# FIRE WEATHER FORECAST

NAME: BASIN INCIDENT

FORECAST #6

UNIT: CA-SNF-000731

SHIFT: WEDNESDAY, JULY 4, 2024

SIGNED:

Pete Curran - IMET

TIME / DATE ISSUED: 1700hrs Wens 7/3/24

---

## **WEATHER DISCUSSION:**

Dangerous high-heat, long duration heat wave underway will bring hot days, warm nights, and dry conditions over the fire at least thru early next week. Expect daytime high's in the low 100's with overnight low's in the upper 70's with lowering RH minimums thru the week. The Excessive Heat Warning has been extended into early Thursday July 11<sup>th</sup>.

---

**\*\*EXCESSIVE HEAT WARNING THRU 7/11/24\*\***

**THURSDAY- JULY 4th:** Hot & dry. Some hazy smoke from morning inversion.

**MAXIMUM TEMPERATURE (deg F):**  
96-104 degrees (upper/lower elevations)

**MINIMUM RELATIVE HUMIDITY:**  
18-22%

## **20 FOOT WINDS:**

Terrain-driven slope winds ENE 6-12mph early, then west 6-9mph with gusts to 15 mph

**Chance of Wetting Rain:** 0

**INVERSION:** Increasing subsidence inversion trapping smoke & haze over lower elevations.

---

**THURSDAY NIGHT:** Warming overnight lows. Mostly clear early, then smokey after 2am.

**MINIMUM TEMPERATURE (deg F):**  
75-80 (upper/lower elevations)

**MAXIMUM RELATIVE HUMIDITY:**  
38-45%

## **20 FOOT WINDS:**

Terrain driven downslope winds 6-12mph. Ridgetops NE 18mph

**Chance of Wetting Rain:** 0

**Moonlight Illumination:** 7% (waning crescent)

**INVERSION:** Increasing subsidence inversion with areas of smoke & haze over lower elevations.

---

## **FRIDAY OUTLOOK:**

Dangerous heat and low RH. T: 95-105 RH Min: 15-20% Wind: West 6-9 G14

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 7	TYPE OF FIRE: Wildfire
FIRE NAME: Basin	OPERATIONAL PERIOD: July 4, 2024 Day & Night Shift
DATE ISSUED: July 3, 2024	TIME ISSUED: 2000
UNIT: CA-SNF-000731	Prepared: Dan Felix, FBAN, Bryan Gaines (t)

## INPUTS

**\*\* See Fire Weather Forecast for discussion and specific weather. \*\***

### WEATHER SUMMARY:

**Temp:** Highs 96 - 104 degrees.

**RH:** Minimum 18-22 percent.

**Winds:** Terrain-driven slope winds, ENE 6-12mph early, then west 6-9mph gusts to 15mph.

**Night:** 75-80 degrees, 38-45%, down slope 6-12mph, Ridge NE 18mph.

**Inversion:** Increasing subsidence inversion trapping smoke & haze over lower elevations.

**Moonlight Illumination:** 7% (waning crescent)

### GENERAL

A Fuels and Fire Behavior Advisory has been issued for California grass and herbaceous-dominated ecosystems due to above-average fuel loading. Rapid fire spread is possible because of the cured grass fuel loading around the fire perimeter.

The fuels in the current fire area consist mainly of grass with mixed oak and brush contributing to the fire's progress. The grass crop is particularly dense due to two good winters, making it more resistant to control efforts as retardant and water cannot penetrate to the ground. It's important to note that the fire may still spread through the dense grass even if it appears to be controlled. The fire is moving into areas that transition into brush and timber with large amounts of dead and downed fuel, especially to the north near Dinky Creek. As the fire reaches these live fuels, it is expected to slow down as they will not support the higher rates of spread seen so far. The indices for live fuel and heavier fuels are not as severe as the average for this year but will quickly drop as this heat wave continues. Therefore, the aspect and fuels will be the best indicators for predicting the rate of spread (ROS) that will be observed.

