INCIDENT ACTION PLAN

RIVER - CA-BEU-004024
CARMEL - CA-BEU-004081

Monday

OPERATIONAL PERIOD

8/24/2020 0700

to

8/25/2020 0700

Briefing on CDF TAC 24

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">RIVER AND CARMEL</p>	2. Operational Period:	Date From: 8/24/2020 Time From: 0700	Date To: 8/25/2020 Time To: 0700
---	-------------------------------	---	-------------------------------------

3. Objective(s):

Management Objectives

- Provide for and maintain emergency personnel and public safety at all times.
- Ensure COVID -19 precautions and best practices are met at all times.
- Protect property, improvements, and infrastructure.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

River Control Objectives

- Keep the fire North of Arroyo Seco Road
- Keep the fire South of Mudhen Lake Fort Ord
- Keep the fire East of Carmel Valley Road
- Keep the fire West of River Road

Carmel Control Objectives

- Keep the fire North of Hennicksons Ridge
- Keep the fire South of Klondike Canyon
- Keep the fire East Corral Viejo Canyon
- Keep the fire West of Robinson Canyon Road

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 8

TYPE OF FIRE: Wildfire

FIRE NAME: River

OPERATIONAL PERIOD: 8/24-25/20 0700-0700

DATE ISSUED: 8/23/20

TIME ISSUED: 2200

UNIT: BEU – San Benito Monterey

SIGNED: 

Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect Through 5 pm Monday

The weather will be warm with maximum temperatures 80-85 degrees and a minimum humidity of 30-38 percent and winds southwest 3-7 mph. Overnight temperatures will be 65-72 degrees and humidity 40-45 percent, and winds southwest 3-6 mph. LAL of 2 during the day dropping to 1 overnight. See the weather briefing for more details.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The Red Flag Warning is still in effect during the day, with the possibility of lightning and strong gusty outflow winds. Continue to observe the weather throughout the day, it will continue to change. The shading from the smoke and clouds may clear out throughout the day bringing more sunlight to the fuels in the afternoon. The humidity stayed high through the shift yesterday, reducing the fire activity. The fire continues to burn in interior islands and smolder around homes and in the heavier fuels. The wind from the southeast was only present in the fire area for a short period of time, returning to a northwest flow.

SPECIFIC:

The southern end of the fire in Division D continues to have active fire. The wind should remain calm throughout the day, unless cumulus clouds build in the area. The fire will become more active in the afternoon and will create a vertically building column when it consumes brush or heavier fuels. The potential for roll out exist in the steeper terrain, especially as the heavier material continue to consume. The winds may be variable throughout the day, more terrain driven, this may change if there is solar heating in the area. The current weather pattern may not develop strong enough to keep the wind in a steady direction. The weather front will continue to the north bringing back warm and dry weather with a northwest flow the following shift.

AIR OPERATIONS

There may be limited aircraft availability due to weather and smoke settling in the lower elevations.

SAFETY

- There is still the potential for lightning in the area today, refer to the safety message and have a plan for when it arrives in the area.
- The wind will be changing throughout the day along with an increasing unstable environment, continue to watch the weather conditions in the area you are assigned and surrounding areas.

ASSIGNMENT LIST (ICS 204 WF)

INCIDENT Weather Forecast

FORECAST NO: 5
PREDICTION FOR: 24 Hour Shift
SHIFT DATE: 08/24/20
TIME AND DATE
FORECAST ISSUED: 1900 on 08/23/20

NAME OF FIRE: Carmel
UNIT: Cal Fire CA-BEU
SIGNED: *Jim B. Dudley*
Jim Dudley Incident Meteorologist

...Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect Through 5 pm Monday...

WEATHER DISCUSSION: Low pressure will move up the coast on Monday keeping the threat of thunderstorms with gusty outflow winds and dry lightning in the forecast through the day. By Monday night the low will move north and drier air will flow into the fire area. This will end the threat of thunderstorms over the incident. The flow pattern aloft into the fire area will remain from a southeasterly direction on Monday and then shift to the southwest on Tuesday. Temperatures and humidity trends will show little change Monday and Tuesday.

...Red Flag Warning in effect for Gusty Outflow Winds and Dry Lightning Through 5 pm...

.MONDAY...

Sky/weather.....Partly cloudy with a 20 percent of thunderstorms. Dry lightning gusty and erratic winds are possible.
 Max temperature.....Highs 77-82.
 Min humidity.....33-40 percent.
 Wind (20 ft).....Variable 3-7 mph. Winds gusty and erratic near thunderstorms.
 CWR.....10 percent.
 LAL.....2.
 Mixing height.....Increasing to around 8000 ft AGL.
 Transport winds.....Southeast around 20 mph.
 Marine layer.....Less than 500 ft.

.MONDAY NIGHT...

Sky/weather.....Partly cloudy.
 Min temperature.....58-63.
 Max humidity.....50-55 percent.
 Wind (20 ft).....Downslope 2-5 mph.
 CWR.....0 percent.
 LAL.....1.
 Mixing height.....Lowering to around 1000 ft AGL.
 Transport winds.....Southeast around 6 mph.
 Marine layer.....Around 800 ft.

