Spot Forecast for XSB January Storms...CAL FIRE

National Weather Service Los Angeles/Oxnard CA 228 PM PST Fri Jan 19 2018 If conditions become unrepresentative...contact the National Weather Service.

...WIND ADVISORY IN EFFECT UNTIL 10 PM PST SATURDAY...

DISCUSSION...A weak storm system will continue to move across the area through Saturday morning. There is a very low chance of rain for the incident area through early Saturday, but any rainfall if it occurs will be very light. Gusty north winds are expected through late Saturday morning, with gusts up to 35 mph near the incident location, with stronger gusts likely in the higher terrain above Montecito. The winds will begin to subside Saturday afternoon, and will shift to the northeast late Saturday night. Weak onshore winds are expected Sunday afternoon as another weak storm system approaches the area. Colder temperatures will move into the area tonight, and will linger through the weekend. Overnight lows are expected to drop into the lower 40's, with daytime highs in the low 60's.

The next storm system will brush the Central Coast late Sunday night through Monday, with a 10 percent chance of rain for the incident location Monday daytime. Another weak storm system will cross the area midweek, with rain chances for southern Santa Barbara County Wednesday night through Thursday afternoon.

SATURDAY...

. .

Sky/weather.......Mostly sunny. Chance of pcpn.....5 percent. Max temperature.....61-63. Min humidity.......38-43 percent.

Surface winds......North winds 12 to 20 mph with gusts to 30 mph, becoming 8 to 15 mph with gusts to 25 mph in the afternoon. North winds gusting to 40 mph in the hills in the morning.

SATURDAY NIGHT...

Sky/weather......Mostly clear becoming partly cloudy.

Chance of pcpn.....0 percent.

Min temperature.....40-45.

Max humidity......75-80 percent.

Surface winds......North winds 10 to 15 mph with gusts up to 23 mph in the evening. becoming northeast 8 to 15 mph after midnight.

SAFETY MESSAGE

Personal hygiene first, last and always

- · Limit exposure to hazardous areas.
- Use PPE and Decontamination resources on incident
- High winds will compromise weakened trees.
- Trees may fall with no warning.
- Watch for changing road conditions. Roads may become slick with mud.
- Multiple operations are occurring on the incident. Communicate accordingly.
- Treat ALL power lines as if energized. Beware of natural gas line hazards.
- Understand the plan for the day and your role in that plan.
- Use caution when working with heavy equipment.
- Assure your crew gets a briefing from your supervisors.

Dave Baker Safety Officer DANS FAKER

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES							
ALL	PERSONNEL SAFETY/HYGIENE	 All personnel are responsible for their personal safety. Be sure to wear all required PPE while on assignment. Wash hands prior to eating and after using the facilities. Decontaminate personnel protective equipment after your shift. 							
ALL	SEARCH and RECOVERY OPERATIONS	 Do not get complacent. Pace yourself and your crew for the work assignment. Watch your footing, be cautious of slips, trips and falls. 							
ALL	HAZARDOUS TREES	 Follow Hazard Tree Safety Guidelines (IRPG p. 22). Many of the trees within the inundation zone and along roadway may be compromised. 							
ALL	DRIVING HAZARDS	 Be alert for potential muddy and slick road surfaces. Evaluate bridges for structural compromises. Slow down to reduce dust production. 							
ALL	AIRCRAFT AWARENESS	 Be aware of unmanned aircraft (Drones) flying within your division. Communicate with operators as necessary Monitor assigned aircraft frequencies. 							
ALL	HEAVY EQUIPMENT	 Review Working with Heavy Equipment (IRPG p.80) Stay at least 100 feet in front and 50 feet behind the equipment. 							
ALL	POWER LINES/UTILITIES	 Follow Power Line safety guidelines (IRPG pg.24) Treat all downed power lines as energized. Identify and avoid natural gas lines. 							
ALL	HAZARDOUS STRUCTURE	 Follow Structure Size Up (IRPG p.13). Be aware of propane tank and natural gas hazards. Scout areas prior to committing resources to work assignments. Void spaces (pools and wells) may be hidden by mud and debris. 							
ALL	FATIGUE	 Monitor incoming and outgoing resources for level of fatigue. Provide sufficient rest during the work cycle. 							
ALL	TRAFFIC HAZARDS	 Watch for utility vehicles in your areas. Keep apprised of road closures in the area. Be aware of missing street signs 							
ALL	HYDRATION	 Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others. 							
ALL	COMMUNICATIONS	Check the communication plan for frequency assignments.							
ALL	BRIEFINGS	 Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214. 							
ALL	LCES	Ensure that LCES is being utilized.							
ALL	DEBRIS FLOWS	 Work within your current training and qualifications. Watch for shifting material.

