# Goose Fire

CA-FKU-010852

Incident Action Plan

Operational Period

Aug 3<sup>rd</sup>-Aug 4<sup>th</sup>, 2016

0700-0700

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> GOOSE	<b>2. Operational Period:</b>	Date From: 8/3/2016      Date To: 8/4/2016 Time From: 0700              Time To: 0700			
<b>3. Objective(s):</b> <ul style="list-style-type: none"> <li>- Utilize Incident Risk Analysis to identify and mitigate hazardous conditions to provide for responder and public safety throughout the duration of the incident.</li> <li>- Reduce the potential for impacts to natural and cultural resources including the Tree Mortality Area.</li> <li>- Accurately track costs and provide fiscal accountability while ensuring the needs of the incident are met.</li> <li>- Establish and maintain excellent relationships by recognizing the needs of all cooperating agencies.</li> <li>- Safely and effectively repopulate evacuated communities and open travel routes to the affected areas.</li> <li>- Ensure timely and accurate information is provided to the public and cooperators.</li> </ul> Control Objectives <ul style="list-style-type: none"> <li>- Keep the fire within current control lines.</li> </ul>					
<b>4. Operational Period Command Emphasis:</b> <ul style="list-style-type: none"> <li>- Safely and aggressively strengthen control lines with the overall objective of 100% mop up.</li> </ul>

# INCIDENT Weather Forecast

FORECAST NO: 3

NAME OF FIRE: Goose Fire

PREDICTION FOR: 0700 Wed – 0700 Thurs

UNIT: FKU

SHIFT DATE: 8/3/16 – 8/4/16

SIGNED: Dan Harty *Dan Harty*

TIME AND DATE

Incident Meteorologist

FORECAST ISSUED: 2000 PDT 8/2/16

...LITTLE CHANGE TODAY...VERY HOT AND DRY...

**WEATHER DISCUSSION:**

High pressure will still be in control today with temperatures remaining above normal for early August. Dry conditions continue with relative humidity into the teens and only moderate overnight recovery. Diurnal terrain driven winds will prevail with afternoon and evening westerly breezes. A trough of low pressure will begin to move into northern California on Thursday for slight cooling then more cooling on Friday as it moves through. Relative humidity will remain low and terrain driven winds will persist.

**WEATHER FORECAST for WEDNESDAY:**

**WEATHER:** Areas of smoke, otherwise sunny. Afternoon cumulus over the Sierra crest.

**MAX TEMPERATURES:** 95-100.

**MIN HUMIDITY:** 14-20%

**20-FOOT WINDS:**

**SLOPE/VALLEY** - Variable 1-3 mph in the early morning...becoming westerly upslope/upcanyon 5-8 mph with gusts up to 15 mph after 0900.

**RIDGETOP** - North northeast 2-4 mph in the early morning...becoming west southwest 6-10 mph.

**WEATHER FORECAST for WEDNESDAY NIGHT:**

**WEATHER:** Areas of smoke...otherwise clear.

**MIN TEMPERATURES:** 68-72

**MAX HUMIDITY:** 40-45%

**20-FOOT WINDS:**

**SLOPE/VALLEY** - Westerly 5-8 mph with gusts up to 15 mph in the early evening...then becoming downslope 2-5 mph after 2100.

**RIDGETOP** - West northwest 6-9 mph in the evening...becoming north northeast 2-4 mph.

**OUTLOOK for THURSDAY and FRIDAY:** Areas of smoke...otherwise clear. Max temperatures 92-97 Thursday, 87-92 Friday, lows 65-70. Relative humidity 13-20% in the afternoon with moderate overnight recovery of 35-45%. Slope/Valley winds 5-8 mph with gusts to 15 mph afternoons becoming downslope 2-5 mph at night. Ridge winds westerly 5-10 mph during the day, light northerly overnight.

