

CORRECTED

INCIDENT ACTION PLAN MINERAL INCIDENT

CA-FKU-010219

OPERATIONAL PERIOD

7/22/2020 0700
 to
7/23/2020 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Mineral</p>	2. Operational Period:	Date From: 7/22/2020 Time From: 0700	Date To: 7/23/2020 Time To: 0700
------------------------------------------------------------------------	-------------------------------	-----------------------------------------	-------------------------------------

3. Objective(s):

Management Objectives

- Provide for emergency personnel and public safety at all times.
- Protect property, improvements, and infrastructure.
- Ensure repopulation takes place in a quick, efficient, and effective manner.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

Control Objectives

- Keep the fire within the established perimeter.

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

5. Site Safety Plan Required?

Approved Site Safety Plan(s) Located at:

6. Incident Action Plan

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 8	TYPE OF FIRE: WILDLAND
FIRE NAME: MINERAL CA-FKU-010219	OPERATIONAL PERIOD: JULY 22 0700-0700
DATE ISSUED: July 21, 2020	TIME ISSUED: 20:00
UNIT: FRESNO KINGS	SIGNED: <i>Stephen Volmer</i> Typed/printed: FBAN Stephen Volmer

INPUTS

WEATHER SUMMARY: Temperatures will be lowering with humidity increasing. Gusty West winds will increase in the afternoon. Humidity will stay higher with temperatures a few degrees below normal. Warming and drying trend starting Friday through the weekend, with terrain influenced winds.

Gusty conditions will increase tree release and wind test the control lines

Daytime high temperatures will be in the upper 80's, minimum relative humidity will be between 25-35%. Southwest winds 7-12 with gust to 20mph in the afternoon. Night time recovery will be minimal with humidity raising slightly to 65% and temperatures in the mid 60's. Nighttime West winds 5-10mph with gusts to 15 mph with ridgetop winds 6-12 with gusts to 20mph from the Southwest. **DIV F humidity will climb after sundown to 70%.**

OUTPUTS

FIRE BEHAVIOR

GENERAL: Fuels have continued to dry out and are nearing critical levels within all regions of the state. The primary fuels for the area are cured grasses, Buckeye, decadent Chamise fields, Oak/Pine understory. Large areas of the incident have had 100% consumption on all aspects. Expect dangerous fire spread rates when wind, slope, and topography are in alignment throughout the area. Be alert for fire weakened timber in all areas.

SPECIFIC:

GRASS: Rate of Spread....138 ft/min Flame Length....8 ft Spotting.... .30 mi Probability of Ignition 89%

BRUSH: Rate of Spread....119 ft/min Flame Length....22 ft Spotting.... .6.0 mi Probability of Ignition 89%

UNDERSTORY: Rate of Spread....10 ft/min Flame Length....3 ft Spotting.... .20 mi Probability of Ignition 89%

The above values are valid for any new ignitions in the area along Interstate 5 from Hwy 46 to Panoche Rd

DIV A/C, M/Z, L- Minimal smoldering

DIV F- Rollout will continue from the upper slopes. Be alert for fire weakened material.

Sunset 7/22...20:14 Sunrise 7/23...06:01

AIR OPERATIONS: Expect to have good visibility over the fire throughout the shift, with scattered high clouds. Upper level winds will be out of the South. Expect gusty conditions across the ridgetops.

SAFETY

Increased rollout and tree release will occur in gusty conditions

Stump holes and 1,000 hr fuels will continue to hold heat

MINERAL SAFETY MESSAGE

Maintain Situational Awareness

INCIDENT: Mineral Fire CA-FKU-010219 | **DATE:** July 22, 2020 | **TIME:** 0700-0700

Major Hazards and Risks: Complacency, Steep Terrain, Hot Dry Weather, Fatigue, and Driving.

Mop Up: Conduct thorough briefing for all personnel. Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for stump holes and root cavities. Minimize exposure to smoke, and rotate personnel into clean as practical. Evaluate unburned islands/Increase situational awareness. Back haul all trash and equipment off the line and return it to base camp. When lifting equipment, lift with your legs and not your back.

Driving: Slow Down! All roads are open to the public. Drive defensively with headlights on and seatbelts fastened. Coordinate your movements on one-lane roads. Utilize A/C recirculation while on dirt roads. Maintain and monitor road conditions.

