomplex2023.com</a>

### **INCIDENT OBJECTIVES (ICS 202)**

1. Incident Name:	2. Operational Period:	
SRF LIGHTNING COMPLEX	Date/Time From:	Date/Time To:
	09/08/2023 0700 FRI	09/09/2023 0700 SAT

#### 3. Objective(s):

### STRATEGIC FRAMEWORK

Confine, contain, or control all fires utilizing a full suppression strategy. Values at risk include human safety, private timberlands, communities, cultural, critical infrastructure, and associated improvements. Apply tactics that offer the highest probability of success.

#### LEADERS INTENT

Provide the highest level of customer service to all involved with or impacted. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by implementing Center of Disease Control, California Department of Public Health, and agency guidelines.
- Professional behavior, and timely/effective communication.

### MANAGEMENT OBJECTIVES

- Prior to engagement, stop and discuss strategies and tactics to ensure sound risk management principles are in place to provide for firefighter and public safety.
- Implement fire suppression activities in accordance with Incident Resource Advisors.
- Minimize impacts to communities, cultural resources, natural resources including old growth redwoods, critical power, communication and other infrastructure, private property inholdings, Tribal Lands, Timber Lands, TESC Species, and watersheds.

#### CONTROL OBJECTIVES

Keep Fires within the Six Rivers National Forest:

- · Within remote National Forest areas to protect heritage, cultural, natural resources.
- Away from private lands, Hoopa, Orleans, and Hwy 96 to protect the communities along the Klamath River corridor and private lands.

Keep Fires within the Redwood National Park:

As small as possible and within park lands to protect old growth redwoods, private timber land and cultural values.

#### 4. Operational Period Command Emphasis:

- 1. Manage risk to firefighters by ensuring hazards are identified, assessed, and where possible mitigated . Be prepared to accept residual risk when values threatened warrant it and the probability of achieving objectives is high.
- 2. Utilize strategies and tactics that commit responders only to operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary.
- 3. Contain and control portions of the fire that are a threat to identified values to be protected.
- 4. Mop-up to the extent necessary to prevent escape of the fire and additional spread or damage to other values within the perimeter.
- Implement practices that reduce the potential for spread of infectious disease, such as distributed operations, adhering to CDC guidelines and other actions that improve the health environment for firefighters and support personnel.

### General Situational Awareness:

- 1. Complete a good size up of your work area to mitigate hazards. 2. Be prepared for changing weather conditions.
- 3. Minimize firefighter exposure to falling tree hazards.
- 4. Know who you are working for.

### 2023 SRF Lightning Complex (Branches XX, X & V) Weather Forecast

FORECAST NO: 22

FORECAST FOR: Fri, Sep 8th Day/Night Shift FORECAST ISSUED: Sep 7th 2023, 2000 PDT

NAME OF FIRE: 2023 SRF Lightning Complex

SIGNED: /s/ Ryan Walbrun - IMET

<u>WEATHER DISCUSSION:</u> Another warm and dry day with little overall change in the weather pattern compared to the last few days. Skies should be mostly sunny with solar radiation continuing to dry the fuels, especially southerly aspects in brushy fuels. High temperatures will range from 90 in the river bottoms to lower 70s in smoke shaded areas around the Blue Creek #2 fire. Winds in the valleys and lower slopes will be diurnally driven with southwest canyon winds along the Pearch Fire and Highway 96. General wind flow for the Blue Creek #2 and Copper Fires will continue to be from the Southwest which will push smoke to the northeast towards the Happy Camp Complex. Humidity values will lower to around 25% during peak afternoon heating, especially southerly exposed aspects in brushy fuel types. Humidity values only lowering to around 40% under thicker canopy in north shading aspects or creek bottoms. Good humidity recovery lower slopes tonight with 40-60% upper ridges of Branch XX.

