Stratified Cost Index Results

Stratified Cost Index by Percentage

Acres Burned	25%	50%	75%	90%
18192	\$116	\$444	\$1,702	\$3,036
28000	\$98	\$377	\$1,444	\$2,576
38000	\$87	\$335	\$1,286	\$2,293
48000	\$80	\$307	\$1,176	\$2,097

25 percent of historical fires with similar characteristics had a cost per acre less than the value displayed in the 25% column of the table. Likewise, 50, 75, and 90 percent of fires with similar characteristics had a cost per acre less than the values displayed in their respective columns.
