# INCIDENT ACTION PLAN ROSA INCIDENT

CA-RRU-122253 PN S73H (1532)

# **OPERATIONAL PERIOD**

8/6/2025

0700

to

8/7/2025

0700

# **Injury Reporting Procedures**

The following information should be relayed to the Communication	ns Unit:
Nature of Emergency:	
Chief Complaint:	
Location of Patient:	
Patient Age:	
Patient Unit ID:	
Point of Contact ID:	
Resource Needs:	
Transportation Requested by: Air Ground	
Point of Pick-Up:	
Lat:	,
Long:	
Is an EMT or Paramedic with Patient: Yes No	

# **All Emergencies:**

Secure the area and identify witnesses for later investigation. Keep accurate log of events.

# **INCIDENT OBJECTIVES (ICS 202)**

1. Incident Name:	2. Ope	rational Period:	Date Fi	rom:	8/6/2025	Date To:	8/7/2025			
ROSA			Time F	rom:	0700	Time To:	0700			
3. Objective(s):										
<u>Leader's Intent</u>										
- Work effectively with cooperative partners t All incident assigned personnel should be p						nd efficient	manner.			
- Professional behavior, conduct timely and e	ffective	communications.	•							
- Personal safety and safety of others, includ	ing driv	ing slowly, safely,	and defer	nsively.						
- Manage fatigue by taking breaks and mainta	ining w	ork rest cycles.								
Management Objectives										
- Provide for emergency personnel and public sa	ifety at a	all times.								
- Protect property, improvements, and infrastruct	ure.									
- Ensure coordinated, timely and accurate releas	se of pul	olic information.								
- Foster and maintain relationships with all coope	erators a	and stakeholders.								
- Protect economic, natural, cultural and heritage	e resour	ces.								
- Maintain fiscal accountability and keep costs or	ommens	surate with values a	t risk.							
- Keep tactics commensurate with consideration of inventoried wilderness and threatened species.										
-										
Operational Objectives		4								
- Keep the fire North of Santa Rosa Mtn										
- Keep the fire South of Pine Smoke Rd										
- Keep the fire East of Bull Canyon Rd										
- Keep the fire West of Palm Canyon Dr										
General Situational Awareness										
5. Site Safety Plan Required?	Yes □	l No ☑

Spot Forecast for Rosa Incident...CAL FIRE

National Weather Service San Diego CA 1234 PM PDT Tue Aug 5 2025

Forecast is based on forecast start time of 0700 PDT on August 05.

If conditions become unrepresentative, contact the National Weather Service.

#### ...HEAT ADVISORY IN EFFECT FROM 10 AM WEDNESDAY TO 8 PM PDT

#### FRIDAY...

#### .DISCUSSION...

Fair weather will continue, but hazy and at times smoky from this and other fires in the region. A warming trend Wednesday will peak Thursday and Friday, before slight cooling this weekend. Winds will be typical late afternoon and early evening breezes from the west and southwest. Humidity will be extremely low during the afternoons, with poor to moderate recovery during the nights. Nights will be warmer and drier on slopes, cooler and more humid in valleys and ravines.

#### .TODAY...

Sky/weather......Mostly sunny (5-15 percent). Haze and smoke through the day.

Max temperature.....Around 95.

Min humidity......7 percent.

Wind (20 ft)......

Slope/valley......Southwest winds 5 to 7 mph. Gusts to 13 mph.

Ridgetop.....Southwest 10 to 15 mph.

Eye level winds.....West winds up to 5 mph.

#### .TONIGHT...

Sky/weather......Clear (0-5 percent). Smoke in the evening, then areas of smoke late in the evening. Haze early in the morning.

Min temperature.....Around 56.

Max humidity......31 percent.

Wind (20 ft)......

Slope/valley......West winds 5 to 7 mph in the evening and overnight becoming light.

Ridgetop.....Southwest 10 to 15 mph.

Eye level winds.....West winds around 4 mph in the evening and overnight becoming light.

FIRE BEHAVIOR FORECAST								
FORECAST NUMBER: 01	TYPE OF FIRE: Wildfire							
FIRE NAME: ROSA	OPERATIONAL PERIOD: August 6, 2025							
DATE ISSUED: August 5, 2025	TIME ISSUED: 1800							
UNIT: CA-RRU	SIGNED: /s/ Alex Giery FBAN (t)							

... Heat advisory in effect from 10 AM today to 8PM Friday...

(See attached Spot Weather Forecast)

**TOPOGRAPHY: Elevations:** 4000'-5000' **Slopes**: 0%-60% (0°- 31° degrees)

#### FIRE BEHAVIOR INPUTS

WEATHER SUMMARY

Fuel Type	Rate of Spread	Flame Length	Spotting Dist.	Fire Dang	ger Indices
If your work area includes -	(CH/HR = FPM)	Feet	Miles	ERC	BI
GR1 Short, Sparse Dry Climate Grass	15 to 30	2 to 3	0.1	98	186
				Predictive s	services area:
SH5 High Load, Dry Climate Shrub	40 to 130	14 to 23	0.4	PSA: SC 11  KENWORTHY RAWS	

#### FIRE BEHAVIOR NARRATIVE

#### **GENERAL:**

Both live and dead fuels are critically dry. Combined with high temperatures and single-digit humidity, fire aligned with wind and/or terrain will spread rapidly and intensely. Poor overnight humidity recovery will allow the fire to continue smoldering and creeping overnight, setting the stage for more active fire behavior during the day. Spotting potential is extreme. The fire has shown resistance to control efforts during established runs. These conditions will continue as present weather pattern persist.

