INCIDENT OBJECTIVES (ICS 202)

IIIOIDI	TIVE ODOLOTIVE	.0 (100 Z	<i>32</i>								
1. Incident Name:	2. Operational Period:	Date From:	7/17/2020	Date To:	7/18/2020						
Mineral		Time From:	0700	Time To:	0700						
3. Objective(s):		· · · · · · · · · · · · · · · · · · ·									
Management Objectives	W 22 15										
-Provide for emergency personnel and public safet	y at all times.										
-Protect property, improvements, and infrastructure	е.										
-Ensure repopulation takes place in a quick, efficie	nt, and effective manner.										
Keep the fire South of Los Gatos Creek Road. Keep the fire East of San Benito / Monterey County Line.											
-Foster and maintain relationships with all coopera	tors and stakeholders.										
-Protect economic, natural, cultural and heritage re	esources.										
-Maintain fiscal accountability and keep costs com	mensurate with values at risk.										
Control Objectives											
-Keep the fire North of HWY 198.											
-Keep the fire South of Los Gatos Creek Road.											
-Keep the fire East of San Benito / Monterey Coun	ty Line.										
-Keep the fire West of Parsons Ridge.											
General Situational Awareness:											
Steep and rugged terrain, critically dry and rece	eptive fuel beds, active area	for fire history a	nd drought str	essed trees.

INCIDENT Weather Forecast

FORECAST NO:

PREDICTION FOR: SHIFT DATE:

FORECAST ISSUED:

Fri-Sat 0700-0700 July 17-18, 2020

1900 PDT, July 16, 2020

NAME OF FIRE:

UNIT:

Incident Meteorologist:

Mineral Fire

Cal Fire Fresno Kings

Dan Harty

WEATHER DISCUSSION: High pressure will remain in control providing us with hot and dry weather for the next several days. Expect little changes in temperatures and relative humidity with mostly poor RH recovery over the fire area each night. Winds will be largely terrain driven with moderate gusts developing through the afternoon and then diminishing after sunset. Winds could become erratic at times due to complex terrain and channeling effects.

... Hot and Dry with Breezy Conditions in the Afternoon and Evening...

WEATHER FORECAST for FRIDAY:

WEATHER:

Smoke, otherwise sunny.

MAX TEMPERATURES: 90-96°

MIN HUMIDITY:

21-26%

20 FOOT WINDS:

SLOPE/VALLEY -

Downslope 2-5 mph through 0800 then becoming upslope/upcanyon 4-8 mph

with gusts to around 18 mph after noon.

RIDGETOP -

Southeast 4-8 mph with gusts around 12 mph.

WEATHER FORECAST for FRIDAY NIGHT:

WEATHER:

Smoke, otherwise clear.

MIN TEMPERATURES:

70-75°

MAX HUMIDITY:

35-45%

20-FOOT WINDS:

SLOPE/VALLEY - Downslope 2-5 mph after 2100.

RIDGETOP -

Southeast 3-7 mph with gusts to 10 mph.

<u>OUTLOOK for Saturday and Sunday:</u> Areas of smoke, otherwise clear skies. Maximum temperatures 93-100°. Minimum relative humidity 19-25 percent followed by poor overnight recovery of 35-45 percent. Winds will continue to be terrain influenced with moderate afternoon and evening gusts 15-20 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3	TYPE OF FIRE: WILDLAND
FIRE NAME: MINERAL CAFKU-010219	OPERATIONAL PERIOD: JULY 17 0700-0700
DATE ISSUED: July 16, 2020	TIME ISSUED: 20:00
UNIT: FRESNO KINGS	SIGNED: Stephen Volmer
	Typed/printed: FBAN Stephen Volmer

INPUTS

WEATHER SUMMARY: Temperatures will begin to increase over the next few days. Relative humidity will remain low, with poor overnight recovery. Breezy conditions will occur in the morning and evening with the diurnal wind shifts from upcanyon to down-canyon. Be alert for periods of minimal wind activity between 21:00 and 07:00, this will cause the smoke to settle into the drainages.

