27. Note any geospatial data available (indicate data format, content, and collection time information and labels):														
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Extreme Uphill Runs Spotting Wind Driven Runs Narrative:														

Incident Status Summary (ICS-209)

Incident: **WOLF**

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Short Grass (1 foot)
Brush (2 feet)**

Narrative:

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

733 residents

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	418	0	0
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	0	0	0
I. Other Minor Structures	0	0	0

31. Public Status Summary:

C. Indicate the Number of Civilians (Public) Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0		0
E. With Injuries/Illness	0		0
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	0		0
I. Sheltering in Place	0		0
J. In Temporary Shelters	0		0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Civilians (Public) Affected:	0		0

32. Responder Status Summary:

C. Indicate the Number of Responders Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0		0
E. With Injuries/Illness	0		0
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	0		0
I. Sheltering in Place	0		0
J. In Temporary Shelters	0		0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Responders Affected:	0		0

33. Life, Safety, and Health Status/Threat Remarks:

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):

High temps with low humidity and gusty winds will continue through the week.

34. Life, Safety, and Health Threat Management:

	Active?
A. No Likely Threat	
B. Potential Future Threat	X
C. Mass Notifications in Progress	X
D. Mass Notifications Completed	
E. No Evacuation(s) Imminent

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Extreme fire activity expected with extreme weather conditions.**

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **Threat to twin pines community, critical infrastructure.**

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **Immediate need for type 3 engines, dozers, crews and aircraft**

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

41. Planned Actions for Next Operational Period:

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date:

Incident Status Summary (ICS-209)

Incident: **WOLF**

45. Estimated Incident Costs to Date: \$3,000,000.00
46. Projected Final Incident Cost Estimate:
47. Remarks (or continuation of any blocks above – list block number in notation):
49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
No Data Available

	P. Trail Closure	
	Q. Area Closure	

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:
12 hours: Minimal fire growth expected. Short runs possible as windy conditions will allow interior islands holding heat to burn out.
24 hours: No growth expected. Higher RH and cooler temperatures will start over the next couple days allowing for minimal fire activity.
48 hours: No growth expected. heavy fuels retain heat continue to smolder.
72 hours: No growth expected.
Anticipated after 72 hours: No growth expected.

37. Strategic Objectives (define planned end-state for incident): Keep fire North of Poppet Flats, South of Old Idyllwild Road, East of Road Runner Trail, and West of Wonderview Road. Ensure Safety of all assigned personnel and provide protection to the threatened values at risk.
--

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
12 hours: Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
24 hours: Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
48 hours: Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
72 hours:
Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List
--

Incident Status Summary (ICS-209)

Incident: **WOLF**

resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **No critical resource needs identified.**

24 hours: **No critical resource needs identified.**

48 hours: **No critical resource needs identified.**

72 hours: **No critical resource needs identified.**

Anticipated after 72 hours: **No critical resource needs identified.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

High temperatures, with steep inaccessible terrain are hampering control efforts. The terrain is unsuitable for most Dozer access for direct control methods. Reburn potential and high fire behavior potential require crews to continue securing established lines.

41. Planned Actions for Next Operational Period:

Crews will be identifying opportunities to construct direct control lines and continuing to mop up along established control lines. Further work is required to allow repopulation of evacuated citizens.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: **\$3,000,000.00**

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):
High temps with low humidity and gusty winds will continue through the week.

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours:	Fire is expected to remain within current perimeter. Minimal fire activity expected, primarily smoldering in heavier interior fuels.
24 hours:	No growth expected. Minimal to no fire behavior
48 hours:	No growth expected. Minimal to no fire behavior
72 hours:	No growth expected.
Anticipated after 72 hours: No growth expected.	

37. Strategic Objectives (define planned end-state for incident):
Keep fire North of Poppet Flats, South of Old Idyllwild Road, East of Road Runner Trail, and West of Wonderview Road. Ensure Safety of all assigned personnel and provide protection to the threatened values at risk.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours:	Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
24 hours:	Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
48 hours:	Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
72 hours:	
Anticipated after 72 hours:	

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours:	No critical resource needs identified.
24 hours:	No critical resource needs identified.

Incident Status Summary (ICS-209)

Incident: **WOLF**

48 hours: No critical resource needs identified.												
72 hours: No critical resource needs identified.												
Anticipated after 72 hours: No critical resource needs identified.												
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: <ol style="list-style-type: none"> 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts. High temperatures, with steep inaccessible terrain are hampering control efforts. The terrain is unsuitable for most Dozer access for direct control methods. Reburn potential and high fire behavior potential require crews to continue securing established lines.												
41. Planned Actions for Next Operational Period: Crews will be identifying opportunities to construct direct control lines and continuing to mop up along established control lines. Further work is required to allow repopulation of evacuated citizens.												
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):												
43. Anticipated Incident Containment or Completion Date: 07/07/2025												
44. Projected Significant Resource Demobilization Start Date:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **No critical resource needs identified.**

24 hours: **No critical resource needs identified.**

Incident Status Summary (ICS-209)

Incident: **WOLF**

48 hours: **No critical resource needs identified.**

72 hours: **No critical resource needs identified.**

Anticipated after 72 hours: **No critical resource needs identified.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Control lines are being strengthened throughout the operational period taking advantage of moderated fire behavior. Steep terrain and limited accessibility hamper mop-up operations on remote divisions.