### Specific areas of concern:

**Division A** – The areas of this division that are lined are not expected to progress past the lines except due to spotting by either roll out or flare ups near the line. The northern portions will continue to try to eat through the retardant lines and clean up pockets of fuel in the interior keeping the probability of further spread to the north and west a concern. Expect lower ROS in the brush as it starts to run out of areas of grass.

**Division D** – Any northward spread along Dinky Creek will keep the possibility of spotting across the creek a concern. The swirling winds around the bend of the creek may carry smoke and embers across to the east side, where the fuel is highly susceptible to fire due to the continuous heavy grass fuel load. If this happens, the fire will spread rapidly. Areas to the south in the creek that have consumed most of the fuel are becoming less of a concern but could still produce roll out.

**Division M** - This division is in good shape, and any slop-over onto the north aspect will be more challenging to control, and burning of interior fuels could cause spotting. However, it should not spread as quickly in the heavier fuel types.

**Division U&Z**- The fire's progression has been successfully halted, but the nearby grassy areas are highly susceptible to spotting from rolling or general west winds.

**Night** - Downhill or down-canyon spread is expected during the night, and the fire is anticipated to remain active well into the early morning. The most significant impact from winds is expected in Divisions A and D.

**Air Operations:** Smoke will adversely affect operations early in the day.

### SAFETY

The extreme heat we are experiencing has a cumulative effect on you, and the fuels. Take care of yourself and your crew and be certain to be diligent of the changing fuels conditions.

## SAFETY MESSAGE

### “TAKE YOUR TIME TO DO IT SAFELY”

- Use time wisely to focus on safety issues, there is NOTHING that is more important.
- Do not let a sense of urgency, or the hazardous mindsets of “impulsiveness” or “mission fixation” compromise your safety.
- Any time spent planning for safety will pay dividends in the end.

#### *MAJOR HAZARDS AND RISKS*

**Be sure all elements of your safety plan are in place prior to engagement**

---

### Base all actions on current and expected fire weather

#### *HYDRATE-HYDRATE-HYDRATE*

Weather – Review weather forecasts and continually monitor weather conditions in the incident area. Weather will be changing, it will be getting hotter and drier during the next few days. Make sure your resources are briefed on upcoming weather conditions. Have an alternative plan if drastic changes occur and plan accordingly.

*CIIMT 11 Safety Officers Tom Sherman-SOF2, Nick Colonelli-SOF2(t)*

**6. Work Assignments:**

- Establish direct and indirect dozer lines to limit fire spread to the west of lower Ranchero Creek.
- Complete fire line south of the Sycamore Springs Road in Section 6.
- Look for opportunities to improve existing containment lines north of the dozer intersection in Section 5.

**7. Special Instructions:**

- READs/REAFs/ARCHs/FOBs will check in and out with DIVS when entering/exiting the division.
- Identify sling site and drop point locations.
- Ensure hydration and monitor fatigue through sufficient rest breaks to minimize heat-related injuries.
- Identify potential staging and parking areas.
- Identify draft site locations.
- Backhaul all trash and excess equipment.

**6. Work Assignments:**

- Continue to construct and improve containment lines from Balch Camp along Dinkey Creek to the northwest into Division A.
- Monitor, patrol and mop up as necessary.
- Insert handcrews into Helispot 12.
- Look for opportunities for direct line construction.

**7. Special Instructions:**

- READS/REALS/ARCHS/FOBS will check in and out with DIVS when entering/exiting the division.
- Identify drop point locations.
- Scout and identify road hazards and need for roadway repairs.
- Ensure hydration and monitor fatigue through sufficient rest breaks to minimize heat related injuries.
- Backhaul all trash and excess equipment.

**7. Special Instructions:**

- READs/REAFs/ARCHs/FOBs will check in and out with DIVS when entering/exiting the division.
- Backhaul all trash and excess equipment.
- Report to law enforcement any unauthorized vehicles in evacuated areas.
- Coordinate with READs prior to line construction.
- Ensure hydration and monitor fatigue through sufficient rest breaks to minimize heat related injuries.

## INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

<b>1. Incident Name:</b>	<b>2. Operational Period:</b>	Date From: 7/4/24	Date To: 7/5/24
BASIN INCIDENT		Time From: 0700	Time To: 0700
<b>Incident Area</b>	<b>Hazard/Risks</b>	<b>Mitigations</b>	
ALL	Heat Related Fatigue & Overexertion	Remain hydrated, seek shade and take breaks to reduce exertion when and where possible.	
ALL	Driving Hazards	Driving and potential for collision with other vehicles (civilian or fire apparatus), pedestrians, wildlife or obstructions in roadway.	
ALL	Snags	Identify potentially fire weakened trees and flag as hazardous. Coordinate with DIVS to have qualified fallers cut down hazard trees. Avoid hazard trees, particularly during high wind. Mitigate snag hazard before inserting personnel for line construction.	
ALL	Rolling Material	Be alert for roll out of burning debris that can cause fire below you. Utilize lookouts. Do not have personnel working below you while digging line.	
ALL	Aircraft use: Fixed wing and helicopters	Coordinate helicopter use with air attack and helicopter manager. Ensure that personnel are clear of drop zone. Adhere to aviation procedures and refer to IRPG.	
ALL	Heavy Equipment Operations	Maintain awareness when working near operating heavy equipment, remain withing view and communications of the operator(s).	
ALL	Medical - Lengthy patient evacuation/transport times	Plan to utilize air medical transport when transportation by ground could be extended. Stage ambulances in areas where extraction times will be extended.	
ALL	Entrapment - Spot Fire Suppression, Compromised Egress	Ensure LCES, Adhere to Fire Orders, Mitigate Watch Out Situations. Be aware of limited turn arounds for vehicles and narrow roads. Establish communications with ground crews.	
ALL	Slips/Trips/Falls	Watch footing and trip hazards. Maintain spacing while hiking and proceed slowly on steep slopes.	
ALL	Human Factors - Night Ops: Visibility, Fatigue	Once established, be aware Spike Camps may have minimal lighting at night, potential for wildlife interactions increased, and greater distances to medical treatment facilities.	
<b>5. Prepared By:</b>		Position/Title: SOF2(t)

## FINANCE MESSAGE

**Finance Email: [2024.basin.finance@firenet.gov](mailto:2024.basin.finance@firenet.gov)**

**CTR's, Shift Tickets and supporting documents** may be mailed to the email address above. If you are unable to send documents electronically you can drop off paper copies to Finance. Please submit documents either electronic **OR** hard copy. Do not submit duplicates.

**Approving Officials** for CTRs & Shift Tickets please write legibly and print your name under your signature.

**Contract equipment** please note your resource order number on the top right of the shift ticket and note any down time in the remarks block.

**Contract crews** – Crew Boss time starts at briefing. Contract crew member times start ½ hour later. Meal breaks need to be shown and time stops at arrival back at ICP or spike camp.

**All Local Government employees** MUST have a MARS account to complete and submit their F-42's for reimbursement.

**Authorization for Lodging** ended 6/28 for most resources. As of 6/29 full camp services were available and reimbursement for lodging expenses is only allowed for night shift resources.

**Water Logs** need to be filled out when pulling water from the water sources.

**Fire Replacement** - For replacement of non-cache items the requesting resource will take a completed OF-213 and OF-289 to the Comp/Claims Unit Leader for review. Requests for replacement of government-issued non-standard items brought from the home unit must be accompanied by a copy of a signed JHA or RA (IIBMH Chapter 30 Page 30-5). Based on the documentation provided a determination for replacement will be made by the Finance Section Chief, IC, or INBA. Damaged items will be surrendered to the Supply Unit. Replacement for normal wear and tear is through home unit project funds. Please do not wait until demob to begin this process.