**MAX PIG: 100 PERCENT** 

#### SPECIFIC:

**Branch I-** Fuel and wind will be the primary drivers of fire behavior within Palm Canyon, which can act as a funnel to increase wind intensity and promote rapid fire spread. If an active flaming front develops, anticipate spotting ahead of the main fire. Fire in this area will be highly resistant to control efforts.

**Branch V-** Topographic alignment south of Highway 74 remains the primary concern for rapid fire spread and development. The absence of recent fire history on Santa Rosa Mountain has resulted in large, continuous stands of old-growth redshank, which will support aggressive uphill runs. A thick duff and litter layer beneath the redshank is highly receptive to spotting and will promote fire growth and transition into the brush.

#### AIR OPERATIONS:

Sunrise 06:02 HRS. Sunset 19:41 HRS.

Mostly Clear.

Drift smoke from fires across state may hamper visibility at times.

#### SAFETY:

Be aware of rapid rates of spread in light flashy fuels. Grass crop is cured and highly receptive to ember cast and spot fires becoming established.

# ROSA FIRE HEALTH AND SAFETY MESSAGE

# \*\*\*HEAT ADVISORY\*\*\* \*\*\*HEAT ADVISORY\*\*\*

**INCIDENT** ROSA FIRE CA-RRU-122253

DATE: August 6, 2025

TIME: 0700-0700

#### Major Hazards and Risks:

#### **DRIVING-HYDRATION-FATIGUE**

**Driving:** Drive defensively and make sure you have plenty of clearance when passing on roads. There is no need to speed while enroute or returning from the fire line. If traveling longer distances remain vigilant for civilian traffic near the fire's perimeter.

**Hydration:** Take frequent nutrition and hydration breaks throughout the day. Hydrate with 2 waters to 1 electrolyte drink ratio on hot dry days.

**Fatigue:** Monitor personnel for fatigue and plan accordingly with work assignments. Stay operationally ready for possible new assignments.

**Potential Fire Behavior:** Post lookouts when appropriate and monitor weather. A spot outside the line could result in a dangerous rate of spread. Don't be complacent while mopping up, wear proper PPE.

**Situational Awareness:** Assess your current situation constantly. Take the time to educate your crew on various parts of your division as it relates to the safety message.

Steep Slopes/Rolling Material/Snags: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness while working around trees and snags.

Lookouts, Communication, Escape routes, Safety zones

#### **TAILGATE SAFETY**

- **Safety gear:** Ensure everyone has the appropriate PPE and is using it.
- Accountability: Supervisors know where their crews are at all times.
- **Hydration and Nutrition:** Monitor each other for proper hydration and nutrition.
- **Communication:** Everyone knows the comm plan and follows it.
- **Briefing:** Leader's intent is fully communicated, and safety briefing is provided.
- LCES: They are clear, understandable, and made known to everyone.

#### Planning For Medical Emergencies

Supervisors and all firefighters need to Review your ICS 206 ask and be able to answer the following questions:

#### What are we going to do if someone gets hurt?

• Is there personnel and equipment available to assist?

#### How will we get them out of here?

• What is your best extraction and transport method? Road, helispot, hoist? Primary plan and contingency plan in place?

#### How long will it take to get them to the hospital?

- Will you request air or ground resources?
- Are helicopters able to fly?

# FINANCE SECTION MESSAGE

FINANCE SECTION is located in the last trailer on the right in trailer row.

#### CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- CAL FIRE PERSONNEL make sure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- HIRED EQUIPMENT SUPPLIERS Check in with the Time Unit and drop off your agreements.

#### **DIVISION / GROUP - LINE SUPERVISORS**

Please complete your hired equipment e-shift tickets at the end of each shift.

#### COMP / CLAIMS

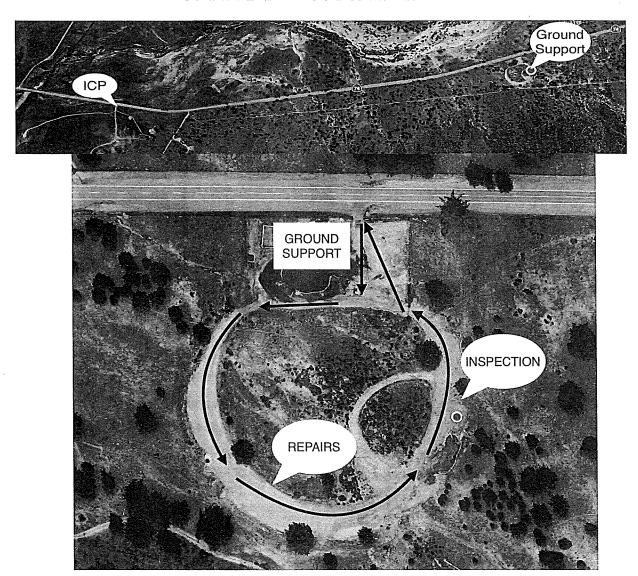

- Damage Claims (suppression, property, vehicle):
  - ICS-213. We will need location, description of damage, and your contact information. Drop off at Finance
- Injuries: no matter how minor, please come see Comps in the Finance trailer, we will have a computer set up for IAPS.

#### **CAL OES REPRESENTATIVE**

• Located in OES Command Unit on trailer row.

Cody Wright, FSC3 Cora Maga-Lafaele, TIME Tim Myers, PROC