### For Lost Fire and Branch XL weather, please see next page

**FORECAST FOR TODAY:** Some patchy morning clouds/fog otherwise mostly sunny. Light winds and low humidity.

Branch XX Fires: Forecast Elevation 4000 feet. Branch V & X Fires:

Branch 76X Fires. Forecast Elevation 4000 feet.	Dianeir V & X Files:
Max Temperature: 69-77° coolest shaded North aspect	Max Temperature: 82-89°
Min RH: 32-42% driest southerly exposed aspects	Min RH: 23-32%
20 FT Winds	20 FT Winds
Slopes/Valleys: Light then becoming SW 2-5 with gusts 7-10 mph in the afternoon.	Slopes/Valleys: N 2-4 mph, becoming Southwest 3-6 mph with gusts to 12-15 mph afternoon hours.
Ridges: Light SW, becoming SW 4-8 with gusts 15-20 mph in the afternoon	<b>Ridges:</b> Light SW, becoming WSW 4-8 with gusts 12-15 mph in the afternoon.

**OUTLOOK FOR TONIGHT:** Skies becoming mostly clear except areas of patchy fog lower slopes and valleys.

Branch XX Fires: Branch X & V Fires:

	=14.101171 4 1 1 11001		
Min Temperature: 55-60°	Min Temperature: 50-55°		
Max RH: 45-55% earlydrying 35-45% overnight	Max RH: Full recovery valleys. 40-50% above 3000 ft		
20 FT Winds	20 FT Winds		
Slopes/Valleys: Downslope winds 2-4 mph	Slopes/Valleys: WSW 2-4 mph becoming downslope		
Ridges: W 4-8 mph becoming NE overnight	Ridges: NW 3-6 mph becoming NE overnight		

**Extended Forecast:** Seasonally warm pattern continues into the weekend. Daytime highs mid 70s ridges to around 90 valley bottoms. Afternoon humidity values 25-35% with full nighttime recovery in the valleys and moderate recovery 40-60% mid and upper slopes. Winds will be light and terrain driven with general winds light and from the Southwest, strongest afternoon and early evening hours. Long range trends suggest dry weather continues at least through the middle of the month and beyond.

Safety Message: Operation Hydration! Drink water now so you can keep working and stay healthy!

### 2023 SRF Lost Fire Spot Weather Forecast

FORECAST NO: 19 NAME OF FIRE: 2023 SRF Lightning Complex

FORECAST FOR: Fri, Sep 8th Day/Night Shift SIGNED: /s/ Ryan Walbrun – IMET

FORECAST ISSUED: Sep 7th 2023, 1900 PDT

<u>Discussion:</u> Day to day changes remain subtle and minor for the Lost Fire and Branch XL. Marine clouds along the coast this morning are forecast to mix out by mid morning. Daytime highs will reach the lower 70s for the Lost Fire for a few hours in the afternoon with 60s areas of shaded canopy. Winds remain westerly and light over the Lost fire with only light slope driven winds underneath the canopy. Humidity values will drop to around 60% this afternoon. Onshore winds will bring full humidity recovery tonight with overnight lows around 50.

### For Branches XX, X, & V fire weather, please see previous page

**FORECAST FOR TODAY:** Some morning clouds otherwise partly sunny. Light northwest winds.

Vallevs & Slopes (below 1000 ft) Ridgetops and Above 1000 ft

	thagotopo and Aboto Tood It
Max Temperature: 64-67°	Max Temperature: 66-71°
Min RH: 58-68%	Min RH: 55-65%
<b>20 FT Winds:</b> Drainage winds 1-4 mph, becoming NW 3-6 mph afternoon gusts 10 mph	<b>20 FT Winds:</b> WNW 4-8 mph afternoon gusts 12 mph along Holter Ridge.

**OUTLOOK FOR TONIGHT:** Becoming mostly cloudy with areas of fog. Full humidity recovery with light winds.

Valleys & Slopes (below 1000 ft) Ridgetops and Above 1000 ft

	thagotopo ana Aboto 1000 it
Min Temperature: 50-55°	Min Temperature: 52-57°
Max RH: 85-95%	Max RH: 78-88%
20 FT Winds: NW winds becoming drainage 2-4 mph	20 FT Winds: NW 4-7 mph becoming NE overnight.

