- CORRECTED Goose Fire

CA-FKU-010852
Incident Action Plan
Operational Period
Aug 2nd-Aug 3rd, 2016
0700-0700

INCIDENT OBJECTIVES (ICS 202)

	LIAI ODSECI	1026	7 (100 202)			
1. Incident Name:		Date F	rom: 8/2/2016	Date	To: 8/3/2016	
GOOSE	Period:	Time F	rom: 0700	Time	To: 0700	
3. Objective(s): - Utilize Incident Risk Analysis to identify and mitigate hazardous conditions to provide for responder and public safety throughout the duration of the incident. - Reduce the potential for impacts to natural and cultural resources including the Tree Mortality Area. - Accurately track costs and provide fiscal accountability while ensuring the needs of the incident are met. - Establish and maintain excellent relationships by recognizing the needs of all cooperating agencies. - Safely and effectively repopulate evacuated communities and open travel routes to the affected areas. - Ensure timely and accurate information is provided to the public and cooperators. Control Objectives - Keep the fire north and west of Dry Creek - Keep the fire east of Morgan Canyon Road - Keep the fire south of Highway 168 4. Operational Period Command Emphasis: - Aggressively secure and hold direct line expeditiously.

INCIDENT Weather Forecast

FORECAST NO:

2

NAME OF FIRE: Goose Fire

PREDICTION FOR: 0700 Tues – 0700 Wed

UNIT: FKU

SHIFT DATE:

8/2/16 - 8/3/16

SIGNED: Dan Harty Dan Harty

TIME AND DATE

FORECAST ISSUED: 2000 PDT 8/1/16

Incident Meteorologist

...HOT AND DRY...

WEATHER DISCUSSION:

Strong high pressure remains in control with dry conditions and temperatures a little above normal. Relative humidity will fall into the teens again this afternoon with just moderate overnight recovery. Terrain driven winds will prevail with afternoon and evening westerly breezes. The high pressure area will weaken later in the week as an upper trough moves in from the northwest. This will bring some modest cooling to the fire area but dry conditions will continue.

WEATHER FORECAST for TUESDAY:

WEATHER:

Areas of smoke, otherwise sunny. Afternoon cumulus over the Sierra crest.

MAX TEMPERATURES: 94-100.

MIN HUMIDITY:

15-20%

20-FOOT WINDS:

SLOPE/VALLEY - Variable 1-3 mph in the early morning...becoming westerly upslope/upcanyon

5-8 mph with gusts 12-15 mph after 0900.

RIDGETOP - Northerly 2-4 mph in the early morning... becoming west southwest 7-10 mph.

WEATHER FORECAST for TUESDAY NIGHT:

WEATHER:

Areas of smoke...otherwise clear.

MIN TEMPERATURES: 68-72

MAX HUMIDITY:

40-45%

20-FOOT WINDS:

SLOPE/VALLEY - Westerly 5-8 mph with gusts up to 15 mph in the early evening...then

becoming downslope 2-5 mph after 2100.

RIDGETOP - West northwest 7-10 mph in the evening...becoming northerly 3-6 mph.

<u>OUTLOOK for WEDNESDAY and THURSDAY:</u> Areas of smoke...otherwise clear. Max temperatures 93-99 Wednesday, 90-96 Thursday, lows 65-70. Relative humidity 14-20% in the afternoon with moderate overnight recovery of 40-50%. Slope/Valley winds 5-8 mph with gusts up to 15 mph afternoons becoming downslope 2-5 mph at night. Ridge winds westerly 5-10 mph during the day, light northerly overnight.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 2	TYPE OF FIRE: Wildland Fire
FIRE NAME: Goose	OPERATIONAL PERIOD: 24hr 08/02 (0700-0700)
DATE ISSUED: 08/01	TIME ISSUED: 2000
INDIE ELZI	1 00/

UNIT: FKU SIGNED: Investment of the second o

INPUTS

WEATHER SUMMARY

Strong high pressure continues to dominate the area. Areas of smoke otherwise clear.

MAX Temp: 95-101 deg. Min Relative Humidity: 15% - 18%

20-Foot Winds: Slope/Valley - Variable 1-3 mph in early morning. 5-8 mph with gusts 12-15 after 0900 hrs.

Ridge top – Northerly 2-4 mph in early morning, becoming West 7-10 mph in the afternoon

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Observed fire behavior on Monday 8/1 included creeping ground fire in all divisions and short runs in DIV's M, P & W particularly on the sun exposed ridges. Most of this activity was in the interior portions of the fire where numerous unburned islands exist. Backing fire was challenging retardant and hand line near the P/W break.

The fuels in the area consist of heavy drought stressed brush that is continuous from the ground to dense over story, 20' tall in many places. ERC values are near or at max levels (97th %). The terrain is rugged and steep.