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3	TYPE OF FIRE: Wildland Fire
FIRE NAME: Goose	OPERATIONAL PERIOD: 24hr 08/03 (0700-0700)
DATE ISSUED: 08/02	TIME ISSUED: 2000
UNIT: FKU	SIGNED: 
	Printed: Troy Velin

## INPUTS

### WEATHER SUMMARY

Strong high pressure continues to dominate the area. Clear and Sunny.

**MAX Temp:** 95-100 deg. **Min Relative Humidity:** 14% - 20%

**20-Foot Winds:** Slope/Valley – Variable 1-3 mph in early morning. 5-8 mph with gusts 12-15 after 0900 hrs.  
Ridge top – Northerly 2-4 mph in early morning, becoming West 6-10 mph in the afternoon

## OUTPUTS

### FIRE BEHAVIOR

#### GENERAL:

Minimal fire behavior observed on Tuesday 8/2. Interior smokes persist; threat to the fire perimeter is low.

Today begins a shift in situational awareness to regional fire threat and potential. The air mass is still quite dry and fine dead fuel moistures will be receptive for new starts (PIG 93%). The 100 and 1000 hour fuels have reached critical levels and will aid in fire spread and growth.

7 day significant Fire Potential Outlook for the Sierra Foothills and surrounding areas – Very dry, low to moderate risk of significant fire growth – High risk events such as wind or lightning events are not expected.

#### New Fire Potential With Optimal Alignment

Fuel Type	ROS (Ft-MIN) Forward	ROS (Ft-MIN) Lateral	FL (Ft)	P(i)G
Grass Group	Slow/Moderate 40-60	Slow 3-5	4-6	93%
High Load Shrub SH5	Slow/Moderate 70-116	Slow 7-8	15-20	93%

#### SPECIFIC:

All Divisions;  
Maintain awareness as post fire hazards have been observed in all divisions.

Divisions A,B, Z & M;  
Smokes are well interior on these divisions, low fire behavior expected today.

Divisions P & W;  
Dirty burns and unburned islands near the line should be monitored closely, fire behavior will be low.

#### AIR OPERATIONS:

Clear skies with some cumulus to the east.

## SAFETY

Fuels are highly receptive to new starts.

Post fire hazards are present - hot ash pits, weakened heavy limbs on oaks and pines and footing hazards.

# Goose Incident Safety Message

16-CAFKU-010852

August 3, 2016

## DO NOT GET COMPLACENT, THE DANGER IS STILL THERE

### Driving (Certain Roads Are Open to the Public)

- ✓ Narrow roadways, dirt roads, fire impacted roads; insure adequate clearances, use spotters when necessary, use warning lights, drive defensively
- ✓ Seat Belts will be worn at all times
- ✓ Maintain safe speeds and following distances when in the communities and off road

### Look Up, Look Down, Look Around

- ✓ Be aware of **rattlesnakes** in the area. Watch where you are stepping
- ✓ All power is restored to the fire area. Treat all wires as **energized**.
- ✓ **Hazard Trees** exist throughout the majority of the incident – Identify and Flag – Do not use any trees for shade - Utilize qualified fallers – Work only within prescribed parameters! Refer to **IRPG pg. 22-23**

### Hydration, Nutrition and Fatigue

- ✓ As personnel work more and more shifts on the line and the weather becomes warmer – Dehydration can accumulate and sneak up on you. Make sure you are staying hydrated. Minimum of ONE QUART per HOUR per person. Plan accordingly.
- ✓ Take frequent short breaks with small meals or snacks on regular intervals
- ✓ Monitor Personnel for Fatigue - Consider decreasing intervals for breaks or Increasing time – “This is a marathon; NOT a sprint!”

### Footing and Rolling Material

- ✓ There is a significant amount of steep and unstable terrain – watch your footing and be aware of rolling material!
- ✓ Watch your Step! – Avoid Stump Holes and Ash Pits – Ground around stump holes can collapse without warning.
- ✓ Wear full PPE while on the fireline.

### Communications

- ✓ Ensure only using assigned frequencies and clone radios for proper program. Ensure communications are clear, concise and understood. Ask to repeat if unsure.

