FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 18	TYPE OF FIRE: Wild Fire

DATE ISSUED: 12/22/17	TIME ISSUED: 1800

INPUTS

WEATHER SUMMARY: Continued Vey Dry
Temps: Day 64-73 Front Country/ 60-64 Ridges-Upper slopes Night 44/50 Front 30/35 Ridges

Winds: Mainly slope driven 3-9mph with gusts 13mph

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels in the fire area remain critically dry. With the short days and lack of significant winds no forward fire progression is expected. With two days of poor RH recovery, expect to see more visible smoke in the fire perimeter.

Areas with the most potential for fire spread are those areas with continuous one hour (grass/needle cast) fuels. Identify these areas in your assigned work location.

Spotting is not expected but check areas were rollout could challenge containment. Pig 70%

SPECIFIC:

Ventura Zone/Branch II

No forward fire spread is expected. Heat remains in Bear Haven and expect to see some smoke in this area. Heat also remains in the Cherry Creek drainage. With the incomplete consumption of fuels from the previous burning there is a potential for reburn but it is low. Pockets of timber will continue to hold fire and some torching should be expected.

Santa Barbara Zone/Branch X

No forward fire progression is expected in the Santa Barbara Zone. Expect to see some interior pockets of smoke but no fire will challenge containment.

No significant fire activity expected tonight in the absence of wind.

AIR OPERATIONS: Clear Skies and minimal winds, VFR conditions

SAFETY

Remember tragedies often occur on quiet sections of line! There is still heat out there.

Safety Message
December 23, 2017**

Operational Tempo!

- Transition Day
- Holiday traffic
- **Minimal fire activity**
- Warmer and dryer weather

Some possible mitigation:

- Take extra time to assure that everyone has the same understanding of leader's intent and work instructions.
- Closely review the Weather and Fire Behavior Forecast.
- Risk -vs- Gain, is the assignment safe and worth the exposure
- Beware of complacency keep your head in the game.
- If fire behavior picks up, take your spot weather for trends.
- Think LCES, if one piece is missing, should you engage?
- Drink water with other electrolyte drinks, you are working at an elevation where dehydration can cloud your decision-making process.
- Every shift can be dynamic, be prepared for changes, what you planned may not work, have "plan B" thought out and be pro-active.
- Are you prepared for a Medical Emergency? Review your 9-line