Contingency operations will strengthen control lines. An operational transition to suppression repair will begin on portions of the fire with Damage Inspections Teams to begin operations shortly.

41. Planned Actions for Next Operational Period:

Continued mop- up will continue on all divisions with contingency lines and access improvements to begin bolstering containment. Suppression repair will begin where appropriate and Damage Inspection Team is expected to be in place shortly.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: **\$4,000,000.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

	Q. Area Closure	

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:
12 hours: Fire is expected to remain within current perimeter. Minimal fire activity expected, primarily smoldering in heavier interior fuels.
24 hours: No growth expected. Minimal to no fire behavior
48 hours: No growth expected. Minimal to no fire behavior
72 hours: No growth expected.
Anticipated after 72 hours: No growth expected.

37. Strategic Objectives (define planned end-state for incident): Keep fire North of Poppet Flats, South of Old Idyllwild Road, East of Road Runner Trail, and West of Wonderview Road. Ensure Safety of all assigned personnel and provide protection to the threatened values at risk.
--

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
12 hours: Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
24 hours: Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
48 hours: Threat to the community of Twin Pines. Several threatened and endangered species such as the Stephen's Kangaroo Rat and the Crotch's Bumble Bee are threatened by the fire. Cultural and heritage sites, and critical infrastructure remain threatened. Road closures and evacuations are impacting the economics of tourism and access to recreation.
72 hours:
Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
12 hours: No critical resource needs identified.
24 hours: No critical resource needs identified.

Incident Status Summary (ICS-209)

Incident: **WOLF**

48 hours: **No critical resource needs identified.**

72 hours: **No critical resource needs identified.**

Anticipated after 72 hours: **No critical resource needs identified.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
 1) critical resource needs identified above,
 2) the Incident Action Plan and management objectives and targets,
 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Mop- up on the 243 corridor was completed to allow for planned re- opening by CALTRANS and CHP. Crews are working to complete mop- up operations in all divisions. Contingency operations will strengthen control lines. Suppression repair has begun on portions of the fire, with Damage Inspections Teams to begin operations shortly.

41. Planned Actions for Next Operational Period:

Large scale demobilization continues on the fire. Evacuation Orders and Warnings were significantly modified. Highway and road closures were re- evaluated. Mop- up is progressing interior and is enhancing containment.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date: **07/04/2025**

45. Estimated Incident Costs to Date: **\$4,800,000.00**

Incident Status Summary (ICS-209)

Incident: **WOLF**

72 hours: **No critical resource needs identified.**

Anticipated after 72 hours: **No critical resource needs identified.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Mop- up on the 243 corridor was completed to allow for planned re- opening by CALTRANS and CHP. Crews are working to complete mop- up operations in all divisions. Contingency operations will strengthen control lines. Suppression repair has begun on portions of the fire, with Damage Inspections Teams to begin operations shortly.

41. Planned Actions for Next Operational Period:

Large scale demobilization continues on the fire. Evacuation Orders and Warnings were significantly modified. Highway and road closures were re- evaluated. Mop- up is progressing interior and is enhancing containment.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date: **07/04/2025**

45. Estimated Incident Costs to Date: **\$6,651,578.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

Road graders assigned counted as Dozers for resource count.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **No growth expected. Minimal fire behavior anticipated.**

24 hours: **No growth expected. Minimal fire behavior anticipated.**

48 hours: **No growth expected. Minimal fire behavior anticipated.**

72 hours: **No growth expected. Minimal fire behavior anticipated.**

Anticipated after 72 hours: **No growth expected. Minimal fire behavior anticipated.**

37. Strategic Objectives (define planned end-state for incident):

Keep fire within the current perimeter.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **The majority of early threats to the Twin Pines community and residents immediately adjacent to the fire perimeter have been mitigated. Resources will continue to monitor the situation for changes and are prepared to address any new threats that may arise from the anticipated shift to less favorable weather patterns.**

24 hours: **The incident will begin to transfer responsibility back to the home unit for the purposes of threat mitigation and remaining resources securing the fire perimeter.**

48 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

72 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

Anticipated after 72 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **No critical resource needs identified.**

