Warning: This map is not to be used for VFR navigational purposes!
It is primarily designed for identifying hazards and obstacles
that may be encountered while flying at low altitudes during air operations.

This map was produced by the GIS department of Six Rivers National Forest. GIS data and product accuracy may vary.
This map is not to be used for navigational purposes. It is only to be used as a means of identifying vertical obstructions
and other known hazards to ensure safe Air Operations. The Forest Service reserves the right to update, modify, or
replace any or all of this data without notifying users.