.TUESDAY...

Sky/weather.....Mostly sunny.
 Max temperature.....Highs 77-82.
 Min humidity.....28-33 percent.
 Wind (20 ft).....Southeast to south 3-6 mph well inland and west 3-7 mph towards the coast.
 CWR.....0 percent.
 LAL.....1.
 Mixing height.....Increasing to around 6000 ft AGL.
 Transport winds.....Southeast around 20 mph.
 Marine layer.....Less than 500 ft.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 6	TYPE OF FIRE: Wildfire
FIRE NAME: Carmel	OPERATIONAL PERIOD: 8/24-25/20 0700-0700
DATE ISSUED: 8/23/20	TIME ISSUED: 2200
UNIT: BEU – San Benito Monterey	SIGNED:  Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

Red Flag Warning for Gusty Outflow Winds and Dry Lightning in Effect Through 5 pm Monday

The weather will be cooler with maximum temperatures 77-82 degrees and a minimum humidity of 33-40 percent, winds variable 3-7 mph. Overnight temperatures will be 58-63 degrees and humidity 50-55 percent, and winds downslope 3-7 mph. LAL of 2 during the day dropping to 1 overnight. See the weather briefing for more details.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The Red Flag Warning is still in effect during the day, with the possibility of lightning and strong gusty outflow winds. Continue to observe the weather throughout the day, it will continue to change. The shading from the smoke and clouds may clear out throughout the day bringing more sunlight to the fuels in the afternoon. The humidity stayed high through the shift yesterday, reducing the fire activity. The fire continues to burn in interior islands and smolder around homes and in the heavier fuels. The wind from the southeast was only present in the fire area for a short period of time, returning to a northwest flow.

SPECIFIC:

The main issues for the fire will be rolling material in the steep terrain, especially in the Carmel River canyon. There are sections of the line where the heavy material has been smoldering and shifting causing them to break free and roll. In area with incomplete burning there is the possibility for the remaining vegetation to burn if there is a heat source. These instances will occur more often when the sun comes out and begins to heat and dry the fuels. Continue to look for the heat sources near the line as the wind will still be shifting in multiple directions as the weather system moves through the area.

AIR OPERATIONS

There may be limited aircraft availability due to weather and smoke settling in the lower elevations.

SAFETY

- There is still the potential for lightning in the area today, refer to the safety message and have a plan for when it arrives in the area.
- The wind will be changing throughout the day along with an increasing unstable environment, continue to watch the weather conditions in the area you are assigned and surrounding areas.

DOZ - E-260							

6. Work Assignments:
Mop up 300' in from control line.
Hold and Improve control lines.
Implement progressive hoselays as needed.
hold fire within established control lines.

7. Special Instructions:
One resource per Branch identified for immediate surge and new fire starts. Surge resource will be identified by **.

8. Communications

SAFETY MESSAGE/PLAN (ICS 208)

River: CA-BEU-004024
Carmel: CA-BEU-004081

Operational Period: Date From: 8/24/20 Date to: 8/25/20
Time From: 0700 Time to: 0700

//// **////**
MAJOR HAZARDS AND RISKS:

Weather:

Constantly monitor for changes in weather. Areas that may have previously burned can **re-burn**. Utilize your Lookouts, Communications, Escape Routes and Safety Zones.

Wildland/Urban Interface:

Reference the **CAL FIRE** structure defense guide card & pg. 12-16 in the IRPG. Keep alert for WUI hazards.

Driving:

Drive defensively and use seat belts at all times. Expect the unexpected around every curve. Drive slowly and ensure your headlights are on. Steep, narrow or dusty roads throughout fire area. Maintain safe following distances and appropriate speed when traversing roads. Flag unstable roads and other hazards that may be encountered while driving. Follow posted speed limits while driving in Toro base camp

Entrapment Avoidance:

Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.

Communications:

Ensure your radio load is current per ICS 205 in the IAP. Place human repeaters as necessary to communicate. Be clear and concise with instructions.

Extreme fire behavior potential:

Monitor all weather conditions and forecasts. Make sure ALL personnel receive a thorough briefing every shift. Maintain adequate escape routes and safety zones. Advise all personnel if these are compromised or changed. Set decision points when appropriate.

Power lines:

Follow Power Line Safety guidelines on pg. 24 of the IRPG.
Follow FIRESCOPE identification and management of Life Safety Zones procedures, 3 horizontal strands of fire line tape, write "**Do not enter**" or "**Do not cross**"

Hazardous Trees and Snags:

Be alert of snags. When crews are working in a very hazardous area stay diligent and flag hazardous areas. Avoid taking breaks under trees.

Prepared By: Brad Niven - Position/Title: SOF1(T)
Signature: 

THUNDERSTORM & LIGHTNING SAFETY

REMEMBER!

If you can hear thunder or see lightning (the actual strike vs “heat lightning” described below), you are close enough to the storm to be struck by lightning.

Heat lightning is lightning from a thunderstorm too far away for the thunder to be heard. However, the storm may be moving in your direction.