**Extended Forecast:** No big day over day changes are forecast this weekend. Daytime highs generally in the 60 and lower 70s with overnight lows in the 50s. Morning clouds giving way to partial afternoon sunshine. No precipitation forecast other than localized fog or drizzle late night and early morning hours. Long range trends show a dry pattern through mid month and beyond.

<u>Safety Message:</u> Marine clouds may linger over the helibase for much of the day. Don't count on Air Operations when doing risk assessment.

See attached fire weather forecast

FUELS: Primary fuels are conifer with litter and brush understory. The area has multiple burn scars adjacent to the fires with light fuels. Fire scars over 5-8 years old have a higher fuel load. Fire scars beyond 8-10 years old generally have a significant dead and down component with higher and more continuous brush that will support substantially higher rates of spread and intensity under dry conditions.

### Outputs

### General:

Clear skies and open canopies will be a key factor in potential fire spread over the next few days as the other weather conditions are fairly consistent. The continued warmer and dryer air will continue the drying process and aspect and slope will also effect fire spread. Overall, live fuel moisture in the timber and brush is about average or above for this time of year, resulting in slower fire spread compared to past years. In general fire danger indices remain below average for this time of year will be slow to rebound to previous conditions before the rain even over last weekend.

### FIRE BEHAVIOR:

**Branch** X—Conditions will be conducive to limited fire spread today but are not a lot of heat sources near the fire perimeter as a result of the precipitation that has occurred over the last couple of weeks. Uphill spread is possible due to rollout under these conditions. Wind and dry slopes will be in alignment today.

**Branch V-** Minimal or no fire spread anticipated with limited heat sources near the fire perimeter.

**Branch XX**—Fire spread is possible again today but north facing slopes still maintain enough moisture to check up fire spread in that directions. In general, South facing slopes will be dry this afternoon and can support fire spread. Winds will be in alignment with dryer slopes today and as a result wind direction and small changes in aspect and wind direction will be a key factor in fire spread.

**Branch XL** /Lost fir--The continued good overnight recovery and high humidity during the day will keep fire behavior at a minimum for today.

### 6. Control Operations/Work Assignments:

**TASK**: Patrol and mop up areas that threaten values at risk. Continue chipping operation from DP14 along 10N13 road. Prepare for possible strategic firing operations from Pearch Creek to DP11.

**PURPOSE:** Protect values at risk. Strategic firing plan in place when conditions warrant implementation.

END STATE: Fire does not pose a threat to any critical values within or adjacent to division.

### 7. Special Instructions:

Coordinate with READS to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk.

Utilize drafting as primary water source.

### 6. Control Operations/Work Assignments:

TASK: Initiate fire suppression repair between DP15 to the J/Z division break. Patrol fireline from DP15 to J/Z division break. PURPOSE: Rehab dozer and fireline where identified. Keep fire within current perimeter.

END STATE: Dozer and fireline is repaired per fire suppression repair standards. Flames and smoke are not a threat to escape

fireline.

### 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk.

Utilize drafting as primary water source.

### 6. Control Operations/Work Assignments:

TASK: Locate, assess, and prep structures within the Division.

**PURPOSE:** Identify mitigation needs to protect structures.

END STATE: Structures are defensible.

### 7. Special Instructions:

Identify resources to respond to new starts within the complex footprint.

Do not use community hydrants unless there is fire impact to values at risk.

Utilize drafting as primary water source.

FOBS: Brian Crabb and Phil Tahmindjis

#### 6. Control Operations/Work Assignments:

TASK: Construct indirect fireline for best success.

PURPOSE: Control/contain fire with strategic firing operations.

END STATE: Fireline in correct location with right dimensions to contain fire.

### 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not use community hydrants unless there is fire impact to values at risk.

Utilize drafting as primary water source.

DODGE / PARVIN / TALLMADGE / FORGENSI

Roy Ammon (CULS), Kevin Colegrove (REAF), Kevin Lane (REAF), Eric Blake (READ), and Caw Tep Silvia (REAF) are working across Branch XX.

### 6. Control Operations/Work Assignments:

DIVISION/GROUP SUPERVISOR BRETT MOREFIELD (9/14)

TASK: Construct indirect fire line north along the 13N01 road to DP40 to limit western and northern fire progression.