DEMOBILIZATION MESSAGE 2018 XSB January Storms CA-MTO-000071

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

PUBLIC INFORMATION SECTION

Area: 30 Square Miles	Containment: N/A						

Updates

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

10010

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy <a href="https://example.com/here/beauty-section/en-align: reference-based-section-based

Social Media

PHOTOGRAPHS AND VIDEOS OF INCIDENT — We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

FINANCE SECTION MESSAGE

All Finance functions will continue to operate in Warren Hall during the weekend.

All Local Government Resources, continue to check in with the CAL OES Representative in Warren Hall.

Please make sure all injuries, no matter how minor, to the Comp Claims Unit and Medical Unit.

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit.

Shift tickets need to be completed by agency personnel / line supervisors only.

Absolutely no off site feeding or purchases charged to the incident. These will be approved on a case-by-case basis by the Logistics and Finance Section Chief's.

Roger F. Raines Jr., FSC1, IMT3

Terry Eastwood, Deputy FSC1

Critical Incident Stress Management (CISM)

Information Sheet

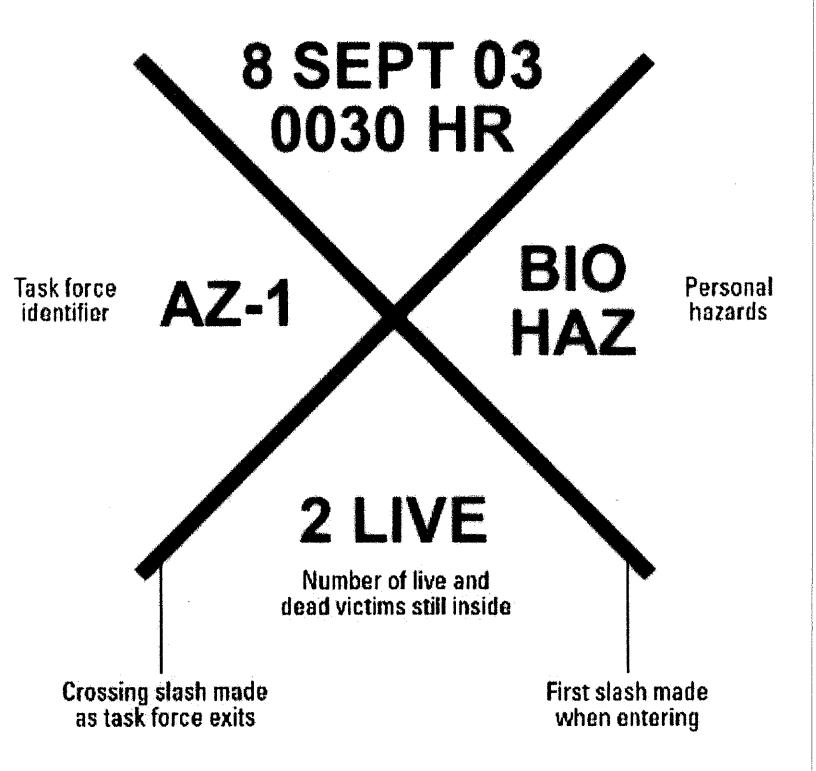

Stress is a normal part of every significant job. At different times during your career with the Department, your level of stress may reach a significant or critical point. An acute stress reaction is frequently related to a specific unusual event (death of a co-worker, multi-casualty incident, severe dismemberment or disfigurement of a victim, death of a child, personally knowing or relating to the victim, etc.) A delayed reaction may happen days, weeks, and/or years after an event. This typically occurs after you are re-exposed or "triggered" by a similar sight, sound, smell, taste, touch, or situation. Cumulative stress is the buildup of stress over time and/or when you are experiencing significant amounts of stress simultaneously in your life. This buildup may eventually reach a critical mass resulting in a stress reaction.

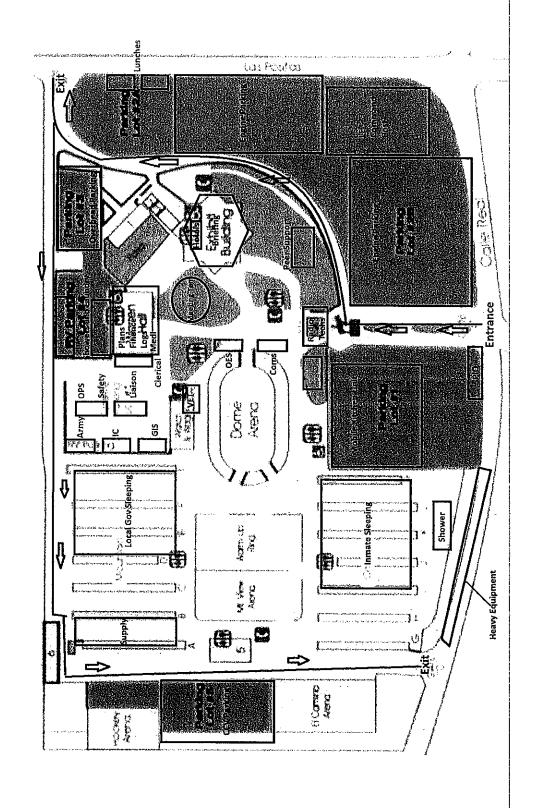

A stress reaction is an important signal - it is your body's way of coping with the temporary state of being overwhelmed by a situation. The duration of symptoms (hours, days, weeks or months) depends on your personal circumstance. However, once properly addressed, most acute stress reaction will significantly lessen within 24-72 hours and a thoughtful combination of stress management strategies will lessen the impact of most situations.

