INCIDENT Weather Forecast

FORECAST NO: PREDICTION FOR:

SHIFT DATE: FORECAST ISSUED:

Thu-Fri 0700-0700 July 16-17, 2020 1900 PDT, July 15, 2020 NAME OF FIRE:

UNIT:

Incident Meteorologist:

Mineral Fire

Cal Fire Fresno Kings

Dan Harty

WEATHER DISCUSSION: A dry air mass will remain over the fire area with temperatures trending a little hotter today. Relative humidity will remain low with generally poor overnight recovery. Winds will be mainly terrain influenced and light during the overnight and morning with afternoon and evening breezes developing each day. Conditions will trend a little hotter and drier into the weekend.

...Hot and Dry with Gusty Winds in the Afternoon and Evening...

WEATHER FORECAST for THURSDAY:

WEATHER:

Smoke, otherwise sunny.

MAX TEMPERATURES: 90-96°

MIN HUMIDITY:

20-25%

20 FOOT WINDS:

SLOPE/VALLEY -

Downslope 2-5 mph through 0800 then upslope 4-8 mph with gusts to around

16 mph in the afternoon.

RIDGETOP -

Southeast 4-8 mph with gusts around 12 mph.

WEATHER FORECAST for THURSDAY NIGHT:

WEATHER:

Smoke, otherwise clear.

MIN TEMPERATURES:

67-73°

MAX HUMIDITY:

30-40%

20-FOOT WINDS:

SLOPE/VALLEY - Downslope 2-5 mph after 2100.

RIDGETOP -

Southeast 3-7 mph with gusts to 10 mph.

OUTLOOK for Friday: Areas of smoke, otherwise sunny. Maximum temperatures 90-96°. Minimum relative humidity 19-24 percent followed by fairly poor overnight recovery of 30-40 percent. Terrain driven winds will prevail with gusty afternoon and evening conditions.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 2	TYPE OF FIRE: WILDLAND						
FIRE NAME: MINERAL CAFKU-010219	OPERATIONAL PERIOD: JULY 16 0700-0700						
DATE ISSUED: July 15, 2020	TIME ISSUED: 20:00						
UNIT: FRESNO KINGS	SIGNED: Stephen Volmer						
	Typed/printed: FBAN Stephen Volmer						

INPUTS

WEATHER SUMMARY: Temperatures remain at seasonal norms. Relative humidity will remain low, with poor recovery overnight. Breezy conditions will occur in the morning and evening with the diurnal wind shifts from up-canyon to down-canyon. Conditions will become hotter and dryer by the weekend.

Daytime high temperatures will be in the upper 90's, decreasing to the mid 60's in the evening. Minimum relative humidity will be between 20-25%. Winds upslope 4-8mph with gust to 16mph in the afternoon. Night time recovery will be minimal with humidity lowering to 35% with temperatures in the high 60's. Expect heavy smoke settling in the area. Nighttime downslope winds 2-5mph after 2100, with ridgetop winds from the Southeast 3-7mph with gusts to 10mph.

BE ALERT FOR SHIFTING WINDS IN THE MORNING AND EVENING

OUTPUTS

FIRE BEHAVIOR

GENERAL: Fuels have continued to dry out and are near critical levels. The primary fuels are cured grasses, decadent Chamise fields, Oak understory, and pines. The brush component is dense and has an abundance of dead material in it from the previous drought. Expect ignitions to occur easily with dangerous fire spread rates when in alignment with wind, slope, and topography throughout the area. The potential for increased fire activity will arrive in the late morning when the smoke layer clears increasing the fuel temperature, and up slope winds.

SPECIFIC:

GRASS: Rate of Spread....120 ft/min Flame Length....8 ft Spotting.... .30 mi Probability of Ignition 90%

BRUSH: Rate of Spread....110 ft/min Flame Length....20 ft Spotting.... .50 mi Probability of Ignition 90%

UNDERSTORY: Rate of Spread....10 ft/min Flame Length....3 ft Spotting.... .10 mi Probability of Ignition 90%

TAKE THE WEATHER OFTEN AND TRACK THE TRENDS IN THE ABOVE VALUES BE ALERT TO THE INCREASE AND DECREASE IN THE P.I.G. THROUGHOUT THE SHIFT

Sunset 7/16...20:17 Sunrise 7/17...05:58

AIR OPERATIONS: Limited visibility in the lower elevations of the fire early in the morning due to the abundance of smoke setting in. Expect visibility to increase after the inversion breaks apart in the late morning. Transport winds will be out of the Northwest, and could smoke in the Southeastern side of the incident.

SAFETY

Weather getting hotter and dryer.

Fine flashy fuels will ignite easily, be on the lookout for rolling material.

MINERAL SAFETY MESSAGE

Maintain Situational Awareness

INCIDENT: Mineral

DATE: July 16, 2020 TIME: 0700-0700

Major Hazards and Risks: Steep Terrain, Hot dry weather, Hydration and Driving.

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes the game dramatically! Be alert to changes in wind direction and expect changes in fire behavior.

Firing Operations: Brief your crews, maintain LCES, and follow the Firing Operations Checklist.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain separation and Situational Awareness. Watch for roll out.

COVID 19: Practice Social Distancing maintain 6' separation, utilize masks and frequently wash / sanitize your hands. Monitor for symptoms and report immediately. More information available in the Safety Folder access through QR code on IAP.

Valley Fever: Limit dust exposure. Utilize recirculation for A/C. More information available in the Safety Folder access through QR code on IAP.

Personnel: Monitor yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase as well. Keep an eye on your crew and partner.

