**Spot Forecast for Thomas Fire SB**

Los Padres NF National Weather Service Los Angeles/Oxnard CA 1216 PM PST Sun Jan 7 2018

Forecast is based on request time of 0700 PST on January 08.

If conditions become unrepresentative...contact the National Weather Service.

**...FLASH FLOOD WATCH IN EFFECT FROM MONDAY EVENING THROUGH TUESDAY EVENING...**

**...HIGH WIND WATCH IN EFFECT FROM MONDAY AFTERNOON THROUGH TUESDAY MORNING...**

DISCUSSION...The latest forecast still indicates a significant winter storm for the area early this week. On Monday, light to locally moderate rain will develop over the area. For Monday night and early Tuesday morning, a strong cold front will sweep across the area, bringing moderate to heavy rain and isolated thunderstorms. Behind the front, a moist and unstable air mass will generate widespread showers and isolated thunderstorms through the day Tuesday.

Rainfall totals with this storm are expected to range from **3-6 inches** across much of the burn area. Hourly rainfall rates Monday night and early Tuesday morning are expected to range between **0.50 and 1.00 inches** with the heavier rain associated with the cold front. However during the day on Tuesday, any showers or thunderstorms that develop will still be capable of producing such hourly rainfall rates. So, there will be the high likelihood of mud and debris flows in and around the burn area.

Snow levels will remain rather high on Monday, but will drop to between 5000 and 5500 feet on Tuesday. So, some the higher peaks across the burn area could receive some accumulating snow on Tuesday.

Along with the precipitation, gusty southeasterly winds are expected with the strongest winds Monday night and Tuesday morning. Wind gusts up to 55 MPH can be expected along the ridges with gusts to around 40 MPH at lower elevations.

**MONDAY...**

Sky/weather.....Rain developing.

Max temperature.....56-62 low elevations...48-56 higher elevations.

Min humidity.....55-70 percent.

Eye level winds.....Southeast to south 3-6 MPH increasing to 6-12 MPH  
Gust 20 MPH in the afternoon.

Wind (20 ft).....

Slope/valley.....Southeast to south 6-12 MPH increasing to  
10-18 MPH Gust 25 MPH in the afternoon.

Ridgetop.....South to southwest 10-15 MPH Gust 25 MPH  
becoming southeast 12-20 MPH Gust 35 MPH in  
the afternoon.

**MONDAY NIGHT...**

Sky/weather.....Rain, heavy at times. A slight chance of  
thunderstorms overnight.

Min temperature.....46-52 low elevations...40-46 higher elevations.

Max humidity.....90-100 percent.

Eye level winds.....Southeast 8-15 MPH Gust 25 MPH increasing to  
12-20 MPH Gust 38 MPH overnight.

Wind (20 ft).....

Slope/valley.....Southeast 12-20 MPH Gust 30 MPH increasing to  
15-25 MPH Gust 45 MPH overnight.

Ridgetop.....Southeast 15-25 MPH Gust 45 MPH increasing to  
20-35 MPH Gust 60 MPH overnight.

**TUESDAY...**

Sky/weather.....Rain, heavy at times, turning to showers.  
Slight chance of thunderstorms. Snow level  
lowering to 5000-5500 feet.

Max temperature.....52-58 low elevations...42-52 higher elevations.

Min humidity.....70-90 percent.

Eye level winds.....Southeast to south 8-15 MPH Gust 25 MPH becoming  
southwest 6-12 MPH Gust 20 MPH.

Wind (20 ft).....

Slope/valley.....Southeast to south 15-25 MPH Gust 40 MPH becoming  
southwest 8-15 MPH...Gust 25 MPH in the afternoon.

Ridgetop.....Southeast 15-30 MPH Gust 50 MPH becoming south  
to southwest 15-25 MPH Gust 40 MPH.