Complacency: Having the same assignment on the same ground day after day can lead to complacency and make us more vulnerable to accidents. Maintain your situational awareness through to the end of your assignment.

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes the game dramatically! Be alert to changes in wind direction and expect changes in fire behavior. Stay alert for new starts.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain separation and Situational Awareness. Watch for roll out.

COVID 19: Practice Social Distancing maintain 6' separation, utilize masks and frequently wash / sanitize your hands. Monitor for symptoms and report immediately. More information available in the Safety Folder access through QR code on IAP.

Valley Fever: Limit dust exposure. Utilize recirculation for A/C. More information available in the Safety Folder access through QR code on IAP.

Personnel: Monitor yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase as well. Keep an eye on your crew and partner.

Firing Operations: Brief your crews, maintain LCES, and follow the Firing Operations Checklist. Ensure everyone is wearing PPE, watch for spots across the line. Report injuries to supervisor immediately.

Hazard Tree Safety

Hazard trees both dead snags and live green trees are one of the most common risks encountered on the fire line. All firefighters survey their work area for potential hazard trees.

Review Hazard Tree Safety in your IRPG

- Watch out for stump holes.
- Watch out for fire weakened trees and limbs.

Fire Suppression Repair

- Monitor safe working distances.
- Utilize communication with heavy equipment operators (radio or hand signals).
- Maintain accountability of personnel.
- Avoid working below equipment, watch for rolling material.

MINERAL INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	MOP UP / PATROL / BACK HAUL	<p>Don't become complacent, stay alert be prepared for hazards and new starts.</p> <p>Use all required PPE, including eye protection.</p> <p>Maintain proper spacing and overhead clearance.</p> <p>Be alert for stump holes and root cavities.</p> <p>Conduct thorough briefing for all personnel (inside rear cover IRPG).</p> <p>Minimize exposure to smoke, and rotate personnel.</p>
ALL	STEEP TERRAIN / ROLLING DEBRIS	<p>Watch your footing while hiking in steep terrain.</p> <p>Be careful of loose rolling debris</p> <p>Maintain Situational Awareness and separation.</p>
ALL	FIRE SUPPRESSION REPAIR	<p>Monitor safe working distances.</p> <p>Utilize communication with heavy equipment operators (radio or hand signals).</p> <p>Maintain accountability of personnel at all times.</p> <p>Avoid working below dozers, watch for rolling material.</p>
ALL	FATIGUE / HEAT / DEHYDRATION	<p>Be alert for signs of fatigue and take breaks as necessary.</p> <p>Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift.</p> <p>Be alert for signs of heat stress in yourself and others; use the buddy system.</p> <p>Eat small meals often and when possible.</p>
ALL	COVID 19	<p>Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Fresno County Public Health Guidelines. Monitor for symptoms, follow reporting procedure. Reference Safety folder from QR code on IAP.</p>
ALL	VALLEY FEVER	<p>Limit exposure to dust. Reference Safety folder from QR code on IAP.</p> <p>Monitor personnel for signs/symptoms.</p>
ALL	DOZER SAFETY	<p>Watch for rolling material.</p> <p>Monitor safe working distances.</p> <p>Avoid working below a Dozer.</p> <p>Utilize communication with the operator (radio or hand signals)</p> <p>Watch for signs indicating buried high-pressure gas lines</p> <p>Stay out of the dust.</p>
C, F, L	BACKFIRING and BURNOUT OPERATIONS	<p>Ensure that Lookouts are posted, communications are established with both firing and holding teams, Escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE.</p>
ALL	AIRCRAFT OPERATIONS	<p>Monitor air-to-ground frequency, they are your eyes in the sky.</p> <p>Use air-to-ground frequency to communicate with aircraft.</p> <p>Use clear, concise statements when directing aircraft.</p>
ALL	SERPENTINE SOILS (Asbestos)	<p>Limit exposure to dust. Maintain roads.</p>
ALL	LINE CONSTRUCTION	<p>Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Use Downhill Line Checklist (IRPG).</p> <p>Follow "Look Up, Look Down, Look Around" procedures (IRPG).</p> <p>Utilize Risk Management Process (IRPG).</p>

AIR OPERATIONS SUMMARY ICS-220

Incident Name / Number Mineral / CA-FRU-010219
Sunrise 601 **Startup** 630 **Cutoff** 1944 **Sunset** 2014
General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.
 TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN.
 TRACK ALL DROP LOCATIONS / NUMBER OF DROPS / GALLONS DROPPED
 ALL GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES FORMAT.
 AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.
 If Retardant / Foam / Agent Is Dropped Within These Areas Immediately Notify the AOB/D and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.

