### SRF LIGHTNING COMPLEX

CA-SRF-000986 - P5 QKB4 (0510)

### REDWOOD LIGHTNING COMPLEX

PP QJ5R (1522)

### SUNDAY, SEPTEMBER 10, 2023

Day Operational Period 0700 – 2100 Night Operational Period 1800 – 0800

### **Rocky Mountain CIMT1**

Dan Dallas, IC Mark Giacoletto, Deputy IC Justin Conrad, ICCI(t)

PUBLIC FIRE INFORMATION: 530.536.0767
BRIEFING LINK: <a href="https://srflightningcomplex2023.com">https://srflightningcomplex2023.com</a>

### **INCIDENT OBJECTIVES (ICS 202)**

t. Incident Name:	2. Operational Period:			The state of the s
SRF LIGHTNING COMPLEX	Date/Time From:		Date/Time To:	
	09/10/2023 0700	SUN	09/11/2023 0700	MON

### 3. Objective(s):

### STRATEGIC FRAMEWORK

Confine, contain, or control all fires utilizing a full suppression strategy. Values at risk include human safety, private timberlands, communities, cultural resources, critical infrastructure, and associated improvements. Apply tactics that offer the highest probability of success.

### LEADERS INTENT

Provide the highest level of customer service to all involved with or impacted. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by implementing Center of Disease Control, California Department of Public Health, and agency guidelines.
- Professional behavior, and timely/effective communication.

### MANAGEMENT OBJECTIVES

- Prior to engagement, stop and discuss strategies and tactics to ensure sound risk management principles are in place to provide for firefighter and public safety.
- Implement fire suppression activities in accordance with Incident Resource Advisors.
- Minimize impacts to communities, cultural resources, natural resources including old growth redwoods, critical power, communication and other infrastructure, private property inholdings, Tribal Lands, Timber Lands, TESC Species, and watersheds.

### CONTROL OBJECTIVES

Keep Fires within the Six Rivers National Forest:

- Within remote National Forest areas to protect heritage, cultural, natural resources.
- Away from private lands, Hoopa, Orleans, and Hwy 96 to protect the communities along the Klamath River corridor and private lands.

Keep Fires within the Redwood National Park:

As small as possible and within park lands to protect old growth redwoods, private timber land and cultural values.

### 4. Operational Period Command Emphasis:

- 1. Manage risk to firefighters by ensuring hazards are identified, assessed, and where possible mitigated. Be prepared to accept residual risk when values threatened warrant it and the probability of achieving objectives is high.
- 2. Utilize strategies and tactics that commit responders only to operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary.
- Contain and control portions of the fire that are a threat to identified values to be protected.
- 4. Mop-up to the extent necessary to prevent escape of the fire and additional spread or damage to other values within the perimeter.
- 5. Implement practices that reduce the potential for spread of infectious disease, such as distributed operations, adhering to CDC guidelines and other actions that improve the health environment for firefighters and support personnel.

### General Situational Awareness:

- Maintain a safe working distance when working in close proximity to heavy equipment.
- 2. Identify new escape routes and safety zones as needed, especially when implementing strategic firing operations.
- 3. Be aware of, and mitigate, mission creep.

### 2023 SRF Lightning Complex (Branches XX, X & V) Weather Forecast

FORECAST NO: 24

FORECAST FOR: Sun, Sep 10th Day/Night Shift

FORECAST ISSUED: Sep 9th 2023, 2000 PDT

NAME OF FIRE: 2023 SRF Lightning Complex

SIGNED: /s/ Ryan Walbrun - IMET

<u>WEATHER DISCUSSION:</u> Day over day changes remain minor and subtle but if anything expect a few degrees of cooling and slightly higher humidity as onshore winds increase from the west as a weak weather system passes to our north. Any morning clouds will lift by late morning but lingering smoke along Highway 96 will be slow to clear and expect the inversion to break by midday. Afternoon temperatures will warm to around 90 lower slopes of the Pearch Fire with lower to mid 70s above 3500 feet. Humidity values will be a little more moist this morning, especially for the Marlow and Bluff Fires but should lower to 28-38% this afternoon. General winds from the West to Northwest but fairly light with afternoon upvalley flow dominating for the river valleys. Humidity values will be slow to recover this evening and stay less than 50% for the ridges until just after midnight before better recovery by sunrise Monday.

