INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">RIVER AND CARMEL</p>	2. Operational Period:	Date From: 8/23/2020 Time From: 0700	Date To: 8/24/2020 Time To: 0700
3. Objective(s):			
<u>Management Objectives</u> -Provide for and maintain emergency personnel and public safety at all times. -Ensure COVID -19 precautions and best practices are met at all times. -Protect property, improvements, and infrastructure. -Ensure coordinated, timely and accurate release of public information. -Foster and maintain relationships with all cooperators and stakeholders. -Protect economic, natural, cultural and heritage resources. -Maintain fiscal accountability and keep costs commensurate with values at risk.			
<u>River Control Objectives</u> -Keep the fire North of Arroyo Seco Road -Keep the fire South of Mudhen Lake Fort Ord -Keep the fire East of Carmel Valley Road -Keep the fire West of River Road			
<u>Carmel Control Objectives</u> -Keep the fire North of Hennicksons Ridge -Keep the fire South of Klondike Canyon -Keep the fire East Corral Viejo Canyon -Keep the fire West of Robinson Canyon Road

INCIDENT Weather Forecast

FORECAST NO: 5
 PREDICTION FOR: 24 Hour Shift
 SHIFT DATE: 08/23/20
 TIME AND DATE
 FORECAST ISSUED: 1900 on 08/22/20

NAME OF FIRE: River
 UNIT: Cal Fire CA-BEU
 SIGNED: *James B. Dudley*
 Jim Dudley Incident Meteorologist

...Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect From 5 am Sunday through 5 pm Monday...

WEATHER DISCUSSION

A weather disturbance will move northward up the California coast Sunday bringing instability and enough sub-tropical moisture for the formation of thunderstorms with gusty and erratic outflow winds and dry lightning. **A Red Flag Warning is in effect from 0500 Sunday through 1700 Monday.** In addition, the weather disturbance will shift the winds over the fire to a south to southeast direction. The combination of the new wind direction and the potential for outflow winds from any thunderstorm that forms over the fire or moves through the fire area will make for a potentially dangerous gusty and strong wind situation. Outflow winds in previous thunderstorms have produced gusts to as much As 65 mph.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning...

.SUNDAY...

Sky/weather.....Partly cloudy with a 30 percent of dry thunderstorms. Dry lightning is possible with little rain accumulation expected.
 Max temperature.....Highs 84-88.
 Min humidity.....20-25 percent.
 Wind (20 ft).....Southeast 3-8 mph. Winds erratic in direction and very strong with gusts of 40 to 65 mph possible near any thunderstorms.
 CWR.....0 percent.
 LAL.....6.
 Mixing height.....Increasing to around 6000 ft AGL.
 Transport winds.....Southeast to east 12 mph.
 Marine layer.....800 ft.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning...

.SUNDAY NIGHT...

Sky/weather.....Mostly cloudy with a 30 percent chance of thunderstorms.
 Min temperature.....60-67.
 Max humidity.....40-45 percent.
 Wind (20 ft).....Southeast 3-6 mph. Wind gusty and erratic near thunderstorms.
 CWR.....0 percent.
 LAL.....6.
 Mixing height.....Lowering to around 1000 ft AGL.
 Transport winds.....Southeast around 6 mph.
 Marine layer.....Around 800 ft.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning...

.MONDAY...

Sky/weather.....Partly cloudy with a 30 percent of thunderstorms in the morning
 Max temperature.....Highs 79-84.
 Min humidity.....30-38 percent.
 Wind (20 ft).....Southeast 3-7 mph. Winds gusty and erratic near thunderstorms.
 CWR.....10 percent.
 LAL.....6.
 Mixing height.....Increasing to around 6000 ft AGL.
 Transport winds.....Southeast around 20 mph.
 Marine layer.....Less than 500 ft.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 7

TYPE OF FIRE: Wildfire

FIRE NAME: River

OPERATIONAL PERIOD: 8/23-24/20 0700-0700

DATE ISSUED: 8/22/20

TIME ISSUED: 2200

UNIT: BEU – San Benito Monterey

SIGNED: 
Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect From 5 am Sunday through 5 pm Monday

The weather will continue to be warm and dry through today, maximum temperatures 84-88 degrees and a minimum humidity of 20-25 percent. The winds will be southeast 3-8 mpg with erratic gusts 40-65 mph near thunderstorms, during the day and overnight. **LAL 6** through the day and night. See the weather briefing for more details.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The wind will continue to transition today from south to southwest to southeast as the low pressure moves into the area. This transition in wind will come into alignment with different drainages as it continues to transition. The wind will not be as strong, less than what has been experienced the past several days. However, there is the possibility for collapsing cells resulting in outflow boundaries, increase wind speeds in all directions. The incoming weather system is predicted to bring dry lightning to the area, refer to the safety message on what to do for lightning in the fire area. Have a plan if a new fire starts in the area or spot fires, it may impact you on the line, have escape routes identified.