The following resources need to please check in with Finance:

REQUEST NUMBER	RESOURCE NAME	ISSUE or QUESTION
E-80	Ashbrook	Shift Ticket Correction
E-60	Strickland Transport	Shift Ticket Correction
C-43	LPF Crew 7	Need Manifest/ECI Numbers
C-17	Truckee IHC	Question on CTR
C-15	Cobras 5	Times
C-33	Cobras 4	Times

**THANKS FOR KEEPING UP ON YOUR TIMES!!!!**

Basin Incident  
July 4<sup>th</sup>, 2024  
Human Resource Message

For all of you who routinely risk your lives for the protection of others. Thank you.  
For those of you who spend the summers away from your family for the betterment of the public. Thank you.

For those of you who *know* the heat from being out in it day after day, and those of you who know the ground from sleeping on it night after night. Thank you.

For all the concerts, birthdays, anniversaries and sporting events that you've missed, year after year. Thank you.

For those of you who said yes and keep showing up. Thank you.

It makes a difference. You are appreciated.

Things wouldn't be the same without YOU.

## Today we celebrate you

"May we think of freedom not as the right to do as we please, but as the opportunity to do what is right."

- Peter Marshall

"I think there are few things more patriotic than taking the time to make your country a better place."

— Michael Moore

"What was important wasn't the fireworks, it was that we were together this evening, together in this place, looking up into the sky at the same time."

— Banana Yoshimoto

"How important it is for us to recognize and celebrate our heroes and she-roes!"

— Maya Angelou

"We're blessed with the opportunity to stand for something, for liberty and fairness. And these are things worth fighting for, worth devoting our lives to."

- Ronald Reagan

"I like to see a man\* proud of the place in which he\* lives. I like to see a man\* live so that his\* place will be proud of him\*."

- Abraham Lincoln

(\*\*She/Woman/Her)

"The fact is, with every friendship you make and every bond you establish, you are shaping the image of America projected to the rest of the world."

- Michelle Obama

"When you know who you are; when your mission is clear, and you burn with the inner fire of unbreakable will; no cold can touch your heart; no deluge can dampen your purpose. You know that you are alive."

- Chief Seattle

"America was not built on fear. America was built on courage, on imagination and an unbeatable determination to do the job at hand." — Harry S. Truman

*Janine Summy, Human Resource Specialist, 509-429-1206*

## PUBLIC INFORMATION

Please share photos and video from the Basin Fire to be used on the Sierra National Forest's Facebook page, Inciweb & potentially the media. Photos can be airdropped or texted to PIOs after briefing, at the PIO yurt or emailed to: [2024.basin@firenet.gov](mailto:2024.basin@firenet.gov)

If the public or media approaches you with questions, please refer to them to our incident information phone: (559) 468-6809

### Incoming mail/packages:

## RESOURCE ADVISOR MESSAGE

### Reporting of Cultural Sites

- Do not use the radio. Looters listen to our frequencies and will hear where you find things.
- If you find something, grab a GPS point, bump it up the chain of command or directly inform an ARCH/READ on the line or back in camp.

### Neon Green and White Flagging Together

- READs will be using flagging for areas to avoid suppression activities.
  - The two flagging colors used are a strip of white and a strip of neon green.
- For more information, please consult with an ARCH/READ.

### Food on the Line Attract Wildlife Over Time.

- Keep food off the line as much as possible. It lures in wildlife, especially on indirect and contingency lines. Food associate's wildlife to humans and can cause future issues (i.e. bears looking for food in camps and drop points).

### Sensitive Areas

- Meadows are natural barriers. Tie the line to them and not through them.
- Stream and creeks should be approached with care. If needing to cross, minimize damage (i.e. on a dozer lift the blade and only track over) to prevent post-fire stability issues.

### Keep Up the Good Work!

Continue to do good work for cultural and natural resources by doing the following:

- Picking up trash/micro-trash.
- Removing unused flagging.
- Sharing information with and working alongside ARCH/READs.
- To the extent possible, when moving on to a new area leave the former better than you found it.