Daytime high temperatures will be in the upper 90's, decreasing to the mid 70's in the evening. Minimum relative humidity will be between 20-25%. Winds upslope 4-8mph with gust to 18mph in the afternoon. Night time recovery will be minimal with humidity lowering to 35% with temperatures in the mid 70's's. Expect heavy smoke settling in the area. Nighttime downslope winds 2-5mph after 2100, with ridgetop winds from the Southeast 3-7mph with gusts to 10mph.

OUTPUTS

FIRE BEHAVIOR

GENERAL: Fuels have continued to dry out and are near critical levels. The primary fuels are cured grasses, decadent Chamise fields, Oak understory, and pines. The Northeast aspect will have large amounts of Oak/Pine understory, with brush filled drainages. The Southwest aspects have large amounts of grass, transitioning to dense Chamise fields in the upper elevations. Expect ignitions to occur easily with dangerous fire spread rates when in alignment with wind, slope, and topography throughout the area. The potential for increased fire activity will arrive in the late morning when the smoke layer clears increasing the fuel temperature, and up slope winds.

SPECIFIC:

GRASS: Rate of Spread....120 ft/min Flame Length....8 ft Spotting.... .30 mi Probability of Ignition 90% BRUSH: Rate of Spread....110 ft/min Flame Length....20 ft Spotting... .50 mi Probability of Ignition 90%

UNDERSTORY: Rate of Spread....10 ft/min Flame Length....3 ft Spotting.... .10 mi Probability of Ignition 90%

DIV A, M, Z: Minimal fire activity. Be alert for fire weekend timber, and deep-seated heat remaining in the Oak stands. Nuisance smokes will continue.

DIV F, L: Backing fire will produce roll-out that could initiate slope reversal problems. Be alert for low elevation interior spots in the drainages.

Sunset 7/17...20:17 Sunrise 7/18...05:59

AIR OPERATIONS: Limited visibility in the lower elevations of the fire early in the morning due to the abundance of smoke setting in. Expect visibility to increase after the inversion breaks apart in the late morning. Transport winds will be out of the Northwest, and could smoke in the Southeastern side of the incident.

SAFETY

Do not get overly committed chasing spot fires into the fine flashy grass fuels.

Look out for fire weekend timber, and branches. They will release easily in gusty conditions.

MINERAL SAFETY MESSAGE

Maintain Situational Awareness

INCIDENT: Mineral DATE: July 17, 2020 TIME: **0700-0700**

Major Hazards and Risks: Steep Terrain, Hot Dry Weather, Hydration and Driving.

Firing Operations: Brief your crews, maintain LCES, and follow the Firing Operations Checklist. Ensure everyone is wearing PPE, watch for spots across the line. Report injuries to supervisor immediately.

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes the game dramatically! Be alert to changes in wind direction and expect changes in fire behavior.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain separation and Situational Awareness. Watch for roll out.

COVID 19: Practice Social Distancing maintain 6' separation, utilize masks and frequently wash / sanitize your hands. Monitor for symptoms and report immediately. More information available in the Safety Folder access through QR code on IAP.

Valley Fever: Limit dust exposure. Utilize recirculation for A/C. More information available in the Safety Folder access through QR code on IAP.

Personnel: Monitor yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase as well. Keep an eye on your crew and partner.

Driving: Slow Down! Drive defensively with headlights on and seatbelts fastened. Coordinate your movements on one-lane roads. Utilize A/C recirculation while on dirt roads. **Maintain and monitor road conditions.**

Powerlines: Follow power line safety guidelines in IRPG, watch out for burned out power poles.

Lookouts, Communications, Escape Routes, Safety Zones

Tailgate Safety Planning for Medical Emergencies (IRPG)

Prior to each operational period all wildland firefighters need to ask and be able to answer the following questions.