### For Lost Fire and Branch XL weather, please see next page

FORECAST FOR TODAY: Morning clouds and smoke otherwise mostly sunny. Light WNW winds.

Branch XX Fires: Forecast Elevation 4000 feet. Branch V & X Fires:

Dianon 700 iles: 1 oreeast Elevation 4000 leet.	Dianell V & X I lies.
Max Temperature: 67-76° coolest shaded North aspect	Max Temperature: 82-90°
Min RH: 35-45% driest southerly exposed aspects	Min RH: 25-35%
20 FT Winds	20 FT Winds
Slopes/Valleys: Light then becoming SW 2-5 with gusts 7-10 mph in the afternoon.	Slopes/Valleys: N 2-4 mph, becoming Southwest 3-6 mph with gusts to 12-15 mph afternoon hours.
Ridges: Light SW, becoming SW 4-8 with gusts 15-20 mph in the afternoon	Ridges: Light SW, becoming WSW 4-8 with gusts 12-15 mph in the afternoon.

**OUTLOOK FOR TONIGHT:** Mostly clear with valley smoke. Poor humidity recovery above 2500 feet.

Branch XX Fires: Branch X & V Fires:

214.1011.7011.1100.	Dianell X & V I lies.
Min Temperature: 55-60°	Min Temperature: 50-55°
Max RH: 45-55% until 2 am then 60-70% by morning	Max RH: Full recovery valleys. 40-50% above 2500 ft
20 FT Winds	20 FT Winds
Slopes/Valleys: Downslope winds 2-4 mph	Slopes/Valleys: WSW 2-4 mph becoming downslope
Ridges: W 4-8 mph becoming NE overnight	Ridges: NW 3-6 mph becoming NE overnight

**Extended Forecast:** Seasonally warm pattern continues through the middle of next week. Daytime highs mid 70s ridges to around 90 river valleys. Afternoon humidity values 25-35% with full nighttime recovery in the valleys and moderate recovery 40-60% mid and upper slopes. Winds will be light and terrain driven with general winds light and from the Southwest, strongest afternoon and early evening hours. Long range trends suggest dry weather continues at least through the middle of the month and beyond.

Safety Message: Operation Hydration! Drink water now so you can keep working and stay healthy!

### 2023 SRF Lost Fire Spot Weather Forecast

FORECAST NO: 21

NAME OF FIRE: 2023 SRF Lightning Complex SIGNED: /s/ Ryan Walbrun – IMET

FORECAST FOR: Sun, Sep 10th Day/Night Shift FORECAST ISSUED: Sep 9th 2023, 2000 PDT

**Discussion:** Onshore winds will bring more low clouds to the coast and the area of the Lost Fire Sunday morning. Clouds will slowly clear back to the coast but the persistent onshore winds will keep temperatures slightly cooler and humidity slightly higher than the last few days. Winds will remain from the West but generally light, especially under the canopy of the Lost Fire. Full humidity recovery tonight as westerly winds off the ocean will likely spread more low clouds over the Lost Fire tonight.

For Branches XX, X, & V fire weather, please see previous page

FORECAST FOR TODAY: Some morning clouds otherwise partly sunny. Light northwest winds.

Valleys & Slopes (below 1000 ft) Ridgetops and Above 1000 ft

Max Temperature: 62-66°	Max Temperature: 65-70°		
Min RH: 60-65%	Min RH: 55-60%		
20 FT Winds: Drainage winds 1-4 mph, becoming NW 3-6 mph afternoon gusts 10 mph	<b>20 FT Winds:</b> WNW 4-8 mph afternoon gusts 10-12 mph along Holter Ridge.		

**OUTLOOK FOR TONIGHT:** Becoming mostly cloudy overnight. Full humidity recovery with light winds.

Valleys & Slopes (below 1000 ft) Ridgetops and Above 1000 ft

Min Temperature: 50-55°	Min Temperature: 52-57°
Max RH: 85-95%	Max RH: 75-85%
20 FT Winds: NW winds becoming drainage 1-3 mph	20 FT Winds: NW 4-7 mph becoming NE overnight.