Fire Behavior for Optimal Alignment Receptive Fuels

Fuel Type	ROS (Ft-MIN) Forward	ROS (Ft-MIN) Lateral	FL (Ft)	P(i)G
Grass Group	Slow/Moderate 40-60	Slow 3-5	4-6	93%
High Load Shrub SH5	Slow/Moderate 70-116	Slow 7-8	15-20	93%

SPECIFIC:

All Divisions;

Maintain awareness as post fire hazards have been observed in all divisions.

Divisions A,B & Z;

Little fire behavior expected, any new starts in the area have potential for Moderate rates of spread.

Division M. P:

The fuels in this area are heavy and unburned islands near the fireline may pose challenges to suppression efforts.

Division W:

Fuels in this area contain a high grass load under the brush, fire established in the drainages have potential to make runs into unburned pockets of fuel.

AIR OPERATIONS:

Other than smoke, clear skies with some cumulus to the east.

SAFETY

Fuels are highly receptive to spot fires, post lookouts to monitor for this.

Battling winds were observed from mid slope to the ridge tops yesterday, expect similar conditions today.

Post fire hazards are present - hot ash pits, weakened heavy limbs on oaks and pines and footing hazards.

Goose Incident Safety Message

16-CAFKU-010852 August 2, 2016

Driving (Certain Roads May Open to the Public Today)

- ✓ Narrow roadways, dirt roads, fire impacted roads; insure adequate clearances, use spotters when necessary, use warning lights, drive defensively
- ✓ Seat Belts will be worn at all times
- ✓ Maintain safe speeds and following distances when in the communities and off road

Fuels, Fire Behavior and Weather

- ✓ Fuel moistures are near or at record lows and ERC's at record high levels Potential for rapid fire growth and erratic fire behavior is still present
- ✓ Near Record Temperatures and low humidity, with swirling winds in canyons.
- ✓ <u>Hazard Trees</u> exist throughout the majority of the incident Identify and Flag Do not use any tress for shade Utilize qualified fallers Work only within prescribed parameters! Refer to *IRPG pg. 22-23*

Hydration, Nutrition and Fatigue

- As personnel work more and more shifts on the line and the weather becomes warmer Dehydration can accumulate and sneak up on you. Make sure you are staying hydrated.

 Minimum of ONE QUART per HOUR per person. Plan accordingly.
- √ Take frequent short breaks with small meals or snacks on regular intervals
- Monitor Personnel for Fatigue Consider decreasing intervals for breaks or Increasing time - "This is a marathon; NOT a sprint!"

9. BUILDING FIRELINE DOWNHILL WITH FIRE BELOW

Footing and Rolling Material

- ✓ There is a significant amount of steep and unstable terrain watch your footing and be aware of rolling material!
- ✓ Watch your Step! Avoid Stump Holes and Ash Pits Ground around stump holes can collapse without warning.
- ✓ Wear full PPE while on the fireline.

Communications

Lookouts

Ensure only using assigned frequencies and clone radios for proper program. Ensure communications are clear, concise and understood. Ask to repeat if unsure what was said. Know Leaders Intent at all times.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the KX and IX reversed.

3/2007 Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to com205@fire.ca.gov or fax to the local ECC and ask them to email it for you. ICS 205 Excel

Goose Incident Demobilization Plan CA-FKU-010852 Aug 1st, 2016

Supervisory personnel are to identify resources excess to the needs of the incident at the earliest opportunity. If possible, this should be done within 36 hours in advance of a proposed release by filling out a General Message Form (ICS 213) or Declaration of Excess Resource Sheet. Please include name, request number, date, ETD, ETA, and if available for reassignment. By definition, surplus personnel are available for release if they have met the 2:1 work rest requirements, have rested for a minimum of 8 hours.

Section Chiefs will approve all excess resource lists and the lists will be forwarded to the Resources Unit for processing. Operational resource excess lists shall be prepared by the Planning Section and approved by the Planning Section Chief.

The release priorities are:

- Local Government
- OES
- Hired Equipment
- Cooperating Agencies
- Federal Resources
- CAL FIRE Resources

The needs of the incident and off-incident issues may necessitate the modification of these priorities in certain cases.

Information concerning surplus resources will be forwarded to the Fresno-Kings Unit expanded dispatch by the Demobilization Unit (with ECC Support Team at incident). This information will include the resource name, request number, ETD, and ETA. Additionally, the availability of the resource for a new assignment will be provided.

All government vehicles and hired equipment must be safety inspected prior to release. Safety inspections shall be coordinated with the Ground Support Unit Leader. All deficiencies will be corrected prior to departure for home unless agency head signs a waiver of inspection.

Surplus resources lists will be posted within the ICP and at the Demobilization Unit with a schedule for resources to pick up the checkout form (ICS-221) at the Demobilization Unit and begin the checkout process. Finance will be the final stop prior to returning to the Demobilization Unit. All resources must complete the demobilization process. Once the ICS-221 has been completed and returned in to the Demobilization Unit, the resource will be released from the incident to home, re-assigned to another incident, or held as directed by Southern Region Operations Center (South-Ops).