### -----Facts About McKinley Grove-----

This small and quaint grove of 165 Giant Sequoias is named after President William McKinley, 25th President of the United States. The giant sequoia trees are found only along the western slope of the Sierra Nevada between 3,000 and 8,000 feet in elevation. They are the most massive of all living forms on earth and are estimated to be as old as 2,300 years. The General Washington Tree is the largest of the grove. It is 65 feet in circumference and a small brook actually flows below the root system.

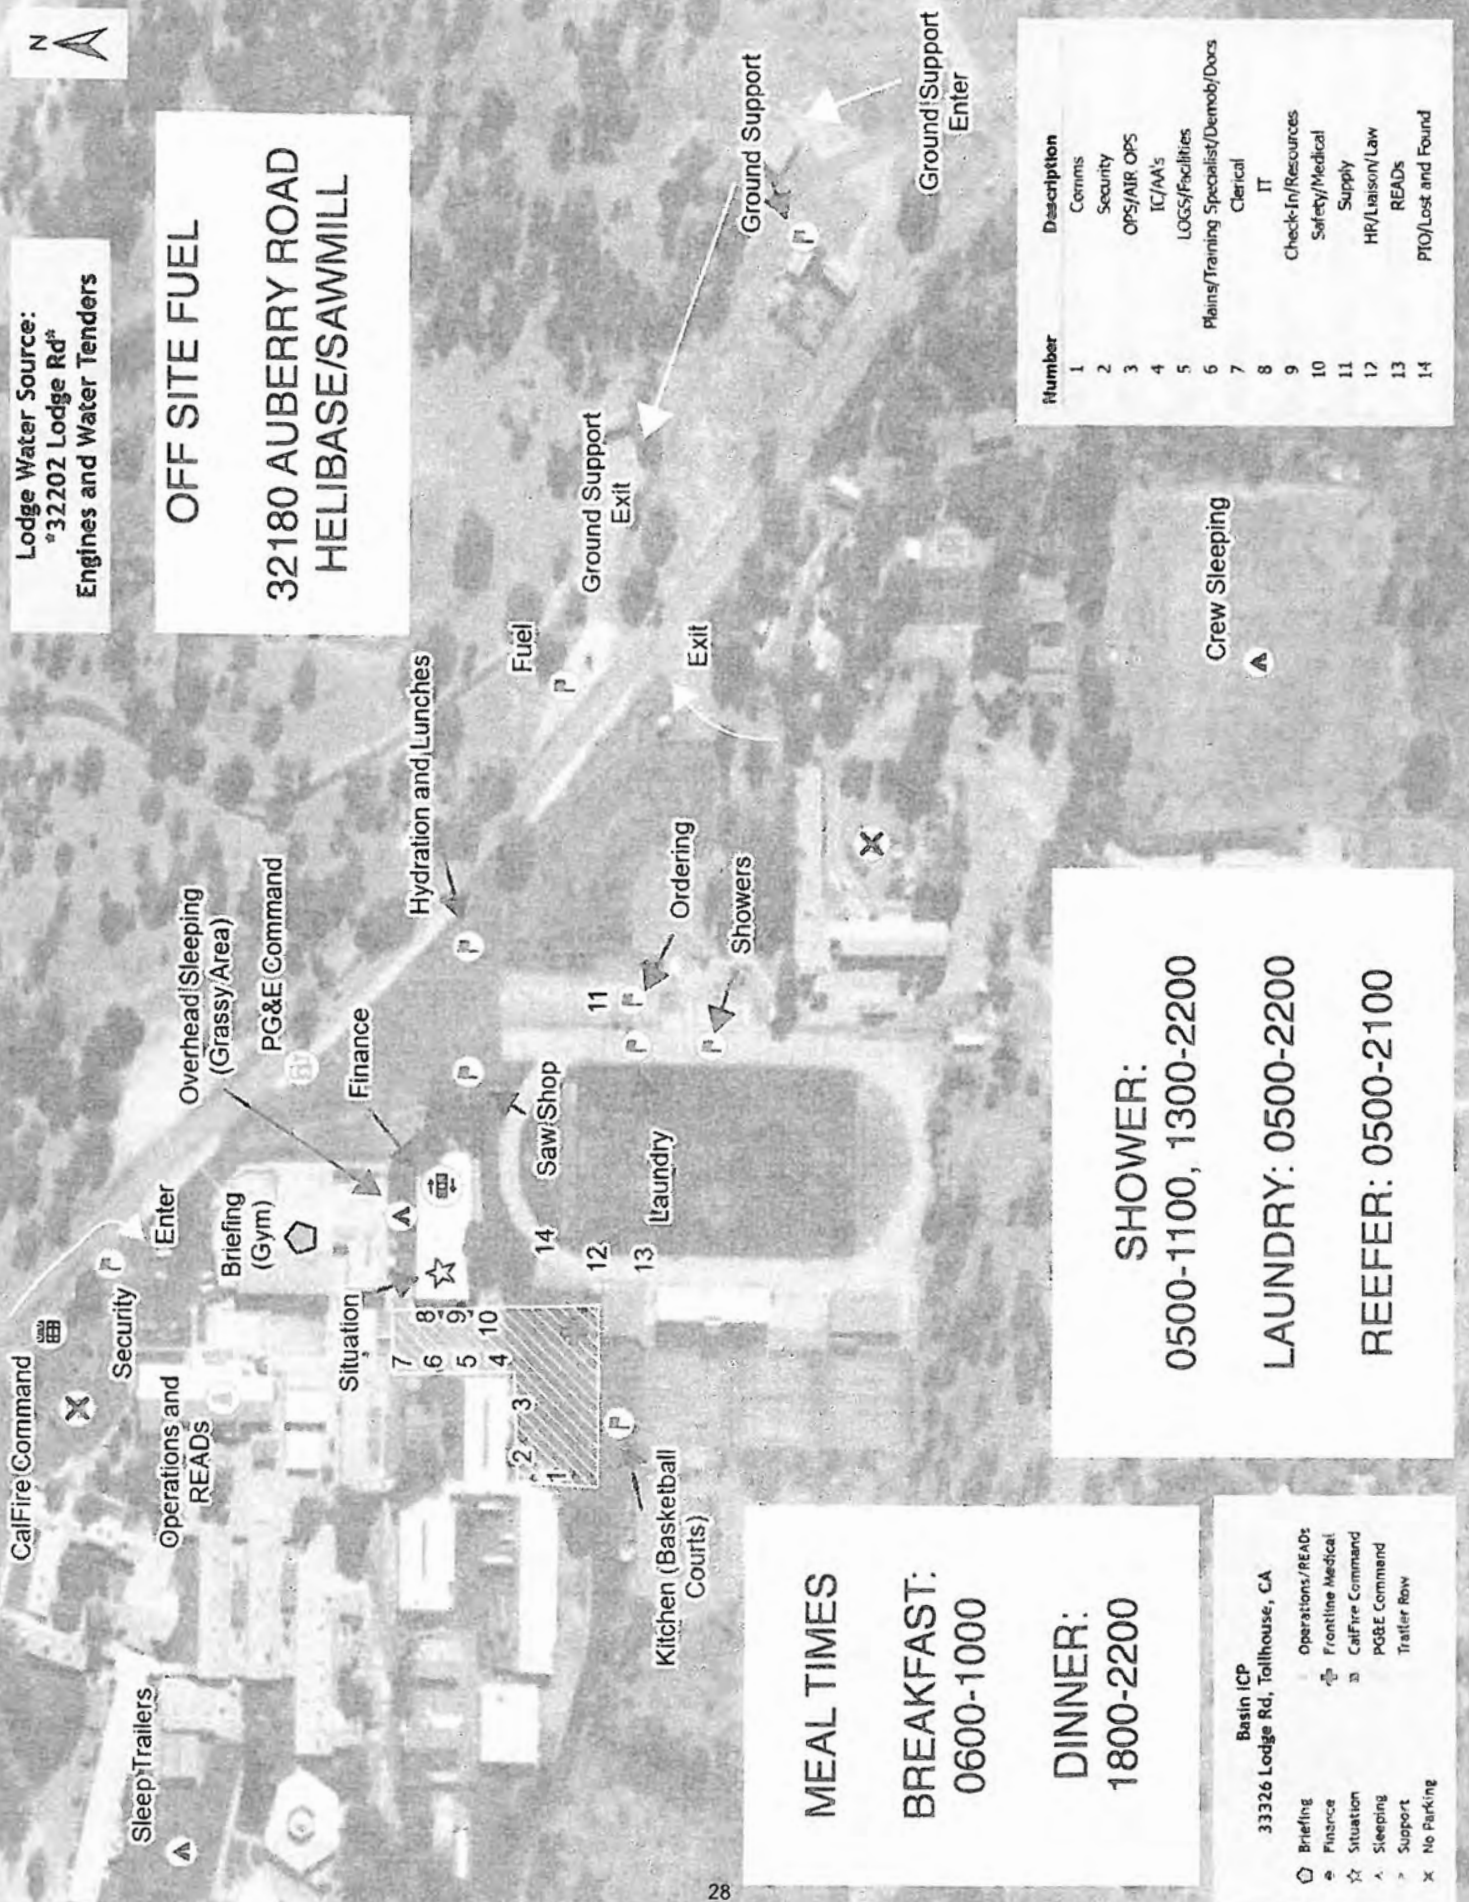

The grove is located on the High Sierra Ranger District of the Sierra National Forest. It is located east to southeast of the Dinkey Creek

campground, along the McKinley Grove Road, by approximately 6 miles.

# Trainee Success Starts Here

## ARRIVAL AT INCIDENT

- Check-In to incident
- Check-In with Training (USE QR CODE IN IAP on TNSP page)
- Check-In with Supervisor (Trainer)
- Communicate goals with Trainer