**Extended Forecast:** Weather pattern remains similar through at least the middle of next week. No big changes for the coastal environment with onshore winds. Daytime highs around 70 with overnight lows in the 50s. Light westerly onshore winds afternoon and evening hours with downcanyons nights and morning hours. Afternoon humidity 55-65% with full recovery each night.

<u>Safety Message:</u> Marine clouds may linger over the helibase during the morning hours. Don't count on Air Operations when doing risk assessment.

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 23	TYPE OF FIRE: Wildfire
FIRE NAME: SRF Lightning Complex	OPERATIONAL PERIOD: Day, 09/10/2023
DATE ISSUED: 09/09/2023	TIME ISSUED: 2000
UNIT: CA-SRF	SIGNED: Isl Kooin Hillard
	Typed/printed: Kevin Hillard

### **INPUTS**

### WEATHER SUMMARY: \*REFER TO SPECIFIC IMET WEATHER FORECASTS\*

Sky: Mostly sunny

Maximum Temperatures: Highs 80's – 90s in lower elevations 70s higher elevations, 60s Lost Minimum Humidity: 20% – 30% lower elevations, 30% - 40% higher elevations, 55% - 65% Lost Winds (20'): Ridgetops – SW/WSW 4-8 gusting 15-20, Lost NW/WNW 3-8 gusting 10-12

Slope/valley – SW 2-6 gusting 7-15, Lost NW/WNW 3-8 gusting 10-12

**FUELS:** Fuels are primarily conifer with litter and brush understory. The are multiple previous fire scars in the area. Fire scars over 5-8 years old will have a higher fuel load. Fuel loads in fire scars 8-10 years old will have a significant dead and down component and more continuous brush that will increase spread rates and flame lengths.

### **OUTPUTS**

### FIRE BEHAVIOR

### **GENERAL:**

With only minor changes in the weather, fuels will continue to dry especially on south, southwest and west aspects. Due to lower nighttime relative humidity recoveries at higher elevations last night, fires will be more active earlier in the day. Fire behavior will be smoldering and creeping in the morning with surface fire spread by afternoon where heat exists on uncontained line. Spotting from rollout as well as isolated torching likely.

Maximum Surface Rate of Spread: Timber/Brush/Heavy Down/Dead: 8 Chains per hour (head fire)

2 Chains per hour (backing fire)

Maximum Surface Flame Length: Timber/Brush Heavy Down/Dead: 6 Feet (head fire) 3 Feet (backing fire)

Crown Fire Potential: Isolated torching. Crown runs not expected.

Spotting Distance: 0-0.2 mi Probability of Ignition: 20-30%

Rollouts: Watch for locations where rollout is set up for and uphill run

### SPECIFIC:

**Branch V**: No fire growth expected due to limited heat sources near the fire line. Interior heat expected to continue to produce smoke.

**Branch X:** Fire will be more active in the brush and needle cast in the afternoon especially in unshaded areas. Fire on the eastern part of the Pearch in Butler Creek will become more active if it gets established in the bottom of the drainage.

**Branch XX:** The fires will continue to spread slowly where heat is showing on uncontained line. lower nighttime relative humidity recoveries quicken drying and allow for a longer burn period. Fires will be more active where they are not shaded by smoke or dense canopies. Isolated torching likely to occur in areas of heat along uncontained line.

**Branch XL:** Fire activity expected to be minimal with good overnight relative humidity recoveries and higher forecasted relative humidities.

### **AIR OPERATIONS**

With increased smoke production yesterday, the valleys may take longer to clear out.

### SAFETY

The effects of the moisture are starting to wear off. Ensure LCES is in place before engaging even in areas where smoke hasn't been seen recently.

### 6. Control Operations/Work Assignments:

Secure and mop up from the division break on Holter Ridge Rd to the division break on Lost Man Creek to ensure that escape is improbable.

Backhaul excess equipment and accountable property to return the area to the pre-fire condition.

### 7. Special Instructions:

Keep the fire footprint as small as possible to reduce impacts to private lands and Old Growth Forest within the park.

Use State Park tree specialist to advice on sprinkler set up to extinguish Old Growth Redwood trees that are a threat to control lines.