All Resources will meet any agency-specific and/or DMV rest requirements before demobilizing from the incident. The operator must be rested prior to driving. A resource encountering a delay enroute will contact the appropriate home unit or incident.

FINANCE MESSAGE

Absolutely no offsite feeding is allowed without prior approval!!

CAL FIRE PERSONNEL

Make sure to stop by the Time Unit and start or update your FC-33.

LOCAL GOVERNMENT RESOURCES

Make sure you check in with Cal OES to start your F-42 paperwork.

ALL HIRED EQUIPMENT

Check in with Equipment Time ASAP to drop off your agreement and start your pay document.

ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to Equipment Time daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly.

PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the COMP/CLAIMS Unit Leader.

WATER USEAGE LOG

Please complete for all water taken on the incident and turn completed form in to the COMP/CLAIMS Unit Leader.

<u>All PERSONNEL</u>

The Motel Unit is located in the Finance Section area for room assignments.

CAL FIRE **INCIDENT MANAGEMENT TEAM WATER USAGE LOG**

					/ater Tender:	
QU	JEST #			10.00.00		
	WATER SOURCE LOCATION	Hydrant	Open source i.e. pond	Tank	Gallons Used	Property Owner / Contact Number if known **
-						

This document is intended to track, record and validated the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

CAL FIRE INCIDENT MANAGEMENT TEAM WATER USAGE PLAN

California Drought Emergency

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

Fireline personnel- (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- · Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

Road Maintenance and Repair-

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind ect).
- Consider use of tertiary or treated water (sp)

Aviation Operations-

- Use of Gels, Foams and Retardants. Set up portable plants.
- · Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

Private Water Supplies-

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

Public/ Municipal Water Supplies-

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

Management and Supervision-

- Use leaders intent and establish Water Conservation as an Management Objective.
- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.

PUBLIC INFORMATION

Incident Public Information Line: (925)588-6748

Incident Media Line: (951)703-3815

MEDIA

<u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire
 personnel cannot provide members of the media with authorization to enter private
 property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

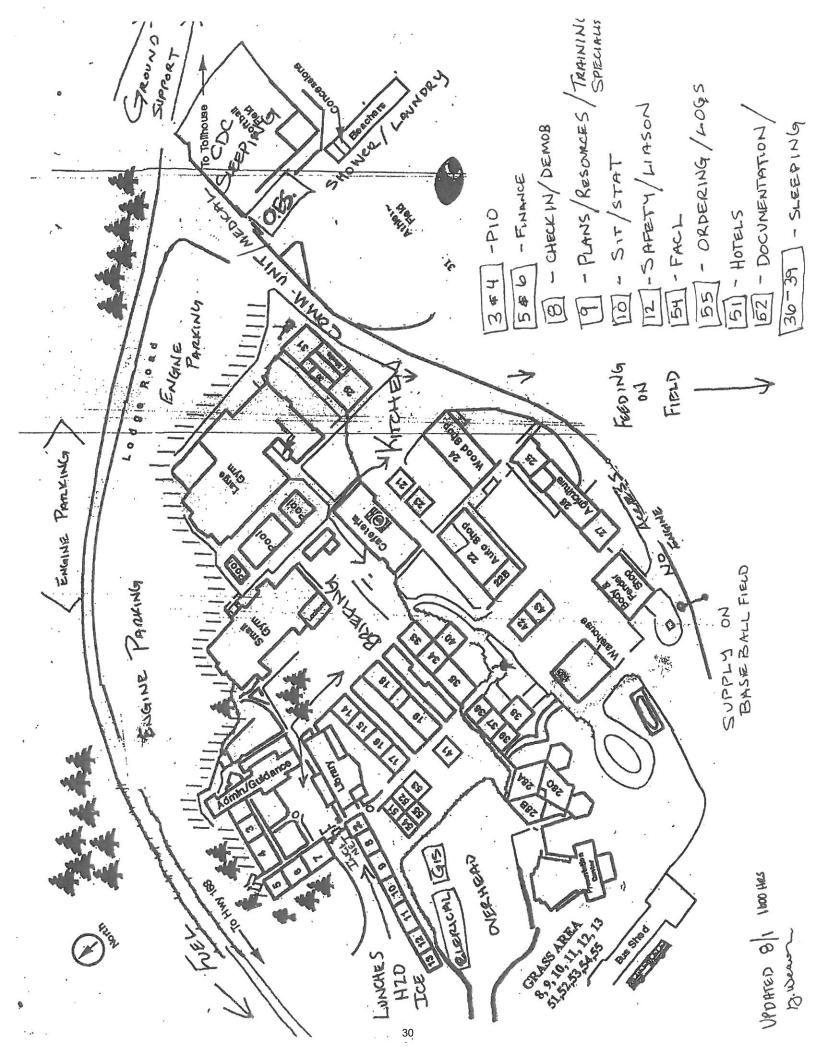

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