- Provide Trainer with your PTB

## WHILE AT THE INCIDENT

- Communicate daily with your trainer
- Complete your 214's
- Have tasks signed off in your PTB

## AT THE END OF YOUR ASSIGNMENT

- Collect PTB with signatures
- Have trainer complete evaluation record in back of PTB
- Have trainer complete trainee evaluation (225)
- Complete exit interview (Use QR code in IAP on TNSP page)
- THANK YOUR TRAINER!

Trainee Registration &  
Training Completion Form

## TRAINEES

Use this QR code to  
complete the registration  
and training completion process.

## Basin Incident DEMOB Procedures

In person check-out is being utilized on this incident. Monitor the IAP for the tentative DEMOB list. If there is an error on the dates, please communicate through your division or section to the check-in desk. They can then get the information verified and if needed, corrected.

Check out sheets will be available late afternoon on your last work day. Stop in at the DEMOB trailer to pick up your copy. Only get signatures from those sections that are highlighted.

1. All non-local resources will have at least 8 hours of rest prior to being released from the incident.
2. All resources will meet any agency-specific requirements on hours of travel per day or other travel restrictions.
3. Any heavy equipment operators or owners must have appropriate permits and follow any limitation on the movement of their equipment on public highways.
4. For an early release from the incident, prior to your last work day, an ICS 213 from your section must be submitted to DEMOB documenting an early release.
5. Emergency demobilization will be processed as quickly as possible. Individuals will be required to go through demobilization and checkout procedures. Demobilization and Resources Units will assure that manifests are changed as needed.
6. All resources needing airfare arranged will need to notify DEMOB 72 hours prior to the travel day.

### Contact information

Phone: (925) 542-9173