24 hours: **No critical resource needs identified.**

48 hours: **No critical resource needs identified.**

72 hours: **No critical resource needs identified.**

Anticipated after 72 hours: **No critical resource needs identified.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

Incident Status Summary (ICS-209)

Incident: **WOLF**

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

The current management objective is to contain the fire within its current perimeter to prevent further spread into surrounding areas. This strategy focuses on improving current fire lines where feasible, while prioritizing firefighter safety and resource allocation. At present, no critical resource needs have been identified. Assigned personnel will be monitoring containment lines for hot spots, to achieve full containment without compromising safety or overextending available resources. The steep terrain of the fire area presents operational challenges, limiting access for ground crews and heavy equipment, which slows fire line construction and increases physical risks for firefighters. Incident management is further complicated by the fire's location on tribal lands, which introduces cultural and political sensitivities. The presence of sacred cultural resources and historical sites necessitates careful coordination with tribal authorities to avoid damage, adding complexity to operational planning. Socially, the fire's proximity to tribal communities raises concerns about potential displacement or loss of culturally significant areas, while economically, prolonged firefighting efforts could strain local budgets. Environmentally, the fire threatens local ecosystems, including sensitive habitats.

41. Planned Actions for Next Operational Period:

Large scale demobilization will continue today along with evaluation of evacuation orders and warnings. Mop up and patrol continues to ensure the fire stays within the current perimeter.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"): **2,387**

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date: **07/04/2025**

45. Estimated Incident Costs to Date: **\$6,651,578.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

Five Road graders assigned to the incident are counted as Dozers for in the resource count.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):

28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Minimal Smoldering Narrative: Minimal fire activity observed today.														

Incident Status Summary (ICS-209)

Incident: **WOLF**

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Tall Grass (2.5 feet)
Chaparral (6 feet)
Brush (2 feet)**

Narrative:

Fuels consist of grass with intermixed brush and chaparral. Fine dead fuels are mostly to fully cured. Larger fuels continue to cure as dry and windy conditions persist.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

DINS Teams completed 100% of the inspections on the WOLF incident. The inspections included all structures within the fire perimeter and any structures within 300 feet of the perimeter. The inspections include 15 structures with no damage, 4 parcels that were not accessible. The one other minor structure that was listed as damaged previously was determined to a Nonresidential Commercial Property.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **No growth expected. Minimal fire behavior anticipated.**

24 hours: **No growth expected. Minimal fire behavior anticipated.**

48 hours: **No growth expected. Minimal fire behavior anticipated.**

72 hours: **No growth expected. Minimal fire behavior anticipated.**

Anticipated after 72 hours: **No growth expected. Minimal fire behavior anticipated.**

37. Strategic Objectives (define planned end-state for incident):

Keep fire within the current perimeter.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **The incident will begin to transfer responsibility back to the home unit for the purposes of threat mitigation and remaining resources securing the fire perimeter.**

24 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

48 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

72 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

Anticipated after 72 hours: **No anticipated threat to the public, property or the environment as a whole. The incident will continue to be staffed to take mitigation measures to ensure the incident remains static.**

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **No critical resource needs identified.**

24 hours: **No critical resource needs identified.**

48 hours: **No critical resource needs identified.**

72 hours: **No critical resource needs identified.**

Incident Status Summary (ICS-209)

Incident: **WOLF**

Anticipated after 72 hours: **No critical resource needs identified.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

The current management objective is to contain the fire within its current perimeter to prevent further spread into surrounding areas. This strategy focuses on improving current fire lines where feasible, while prioritizing firefighter safety and resource allocation. At present, no critical resource needs have been identified. Assigned personnel will be monitoring containment lines for hot spots, to achieve full containment without compromising safety or overextending available resources. The steep terrain of the fire area presents operational challenges, limiting access for ground crews and heavy equipment, which slows fire line construction and increases physical risks for firefighters. Incident management is further complicated by the fire's location on tribal lands, which introduces cultural and political sensitivities. The presence of sacred cultural resources and historical sites necessitates careful coordination with tribal authorities to avoid damage, adding complexity to operational planning. Socially, the fire's proximity to tribal communities raises concerns about potential displacement or loss of culturally significant areas, while economically, prolonged firefighting efforts could strain local budgets. Environmentally, the fire threatens local ecosystems, including sensitive habitats.

41. Planned Actions for Next Operational Period:

Mop up and patrol continues to ensure the fire stays within the current perimeter.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"): **2,387**

43. Anticipated Incident Containment or Completion Date: **07/07/2025**

44. Projected Significant Resource Demobilization Start Date: **07/03/2025**

45. Estimated Incident Costs to Date: **\$8,045,731.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

RSO went out of unified command at 15:00 today. The fire will transition back to RRU at 10:00, 07/05/25. Five road graders assigned to the incident are counted as Dozers for in the resource count.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
