Spot Forecast for Madre...USFS LPF  
National Weather Service Los Angeles/Oxnard CA  
1144 AM PDT Thu Jul 17 2025

Forecast is based on forecast start time of 1200 PDT on July 17.  
If conditions become unrepresentative, contact the National Weather  
Service.

.DISCUSSION...

Similar conditions are expected each day with typical diurnal  
winds, that will turn east-southeast overnight into the morning,  
then shifting to the west-northwest starting in the late morning for  
the western portion of the burn area and in the early afternoon for  
the eastern portion. Relative humidity will trend slightly upwards  
each day as moisture reaches the region from the southeast, and warm  
temperatures will persist.
