

INCIDENT ACTION PLAN

RIVER - CA-BEU-004024
CARMEL - CA-BEU-004081

Tuesday

OPERATIONAL PERIOD

8/25/2020 0700

to

8/26/2020 0700

Briefing on CDF TAC 24

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: RIVER AND CARMEL	2. Operational Period:	Date From: 8/25/2020	Date To: 8/26/2020
		Time From: 0700	Time To: 0700

3. Objective(s):

Management Objectives

- Provide for and maintain emergency personnel and public safety at all times.
- Ensure COVID -19 precautions and best practices are met at all times.
- Protect property, improvements, and infrastructure.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

River Control Objectives

- Keep the fire North of Arroyo Seco Road
- Keep the fire South of Mudhen Lake Fort Ord
- Keep the fire East of Carmel Valley Road
- Keep the fire West of River Road

Carmel Control Objectives

- Keep the fire North of Hennicksons Ridge
- Keep the fire South of Klondike Canyon
- Keep the fire East Corral Viejo Canyon
- Keep the fire West of Robinson Canyon Road

General Situational Awareness:

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 9

TYPE OF FIRE: Wildfire

FIRE NAME: River

OPERATIONAL PERIOD: 8/25-26/20 0700-0700

DATE ISSUED: 8/24/20

TIME ISSUED: 2200

UNIT: BEU – San Benito Monterey

SIGNED: 
Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

The weather will be cooler with maximum temperatures 77-82 degrees and a minimum humidity of 28-33 percent and winds upslope 3-8 mph gust to 15. Overnight temperatures will be 65-72 degrees and humidity 40-45 percent, and winds downslope 2-6 mph. See the weather briefing for more details.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The weather will be clear today with smoke clearing throughout the day, this will allow more solar heating of the fuels. Heating of the fuels will increase the activity of smoldering fuels. The areas with incomplete combustion of the fuels and the unburned between the fire line and the fire will become active after noon. The wind will also increase the activity as it increases in the afternoon. The oaks and larger brush will contribute to rolling material, potentially creating a spot fire. When working in areas with underslung line be aware of smoldering rolling below the line. Continue to look up into the canopy when working in the oak trees, there may be dead limbs smoldering or internal burning in the canopy.

SPECIFIC:

Portions of Division A and D continue to have fire backing towards the control line, these sections will become more active with the heat of the day and the increased wind from the northwest in the Salinas valley. The southern Portion of Division D and F will increase in activity with the increasing wind, especially on the exposed ridges containing brush fields. The grazed fields will not burn unless there is a strong wind to move the fire, creating sheeting in the short grass. The west wide of the fire, in Divisions F, I, and L, there is still the potential for rolling material to ignite fuels on the opposite side of the fire line.

AIR OPERATIONS

There will be some haze throughout the day but should not restrict aircraft over the fire.

SAFETY

Steep terrain can create several hazards, watch you footing and be aware of people and equipment working above you.

The fire has had time to consume heavy materials creating stump holes and ash pits, watch where you are walking and working.

ASSIGNMENT LIST (ICS 204 WF)

The weather will be clear today with smoke clearing throughout the day, this will allow more solar heating of the fuels. Heating of the fuels will increase the activity of smoldering fuels. The areas with incomplete combustion of the fuels and the unburned between the fire line and the fire will become active after noon. The wind will also increase the activity as it increases in the afternoon. The oaks and larger brush will contribute to rolling material, potentially creating a spot fire. When working in areas with underslung line be aware of smoldering rolling below the line. Continue to look up into the canopy when working in the oak trees, there may be dead limbs smoldering or internal burning in the canopy.

SPECIFIC:

In Divisions AA, KK, and QQ, the main issues for the fire will be rolling material in the steep terrain, especially in the Carmel River canyon. There are sections of the line where the heavy material has been smoldering and shifting causing them to break free and roll. The areas around the structures will continue to have smoldering material, especially as you move farther out from the building, continue to work these areas to reduce the potential any issues as repopulation begins.

AIR OPERATIONS

There will be some haze throughout the day but should not restrict aircraft over the fire

SAFETY

Steep terrain can create several hazards, watch you footing and be aware of people and equipment working above you.

The fire has had time to consume heavy materials creating stump holes and ash pits, watch where you are walking and working.

ASSIGNMENT LIST (ICS 204 WF)

SAFETY MESSAGE/PLAN (ICS 208)

River: CA-BEU-004024
Carmel: CA-BEU-004081

Operational Period: Date From: 8/25/20 Date to: 8/26/20
Time From: 0700 Time to: 0700

//// **MAJOR HAZARDS AND RISKS:** **////**

Driving:

Drive defensively and use seat belts at all times. Expect the unexpected around every curve. Drive slowly and ensure your headlights are on. Steep, narrow or dusty roads throughout fire area. Maintain safe following distances and appropriate speed when traversing roads. Flag unstable roads and other hazards that may be encountered while driving. Follow posted speed limits while driving in Toro base camp

Weather:

Constantly monitor for changes in weather. Areas that may have previously burned can **re-burn**. Utilize your Lookouts, Communications, Escape Routes and Safety Zones.

