ORGANIZATION ASSIGNMENT LIST	
1. Incident Name <b>Cuesta Fire</b>	
2. Date 8/21/2015	3. Time 2200
4. Operational Period 8/22/15- 8/23/15 0700-0700	
Position	Name
5. Incident Commander and Staff	
Incident Commander	T. Derum / G. Heming / J. Veik (T) / D. Russell (T)
Deputy	P. Matteson / J. Harris
Safety Officer	B. Stangeland / J. Piccinini
Information Officer	S. Kaufmann
Liaison Officer	M. Bradley / D. Carreiro /
LE Officer	E. Phipps / S. Barney
6. Agency Representative	
County OES	R. Alsop
State OES	J. Clary
Red Cross	R. McMahon
CDCR	Sgt. B. Schnore
CCC	P. Lembke
PG&E	P. Perdeu
7. Planning Section	
Chief	S. Beach / J. Martin (T)
Resources Unit	D. Arbgast / D. Owens / J. Petersen
Situation Unit	E. Scovel / J. Taylor (T) / J. Pearl (T)
Documentation Unit	J. Patterson / J. Arthur (T)
Demobilization Unit	T. McGovern / T. Shevenall
Technical Specialists	
Crew Tech	E. Bakkela
Fire Suppression Repair	A. Peters
Training	R. Karlen / S. Hurdle (T)
GIS	D. Dresselhaus / T. Werle
FBAN	T. Chavez / S. Volmer
Imet	M. Mehle
Archaeologist	H. Dallas
8. Logistics Section	
Chief	J. Crawford / G. Pemberton / R. Ellis (T)
Deputy	D. Pedersen / R. Reynolds (T)
Supply Unit	M. Brandt
Facilities Unit	S. Burris / G. Randar (T)
Ground Support Unit	M. Esparza
Hired Equipment	L. Nielson / N. Daniel (T)
Communications Unit	A. Browne / J. Brooks (T)
Motel Coordinator	D. Muschetto
Medical Unit	J. Winnen / R. Clemens
Food Unit	B. Gillespie / D. Jones

9. Operations		
Chief	B. Weiser (Day Ops) M. Brown (Night Ops)	
Deputy	G. Gonzalez (T)	
A. Branch I -		
Branch Director	Ron Janssen (T)

# FIRE WEATHER FORECAST

FORECAST NO: 3  
 PREDICTION FOR: 24 HR SHIFT  
 SHIFT DATE: Aug 22, 2015 @0700  
 TIME AND DATE  
 FORECAST ISSUED: Aug 21, 2015 2000 PDT

NAME OF FIRE: Cuesta Fire  
 UNIT: Los Padres NF  
 SIGNED: Matt Mehle *Matt Mehle*  
 Incident Meteorologist

**WEATHER DISCUSSION:** *Very little day to day change as onshore flow remains. Night and morning low clouds will be common with excellent humidity recoveries below 2000 ft. Above 2000 ft... recoveries will be moderate to possibly locally poor (<30%) for a few hours. Winds will be gusty during the afternoon and early evening. Temperatures will remain seasonably cool through Saturday, but building high pressure will bring a warming and drying trend on Sunday and early next week.*

**WEATHER FORECAST FOR SATURDAY:** \*\*\*\*HEADS UP FOR ERRATIC/GUSTY WINDS IN CANYONS\*\*\*\*

**WEATHER:** Morning low clouds, especially western slopes and lower elevations. Otherwise, mild and mostly sunny.

**TEMPERATURES:** Max Lower Elevations....76-83F; ridges....73-79F. **24 HR Trend** (little change)

**HUMIDITY:** Min Lower Elevation....30-40%; ridges....45-60%. **24 HR Trend** (little change)

**SLOPE/VALLEY** - Downslope/downvalley less than 4 mph in the morning becoming Upcanyon / Upslope 5 to 8 mph with gusts to 15 mph . Stronger aligned drainages.

**RIDGETOP-** Northerly 4 to 6 mph in the morning becoming west to southwest 5 to 10 mph in the afternoon. Gusts 18 mph in the afternoon.