SPECIFIC:

The fire in in Division D will have wind pushing the fire towards Carmel Valley Road to the west. There are two drainages which run east and west which will funnel the winds throughout the day, increasing the rate of spread to the west. The west side of the fire will have wind across the line for the entire shift. If a spot or new fire occurs on the ridges in Division L on the northern portion of Division I it will spread rapidly. Unburned fuel near the line has the potential to become active again, and potentially re-burn if a heat source is present. There are numerous homes in the Corral de Tierra Road and the San Benancio Road which would be impacted in a very short period of time.

AIR OPERATIONS

The smoke impacts from other fires will be reduced today, but may be limited due to inclement weather conditions.

SAFETY

- Lightning will be moving into the area today, refer to the safety message and have a plan for when it arrives in the area.
- The wind will be changing throughout the day along with an increasing unstable environment, continue to watch the weather conditions in the area you are assigned and surrounding areas.

 SHIFT DATE: 08/23/20
 TIME AND DATE
 FORECAST ISSUED: 1900 on 08/22/20

NAME OF FIRE: Carmel
 UNIT: Cal Fire CA-BEU
 SIGNED: *Jim B. Dudley*
 Jim Dudley Incident Meteorologist

...Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect From 5 am Sunday through 5 pm Monday...

WEATHER DISCUSSION

A weather disturbance will move northward up the California coast Sunday bringing instability and enough sub-tropical moisture for the formation of thunderstorms with gusty and erratic outflow winds and dry lightning. **A Red Flag Warning is in effect from 0500 Sunday through 1700 Monday.** In addition, the weather disturbance will shift the winds over the fire to a south to southeast direction. The combination of the new wind direction and the potential for outflow winds from any thunderstorm that forms over the fire or moves through the fire area will make for a potentially dangerous gusty and strong wind situation. Outflow winds in previous thunderstorms have produced gusts to as much As 65 mph.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning...

. SUNDAY ...

Sky/weather.....Partly cloudy with a 30 percent of dry thunderstorms. Dry lightning is possible with little rain accumulation expected.
 Max temperature.....Highs 79-84.
 Min humidity.....30-35 percent.
 Wind (20 ft).....Southeast 3-8 mph. Winds erratic in direction and very strong with gusts of 40 to 65 mph possible near any thunderstorms.
 CWR.....0 percent.
 LAL.....6.
 Mixing height.....Increasing to around 6000 ft AGL.
 Transport winds.....Southeast to east 12 mph.
 Marine layer.....800 ft.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning...

. SUNDAY NIGHT ...

Sky/weather.....Mostly cloudy with a 30 percent chance of thunderstorms.
 Min temperature.....57-62.
 Max humidity.....50-60 percent.
 Wind (20 ft).....Southeast 3-6 mph. Wind gusty and erratic near thunderstorms.
 CWR.....0 percent.
 LAL.....6.
 Mixing height.....Lowering to around 1000 ft AGL.
 Transport winds.....Southeast around 6 mph.
 Marine layer.....Around 800 ft.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning...

. MONDAY ...

Sky/weather.....Partly cloudy with a 30 percent of thunderstorms in the morning
 Max temperature.....Highs 78-83.
 Min humidity.....33-39 percent.
 Wind (20 ft).....Southeast 3-7 mph. Winds gusty and erratic near thunderstorms.
 CWR.....10 percent.
 LAL.....6.
 Mixing height.....Increasing to around 6000 ft AGL.
 Transport winds.....Southeast around 20 mph.
 Marine layer.....Less than 500 ft.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 5	TYPE OF FIRE: Wildfire
FIRE NAME: Carmel	OPERATIONAL PERIOD: 8/23-24/20 0700-0700
DATE ISSUED: 8/22/20	TIME ISSUED: 2200
UNIT: BEU – San Benito Monterey	SIGNED: 
Typed/printed: Don Watt FBAN	

