# FIRE WEATHER FORECAST

FORECAST NO: 2  
 PREDICTION FOR: 24 HR SHIFT  
 SHIFT DATE: Aug 21, 2015 @0700  
 TIME AND DATE  
 FORECAST ISSUED: Aug 20, 2015 2000 PDT

NAME OF FIRE: Cuesta Fire  
 UNIT: Los Padres NF  
 SIGNED: Matt Mehle *Matt Mehle*  
 Incident Meteorologist

**WEATHER DISCUSSION:** High pressure will keep the night and morning low clouds in place with excellent overnight recoveries over lower elevations. Above the marine layer conditions will remain very dry during the overnight hours. The general winds will be northerly in the morning and become more westerly in the afternoon with higher gusts. Daytime highs will be seasonably cool with moderate humidities.

**WEATHER FORECAST FOR FRIDAY:** \*\*\*\*HEADS UP FOR ERRATIC/GUSTY WINDS IN CANYONS\*\*\*\*

**WEATHER:** Morning low clouds, especially western slopes and lower elevations. Otherwise, mild and mostly sunny.

**TEMPERATURES:** Max Lower Elevations...76-83F; ridges...74-80F. 24 HR Trend (little change)

**HUMIDITY:** Min Lower Elevation...25-30%; ridges...45-55%. 24 HR Trend (little change)

**SLOPE/VALLEY -** Downslope/downvalley less than 4 mph in the morning becoming Upcanyon / Upslope 5 to 8 mph with gusts to 15 mph. Stronger aligned drainages.

**RIDGETOP-** North to Northeast 4 to 8 mph in the morning becoming west 5 to 10 mph in the afternoon. Gusts 18 mph in the afternoon.

**INVERSIONS/STABILITY:** Morning inversion (1900-2200FT) lifting 930-1030 hrs with clouds dissipating.

**WEATHER FORECAST FOR FRIDAY NIGHT:**

**WEATHER:** Mostly clear in the evening with low clouds and patchy fog developing overnight.

**TEMPERATURES:** Min Lower Elevations...50-57F. Ridge...60-65F.

**HUMIDITY:** Max Lower Elevations...85-100%; Ridges...45-60%  
 (Above 2k ft recover early then drop 20-30%).

**20-FOOT WIND:**

**SLOPE/VALLEY -** Upslope 4 to 8 with gusts to 10 mph in the evening...becoming downcanyon/downslope to less than 5 mph. Locally stronger NW to SE drainages.

**RIDGETOP -** West 5 to 10 mph with gusts to 15 mph in the evening...becoming Northwest less than 4 to 8 mph overnight.

**INVERSIONS/STABILITY:** Marine inversions becoming establishing 1900-2100 with clouds rolling in.

**EXTENDED FORECAST:**

**SATURDAY...** Morning low clouds/fog. Otherwise, mostly sunny. Max temps...mid 70s to mid 80s. Min RH 25-50%. West and southwest winds 5 to 10 mph gusts up to 15. Strongest over ridges and upper slopes.

SUNRISE: 6:27 AM SUNSET: 7:45 PM

## Hourly Weather Observations

Location: Mt. Lowe Road (Div Z/O/Y)  
 Elevation: 2620 ft.

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER 3

FIRE NAME: CUESTA

DATE ISSUED 8/20/15

UNIT CAL FIRE SAN LUIS OBISPO UNIT

TYPE OF FIRE: SURFACE

OPERATIONAL PERIOD : 21 AUGUST 2015 - 24 HOUR

TIME ISSUED 1900

SIGNED 

## INPUTS

### WEATHER SUMMARY

MARINE LAYER 1800-2100 DEEP, BUT ABOVE THE MARINE LAYER WARM AND DRY, ESPECIALLY EARLY EVENING HOURS. SEE ATTACHED SPOT FORECAST

## OUTPUTS

### FIRE BEHAVIOR

#### GENERAL

ALL VEGETATION LAYERS ARE UNDER EXTREME DROUGHT STRESS. ENERGY RELEASE COMPONENT 57 (ABOVE AVERAGE). 1000 HR TIMELAG FUEL MOISTURE = 10% (AVERAGE). FUELS ARE 21 YEARS OLD IN THE FIRE AREA AND THERE IS A HIGH FRACTION OF DEAD FUELS. FIRE CAN REMAIN ACTIVE ANY HOURS OF THE DAY OR NIGHT AND ACTIVITY WILL BE INFLUENCED BY THE LOCATION OF THE MARINE LAYER. PROBABILITY OF IGNITION TODAY AROUND 79-85% AT PEAK HEATING OF THE DAY. LIVE FUEL MOISTURES AT PARKHILL IN CHAMISE 55% OLD, 61% NEW (BELOW AVERAGE).

