The background flow will remain light and variable across the western islands, with light east to southeast winds over the eastern islands. These light winds will allow afternoon sea breezes and nighttime land breezes to develop into Friday. Expect mostly clear nights and mornings, followed by clouds and spotty showers each afternoon over leeward and interior sections. Locally breezy trade winds are expected to return this weekend. A front approaching the western islands early next week may cause an increase in shower coverage over portions of the island chain.