**INVERSIONS/STABILITY:** Morning inversion (2200-2600FT) lifting 1000-1100 hrs with clouds dissipating.

**WEATHER FORECAST FOR SATURDAY NIGHT:**

**WEATHER:** Mostly clear in the evening with low clouds and patchy fog developing overnight.

**TEMPERATURES:** Min Lower Elevations...50-57F. Ridge....60-65F.

**HUMIDITY:** Max Lower Elevations...85-100%; Ridges...75-90%  
 (Above 2k ft recover early then drop 45-60%).

**20-FOOT WIND:**

**SLOPE/VALLEY** - Upslope 4 to 8 with gusts to 10 mph in the evening...becoming downcanyon/downslope to less than 5 mph. Locally stronger NW to SE drainages.

**RIDGETOP** - West 5 to 10 mph with gusts to 15 mph in the evening...becoming Northwest less than 4 to 8 mph overnight.

**INVERSIONS/STABILITY:** Marine inversions becoming establishing 1900-2100 with clouds rolling in.

**EXTENDED FORECAST:**

**SUNDAY...** Morning low clouds/fog. Otherwise, mostly sunny. Max temps...mid 70s to upper 80s. Min RH 25-50%. West and southwest winds 5 to 10 mph gusts up to 15. Strongest over ridges and upper slopes.

SUNRISE: 6:28 AM SUNSET: 7:44 PM

## Hourly Weather Observations

**Location:** Mt. Lowe Road (Div Z/O/Y)  
**Elevation:** 2620 ft.

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 004	TYPE OF FIRE: SURFACE
FIRE NAME: CUESTA	OPERATIONAL PERIOD: 08/22/15 0700-0700
DATE ISSUED: August 21, 2015	TIME ISSUED: 20:00
UNIT: CAL-FIRE San Luis Obispo CA-SLU-008555	SIGNED: Typed/printed:  Tim Chavez (FBAN) Steve Volmer (FBAN-T)

## INPUTS

### WEATHER SUMMARY:

Morning inversion will cause smoke and haze to linger in the valleys and drainages, lifting by 1100. Temperatures will remain seasonable. The amount of night time Relative Humidity recovery is greatly dependent on location. Areas above the marine layer will see higher temperatures and lower relative humidity after midnight.

**Max. Temperatures** - Lower elev. 76-83 degrees Ridges 73-79 Degrees

**Min. Humidity** - Lower elev. 30-40% Ridges 45-60%

**Winds- Morning:** Downslope/Downvalley 4 mph. Ridgetops Northerly 4-6 mph.  
**Afternoon:** Upcanyon/Upslope 5-8 mph. Ridgetops West/Southwest 5-10 mph gusts to 18 mph.  
**Evening:** Downslope 5 mph. Ridgetops Northwest 4-8mph.

## OUTPUTS

### FIRE BEHAVIOR

#### GENERAL:

- The Eastern divisions, and elevations above 1,800 ft will heat up and dry out first. Watch the Southwest brush slopes to become active should spot fires become established.
- Fires will continue to smolder throughout the early portion of the shift, becoming more active after 1100 when the marine layer burns off.
- Overnight and early morning fire intensity will be dependent on the depth of the marine layer.
- Expect erratic winds in the area to the East of the FAA Radio Facility due to the "Horseshoe" drainage found around the "2400 Mountain", especially in the Joshua Cabin area.

#### SPECIFIC:

**All Divisions: Spot fires outside established containment lines or new starts...**

**Flame Lengths-** Up to 7 ft. in Grass, Up to 20 ft. in Brush, Up to 80ft from the tops of torching trees.

**Rate of Spread-** Up to 40 feet/minute in Grass, Up to 90 feet/minute in Brush

**Spotting Distances-** Up to .5 miles in Grass/Brush, Up to .2 miles from Torching Trees

**Probability of Ignition-** Unshaded Fuels **75%** at the peak of the burn period;

#### AIR OPERATIONS:

Expect clean air by 0900 over the Eastern portion of the fire, the Western side should clear off by 1100. Mixing heights will again rise to 5,000 AGL during peak daytime heating. Anticipate terrain induced turbulence in areas with complex topography around the main drainages.