READs Steve Buckley, Andy Harmon, Elliot Gunnison, and Anna Hellewege-Beles are working across branch XL. Coordinate with Branch XL READ's prior to operating heavy equipment.

### **CHECK-IN AND DEMOB TIPS**

### CHECK-IN

Submit the electronic check-in form using the QR code on front of IAP and selecting **Incident Check In** from the menu.

Email the following items to 2023.lightningcomplex.checkin@firenet.gov

- Red card/fire card
- Manifest (Crews)

### **DEMOB**

FOR EMERGENCY OR URGENT DEMOBS CONTACT YOUR SUPERVISOR FIRST AND THEN CONTACT THE DEMOB UNIT DIRECTLY AT 720.584.8887 or 925.783.7744

If you need a flight, please email <u>2023.lightningcomplex.demob@firenet.gov</u> 72 hours in advance or call 720.584.8887 or 925.783.7744

After being notified by your supervisor of your tentative release date:

Step 1. Return all supplies, radios, etc. that were checked out.

<u>Step 2</u>. All vehicles - including UTVs/ATVs - that have been on the fireline **MUST** go through weed wash. Obtain an Authorization Slip from the weed wash operators after completing weed wash. Turn in the Slip to Demob at your assigned camp.

Release Inspection is required for all private contract equipment resources (i.e. Engines, Water Tenders, Heavy Equipment, Transports, etc.)

<u>Step 3</u>. Submit final time documents electronically to Finance per directions in the IAP. Provide a valid email address. Finance will post your time, let you review a draft, and send your final documents to you, all electronically.

<u>Step 4</u>. Complete Demob Checkout Form – accessed by scanning using QR code on the IAP and selecting **Incident Demob** from the menu. Once you submit the form, you are released from the incident and may begin travel home. Safe Travels!

Any questions about the check-in or demob process, call 720.584.8887 or 925.783.7744 or email 2023.lightningcomplex.demob@firenet.gov

### DEMOB LIST 2023 SRF LIGHTNING COMPLEX – CA-SRF-000986 9/10/2023 – 9/12/2023

Please submit CTRs, shift tickets and vehicle inspection forms electronically to finance using the QR codes in the IAP (2023.lightningcomplex.finance@firenet.gov). If you do not have the ability to send and finalize your documents electronically, please come at the time next to your name below. Call finance at 720-693-1869 with any questions.

# **SRF Lightning Complex FINANCE PROCEDURES**

Finance Email: 2023.lightningcomplex.finance@firenet.gov

Finance Hotline: 720-693-1869

# Please submit your documents ELECTRONICALLY.

(If you are completing CTRs/Shift Tickets on paper, you can take a picture, save it as a PDF and then email it.)

ALL RESOURCES – When emailing,
please include your RO# in the
subject line and on all documents.
Provide a contact phone number in
your email.

For easy document submission, scan the QR codes.

Overhead & Crews:
Use TIME in subject line of email
or QR code below

Contractors & Cooperators:
Use PROC in subject line of email
or QR code below

### At <u>check-in</u> submit the following:

- Resource Order
- Manifest/Roster
- Cooperator agreement or contract (w/ correct resource highlighted)
- AD Casual Hire Form
- Vehicle Inspection Form

### **Daily** submit the following:

- CTRs
- Shift Tickets

Ensure all CTR/Shift Tickets are signed and dated.

Contracted Resources: Please ensure daily hours worked do NOT exceed operational period without including written justification and supervisor's approval.

Demobing soon? We will need the below documents to process your OF-288/286.

## At **DEMOB** submit the following:

- Final CTR/Shift Tickets w/ projected travel times
- Release Vehicle Inspection Form

All documents can be EMAILED for a faster, virtual demob process!

Share these points with the public as you have an opportunity.

- Firefighters have been working for days to build "boxes" of direct and indirect control lines around several of the fires in the Complex. This work is nearing completion.
- The IMT, agencies, and tribal leaders have cooperatively developed a plan for using strategic firing operations within these boxes to accomplish multiple objectives:
  - Full suppression of the existing fires
  - Reduction of fuels at a landscape level to lessen the number or intensity of future fires
- With fuels drying after recent rains, conditions are approaching optimal for implementing the strategic firing plan. This should begin in the next day or two.
- Implementing the plan will be slow and methodical over multiple days. We will monitor effectiveness and make adjustments as needed.
- The public will see more smoke when the plan is implemented, but this is expected and does not mean there is an increased threat to homes or other values at risk.