**PURPOSE:** Mop up fire line 13N01 road to keep fire from western progression.

END STATE: Construct and prep direct and indirect line from BP41 east to Bluff Creek.

### 7. Special Instructions:

Coordinate with READs to validate control line locations prior to implementation.

Do not Use community hydrants unless there is fire impact to values at risk.

Utilize drafting as primary water source.

Roy Ammon (CULS), Kevin Colegrove (REAF), Kevin Lane (REAF), Eric Blake (READ), and Caw Tep Silvia (REAF) are working across Branch XX.

### CHECK-IN AND DEMOB TIPS

### CHECK-IN

Submit the electronic check-in form using the QR code on front of IAP and selecting **Incident Check In** from the menu.

Email the following items to 2023.lightningcomplex.checkin@firenet.gov

- Red card/fire card
- Manifest (Crews)

### **DEMOB**

FOR EMERGENCY OR URGENT DEMOBS CONTACT YOUR SUPERVISOR FIRST AND THEN CONTACT THE DEMOB UNIT DIRECTLY AT 720.584,8887 or 925,783,7744

If you need a flight, please email <u>2023.lightningcomplex.demob@firenet.gov</u> 72 hours in advance or call 720.584.8887 or 925.783.7744

After being notified by your supervisor of your tentative release date:

Step 1. Return all supplies, radios, etc. that were checked out.

<u>Step 2</u>. All vehicles - including UTVs/ATVs - that have been on the fireline **MUST** go through weed wash at Orleans. Obtain an Authorization Slip from the weed wash operators after completing weed wash. Turn in the Slip to Demob at your assigned camp.

Release Inspection **in Hoopa** is required for all private contract equipment resources (i.e. Engines, Water Tenders, Heavy Equipment, Transports, etc.)

<u>Step 3</u>. Submit final time documents electronically to Finance per directions in the IAP. Provide a valid email address. Finance will post your time, let you review a draft, and send your final documents to you, all electronically.

<u>Step 4</u>. Complete Demob Checkout Form – accessed by scanning using QR code on the IAP and selecting **Incident Demob** from the menu. Once you submit the form, you are released from the incident and may begin travel home. Safe Travels!

Any questions about the check-in or demob process, call 720.584.8887 or 925.783.7744 or email 2023.lightningcomplex.demob@firenet.gov

### DEMOB LIST 2023 SRF LIGHTNING COMPLEX – CA-SRF-000986 9/8/2023 – 9/10/2023

Please submit CTRs, shift tickets and vehicle inspection forms electronically to finance using the QR codes in the IAP (2023.lightningcomplex.finance@firenet.gov). If you do not have the ability to send and finalize your documents electronically, please come at the time next to your name below. Call finance at 720-693-1869 with any questions.

## **SRF Lightning Complex FINANCE PROCEDURES**

Finance Email: 2023.lightningcomplex.finance@firenet.gov

Finance Hotline: 720-693-1869

## Please submit your documents ELECTRONICALLY.

(If you are completing CTRs/Shift Tickets on paper, you can take a picture, save it as a PDF and then email it.)

ALL RESOURCES – When emailing, please include your RO# in the subject line and on all documents.

Provide a contact phone number in your email.

#### For easy document submission, scan the QR codes.

Overhead & Crews:
Use TIME in subject line of email
or QR code below

Contractors & Cooperators:
Use PROC in subject line of email
or QR code below

#### At **check-in** submit the following:

- Resource Order
- Manifest/Roster
- Cooperator agreement or contract (w/ correct resource highlighted)
- AD Casual Hire Form
- Vehicle Inspection Form

#### **Daily** submit the following:

- CTRs
- Shift Tickets

Ensure all CTR/Shift Tickets are signed and dated.

Contracted Resources: Please ensure daily hours worked do NOT exceed operational period without including written justification and supervisor's approval.

Demobing soon? We will need the below documents to process your OF-288/286.

#### At **<u>DEMOB</u>** submit the following:

- Final CTR/Shift Tickets w/ projected travel times
- Release Vehicle Inspection Form

All documents can be EMAILED for a faster, virtual demob process!