INPUTS

WEATHER SUMMARY:

Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect From 5 am Sunday through 5 pm Monday

The weather will continue to be warm and dry through today, maximum temperatures 79-84 degrees and a minimum humidity of 30-35 percent. The winds will be southeast 3-8 mpg with erratic gusts 40-65 mph near thunderstorms, during the day and overnight. **LAL 6** through the day and night. See the weather briefing for more details.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The wind will continue to transition today from south to southwest to southeast as the low pressure moves into the area. This transition in wind will come into alignment with different drainages as it continues to transition. The wind will not be as strong, less than what has been experienced the past several days. However, there is the possibility for collapsing cells resulting in outflow boundaries, increase wind speeds in all directions. The incoming weather system is predicted to bring dry lightning to the area, refer to the safety message on what to do for lightning in the fire area. Have a plan if a new fire starts in the area or spot fires, it may impact you on the line, have escape routes identified.

SPECIFIC:

The Carmel Fire is slightly more sheltered in most places, but will still feel the effects of the changing wind. If the fire was to spot to the south facing slope, across East Carmel Valley Road it will be exposed to the wind and spread rapidly. The west side of the fire will be mostly sheltered but will have strong winds if there are outflows from a collapsing cell. Areas of the fire which have been calm and sheltered from the wind in the previous days will start to increase activity, especially in the areas around the structures.

AIR OPERATIONS

The smoke impacts from other fires will be reduced today, but may be limited due to inclement weather conditions.

SAFETY

- Lightning will be moving into the area today, refer to the safety message and have a plan for when it arrives in the area.
- The wind will be changing throughout the day along with an increasing unstable environment, continue to watch the weather conditions in the area you are assigned and surrounding areas.

ASSIGNMENT LIST (ICS 204 WF)

CONTROLLED UNCLASSIFIED
INFORMATION//BASIC

1. Incident Name: CARMEL ZONE	2. Operational Period: Date From: 08/23/20 Date To: 08/24/20 Time From: 0700 Time To: 0700	3. Branch Division XI AA Page 1 of 2 Alpha-Alpha

SAFETY MESSAGE/PLAN (ICS 208)

River: CA-BEU-004024
Carmel: CA-BEU-004081

Operational Period: Date From: 8/23/20 Date to: 8/24/20
Time From: 0700 Time to: 0700

//// **////**
MAJOR HAZARDS AND RISKS:

Weather:

Constantly monitor for changes in weather. Areas that may have previously burned can **re-burn**. Utilize your Lookouts, Communications, Escape Routes and Safety Zones.

Wildland/Urban Interface:

Reference the **CAL FIRE** structure defense guide card & pg. 12-16 in the IRPG. Keep alert for WUI hazards.

Entrapment Avoidance:

Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.

Communications:

Ensure your radio load is current per ICS 205 in the IAP. Place human repeaters as necessary to communicate. Be clear and concise with instructions.

Extreme fire behavior potential:

Monitor all weather conditions and forecasts. Make sure ALL personnel receive a thorough briefing every shift. Maintain adequate escape routes and safety zones. Advise all personnel if these are compromised or changed. Set decision points when appropriate.

Driving:

Steep, narrow or dusty roads throughout fire area. Maintain safe following distances and appropriate speed when traversing roads. Flag unstable roads and other hazards that may be encountered while driving. Follow posted speed limits while driving in Toro base camp.

Power lines:

Follow Power Line Safety guidelines on pg. 24 of the IRPG.
Follow FIRESCOPE identification and management of Life Safety Zones procedures, 3 horizontal strands of fire line tape, write "**Do not enter**" or "**Do not cross**"

Hazardous Trees and Snags:

Be alert of snags. When crews are working in a very hazardous area stay diligent and flag hazardous areas. Avoid taking breaks under trees.

THUNDERSTORM & LIGHTNING SAFETY

REMEMBER!

If you can hear thunder or see lightning (the actual strike vs “heat lightning” described below), you are close enough to the storm to be struck by lightning.

Heat lightning is lightning from a thunderstorm too far away for the thunder to be heard. However, the storm may be moving in your direction.