- Maintain **Situational Awareness** at all times and post **Lookouts** as needed to observe thunder cells.
- Approaching thunder cells will affect wind speed and direction.
- Keep the **“30/30 Rule”** in mind. If you see lightning and hear thunder within 30 seconds, seek shelter and/or follow the established **Safety/Disengagement Plan**.
- Take shelter inside vehicles or buildings.
- If caught outdoors, find a low spot and assume a crouched position, limiting contact with the ground.
- Avoid tall trees, wire fences, utility poles, etc.
- Do not stay on ridgetops, wide open areas, near ledges or rock outcroppings.
- Do not group together.
- Handheld radios and cellular telephones can be used.
- Do not use land line telephones, machinery, or electric motors.
- Remain in a safe environment for at least 30 minutes after the thunder cell has passed.

LOOKOUTS COMMUNICATIONS ESCAPE ROUTES SAFETY ZONES

RIVER/CARMEL INCIDENT SAFETY MESSAGE

Thunderstorm Safety

Approaching thunderstorms may be noted by a sudden reverse in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature. Rain, hail, and lightning occur only in the mature stage of a thunderstorm.

Situational Awareness

Observe the 30/30 rule: If you see lightning and hear the thunderclaps follow in less than 30 seconds, take the storm precautions identified below. Do not resume work in exposed areas until 30 minutes after storm activity has passed.

Hazard Control

- Take shelter in a vehicle or building if possible.
- If outdoors, find a low spot away from tall trees, wire fences, utility lines and other elevated conductive objects. Make sure the place you pick is not subject to flooding.
- If in the woods, move to an area with shorter trees.
- If only isolated trees are nearby, keep your distance twice the tree height.
- If in open country, crouch low, with feet together, minimizing contact with the ground. You can use a pack to sit on, but never lay on the ground.
- If you feel your skin tingle or your hair stand on end, immediately crouch low to the ground. Make yourself the smallest possible target and minimize your contact with the ground.
- Don't group together.
- Don't stay on ridge tops, wide open areas, or near ledges or rock outcroppings.
- Don't operate landline telephones, machinery, or electric motors.
- Don't handle flammable materials in open containers or metal hand tools.

CAL FIRE IMT COVID-19 ACTIONS

PERSONNEL WITH COVID-19 SYMPTOMS

- **Symptoms per the CDC's current guidelines include the following:**
 - Cough, fever(100.4), chills, muscle pain, shortness of breath, sore throat, new loss of taste or smell
- **Incident Base or Fire Line**
 - Maintain appropriate face covering
 - Notify supervisor and proceed to CALMAT
 - Isolate and assess patient
 - Medical direction to test, return patient to home unit/agency for testing

CONTACTED OR EXPOSED PERSONNEL AND ASYMPTOMATIC

- Notify supervisor
- Maintain appropriate face covering
- Self-monitor for symptoms
- Employee will continue assignment with preventative measures

PREVENTATIVE MEASURES TO SLOW THE TRANSMISSION COVID-19:

- Wash your hands regularly with soap and water, or clean them with alcohol-based hand rub.
- Maintain at least six feet distance between you and people coughing or sneezing.
- Avoid touching your face.
- Cover your mouth and nose when coughing or sneezing.
- Stay home if you feel unwell.
- Refrain from smoking and other activities that weaken the lungs.
- Practice physical distancing by avoiding unnecessary travel and staying away from large groups of people.
- Maintain proper personal care (healthy diet and rest)

MEDICAL PLAN (ICS 206)

6. Special Medical Emergency Procedures:
LINE EMERGENCY:
 Crew Supervisor to contact Division Supervisor with patient complaint/condition, location, and resource needs.

- Division Supervisor contacts and gives report on conditions, complaint/condition, and resource needs to:
 1. Nearest Line FEMT/FEMP
 2. Communications Unit
- Emergency or Priority traffic received: Communication Unit will clear the command channel for emergency traffic only, for the duration of the MAJOR IWI
- Communications Unit will make proper notifications
- OPERATIONS can declare a MAJOR IWI based on the report on conditions from the division supervisor
- Division Supervisor or designee will serve as point of contact (IWI SUPERVISOR) and run the emergency utilizing the COMMAND CHANNEL and CALCORD for the tac net during the IWI

****ALL EMERGENCIES:** Secure the area and identify witnesses for later investigation. Keep an accurate log of events**

BASE CAMP EMERGENCY:
CONTACT COMMUNICATIONS UNIT AT: (805) 903-3489
 report patient complaint/condition and location. Medical Staff will respond to stabilize incident

- COMMUNICATIONS Unit contacts:
 1. Operations
 2. Medical
 3. Safety
 4. Logistics

EVENING PUBLIC BRIEFING STREAM – We will be providing a nightly public Incident Update Briefing. The live stream can be found at the local Unit social media profiles listed above.

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691.

PHOTOGRAPHS AND VIDEOS OF INCIDENT –The Public Information Office would like copies of the videos and pictures that you may take when *not* engaged in fire suppression activity, duties of your overhead assignment, or in an unsafe environment. Please bring your videos and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we do not want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident.

MAIL DELIVERY – As a courtesy, the following address has been secured for assigned personnel to has personal correspondence delivered.