## SAFETY

**WATCH OUT #13...On a hillside where rolling material can ignite fuel below.**

**The HUMAN factor is a major ignition source. Be aware of your work and parking conditions.**

**Place Look-Outs in areas that can clearly see into drainage bottoms to monitor fire and weather.**

# SAFETY MESSAGE

## CUESTA

CA-SLU-008555  
AUGUST 22, 2015 0700-0700

### ENVIROMENTAL HAZARDS

THE FIRE AS SETTLED DOWN AND 'CRITTERS' ARE BECOMING ACTIVE

#### Watch Out for Bees, Bears and Poison Oak

- Bee hives can become disturbed during suppression repair and mop-up
- Bears and mountain lions have been sighted in the fire area
- Poison Oak is thick in most work areas

#### Mitigation

- Wear PPE to protect skin exposure to poison oak
- Treat skin exposed to poison oak as quickly as possible
- Be on the lookout for uncovering a "sleeping dog"

### ACCOUNTABILITY

MANAGERS AND SUPERVISORS RESPONSIBILITY

#### Watch Out

- Complacency
- Fatigue
- Attitude

#### Mitigation

- Monitor physical and mental conditions of personnel
- Ensure personnel take appropriate breaks when performing work assignments
- If it doesn't look right, ask the question, "should I do something about it?"

### DRIVING/TRAFFIC

NIOSH FIRE FIGHTER FATALITY DATA PLACES DRIVING AS THE SECOND LEADING CAUSE OF FIRE FIGHTER FATALITIES

#### Watch Out

- Very narrow, steep roads exist throughout the fire area
- High speed traffic on main highway when entering and exiting incident base
- Entering Highway 101 from fire road is hazardous

#### Mitigation

- Use safety and hazard light as needed
- Use caution entering and exiting Camp San Luis
- Maintain safe speeds and don't follow the vehicle in front too close

Prepared By (Communications Unit)   
 Austin Browne (COML) John Brooks COML-T  
 Incident Location  
 Santa Margarita, San Luis Obispo County California

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to [com205@fire.ca.gov](mailto:com205@fire.ca.gov) or fax to the local ECC and ask them to email it for you.

## PUBLIC INFORMATION SECTION

# SOCIAL MEDIA POLICY

**Incident Information Line: (805) 543-2444**

**Incident Media Line: (562) 619-7467**

**MEDIA** - The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede mitigation of the incident or the disturbing of evidence.

- The Media is NOT permitted on private property without the property owner's permission.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be direct the questioning party to the incident PIO.
- Do not speculate or give opinions.
- There is no such thing as an "off the record" comment.

**INCIDENT SOCIAL MEDIA POLICY**, – Public agencies, the media, as well as the public are increasingly using social media. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. All resources assigned to this incident will adhere to the Incident Social Media Policy.

There will be no posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Do not post inappropriate pictures or videos
- If you are uncertain, don't post

**PICTURES AND VIDEO OF INCIDENT** – Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and/or photographs, and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo, or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

**LOST AND FOUND** – The Information Section will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information.

**MAIL SERVICE** – The Information Section will assist you in getting items mailed from the incident as well as receiving letters and packages.

# DEMOB

CUESTA FIRE  
CA – SLU – 008555

- Resources must Check-In prior to the Demob process.
- In order to be deemed excess, supervisors must submit an ICS #213 to the Resources Unit.
- Resources report to Demob at the times posted on the tentative Demob list, which is posted around the Incident Base.
- Prior to reporting to Demob, Please return all supplies and equipment.
- Resources will get signatures from the following units:
  - Motels
  - Supply
  - Ground Support
  - Training (If they have a trainee)
  - Communications
  - Documentation
  - Time
  - Demob

**FIRE SUPPRESSION REPAIR & REHABILITATION PLAN  
CUESTA INCIDENT: CA-SLU-8555**

August 21, 2015

Agency Contacts: LPF -- Kevin Cooper (805-459-4281); CAL FIRE -- Alan Peters (805-903-3406)

Fire Suppression Repair (RESP) is the repair of damage resulting directly from fire suppression activities, primarily the construction of control lines. Rehabilitation is closely related and involves mitigation of potential adverse environmental effects from wildfire. Collectively, this effort uses the nickname "Rehab". The "Rehab Plan" below details the measures necessary to address the mutual concerns of CAL FIRE, which is responsible for SRA, and of the Los Padres National Forest (LPF), which oversees FRA. Site-specific tactics and strategies developed may be different based on each jurisdictions responsibilities and objectives.