- Maintain **Situational Awareness** at all times and post **Lookouts** as needed to observe thunder cells.
- Approaching thunder cells will affect wind speed and direction.
- Keep the “**30/30 Rule**” in mind. If you see lightning and hear thunder within 30 seconds, seek shelter and/or follow the established **Safety/Disengagement Plan**.
- Take shelter inside vehicles or buildings.
- If caught outdoors, find a low spot and assume a crouched position, limiting contact with the ground.
- Avoid tall trees, wire fences, utility poles, etc.
- Do not stay on ridgetops, wide open areas, near ledges or rock outcroppings.
- Do not group together.
- Handheld radios and cellular telephones can be used.
- Do not use land line telephones, machinery, or electric motors.
- Remain in a safe environment for at least 30 minutes after the thunder cell has passed.

LOOKOUTS COMMUNICATIONS ESCAPE ROUTES SAFETY ZONES

CAL FIRE IMT COVID-19 ACTIONS

PERSONNEL WITH COVID-19 SYMPTOMS

- **Symptoms per the CDC's current guidelines include the following:**
 - Cough, fever(100.4), chills, muscle pain, shortness of breath, sore throat, new loss of taste or smell
- **Incident Base or Fire Line**
 - Maintain appropriate face covering
 - Notify supervisor and proceed to CALMAT
 - Isolate and assess patient
 - Medical direction to test, return patient to home unit/agency for testing

CONTACTED OR EXPOSED PERSONNEL AND ASYMPTOMATIC

- Notify supervisor
- Maintain appropriate face covering
- Self-monitor for symptoms
- Employee will continue assignment with preventative measures

PREVENTATIVE MEASURES TO SLOW THE TRANSMISSION COVID-19:

- Wash your hands regularly with soap and water, or clean them with alcohol-based hand rub.
- Maintain at least six feet distance between you and people coughing or sneezing.
- Avoid touching your face.
- Cover your mouth and nose when coughing or sneezing.
- Stay home if you feel unwell.
- Refrain from smoking and other activities that weaken the lungs.
- Practice physical distancing by avoiding unnecessary travel and staying away from large groups of people.
- Maintain proper personal care (healthy diet and rest)

RIVER/CARMEL INCIDENT SAFETY MESSAGE

Thunderstorm Safety

Approaching thunderstorms may be noted by a sudden reverse in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature. Rain, hail, and lightning occur only in the mature stage of a thunderstorm.

Situational Awareness

Observe the 30/30 rule: If you see lightning and hear the thunderclaps follow in less than 30 seconds, take the storm precautions identified below. Do not resume work in exposed areas until 30 minutes after storm activity has passed.

Hazard Control

- Take shelter in a vehicle or building if possible.
- If outdoors, find a low spot away from tall trees, wire fences, utility lines and other elevated conductive objects. Make sure the place you pick is not subject to flooding.
- If in the woods, move to an area with shorter trees.
- If only isolated trees are nearby, keep your distance twice the tree height.
- If in open country, crouch low, with feet together, minimizing contact with the ground. You can use a pack to sit on, but never lay on the ground.
- If you feel your skin tingle or your hair stand on end, immediately crouch low to the ground. Make yourself the smallest possible target and minimize your contact with the ground.
- Don't group together.
- Don't stay on ridge tops, wide open areas, or near ledges or rock outcroppings.
- Don't operate landline telephones, machinery, or electric motors.
- Don't handle flammable materials in open containers or metal hand tools.

2-1-1 – The public is encouraged to call 2-1-1 to receive current incident information.

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691.

PHOTOGRAPHS AND VIDEOS OF INCIDENT –The Public Information Office would like copies of the videos and pictures that you may take when *not* engaged in fire suppression activity, duties of your overhead assignment, or in an unsafe environment. Please bring your videos and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we do not want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident.

MAIL DELIVERY – As a courtesy, the following address has been secured for assigned personnel to has personal correspondence delivered.

Training Specialist Message

All State, Federal and local government agency Trainees working on Position Task Books will need to register with the Incident Training Specialist. This will ensure proper that each trainee receive proper credit and documentation for their assignment.

The Training Specialist is in trailer row next to Check -in. Please utilize the QR code below for remote check-in.