#### SPECIFIC

##### DIVISION A-D AND DIVISION Z

THESE DIVISIONS HAVE BEEN IN MOP UP MODE FOR TWO OPERATIONAL PERIODS. MOST AREAS ARE LOOKING GOOD. HEAVY FUELS WILL SMOLDER LONG TERM. HIGH PROBABILITY OF IGNITION AND FUELS CONDITIONS WILL MAKE SPOTTING STILL A CONCERN. MAXIMUM SPOTTING DISTANCE UP TO 0.1-0.2 MILES. HEAVY DEAD FRACTIONS WILL PROVIDE PLENTY OF AIRBORNE AND ROLLING FIREBRANDS.

##### DIVISION F

HEAVY FUELS AND STRONG RIDGETOP WINDS HAVE MADE THIS AREA TROUBLESOME THE LAST TWO OPERATIONAL PERIODS, BUT FIRE ACTIVITY IS STARTING TO CALM DOWN. SOME ROLLING MATERIALS WILL STILL EXIST AND PRESENT THE PROBLEM OF ROLLOUT. A SPOT FIRE IN THE GRASS/ BRUSH FUELS COULD MOVE OUT AT 100'/MIN.

##### DIVISION H

NO PROBLEMS ANTICIPATED.

##### DIVISION Y AND DIVISION O

THE MAIN CONCERN IS THE OPEN LINE AND SPOT FIRE IN WATER CANYON. GRASS/BRUSH FUELS ON SOUTH ASPECTS WITH HIGH AMOUNT OF CHAMISE ARE STILL CAPABLE OF HIGH INTENSITY FIRE RUNS. A SPOT FIRE COULD RESULT IN A FIRE MOVING OUT AT 100'/MIN WITH 25' FLAMES. SHORT CROWN RUNS IN PINES ARE POSSIBLE. WINDS IN THE LOWER PART OF THE DRAINAGE ARE TURBULENT AND DIFFICULT TO PREDICT ESPECIALLY AROUND JOSHUA CABIN. MAXIMUM SPOTTING DISTANCE WILL BE 0.8 MILES.

### AIR OPERATIONS:

DRAINAGES AND SLOPES MAY HAVE MARINE INFLUENCE THAT WILL LIMIT VISIBILITY UNTIL 0930-1030.

## SAFETY

- DROUGHT HAS WEAKENED TREES AND THEY COULD FALL WITHOUT WARNING
- IT IS DIFFICULT THIS YEAR TO "BASE ALL ACTIONS ON CURRENT AND EXPECTED BEHAVIOR OF THE FIRE" WHEN ALL FIRES HAVE BEEN DOING VERY UNEXPECTED THINGS. REMEMBER THAT YOUR NORMAL "SLIDE TRAY" OF EXPERIENCES MAY NOT APPLY THIS YEAR.

# **SAFETY MESSAGE**

## **CUESTA**

CA-SLU-008555

AUGUST 21, 2015 0700-0700

### **ENVIROMENTAL HAZARDS**

THE FIRE AS SETTLED DOWN AND 'CRITTERS' ARE BECOMING ACTIVE

#### Watch Out for Bees, Bears and Poison Oak

- Bee hives can become disturbed during suppression repair and mop-up
- Bears and mountain lions have been sighted in the fire area
- Poison Oak is thick in most work areas

#### Mitigation

- Wear PPE to protect skin exposure to poison oak
- Treat skin exposed to poison oak as quickly as possible
- Be on the lookout for uncovering a "sleeping dog"

### **ACCOUNTABILITY**

MANAGERS AND SUPERVISORS RESPONSIBILITY

#### Watch Out

- Complacency
- Fatigue
- Attitude

#### Mitigation

- Monitor physical and mental conditions of personnel
- Ensure personnel take appropriate breaks when performing work assignments
- If it doesn't look right, ask the question, "should I do something about it?"