Wildland/Urban Interface:

Reference the **CAL FIRE** structure defense guide card & pg. 12-16 in the IRPG. Keep alert for WUI hazards.

Entrapment Avoidance:

Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.

Communications:

Ensure your radio load is current per ICS 205 in the IAP. Place human repeaters as necessary to communicate. Be clear and concise with instructions.

Extreme fire behavior potential:

Monitor all weather conditions and forecasts. Make sure ALL personnel receive a thorough briefing every shift. Maintain adequate escape routes and safety zones. Advise all personnel if these are compromised or changed. Set decision points when appropriate.

Power lines:

Follow Power Line Safety guidelines on pg. 24 of the IRPG.
Follow FIREScope identification and management of Life Safety Zones procedures, 3 horizontal strands of fire line tape, write "**Do not enter**" or "**Do not cross**"

Hazardous Trees and Snags:

Be alert of snags. When crews are working in a very hazardous area stay diligent and flag hazardous areas. Avoid taking breaks under trees.

EVENING PUBLIC BRIEFING STREAM – We will be providing a nightly public Incident Update Briefing. The live stream can be found at the local Unit social media profiles listed above.

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691.

PHOTOGRAPHS AND VIDEOS OF INCIDENT –The Public Information Office would like copies of the videos and pictures that you may take when *not* engaged in fire suppression activity, duties of your overhead assignment, or in an unsafe environment. Please bring your videos and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we do not want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident.

MAIL DELIVERY – As a courtesy, the following address has been secured for assigned personnel to has personal correspondence delivered.

Archaeological and Historical Sites

Fireline Guidance for the River and Carmel Incidents

Do not compromise safety for the protection and preservation of archaeological and historical sites. When feasible and prudent:

1. Be on the lookout for prehistoric and historic sites. Prehistoric archaeological sites include temporary camps containing scatters of obsidian and/or chert flakes that often look like broken glass. More permanent village sites contain circular depressions (house pits), artifact scatters, grinding holes in rocks (bedrock mortars), and dark brown-black soils (midden). These typically occur on flats near sources of water, along ridgetops and saddles, and other such places suitable for camping. Historic sites include old wooden buildings, structures and corrals, stone buildings, rock foundations, wells, and debris scatters. These kinds of resources can be found in the same kinds of environmental settings as prehistoric camp sites.
2. Some archaeological sites have been flagged with orange and white candy-striped "Special Treatment Zone" flagging. If you encounter a flagged area, heavy equipment should not enter or operate within the area. If such an area is entered or operated in, please inform the State Archaeologist. Any questions regarding flagged sites can be directed to the State Archaeologist.
3. While some sites have been flagged, many have not. If you observe artifacts, features, or sites, attempt to avoid dozing or driving through and/or parking on these sites, if feasible, especially with heavy equipment. If you can't avoid sites, minimize disturbance as much as feasible, only clearing the surface to as minimal a depth and width as necessary.
4. Leave all artifacts in place. Some artifacts may have been intentionally placed for religious or ceremonial reasons.
5. When a site is discovered, flag it for visibility and report its location to the Division Supervisor and/or the State Archaeologist. If feasible, note locations of discovered resources on a map. Better yet, take a GPS reading. Leave information with the Plans Section so that the sites can be relocated and protected during both the suppression and fire suppression repair phases of the Incident.
6. If you encounter a burial or other human remains, cease work in that area immediately and contact the CAL FIRE Archaeologist. State law requires that CAL FIRE then contact the County Coroner, who will then determine if the remains are part of a crime scene. If the Coroner determines that the remains are Native American, State law requires the Coroner to contact the Native American Heritage Commission in Sacramento.

Training Specialist Message

All State, Federal and local government agency Trainees working on Position Task Books will need to register with the Incident Training Specialist. This will ensure proper that each trainee receive proper credit and documentation for their assignment.

The Training Specialist is in trailer row next to Check -in. Please utilize the QR code below for remote check-in.

**Dave Randolph
Training Specialist

DEMOBILIZATION INSTRUCTIONS RIVER & CARMEL INCIDENTS CA-BEU-004024 & CA-BEU-004081

○ CHECK THE DEMOB LIST EACH MORNING. YOU CAN FIND THE DEMOB LIST THROUGH THE “QR” CODE ON THE I.A.P. COVER. THE QR CODE IS UPDATED AT NIGHT PRIOR TO THE NEXT DAY’S DEMOB. LISTS WILL ALSO BE POSTED THROUGHOUT CAMP. **ONLY REPORT TO DEMOB AT YOUR SCHEDULED TIME.** EARLY ADMITTANCE WILL NOT BE ALLOWED.