**Dave Randolph
Training Specialist
(805) 857-4820**

Archaeological and Historical Sites Fireline Guidance for the River and Carmel Incidents

Do not compromise safety for the protection and preservation of archaeological and historical sites. When feasible and prudent:

1. Be on the lookout for prehistoric and historic sites. Prehistoric archaeological sites include temporary camps containing scatters of obsidian and/or chert flakes that often look like broken glass. More permanent village sites contain circular depressions (house pits), artifact scatters, grinding holes in rocks (bedrock mortars), and dark brown-black soils (midden). These typically occur on flats near sources of water, along ridgetops and saddles, and other such places suitable for camping. Historic sites include old wooden buildings, structures and corrals, stone buildings, rock foundations, wells, and debris scatters. These kinds of resources can be found in the same kinds of environmental settings as prehistoric camp sites.
2. Some archaeological sites have been flagged with orange and white candy-striped "Special Treatment Zone" flagging. If you encounter a flagged area, heavy equipment should not enter or operate within the area. If such an area is entered or operated in, please inform the State Archaeologist. Any questions regarding flagged sites can be directed to the State Archaeologist.
3. While some sites have been flagged, many have not. If you observe artifacts, features, or sites, attempt to avoid dozing or driving through and/or parking on these sites, if feasible, especially with heavy equipment. If you can't avoid sites, minimize disturbance as much as feasible, only clearing the surface to as minimal a depth and width as necessary.
4. Leave all artifacts in place. Some artifacts may have been intentionally placed for religious or ceremonial reasons.
5. When a site is discovered, flag it for visibility and report its location to the Division Supervisor and/or the State Archaeologist. If feasible, note locations of discovered resources on a map. Better yet, take a GPS reading. Leave information with the Plans Section so that the sites can be relocated and protected during both the suppression and fire suppression repair phases of the Incident.
6. If you encounter a burial or other human remains, cease work in that area immediately and contact the CAL FIRE Archaeologist. State law requires that CAL FIRE then contact the County Coroner, who will then determine if the remains are part of a crime scene. If the Coroner determines that the remains are Native American, State law requires the Coroner to contact the Native American Heritage Commission in Sacramento.

FIRING OPERATION CHECKLIST

Location: _____

Date: _____ Time: _____

Firing Supervisor: _____

1. Personnel Briefing

- Objectives
- Conditions (fire environment)
- Resource assignments identified
 - Firing personnel
 - Holding forces
 - Lookouts
- Ignition plan/sequence
- Communication Plan
- Contingency Plan
- Safety issues

2. Go / No-Go

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted as needed
- Anchor and termination firing points identified
- Communications systems in place
- Fire behavior forecast reviewed
- Escape routes and safety zones established and made known
- Adjoining forces/Air Attack notified