Time Prepared 1500
Shutdown 2044
Date Prepared Tuesday, July 21, 2020
Operational Period - Date Wednesday July 22, 2020

"Mineral" Incident Fire Suppression Repair Plan

I. Objectives

The objective of the Suppression Repair Plan is to mitigate possible adverse effects to resources resulting from fire suppression activities on the Mineral Fire in a manner which does not compromise firefighter safety. The mitigations described within this plan have been developed to apply to constructed fire lines, watercourse crossings, access roads, drop points, heli-spots and any other locations disturbed by fire suppression activities. A Repair Specialist will be assigned to ensure that work is done as required and according to the Emergency Fire Suppression Repair Plan. Additional specialists or equipment may be used if the need arises. Specialists will release equipment from the area when their work is completed.

II. General Repair Guidelines

A. Helispots/Staging Areas/Safety Zones

- 1) Re-contour to the original slope as requested by the Repair Specialist.
- 2) Remove soil, and/or breach berms so that runoff can be dissipated. Cross drain these areas to effectively dissipate water runoff.
- 3) Place disturbed vegetation, brush and trees, piled during line construction, on the surface of safety zones and open areas. This may be done with equipment or hand crews.

B. Roads

- 1) Re-establish existing berms where applicable.
- 2) Breach berms to facilitate drainage, where applicable.
- 3) Clean culverts plugged with soil and rock resulting from fire suppression activities.
- 4) Blading or grading of roads may be necessary.

C. Firelines; Hand and Dozer

Install waterbars as needed. Waterbars are designed to intercept, slow and spread the precipitation run-off in order to reduce sediment transport and soil erosion. The idea is to move water off the fireline before it can build up enough energy to erode and transport sediment. Re-establish waterbars and rolling dips using pre-fire locations. Flatten berms along fire lines to match natural contours. Utilize cut vegetation for erosion control on steep dozer and hand lines.

Water Bar or cross drain spacing				
Fireline or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Spacing	200'	150'	100'	75'

D. Watercourses

- 1) Watercourse crossings shall be dipped to original configuration. Waterbreaks shall be installed on each side of channel to divert flow off of trails prior to entering watercourse channel.
- 2) Remove all soil and debris that was placed in any stream channel. A Repair Specialist will review the site for acceptability. If all foreign material cannot be removed with heavy equipment, the material shall be removed by hand. The approaches to the crossing may be sloped back to prevent future stream bank failure.

E. Other Repair Concerns

- 1) Remove all trash from fire lines and other affected areas.
- 2) Repair, broken, damaged fences, and/or gates damaged as the result of the fire control operations will be repaired. (Note: Extent and condition of damage should be documented prior to repairs.)

Prepared by:

Lucas Titus, Fire Suppression Repair Lead

DEMOBILIZATION PLAN

Mineral Fire
CA-FKU-010219

DEMOB PROCEDURES

- Due to COVID-19, every effort will be made to ensure the demobilization procedures will limit face to face contact. Please follow the following plan:
- Check the demob list daily. You can find the demob list posted around camp or by utilizing the QR code on your IAP. Please report to demob only at your scheduled time.
- Wear a facial covering and maintain proper social distancing guidelines throughout the demob process.
- The demob unit will provide you with an ICS-221 check-out form.
- For the following units, demob personnel will make radio contact to ensure you are clear for demobilization:
 - Supply Unit
 - Communications Unit
 - Accomodations Unit (If applicable)
- For the following units, you will report in person to complete your check-out:
 - Time Unit
 - Documentation Unit
 - Training Specialist (If applicable)
 - Ground Support Unit - CALTRANS Yard at 30933 W. Gale Ave, Coalinga
- Please ensure only essential personnel (Strike Team Leaders, Crew Boss's, One person per single resource, etc) are attending the in person demob.
- Finally, return your completed ICS 221 to the demob unit and you will be advised of your status (released home, reassigned, etc.)

