afternoon through Monday but remain breezy at times. Some onshore flow is likely late Sunday afternoon but low confidence on timing and a real event. Relative humidity will remain very dry with poor overnight recovery. Warm conditions will change very little. The current Red Flag Warning may be extended through Monday afternoon.

- 36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:
- 12 hours: Mop up to ensure the fire remains within the established control lines.
- 24 hours: Mop up to ensure the fire remains within the established control lines.
- 48 hours: The weather is expected to stay dry for the next week, which may extend mop up efforts.
- 72 hours: The weather is expected to stay dry for the next week, which may extend mop up efforts.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Keep the fire within the established control lines.

- 38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
- 12 hours: No fire activity is expected.
- 24 hours: No fire activity is expected.
- 48 hours: No fire activity is expected.
- 72 hours:

Anticipated after 72 hours:

- 39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
- 12 hours: None
- 24 hours: None
- 48 hours: None

#### Incident: RYE

72 hours: None

Anticipated after 72 hours:

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

The fire is down in the Santa Clara Riverbed and requires extensive mop up operations.

41. Planned Actions for Next Operational Period:

Continue to mop up to ensure the fire remains within the established control lines. Fire will transition back to the LA County Fire Department Type 3 IMT on 12/10/17 at 0900 hours.

- 42. Projected Final Incident Size/Area (use unit label e.g., "Acres", "Square Miles"): 6,049
- 43. Anticipated Incident Containment or Completion Date: 12/15/2017
- 44. Projected Significant Resource Demobilization Start Date: 12/09/2017
- 45. Estimated Incident Costs to Date: \$6,090,346.00
- 46. Projected Final Incident Cost Estimate:
- 47. Remarks (or continuation of any blocks above list block number in notation):

Single day 209 entry will begin on Monday 12/11/17 at 1800 hours with the expectation of the Final 209 on Tuesday 12/12/17 at 1800.

# 49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