- What are we going to do if someone gets hurt?
- How will we get them out of here?
- How long will it take to get them to a hospital?

Review box #6 on the Medical Plan ICS 206.

Heat Illness Prevention:

- Drink plenty of fluids
- 3:1 Water and Gatorade
- Avoid drinking energy drinks
- Take breaks as needed
- Find shade when you can

Incident Safety Officer: Ryan Danielsen SOF1 (T)

Incident Commander: Sean Kavanaugh

MINERAL INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS /	REMEDIES					
ALL	BACKFIRING and BURNOUT OPERATIONS	Before beginning a backfiring or burnout operation, ensure that: Lookouts are posted, communications are established with both firing and holding teams, Escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE.						
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation.						
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel (inside rea Ensure LCES in place prior to engagement (IRPG). Establish adequate safety zones (IRPG). Use Downhill Line Checklist (IRPG). Follow "Look Up, Look Down, Look Around" procedu Utilize Risk Management Process (IRPG).	-					
ALL	FATIGUE / HEAT / DEHYDRATION	Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible.						
ALL	COVID 19	Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Fresno County Public Health Guidelines. Monitor for symptoms, follow reporting procedure. Reference Safety folder from QR code on IAP.						
ALL	VALLEY FEVER	Limit exposure to dust. Reference Safety folder from Q Monitor personnel for signs/symptoms.	QR code on IAP.					
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below a Dozer. Utilize communication with the operator (radio or hand Watch for signs indicating buried high-pressure gas lin Stay out of the dust.	-					
ALL	POWER LINES	Follow <i>Power Line Safety</i> guidelines (IRPG) Communicate power line hazards to immediate supervisor and hazard flag accordingly. Flag area around downed power lines and deny access. Treat all downed power lines as energized.						
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft.						
ALL ALL	SERPENTINE SOILS (Asbestos) POISON OAK	Limit exposure to dust. Maintain roads. Review the identification of poison oak. Avoid poison oak, wash as frequently as possible. Use Change clothing if possible.	Technu if available.

COVID-19 PROTECT YOURSELF AND OTHERS

Know How it Spreads

- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is spread:
 - ✓ between people who are in close contact with each other.
 - through respiratory droplets produced when an infected person coughs, sneezes or talks. **Breathing in the** droplets or getting them on your hands and then transferring them into your mouth, nose or eyes will infect you with the virus.

Know how to Protect Yourself and Others

- Cover your mouth and nose with a cloth face cover when around others.

 A face cover is **not** a substitute for social distancing.
- Wash your hands often with soap and water.
 If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth.
- Avoid close contact
 As much as possible, maintain 6 feet of distance between yourself and others.
- Cover coughs and sneezes keep your fluids to yourself!

Clean and Disinfect

Clean AND disinfect frequently touched surfaces often.

Monitor Your Health Daily

- Be alert for symptoms:
 - > Fever, cough, difficulty breathing, headache, sore throat. etc.
- Advise your supervisor as soon as you start having symptoms.

Promotion, preservation and protection of the community's health

TRAINING SPECIALIST MESSAGE

A Training Specialist is now on the incident.

ALL ASSIGNED TRAINEES

working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

The Training Specialist is available immediately following the morning Operations Briefing.

TRAINING SPECIALIST

Claudia Soiza Cell-(949)632-7813

Incident Trainee/Trainer Data Form Mineral Incident CA-FKU-010219

Training Specialist: Claudia Soiza

949.632.7813

- > All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.
- Prior to or as you process through DEMOB, remember to close your training package. To close your training package, bring: 1) A performance rating from your trainer. (ICS 225)
 - 2) Your task book that has as many entries as possible by your Trainer.