### **DRIVING/TRAFFIC**

NIOSH FIRE FIGHTER FATALITY DATA PLACES DRIVING AS THE SECOND LEADING CAUSE OF FIRE FIGHTER FATALITIES

#### Watch Out

- Very narrow, steep roads exist throughout the fire area
- High speed traffic on main highway when entering and exiting incident base
- Entering Highway 101 from fire road is hazardous

#### Mitigation

- Use safety and hazard light as needed
- Use caution entering and exiting Camp San Luis
- Maintain safe speeds and don't follow the vehicle in front too close

# INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

<b>1. Incident Name:</b> Cuesta		<b>2. Incident Number:</b> CA-15-SLU-008555	
<b>3. Date/Time Prepared:</b> Date: 8/20/2015      Time: 16:00		<b>4. Operational Period:</b> Date From: 8/21/2015      Date To: 8/22/2015 Time From: 0700      Time To: 0700	
<b>5. Incident Area</b>	<b>6. Hazards/Risks</b>	<b>7. Mitigations</b>	
Div N, Z	Downhill Fireline	Utilize downhill fireline check list (IRPG), Maintain adequate escape routes & safety zones.	
Div. H,Z, F	Under slung Fireline	LCES, 10 Standard Fire Fighting Orders, 18 situations.	
Div. N,O,Y,Z	Indirect Fireline	Brief crews before engage in firefighting, supervisors must provide a briefing on the complexities of working indirect.	
Div. H	Mid-Slope Fireline	Conduct thorough briefing for all personnel. Use Downhill Line Checklist (IRPG p. 8). Establish adequate safety zones (IRPG p.7).	
Div. F, H	Unburned Area	LCES, Utilize worst case scenario when working in or around pockets of unburned fuels.	
Div. ALL	Poison Oak	Wear appropriate PPE. Take quick preventative measures once exposed.	
Div. H,N,O,Y,Z	Steep Terrain	Watch footing, maintain downhill tool placement. Be aware of loose material becoming dislodged.	
Div. D,F, H, N, O, Y, Z	Changes in Wind Direction	Expect the unexpected. Take weather regularly. Maintain situational awareness specific to wind direction changes and increased fire spread.	
Div. A, H, N, O, Y, Z	Poor Communications	Do to the steep river canyons tactical frequencies may or may not work. Preplan a backup relay plan.	
Div. A,O, Y, Z, N, ICP	Routes of Travel; Entering and Exiting Camp; Speed Limit in Camp;	Drive with extreme caution, lights on, slow and expect vehicles from the opposite direction.	
Div. N, Z, O, Y	Slope Reversal Potential	Post lookouts and make escape routes and safety zones know. LCES	
Div. A, F, H, Staging	Train Crossings and parking along railroad tracks in along the fire access	Slow speed when crossing tracks and look both ways. Park at least 50" from railroad tracks	
Div. ALL	Fatigue – Physical and Mental!	Continually monitor crew for fatigue and illness. Take breaks out of the smoke if possible. Know the signs and symptoms. Look out for one another.	
Div. F, H, N, Z, O, Y	Drought Stressed Trees and Snags	Look up! No extended breaks or work under trees. Post a lookout if work under trees is required Remove hazard trees when possible.

Prepared By: (Communications Unit) 

Incident Location: Santa Margarita, San Luis Obispo County California

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and TX reversed.

Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to com205@fire.ca.gov or fax to the local ECC and ask them to email it for you.

## PUBLIC INFORMATION SECTION

# SOCIAL MEDIA POLICY

**Incident Information Line: (805) 543-2444**

**Incident Media Line: (562) 619-7467**

**MEDIA** - The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede mitigation of the incident or the disturbing of evidence.

- The Media is NOT permitted on private property without the property owner's permission.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be direct the questioning party to the incident PIO.
- Do not speculate or give opinions.
- There is no such thing as an "off the record" comment.

**INCIDENT SOCIAL MEDIA POLICY**, – Public agencies, the media, as well as the public are increasingly using social media. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. All resources assigned to this incident will adhere to the Incident Social Media Policy.