**Instructions for suppression repair during mop-up**

When operationally feasible, dozer operators and/or hand crews shall install waterbreaks (waterbars) on all dozer lines as well as secondary access roads while performing mop-up operations. Berms taller than 1 foot shall be pulled and spread out to the pre-incident contour.

Scattered trash shall be collected and back-hauled to staging areas, drop points and base camp.

**Inventory and Mapping**

Suppression personnel shall note potential rehab needs and report them to the Rehab Group leader. Please collect GPS data and download as soon as possible to the GISS trailer.

**Outside of Wilderness Area Boundary**

- Install waterbreaks while crews and dozers are actively onsite on roads, trails, and handlines damaged by fire suppression. Waterbreaks shall have proper angle and open outlets to insure effective drainage. Waterbar spacing should vary depending on slope and proximity to streams.
- Repair fences damaged by suppression efforts.
- Slash from felled trees adjacent to Mt. Lowe Road and main ranch roads shall be chipped or piled for burning.

**Within Wilderness Area Boundary**

- Specifications for repair of dozer lines are being developed by READ personnel.
- Document locations of retardant/foam into surface water (Trout Ck, Water Cyn). Notify Rehab Group supervisor.

**Staging Areas/Safety Zones/Helisports/ Drop Points**

- Remove debris deposited during suppression activities, including flagging and signs.
- Install waterbreaks.

**Roads**

- Abate dust on Mt. Lowe Road and on heavily used ranch roads.
- Re-contour inside ditches on Mt. Lowe Road to ensure proper drainage to concrete cross-drains.
- Clean culverts and drainage facilities plugged with soil and debris deposited during suppression activities.
- Remove outside berms created during suppression activities and incorporate into road surface.

**Watercourses**

- All slash, loose soil and debris deposited into watercourses during suppression activities shall be removed and stabilized.

**Archaeological or Historic Sites**

- Notify appropriate Archaeologist:
  - LPF -- Steve Galbraith (805-729-5587)
  - CAL FIRE -- Herb Dallas (951-840-0004)

**Waterbreak/Waterbar/Cross Drain spacing**

Line or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Spacing	100'	100'	50'	50'

Waterbreaks shall be cut diagonally with a minimum depth of 6" into existing grade with a 6" berm for a minimum height of 12". Outlets shall be open and directed into non-erodible material, into the green where feasible.

## ***TRAINING SPECIALIST MESSAGE***

A Training Specialist is available for trainees on the incident. We are located downtown next to the cloning trailer.

All federal, state and local government agency trainees working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