○ REPORT TO DEMOB AT THE GIVEN APPOINTMENT TIME TO RECEIVE A DEMOBILIZATION CHECKOUT (ICS-221), THEN GO TO THE FOLLOWING UNITS TO OBTAIN NECESSARY SIGNATURES:

- ✓ SUPPLY UNIT
- ✓ COMMUNICATIONS UNIT
- ✓ GROUND SUPPORT/VEHICLE INSPECTION***
- ✓ DOCUMENTATION UNIT
- ✓ TIME UNIT
- ✓ TRAINING UNIT (IF APPLICABLE)
- ✓ ACCOMMODATIONS (IF APPLICABLE)

***VEHICLE INSPECTION:

- THE DEMOB UNIT WILL INFORM YOU IF VEHICLES WILL REPORT FOR INSPECTION.
- YOU MUST HAVE THE ICS-221 DEMOB CHECKOUT FORM WITH YOU AT VEHICLE INSPECTION.
- VEHICLE INSPECTION APPOINTMENT TIME WILL BE PROVIDED WHEN YOU INITIALLY ARRIVE TO THE DEMOBILIZATION UNIT.
- **DO NOT REPORT FOR VEHICLE INSPECTION PRIOR TO YOUR APPOINTMENT**
- **HAVE YOUR EQUIPMENT INVENTORY CARD READY WHEN HEADING TO VEHICLE INSPECTION.**