Incident Location

General Location of 25130 Highway 94, Potrero, San Diego County CA

Ken Parker, COML 951-217-4482

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the KX and IX reversed.

Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to com205@fire.ca.gov or fax to the local ECC and ask them to email it for you.

# ***TRAINING SPECIALIST MESSAGE***

**A Training Specialist is assigned to the incident.**

**(Located in Plans classroom next to Check-In)**

## ***All Assigned Trainees***

**working on position task books will need to register with the Incident Training Specialist in order to receive proper documentation for your assignment.**

**The Training Specialist is available immediately following the morning Operations Briefing to 1800.**

***Jeremy Lawson***  
**Training Specialist (T)**

**Cell (707) 299-7695**

**Goose Incident**  
**Demobilization Plan**  
**CA-FKU-010852**  
**Aug 1st, 2016**

Supervisory personnel are to identify resources excess to the needs of the incident at the earliest opportunity. If possible, this should be done within 36 hours in advance of a proposed release by filling out a General Message Form (ICS 213) or Declaration of Excess Resource Sheet. Please include name, request number, date, ETD, ETA, and if available for reassignment. By definition, surplus personnel are available for release if they have met the 2:1 work rest requirements, have rested for a minimum of 8 hours.

Section Chiefs will approve all excess resource lists and the lists will be forwarded to the Resources Unit for processing. Operational resource excess lists shall be prepared by the Planning Section and approved by the Planning Section Chief.

The release priorities are:

- Local Government
- OES
- Hired Equipment
- Cooperating Agencies
- Federal Resources
- CAL FIRE Resources

The needs of the incident and off-incident issues may necessitate the modification of these priorities in certain cases.

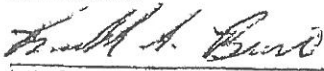

Information concerning surplus resources will be forwarded to the Fresno-Kings Unit expanded dispatch by the Demobilization Unit (with ECC Support Team at incident). This information will include the resource name, request number, ETD, and ETA. Additionally, the availability of the resource for a new assignment will be provided.

All government vehicles and hired equipment must be safety inspected prior to release. Safety inspections shall be coordinated with the Ground Support Unit Leader. All deficiencies will be corrected prior to departure for home unless agency head signs a waiver of inspection.

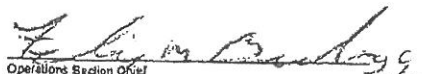

Surplus resources lists will be posted within the ICP and at the Demobilization Unit with a schedule for resources to pick up the checkout form (ICS-221) at the Demobilization Unit and begin the checkout process. Finance will be the final stop prior to returning to the Demobilization Unit. All resources must complete the demobilization process. Once the ICS-221 has been completed and returned in to the Demobilization Unit, the resource will be released from the incident to home, re-assigned to another incident, or held as directed by Southern Region Operations Center (South-Ops).

All Resources will meet any agency-specific and/or DMV rest requirements before demobilizing from the incident. The operator must be rested prior to driving. A resource encountering a delay enroute will contact the appropriate home unit or incident.

APPROVED:

  
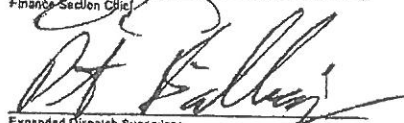

Incident Commander

  
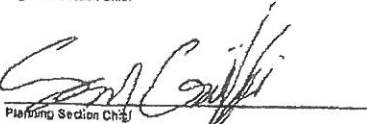

Safety

  
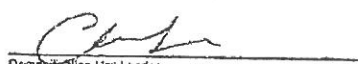

Operations Section Chief

  
Finance Section Chief

  
Logistics Section Chief

  
Expanded Dispatch Supervisor

  
Planning Section Chief

  
Demobilization Unit Leader

# "GOOSE" Incident Fire Suppression Repair Plan

## I. Objectives

The objective of the Suppression Repair Plan is to mitigate possible adverse effects to resources resulting from fire suppression activities on the GOOSE Fire in a manner which does not compromise firefighter safety. The mitigations described within this plan have been developed to apply to constructed fire lines, watercourse crossings, access roads, drop points, heli-spots and any other locations disturbed by fire suppression activities. A Repair Specialist will be assigned to ensure that work is done as required and according to the Emergency Fire Suppression Repair Plan. Additional specialists or equipment may be used if the need arises. Specialists will release equipment from the area when their work is completed.