WE WANT YOUR PHOTOS - Email them to 2023.lightningcomplex@firenet.gov or drop off at PIO trailer.

WE HAVE LOST & FOUND – Drop off or pick up at the Information trailer.

MAIL DELIVERY:

Your name and E/O number

Six Rivers Lightning Complex Camp

11121 Hwy. 96 Hoopa, CA 95546

### **HEALTH AND SAFETY MESSAGE**

### **SAFETY** starts with **YOU**

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: SRF Lightning Complex DATE: 9/10/23 Shift: Day and Night

# Becoming The Safety Officer - Your Life Might Depend On It

The SRF Lightning Complex has 1030 Safety Officers, more safety officers than any other fire. That is because each of you is empowered to be a safety officer.

Six Rivers NF and Rocky Mountain Team 1 want each and everyone of you to know that you are the most important resource on this incident. This is seen through the risk management process that includes Incident Strategic Alignment (ISAP), Deliberate Risk (215), and safety messaging. Incident objectives and leaders' intent also reflect this.

### STRATEGIC FRAMEWORK

Values at risk include human safety, private timberlands, communities, cultural resources, critical infrastructure, and associated improvements.

#### LEADERS INTENT

All incident assigned personnel should be prepared to take appropriate actions regarding personal safety and the safety of others, including driving slowly and defensively and manage fatigue by taking breaks and maintaining work/rest cycles.

### **MANAGEMENT OBJECTIVES**

Prior to engagement, stop and discuss strategies and tactics to ensure sound risk management principles are in place to provide for firefighter and public safety.

The guiding principals of professionalism in the wildland fire community are based on **Duty**, **Integrity**, and **Respect**. Each of us should have, live by, and exemplify a safety mindset, **Duty** to speak up and share safety concerns, **Integrity** choosing the hard right over the easy wrong, and the **Respect** to listen to others.

Do you have, live by, and exemplify a safety mindset?

Have you ever deviated from a safety i	mindset, what was that result, was it a positive result for the right
rea	sons or because you got lucky?

### You are empowered to be the safety officer.

- I am responsible for my own Safety as well as my fellow employees and the public.
- > I have full authority to call a halt to any activity that looks or feels unsafe.
- ➤ I will use this authority with confidence because Incident Leadership supports me taking this action so I can protect myself and others from harm.

Safety Officers: Todd Legler, Pat Medina, Jon Blackstone, Brandon Hoffman, Chris Sweeney, David Molter, Dave Marion, Tim Quigley and Matthew Martin

# FIREFIGHTER HEALTH

LINEA DE SALUD DEL BOMBERO / HEALTH LINE 720.693.3188

COORDINATOR: SUSAN KOLP

# "Prolonged exposure to smoke literally makes you dumber."

Travis Dotson, Fruit We Can Reach And the Tricky Transition from Bad Ass to Dumb Ass, Two More Chains, Summer 2017 Vol. 7 Issue 2.

"As CO exposure increases, your ability to think clearly decreases. Being in smoke you don't need to be in is the epitome of not working "smarter." In fact, it is actually working dumber."

"So first and foremost, exposure to smoke is dangerous because it impairs our capacity to think clearly— something most of us have a hard enough time doing given the complexity of our environment."

# It also makes you sicker.

Exposure to wildland smoke increases susceptibility to infectious diseases like influenza, COVID-19, the common cold, and other illnesses. The respiratory tract response to smoke can further increase severity of illness, leading to infections like pneumonia and bronchitis.

# So what?

Can't tell if your cough, sore throat, runny nose, or other symptom is from the smoke, allergies, or an infectious disease? Do the right thing. Get yourself checked out by **Frontline Medical** or your friendly neighborhood medical resource. It's free.

**Questions?** 720.693.3188

# **Training Information**

### Team Ordering/Timeline Process:

1400- Last call for change in dinner deliver locations. Submit to the Food Unit Leader via 213 or through communications.