- GROUND SUPPORT FOR VEHICLE INSPECTION IS LOCATED AT:
MPC COLLEGE – 4548 “A” STREET
MARINA, 93933

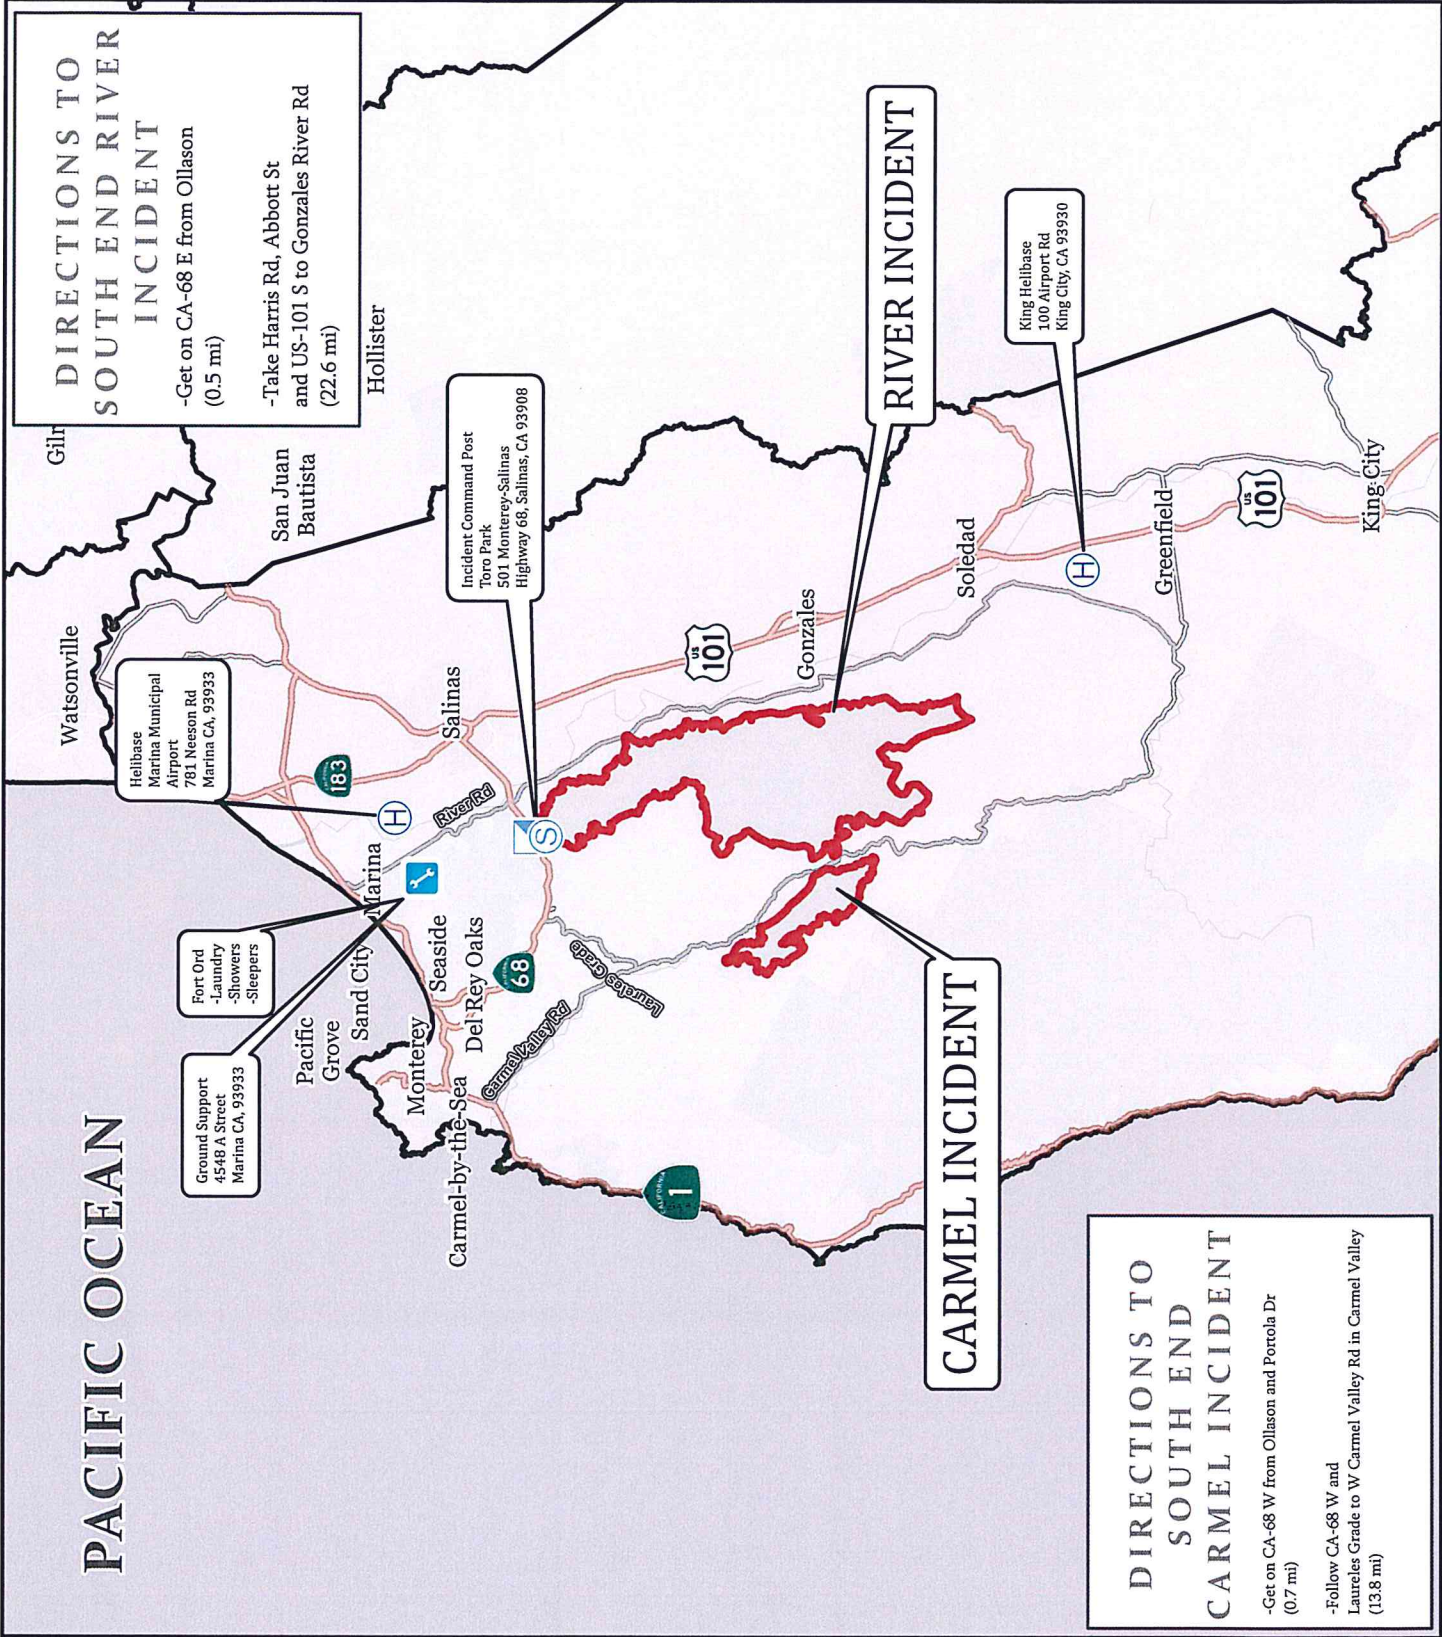

RETURN THE COMPLETED ICS-221 FORM TO THE DEMOB UNIT AND
TRAVEL HOME SAFE!