Mineral Public Information

Incident Information Line: 559-961-7102

Email pictures to: mineralfire2020@gmail.com

MEDIA

<u>California State Penal Code Section 409.5 (d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot
 provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions.
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF THE INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but refers to anyone that has the capability to shoot video and/or photographs and post them onto social media in a matter of minutes. Unfortunately, we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos of video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at an Information trailer. If you have found an item, bring it to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages. Mail being sent to the Mineral Fire Incident will be received at the following mailing address:

CAL FIRE Coalinga Fire Station/ Mineral Fire Name & Request # PO BOX 896 25600 Jayne Ave. Coalinga, CA 93210

COVID 19 SCREENING LOG

			r	
DATE	Self Check Completed:	Sanitized:	TIME	COMPLETED BY:

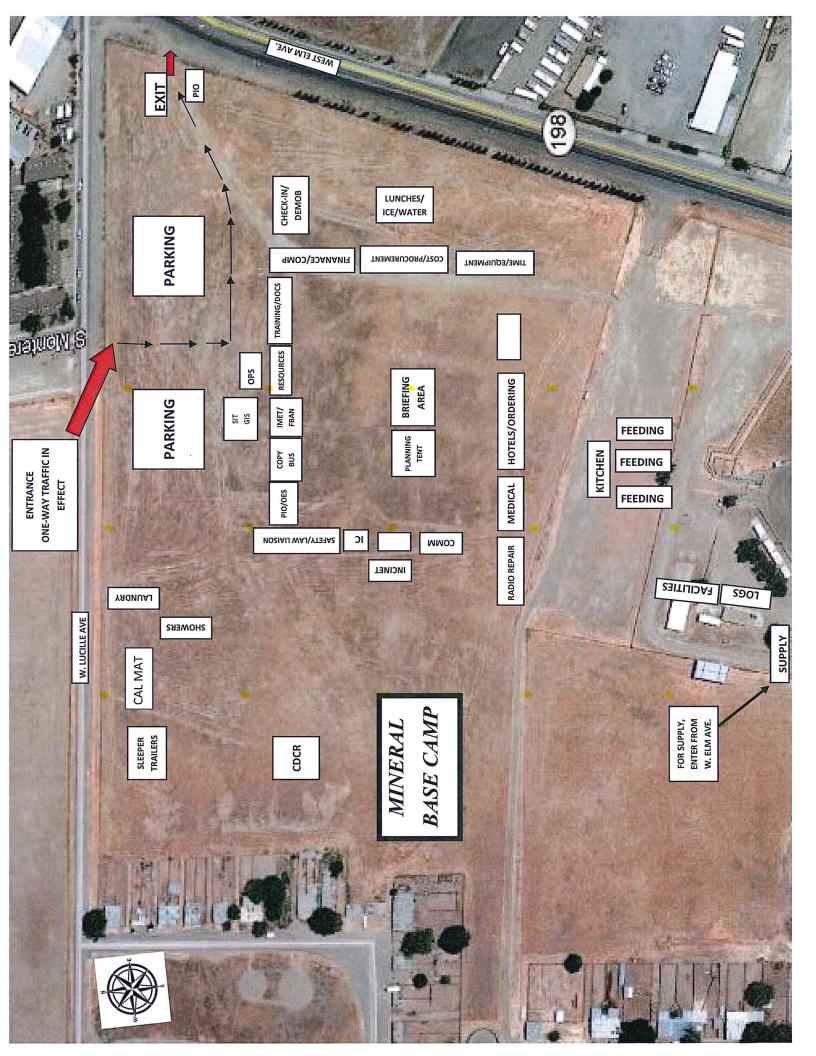

SCREENING QUESTIONS

- 1. Are you feeling ill?
- 2. Are you having chills?
- 3. Do you have a new or worsening cough?
- 4. Do you have a new or worsening shortness of breath?
- 5. If thermometer is available, Check temperature. If >100.4

Contact supervisor immediately IF YES to ANY of these questions!

REMIND EMPLOYEES AFTER THE SCREENING TO:

- · Wash their hands or use alcohol-based hand sanitizer often
- Do not shake hands, touch or hug others.
- Use physical distancing of 6 feet or greater whenever possible.