# **SAFETY IS OUR FIRST PRIORITY**

Fire fighter safety comes first on every incident, every time

**Incident: Debris/Flood Response**

**Date: January 8**

**Shift: 0800-0800**

## **Hazards and Risks:**

- **Driving:** Stay alert traveling To, On and FROM Incident. Scout wet/ muddy areas before driving through. Reduce speeds during heavy rains.
- **Debris Flow:** Identify Flow paths, Escape Routes and Safety Zones. Do not attempt to cross roads with deep moving water.
- **Downed Electrical Lines/ Electrical Hazards:** Identify and notify all personnel of electrical hazards in flood area
- **Environmental Hazards:** Prepare for cold/wet conditions.
- **Heavy Equipment Operations:** Ensure communications are established with operators. Give proper spacing while working near equipment.
- **PPE:** *Use proper PPE including PFD's as needed.*

### **Safety Thought**

If you see something.....SAY SOMETHING!

If it doesn't "Feel" right, it probably isn't right.

"If its PREDICTABLE, its PREVENTABLE". Remain focused on LCES.

**Date & Time Prepared: January 7, 2018-1800    Operational Period: January 8-9, 2018**

**Prepared by: Dave Baker SOF3**

# Debris Flow/Flood Response Plan

## Incident Risk Analysis (215a)

Div.	LCES Analysis of Tactical Applications (Hazardous Actions or Conditions)	LCES Mitigations/Warnings/Remedies
All	Vehicle Operations in Inclement Weather	<ul style="list-style-type: none"> <li>~ Be alert for potential muddy and slick road surfaces &amp; out sloped roads.</li> <li>~ Avoid parking on soft shoulders along roads.</li> <li>~ Stay off secondary roads in wet conditions.</li> <li>~ Increase following distance on slick road surfaces.</li> <li>~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts).</li> <li>~ Headlights ON.</li> <li>~ Send a scout to evaluate roads and work area prior to personnel engagement.</li> </ul>
All	Communications	<ul style="list-style-type: none"> <li>~ Know and Understand Communications Plan</li> <li>~ Set up Human Repeaters to relay messages as needed?</li> <li>~ Keep messages short and direct</li> </ul>
All	Downed electrical lines / electrical hazards	<ul style="list-style-type: none"> <li>~ Be alert for downed power lines in and around flood areas.</li> </ul>
All	Swift rising or moving water	<ul style="list-style-type: none"> <li>~ Do not walk through moving water, use PFD while operating in hazard areas.</li> </ul>
All	Underwater obstructions and hazards	<ul style="list-style-type: none"> <li>~ Be aware of surroundings and if swept away: feet first, head up, arms out, and move towards shore if at all possible.</li> </ul>
All	Environmental Hazards	<ul style="list-style-type: none"> <li>~ Cold Weather, Hazardous plants, Animals, Insects, Mold</li> </ul>
All	Steep/Unstable Terrain	<ul style="list-style-type: none"> <li>~ Ensure secure footing. Keep appropriate spacing when using chains saws and other tools.</li> <li>~ Rain can loosen soils and cause an increase in trees and debris to fall onto roadways.</li> <li>~ Scout prior to committing resources to work assignments</li> </ul>
All	Hazard Trees	<ul style="list-style-type: none"> <li>~ Green Trees &amp; Fire weakened trees continue to be a threat</li> <li>~ Scout for aerial hazards prior to engagement to ensure a safe work area</li> <li>~ Look up, down and around for Hazard Tree indicators. Info on pg 22 IRPG</li> <li>~ Post lookouts, or use a spotter in areas with personnel.</li> <li>~ Don't park vehicles or take breaks in high concentrations of hazard trees.</li> </ul>
All	Working with Heavy Equipment	<ul style="list-style-type: none"> <li>~ Stay at least 100' in front and 50' behind the equipment Avoid working below equipment. Make eye contact with operator: blade down, idle down, before approaching.</li> </ul>
All	Personal Protective Equipment	<ul style="list-style-type: none"> <li>~ ALL Personnel are reminded to wear proper PPE. Consider PFD when working in water. Insure PPE is compatible with hazards and risks</li> </ul>
All	Cold Weather	<ul style="list-style-type: none"> <li>~ Carry extra clothing to prevent hypothermia following shift.</li> <li>~ Dry out gear each night/day for next day.</li> <li>~ Watch footing on wet ground.</li> <li>~ Maintain personal hydration.</li> <li>~ Monitor wind-chill and establish trigger points for disengagement.</li> </ul>
ICP	Hygiene	<ul style="list-style-type: none"> <li>~ Wash Hands prior to eating and after using the toilet facilities. Clean out ice chests with soap, bleach &amp; water.</li> </ul>