There will be no posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Do not post inappropriate pictures or videos
- If you are uncertain, don't post

**PICTURES AND VIDEO OF INCIDENT** – Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and/or photographs, and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo, or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

**LOST AND FOUND** – The Information Section will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information.

**MAIL SERVICE** – The Information Section will assist you in getting items mailed from the incident as well as receiving letters and packages.

## ***TRAINING SPECIALIST MESSAGE***

A Training Specialist is available for trainees on the incident. We are located downtown next to the cloning trailer.

All federal, state and local government agency trainees working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

Remember to register trainees early on and bring your task book with you.

Performance Evaluations will be required to complete the process.

***Training Specialist***  
***Ron Karlen and Steve Hurdle***

# FIRE SUPPRESSION REPAIR & REHABILITATION PLAN

## CUESTA INCIDENT: CA-SLU-8555

August 21, 2015

Agency Contacts: LPF – Kevin Cooper (805-459-4281); CAL FIRE – Alan Peters (805-903-3406)

Fire Suppression Repair (RESP) is the repair of damage resulting directly from fire suppression activities, primarily the construction of control lines. Rehabilitation is closely related and involves mitigation of potential adverse environmental effects from wildfire. Collectively, this effort uses the nickname “Rehab”. The “Rehab Plan” below details the measures necessary to address the mutual concerns of CAL FIRE, which is responsible for SRA, and of the Los Padres National Forest (LPF), which oversees FRA. Site-specific tactics and strategies developed may be different based on each jurisdictions responsibilities and objectives.

### Instructions for suppression repair during mop-up

When operationally feasible, dozer operators and/or hand crews shall install waterbreaks (waterbars) on all dozer lines as well as secondary access roads while performing mop-up operations. Berms taller than 1 foot shall be pulled and spread out to the pre-incident contour.

Scattered trash shall be collected and back-hauled to staging areas, drop points and base camp.

### Inventory and Mapping

Suppression personnel shall note potential rehab needs and report them to the Rehab Group leader. Please collect GPS data and download as soon as possible to the GISS trailer.

### Outside of Wilderness Area Boundary

- Install waterbreaks while crews and dozers are actively onsite on roads, trails, and handlines damaged by fire suppression. Waterbreaks shall have proper angle and open outlets to insure effective drainage. Waterbar spacing should vary depending on slope and proximity to streams.
- Repair fences damaged by suppression efforts.
- Slash from felled trees adjacent to Mt. Lowe Road and main ranch roads shall be chipped or piled for burning.

### Within Wilderness Area Boundary

- Waterbars shall be constructed by hand crews only.
- Document locations of retardant into surface water (Trout Ck, Water Cyn). Notify Rehab Group supervisor.

### Staging Areas/Safety Zones/Helispots/ Drop Points

- Remove debris deposited during suppression activities, including flagging and signs.
- Install waterbreaks.

### Roads

- Abate dust on Mt. Lowe Road and on heavily used ranch roads.
- Re-contour inside ditches on Mt. Lowe Road to ensure proper drainage to concrete cross-drains.
- Clean culverts and drainage facilities plugged with soil and debris deposited during suppression activities.
- Remove outside berms created during suppression activities and incorporate into road surface.

### Watercourses

- All slash, loose soil and debris deposited into watercourses during suppression activities shall be removed and stabilized.

### Archaeological or Historic Sites

- Notify appropriate Archaeologist:
  - LPF – Steve Galbraith (805-729-5587)
  - CAL FIRE – Herb Dallas (951-840-0004)

### Waterbreak/Waterbar/Cross Drain spacing

Line or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Spacing	100'	100'	50'	50'

Waterbreaks shall be cut diagonally with a minimum depth of 6” into existing grade with a 6” berm for a minimum height of 12”. Outlets shall be open and directed into non-erodible material, into the green where feasible.

# CAL FIRE INCIDENT MANAGEMENT TEAM WATER USAGE PLAN

## *California Drought Emergency*

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

### **Fireline personnel-** (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

### **Road Maintenance and Repair-**

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind ect).
- Consider use of tertiary or treated water (sp)

### **Aviation Operations-**

- Use of Gels, Foams and Retardants. Set up portable plants.
- Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

### **Private Water Supplies-**

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

### **Public/ Municipal Water Supplies-**

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

### **Management and Supervision-**

- Use leaders intent and establish Water Conservation as an Management Objective.
- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.