## II. General Repair Guidelines

### A. Helispots/Staging Areas/Safety Zones

- 1) Re-contour to the original slope as requested by the Repair Specialist.
- 2) Remove soil, and/or breach berms so that runoff can be dissipated. Cross drain these areas to effectively dissipate water runoff.
- 3) Place disturbed vegetation, brush and trees, piled during line construction, on the surface of safety zones and open areas. This may be done with equipment or hand crews.

### B. Roads

- 1) Re-establish existing berms where applicable.
- 2) Breach berms to facilitate drainage, where applicable.
- 3) Clean culverts plugged with soil and rock resulting from fire suppression activities.
- 4) Blading or grading of roads may be necessary.

### C. Firelines; Hand and Dozer

Install waterbars as needed. Waterbars are designed to intercept, slow and spread the precipitation run-off in order to reduce sediment transport and soil erosion. The idea is to move water off the fireline before it can build up enough energy to erode and transport sediment. Re-establish waterbars and rolling dips using pre-fire locations. Flatten berms along fire lines to match natural contours. Utilize cut vegetation for erosion control on steep dozer and hand lines.

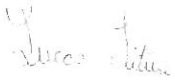

Water Bar or cross drain spacing	0-10%	11-25%	26-50%	>50%
Fireline or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Spacing	200'	150'	100'	75'

### D. Watercourses

- 1) Watercourse crossings shall be dipped to original configuration. Waterbreaks shall be installed on each side of channel to divert flow off of trails prior to entering watercourse channel.
- 2) Remove all soil and debris that was placed in any stream channel. A Repair Specialist will review the site for acceptability. If all foreign material cannot be removed with heavy equipment, the material shall be removed by hand. The approaches to the crossing may be sloped back to prevent future stream bank failure.

### E. Other Repair Concerns

- 1) Remove all trash from fire lines and other affected areas.
- 2) Repair, broken, damaged fences, and/or gates damaged as the result of the fire control operations will be repaired. (Note: Extent and condition of damage should be documented prior to repairs.)

## *GOOSE FIRE INCIDENT*

### *CAFKU 010852*

#### CAL FIRE PERSONNEL

Make sure to stop by the Time Unit to start or update your FC-33.

#### FEDERAL PERSONNEL

Federal Personnel Time Recorders are located in the Time Unit.

#### LOCAL GOVERNMENT RESOURCES

Make sure you check in with Cal OES to start your F-42 paperwork.

#### ALL HIRED EQUIPMENT

Check in with Equipment Time ASAP to drop off your agreement and start your pay document.

#### ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to Equipment Time daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly.

#### PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the COMP/CLAIMS Unit Leader.

#### WATER USEAGE LOG

Please complete for all water taken on the incident and turn completed form in to the COMP/CLAIMS Unit Leader.

# CAL FIRE

## INCIDENT MANAGEMENT TEAM

### WATER USAGE PLAN

#### *California Drought Emergency*

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

#### **Fireline personnel-** (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

#### **Road Maintenance and Repair-**

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind ect).
- Consider use of tertiary or treated water (sp)

#### **Aviation Operations-**

- Use of Gels, Foams and Retardants. Set up portable plants.
- Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

#### **Private Water Supplies-**

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

#### **Public/ Municipal Water Supplies-**

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

#### **Management and Supervision-**

- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.

# PUBLIC INFORMATION

Incident Public Information Line: (925)588-6748

Incident Media Line: (951)703-3815

## MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

## CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

## PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

## LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

## MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