3. Approval Prior To Firing

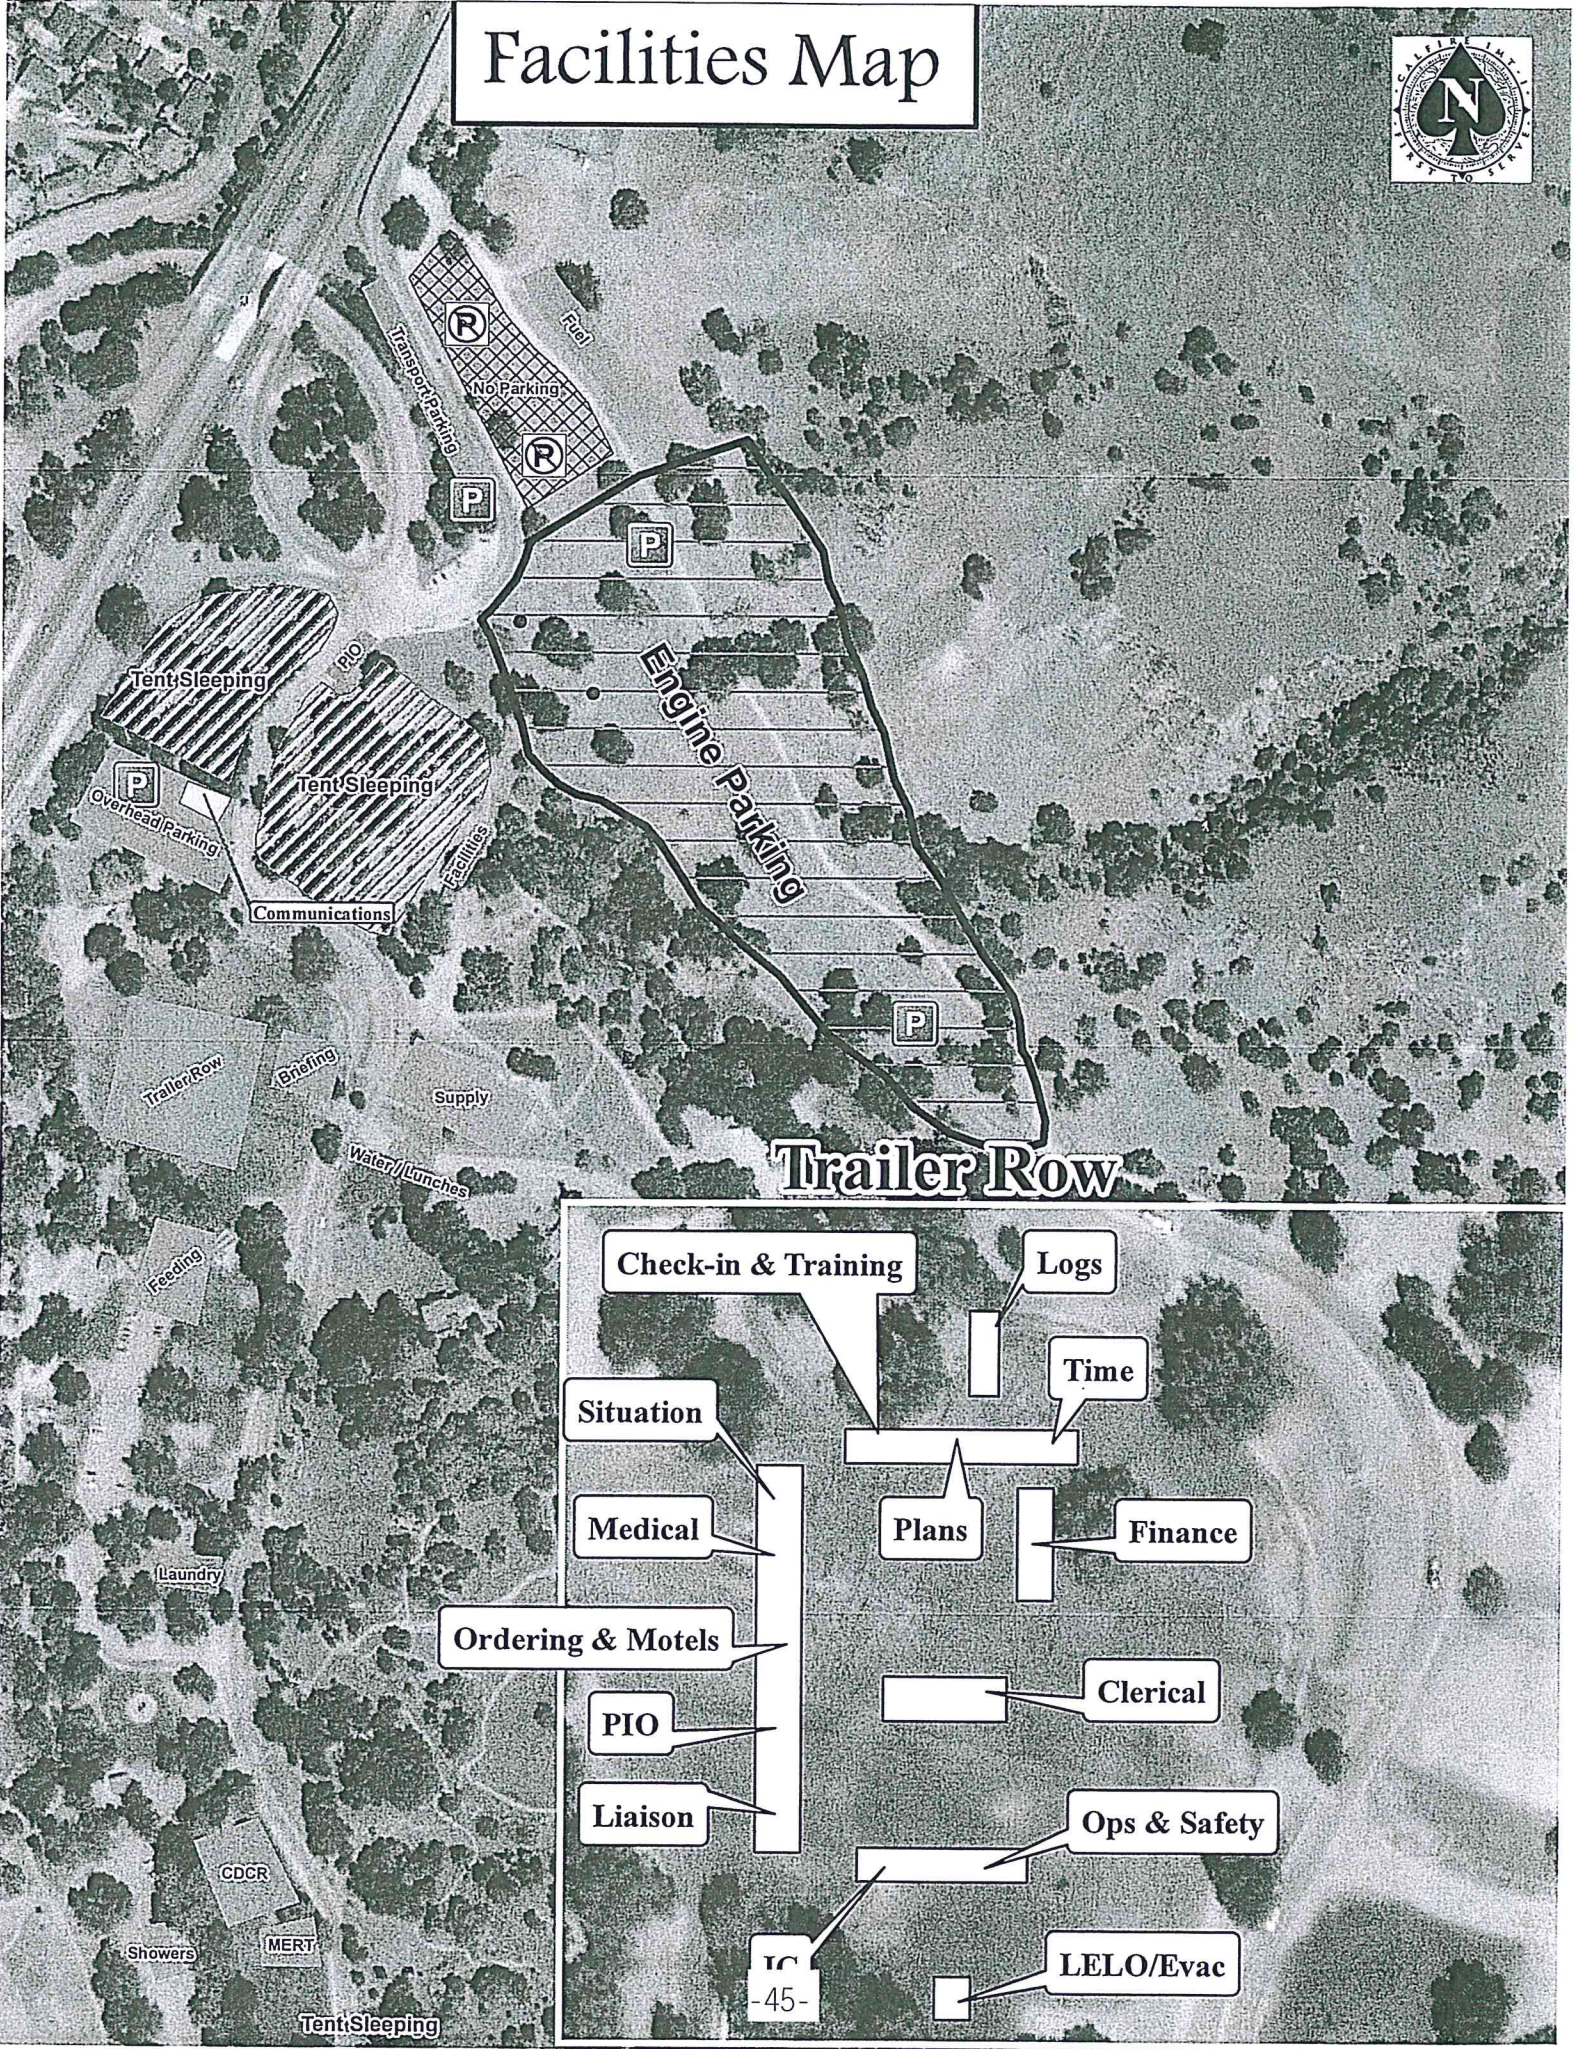

- Division Supervisor
- Branch Director
- Operations

4. Other Notifications

- Other: _____
- Other: _____