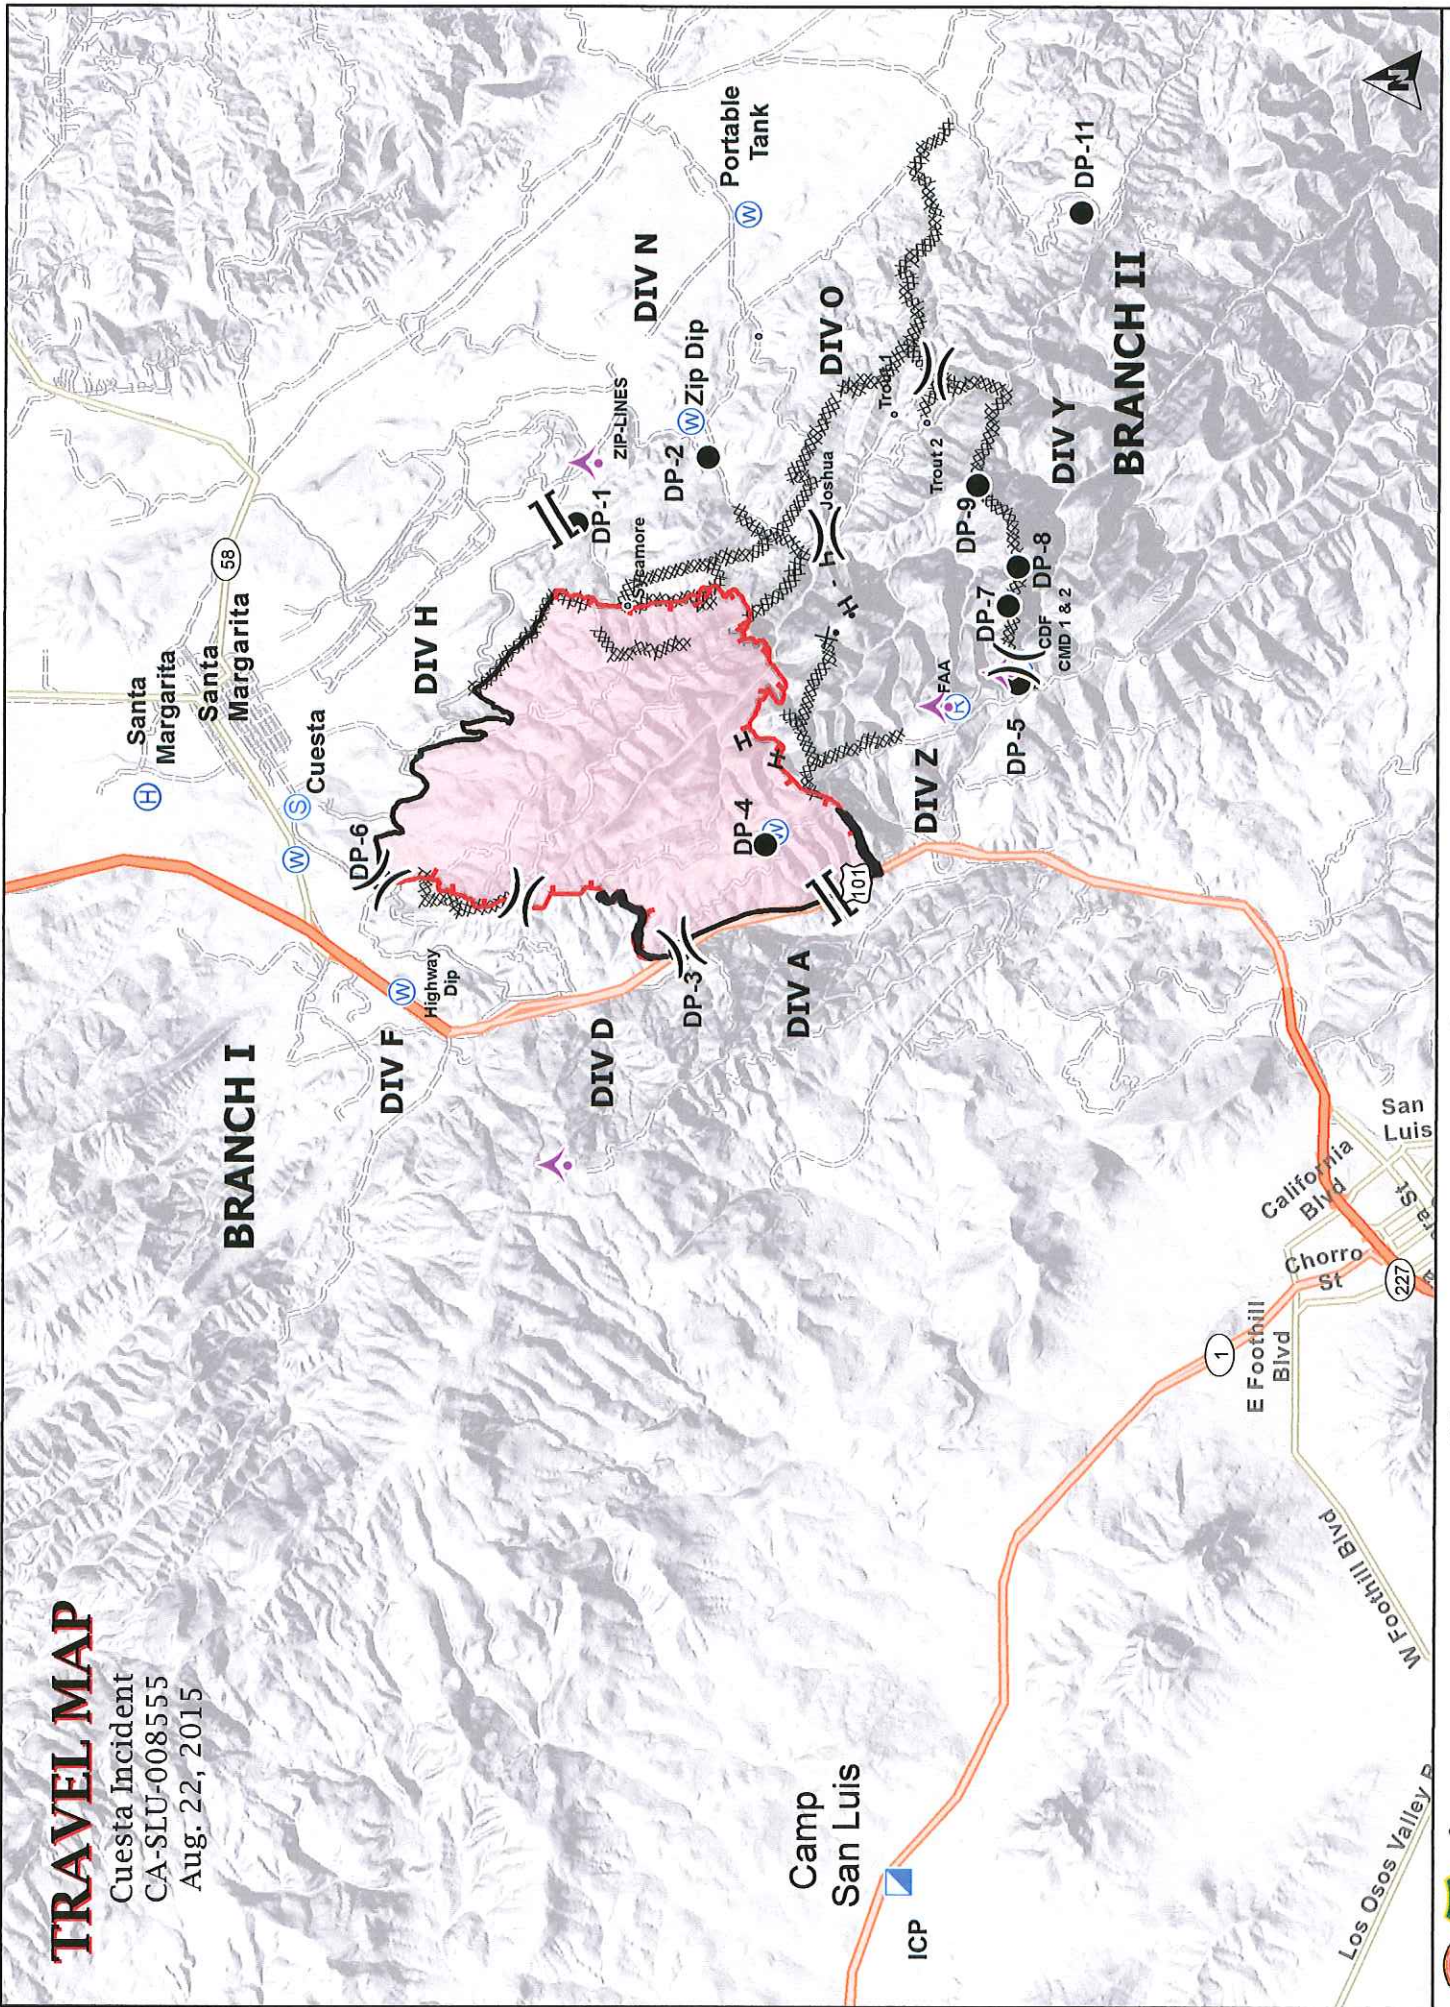

Please make sure you check in to start your training packet. Additionally, check out with us PRIOR to starting the DEMOB process.

Performance Evaluations will be required to complete the process.

***Training Specialist***  
***Ron Karlen and Steve Hurdle***

# CAL FIRE

## INCIDENT MANAGEMENT TEAM

### WATER USAGE PLAN

#### *California Drought Emergency*

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

#### **Fireline personnel-** (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

#### **Road Maintenance and Repair-**

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind ect).
- Consider use of tertiary or treated water (sp)

#### **Aviation Operations-**

- Use of Gels, Foams and Retardants. Set up portable plants.
- Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

#### **Private Water Supplies-**

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

#### **Public/ Municipal Water Supplies-**

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

#### **Management and Supervision-**

- Use leaders intent and establish Water Conservation as an Management Objective.
- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.