1600 - DIVS to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through DIVS or Branch.
- DIVS or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

#### **Definitions**

**FOB-**Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

Line Spike Camp-Managed by Operations at the DIVS level; mobile, short duration and self- sufficient.

Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

Emergency Medevac- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's.

Communications to clear command channel radio traffic.

Medical Transport-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.

### LINE "NON-EMERG

#### LINE "MEDICAL-EMERGENCY" PLAN:

Crew Supervisor to contact Division Supervisor/Operations with:

- Patient Complaint, Condition and Location via Tactical or Command frequency.
- Priority 1/Red & 2/Yellow patients trigger Incident within Incident (IWI).

Division Supervisor/Operation contacts Communications/Dispatch:

Division Supervisor or POC\* will run "Medical Emergency " on the command frequency. POC\* (Point of Contact) and/or Operations

#### LINE "NON-EMERGENCY INCIDENT" PLAN:

Crew Supervisor to contact Division Supervisor with:

- Patient Complaint, Condition and Location via Tactical or Command frequency.
- · Priority 3/Green, (Minor) Patients do not trigger Incident within Incident (IWI).
- Division Supervisor to contact Communications/dispatch:
- Division Supervisor or POC\* will run "Non-Emergency Incident" on the Command frequency.
- Division Supervisor or POC\* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
- · Communications contacts Medical Unit Leader on the Command frequency or cell phone 602-799-8779 (For medical related incidents only).

#### IN-CAMP - 24 HOUR MEDICAL

- Contact 911 and Medical Unit 602-799-8779 with:
- Patient Complaint, Condition and Location

Controlled Unclassified Information//Basic

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.							
1. CONTACT COMMUNICAT			ency prior to starting	g report)			
Ex: "Communications, Div. I			ationtal and are	l atauntusa			
	2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.  Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat /Long.) This will be the Trout						
	Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."						
Severity of Emergency / Tra Priority	Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.						
		EN / PRIORITY 3 Mind Sprains, strains, minor hea		. Non-Emergency tra	insport		
Nature of Injury or Illnes		, and miles					
Mechanism of Injury					Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)		
Transport Request					Air Ambulance / Short Haul/Hoist Ground Ambulance / Other		
Patient Location					Descriptive Location & Lat. / Long. (WGS84)		
Incident Name					Geographic Name + "Medical" (Ex: Trout Meadow Medical)		
On-Scene Incident Comma	nder				Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)		
Patient Care					Name of Care Provider (Ex: EMT Smith)		
3. INITIAL PATIENT ASSES	SMENT: Complet	e this section for each patie	nt as applicable (start w	ith the most severe patient)			
Patient Assessment: See IRF	<sup>2</sup> G page 106						
Treatment:							
4. TRANSPORT PLAN:							
Evacuation Location (if different	ent): (Descriptive	Location (drop point,	intersection, etc.) or	r Lat. / Long.) Patient	s ETA to Evacuation Location:		
Helispot / Extraction Site Size	and Hazards:						
5. ADDITIONAL RESOURCE	S / FOUIDMENT	NEED&					
Example: Paramedic/EMT, Crew			auma Bag, IV/Fluid(s),	Splints, Rope rescue, Who	eeled litter, HAZMAT, Extrication		
6 COMMUNICATIONS ::	A16. 04. 1 . A1 11						
6. COMMUNICATIONS: Idea  Function Channel No.	me/Number	Receive (RY)	Tone/NAC *	Contacts as applicab Transmit (TX)	Tone/NAC *		
COMMAND			10.0.0.0	Transmit (TA)	TOTALIVAC		
AIR-TO-GRND			<del>                                     </del>				
TACTICAL			+				
	ations, If a size						
7. CONTINGENCY: <u>Consider</u> ahead.	auons: II primary	options fail, what action	ns can be implemente	ed in conjunction with p	imary evacuation method? Be thinking		
8. ADDITIONAL INFORMATI	ON: Updates/Cha	nges, etc.					
REMEMBER: Confirm ET	A's of resource	s ordered. Act accor	ding to your level	of training. Be Alert.	Keep Calm. Think Clearly. Act Decisively.