Driving: Slow Down! Drive defensively with headlights on and seatbelts fastened. Coordinate your movements on one-lane roads. Utilize A/C recirculation while on dirt roads. **Maintain and monitor road conditions.**

Powerlines: Follow power line safety guidelines in IRPG, watch out for burned out power poles.

Review your ICS 206 and know what to do in the event of an (IWI).

Lookouts, Communication, Escape routes, Safety zones

Tailgate Safety

- Accountability: everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- Communication: everyone knows the com-plan
- Briefing: everyone gets a briefing
- Safety gear: ensure everyone is utilizing the appropriate safety gear in good working condition
- LCES: ensure they are identified and communicated

Heat Illness Prevention:

- Drink plenty of fluids
- 3:1 Water and Gatorade
- Avoid drinking energy drinks
- Take breaks as needed
- Find shade when you can

Incident Safety Officer: Ryan Danielsen SOF1 (T)

Incident Commander: Sean Kavanaugh

MINERAL INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / I	
DIV	TAZITA COSTOS	Be alert for signs of fatigue and take breaks as necessary	y
		Monitor incoming resources for level of fatigue. Drink	water before, during and

COVID-19 PROTECT YOURSELF AND OTHERS

Know How it Spreads

- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is spread:
 - ✓ between people who are in close contact with each other.
 - through respiratory droplets produced when an infected person coughs, sneezes or talks. **Breathing in the** droplets or getting them on your hands and then transferring them into your mouth, nose or eyes will infect you with the virus.

Know how to Protect Yourself and Others

- Cover your mouth and nose with a cloth face cover when around others.

 A face cover is **not** a substitute for social distancing.
- Wash your hands often with soap and water.
 If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth.
- Avoid close contact
 As much as possible, maintain 6 feet of distance between yourself and others.
- Cover coughs and sneezes keep your fluids to yourself!

Clean and Disinfect

• Clean AND disinfect frequently touched surfaces often.

Monitor Your Health Daily

- Be alert for symptoms:
 - > Fever, cough, difficulty breathing, headache, sore throat, etc.
- Advise your supervisor as soon as you start having symptoms.

Promotion, preservation and protection of the community's health

1221 Fulton Street /P. O. Box 11867, Fresno, CA 93775 (559) 600-3357 ☐ FAX (559) 600-7629

TRAINING SPECIALIST MESSAGE

A Training Specialist is now on the incident.

ALL ASSIGNED TRAINEES

working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

The Training Specialist is available immediately following the morning Operations Briefing.

TRAINING SPECIALIST

Claudia Soiza Cell-(949)632-7813

Incident Trainee/Trainer Data Form Mineral Incident CA-FKU-010219

Training Specialist: Claudia Soiza

949.632.7813

> All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.

> Prior to or as you process through DEMOB, remember to close your training package. To close your training package, bring: 1) A performance rating from your trainer. (ICS 225)

2) Your task book that has as many entries as possible by your Trainer.

MEDIA

<u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire
 personnel cannot provide members of the media with authorization to enter private
 property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

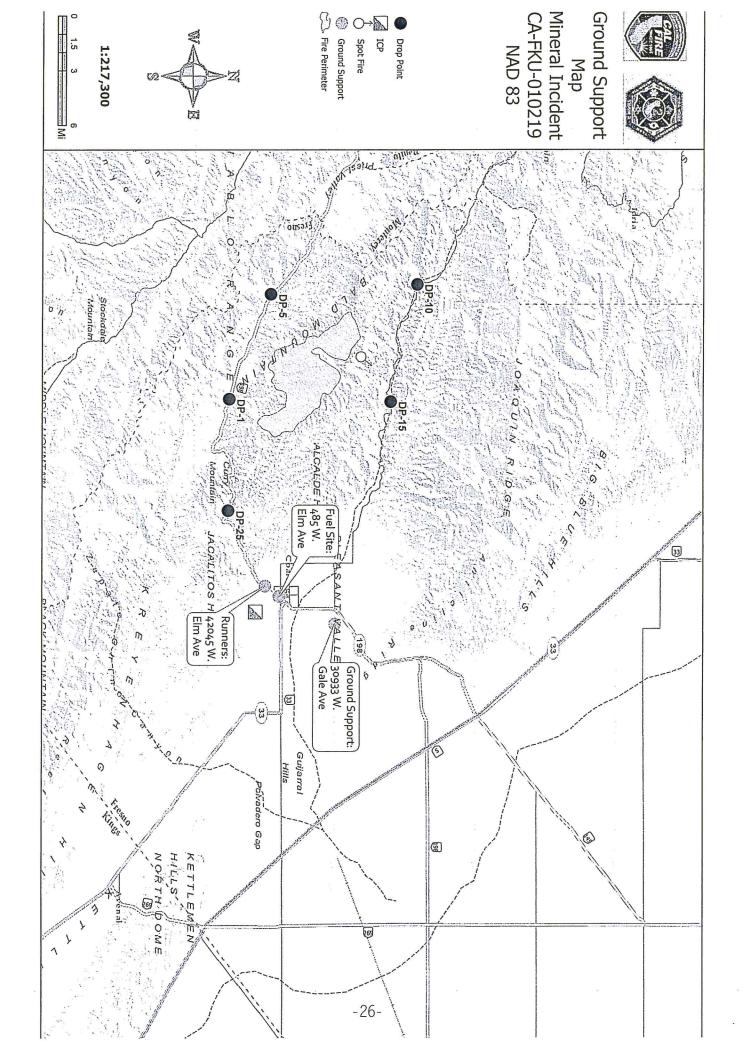

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
