## Incident Status Summary (ICS-209)

Incident: RYE

<p>COUNTIES THROUGH SUNDAY FOR GUSTY WINDS AND LOW RELATIVE HUMIDITY. An extended period of Santa Ana offshore winds will continue through at least Sunday focused over much of Los Angeles and Ventura Counties. The winds today will be the weakest of the next three days with gusts generally in the 30 to 40 mph range, and more afternoon onshore flow nearer to the coast. The winds should increase Saturday and peak on Sunday with gusts in the 40 to 50 mph range (but still much weaker than Thursday). Meanwhile, minimum relative humidity of 5 to 10 percent will be common through at least the middle of next week, with widespread poor overnight recoveries mostly staying under 30 percent. As a result, critical Red Flag conditions will persist over most of Los Angeles and Ventura Counties through Sunday, with at least elevated fire concerns through next week and a chance for locally critical at times. The east winds over the Santa Barbara Mountains and foothills have weakened, but should increase again over the weekend...and may approach red flag warning conditions. All other areas will remain in elevated fire weather conditions with locally breezy offshore flow and prolonged dry conditions. No rain possibilities over the next 10 days</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 80%;"></th> <th style="width: 20%; text-align: center;">Active?</th> </tr> </thead> <tbody> <tr><td>B. 36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: Direct line construction and mop up will continue.

24 hours: Mop up to ensure the fire remains within the established control lines.

48 hours: The weather is expected to stay dry for the next week, which may hamper mop up efforts.

72 hours: The weather is expected to stay dry for the next week, which may hamper mop up efforts.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Keep the fire within the established control lines.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: Minimal fire activity is expected.

24 hours: Minimal fire activity is expected.

48 hours: No fire activity is expected.

72 hours:

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: None

24 hours: None

48 hours: None
