Maintain safe following distances and appropriate speed when traversing roads. Flag unstable roads and other hazards that may be encountered while driving. Follow posted speed limits while driving in Toro base camp

#### **Weather:**

Constantly monitor for changes in weather. Areas that may have previously burned can **re-burn**. Utilize your Lookouts, Communications, Escape Routes and Safety Zones.

#### **Wildland/Urban Interface:**

Reference the **CAL FIRE** structure defense guide card & pg. 12-16 in the IRPG. Keep alert for WUI hazards.

#### **Entrapment Avoidance:**

Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.

#### **Communications:**

Ensure your radio load is current per ICS 205 in the IAP. Place human repeaters as necessary to communicate. Be clear and concise with instructions.

#### **Extreme fire behavior potential:**

Monitor all weather conditions and forecasts. Make sure ALL personnel receive a thorough briefing every shift. Maintain adequate escape routes and safety zones. Advise all personnel if these are compromised or changed. Set decision points when appropriate.

#### **Power lines:**

Follow Power Line Safety guidelines on pg. 24 of the IRPG.  
Follow FIRESCOPE identification and management of Life Safety Zones procedures, 3 horizontal strands of fire line tape, write "Do not enter" or "Do not cross"

## ADDITIONAL INFO

## **Archaeological and Historical Sites**

### **Fireline Guidance for the River and Carmel Incidents**

**Do not compromise safety for the protection and preservation of archaeological and historical sites. When feasible and prudent:**

1. Be on the lookout for prehistoric and historic sites. Prehistoric archaeological sites include temporary camps containing scatters of obsidian and/or chert flakes that often look like broken glass. More permanent village sites contain circular depressions (house pits), artifact scatters, grinding holes in rocks (bedrock mortars), and dark brown-black soils (midden). These typically occur on flats near sources of water, along ridgetops and saddles, and other such places suitable for camping. Historic sites include old wooden buildings, structures and corrals, stone buildings, rock foundations, wells, and debris scatters. These kinds of resources can be found in the same kinds of environmental settings as prehistoric camp sites.
2. Some archaeological sites have been flagged with orange and white candy-striped "Special Treatment Zone" flagging. If you encounter a flagged area, heavy equipment should not enter or operate within the area. If such an area is entered or operated in, please inform the State Archaeologist. Any questions regarding flagged sites can be directed to the State Archaeologist.
3. While some sites have been flagged, many have not. If you observe artifacts, features, or sites, attempt to avoid dozing or driving through and/or parking on these sites, if feasible, especially with heavy equipment. If you can't avoid sites, minimize disturbance as much as feasible, only clearing the surface to as minimal a depth and width as necessary.
4. Leave all artifacts in place. Some artifacts may have been intentionally placed for religious or ceremonial reasons.
5. When a site is discovered, flag it for visibility and report its location to the Division Supervisor and/or the State Archaeologist. If feasible, note locations of discovered resources on a map. Better yet, take a GPS reading. Leave information with the Plans Section so that the sites can be relocated and protected during both the suppression and fire suppression repair phases of the Incident.
6. If you encounter a burial or other human remains, cease work in that area immediately and contact the CAL FIRE Archaeologist. State law requires that CAL FIRE then contact the County Coroner, who will then determine if the remains are part of a crime scene. If the Coroner determines that the remains are Native American, State law requires the Coroner to contact the Native American Heritage Commission in Sacramento.