Share these points with the public as you have an opportunity.

- The weather is warming and drying. The public can expect to see more smoke, mainly from consumption of fuels inside the fire perimeters.
- The rains have created a changed fire environment. Modeling experts predict a low likelihood of significant fire growth for the rest of the season.
- We are entering a window where conditions are optimal for removing excess fuels from the landscape using carefully managed fire. Agency administrators and fire managers are considering possible options for the days ahead.
- Structure protection equipment (hoses, sprinklers, etc.) will remain in place for now. They will be removed when all threat is gone, probably several days from now.
- Fire management decisions are a collaborative effort involving US Forest Service, National Park Service, California State Parks, Karuk, Yurok, and Hoopa tribal authorities, and many other cooperators working together.

WE WANT YOUR PHOTOS - Email them to 2023.lightningcomplex@firenet.gov or drop off at PIO trailer.

WE HAVE LOST & FOUND – Drop off or pick up at the Information trailer.

MAIL DELIVERY:

Your name and E/O number

Six Rivers Lightning Complex Camp

11121 Hwy. 96 Hoopa, CA 95546

## SAFETY MESSAGE

09/08/2023

Fire fighter safety comes first on every fire, every time

## \*\*\*Operational Safety Standdown focus on IWI \*\*\*

- ➤ MEDICAL INCIDENT WITHIN AN INCIDENT Review the Medical Plan (ICS 206WF) and Medical Incident Report (MIR or 8 Line) in the IAP and insure everyone understands how to initiate and run a medical emergency. Start by contacting Lightning Communications ICP on the Command Frequency and follow the Medical Incident Report. Your actions may be what save a life. I ask that you run a scenario in your division breakouts to make sure all are familiar with the plan. Do you know where your medical resources are and do the medical resources know where you are?
- ➤ HEAVY EQUIPMENT Heads up, heavy equipment is on the move and continuing operations on several Divisions on the complex. Ensure that all personnel are aware of safe working distances required for the equipment operating in their area. There are numerous control lines where masticators are operating the wood chucks that can be generated are especially hazardous. Maintain separation between equipment and firefighters.
- ➤ FIRING OPERATIONS Ensure all firing and holding resources are provided a good briefing prior to starting operations. All resources should know where their safety zone is, the escape route, and trigger to use them.
- ➤ **DRIVING AND SPEED** Expect driving hazards around every curve and over every hill. Assume other drivers are distracted and may not be watching out for you. Drive at or below posted speeds. Keep your lights on, drive to the right side of your lane to provide an extra buffer when passing on coming vehicles. Use pullouts if people are tailgating, don't drive faster to create extra space.

If your assignment does not have purpose and meaning and does not support meeting the objectives, you should re-assess.

## FIREFIGHTER HEALTH

## LINEA DE SALUD DEL BOMBERO / HEALTH LINE 720.693.3188

COORDINATOR: SUSAN KOLP

#### Firefighter Health

Physical and mental health are key components of firefighter safety. Limiting the spread of infectious disease is a priority. Performing daily health checks, practicing good hygiene, and being honest about your mental wellbeing are necessary for a healthy and long fire season. For support or resource needs, please reach out to the Firefighter Health Line or any IMT member.

#### Salud de los Bomberos

La salud física y mental son componentes clave de la seguridad de los bomberos. Es importante a limitar la propagación de enfermedades infecciosas. Durante los incendios, necesitamos enfocar en nuestra salud cada día. Debemos mantener practiques higiénicos y apoyar el bienestar mental de todos. Cualquier persona que necesita apoyo o recursos puede comunicar con la Línea de Salud para Bomberos.

#### Team Ordering/Timeline Process:

1400- Last call for change in dinner deliver locations. Submit to the Food Unit Leader via 213 or through communications.

1600 - DIVS to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through DIVS or Branch.
- DIVS or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

#### **Definitions**

**FOB-**Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

Line Spike Camp-Managed by Operations at the DIVS level; mobile, short duration and self-sufficient.

Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

**Emergency Medevac-** Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's. Communications to clear command channel radio traffic.

Medical Transport-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.