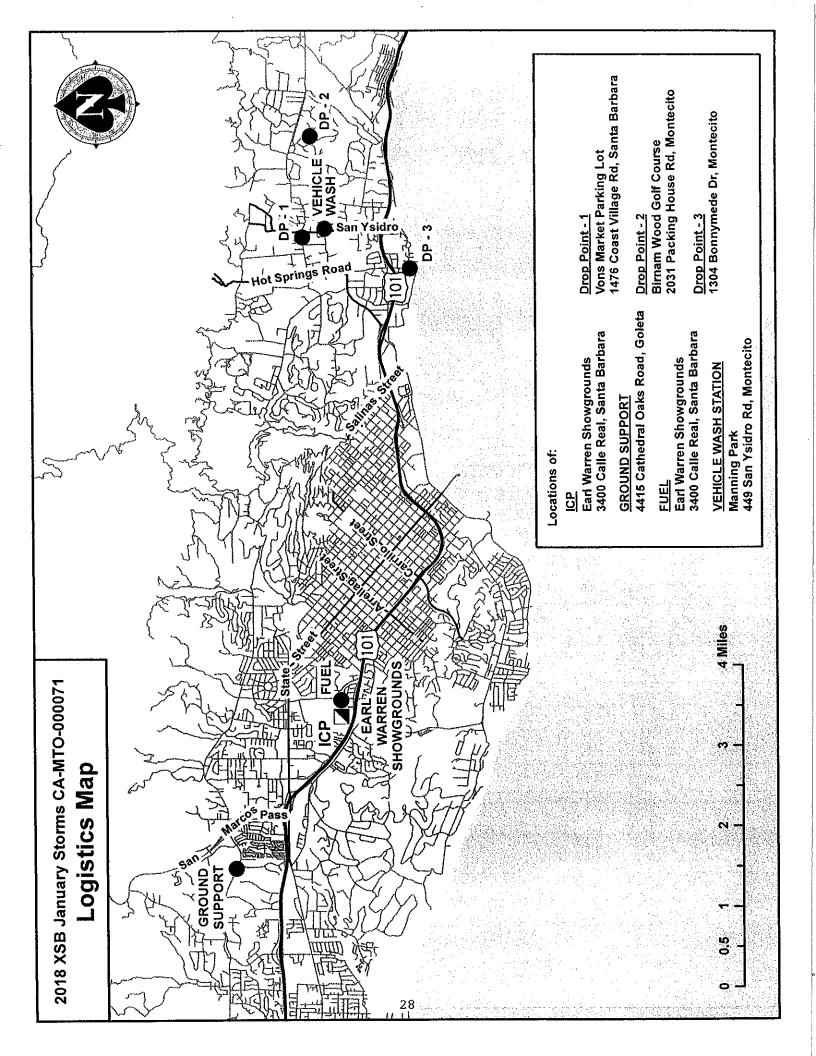

Some common signs and symptoms of a stress reaction are:

<u>Physical</u>	<u>Cognitive</u>	<u>Emotional</u>	<u>Behavioral</u>
Rapid Heart Rate Elevated BP Increased Respirations Profuse Sweating Nausea Dizziness Muscle Tremors Twitches Head Aches Thirst Chills Fatigue Muscle Weakness Grinding of teeth Fainting *Chest Pain Difficulty Breathing *Shock Symptoms *Needs Immediate Medical Attention	Poor and/or impaired Concentration Problem Solving Attention Decision Making Abstract Thinking Memory Problems Confusion Heightened Awareness Heightened &/or Lowered Awareness Difficulty identifying familiar objects or people. Loss or time, place, or person orientation. Disturbed Thinking Morbid Thinking Nightmares Intrusive Images, Ect.	Shocked, Numb Indifference/cut off Denial Feeling overwhelmed "inappropriate" emotional response Indecisiveness Loss of Control Intense anger/rage Blame (self ∨ other) Guilt Hate Irritability Agitation Anxiety Apprehensive Fear Grief Extreme Sadness Depression	Increased and/or Decreased: Appetite Sleep Sex Drive Drug/Alcohol Cravings Energy Level Change in activity Change in speech Change in usual Communications Emotional outburst Withdrawal Crying Non-specific bodily Complaints Somatization Internalization Internalization Intensified startle reflex Hyper alert to environment Inability to rest Pacing