Stan Atchison (310) 749-9758

Demobilization Unit Leader, CALFIRE Incident Management Team 2

COVID-19

PROTECT YOURSELF AND OTHERS

Know How it Spreads

- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is spread:
 - ✓ between people who are in **close contact** with each other.
 - ✓ through respiratory droplets produced when an infected person coughs, sneezes or talks. **Breathing in the droplets** or getting them on your hands and then transferring them into your mouth, nose or eyes will infect you with the virus.

Know how to Protect Yourself and Others

- **Cover your mouth and nose** with a cloth face cover when around others.
A face cover is **not** a substitute for social distancing.
- **Wash your hands often with soap and water.**
If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol.
- **Avoid touching your eyes, nose, and mouth.**
- **Avoid close contact**
As much as possible, maintain 6 feet of distance between yourself and others.
- **Cover coughs and sneezes** – keep your fluids to yourself!

Clean and Disinfect

- Clean AND disinfect frequently touched surfaces often.

Monitor Your Health Daily

- Be alert for symptoms:
 - Fever, cough, difficulty breathing, headache, sore throat, etc.
- Advise your supervisor as soon as you start having symptoms.

Promotion, preservation and protection of the community's health

1221 Fulton Street /P. O. Box 11867, Fresno, CA 93775

(559) 600-3357 ☐ FAX (559) 600-7629

COVID-19 DAILY CHECKLIST

Disinfect ALL Surfaces	At least twice a day, wipe down ALL hard surfaces in the work station and on apparatus using an appropriate cleaning disinfectant solution OR a bleach solution of 1/3 cup of bleach to one (1) gallon of water.
Decontamination Procedures for Personnel, Clothing, Etc.	Please refer to the <u>CAL FIRE COVID-19 Response Recommended Actions and Guidance Document</u> on the CAL FIRE EMS Program Intranet page for information regarding decontamination procedures for personnel, apparatus, equipment and workplace.
Temperature Scans	If thermometer is available, conduct scan of all employees at the start of workday.
Ensure Proper Hygiene	Ensure ALL employees frequently wash hands for a minimum of 20 seconds often throughout the shift and after every patient and/or personal contacts.
Documentation	If any personnel have an identified exposure, IMMEDIATELY follow notification procedures for exposure.
Observe Physical Distancing Protocols	Review all Centers for Disease Control & Prevention (CDC) recommended social distancing protocols and personal protection guidelines regarding How to Protect Yourself & Others.
Supply Needs	Ensure all locations have adequate supply of required supplies to ensure smooth uninterrupted operations.

PROTOCOL FOR "YES" ANSWERS:

If an employee answers "YES" to any question:

1. Isolate them from other employees and refer them to an appropriate healthcare provider for evaluation and treatment.
2. Follow the notification process as outlined in the memorandum "COVID-19 Guidelines for all CAL FIRE."

REMIND PERSONNEL TO:

- Wash their hands and use alcohol-based hand sanitizer often.
- Do not shake hands, touch or hug others.
- Use physical distancing of six (6) feet or greater whenever possible including meals, exercise, and tasks in the station.
- Personnel should follow CDC, CDPH, along with any applicable local county public health protocols regarding COVID-19 directives/orders both inside and outside the workplace.
- Do not come into work if feeling ill/feverish or showing any respiratory illness signs.

TRAINING SPECIALIST MESSAGE

**All Mineral Incident Trainees
Beat the Rush!!!**

In order to receive documented credit for your training assignment you must register with the incident Training Specialist.

The Training Specialist is available immediately following the morning Briefing.

In order to receive documented credit for your training assignment – you must close out with the Training Specialist before you Demob!!

Bring the following to the “Exit Interview”

- **A completed and signed ICS 225 Performance Evaluation**
- **A completed Evaluator’s Recommendation**

Forms are available at the Training Office

Remember: No documentation – it didn’t happen!

Claudia Soiza - 949 632-7813

Incident Trainee/Trainer Data Form
Mineral Incident CA-FKU-010219

Training Specialist: Claudia Soiza 949.632.7813

- All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.
- Prior to or as you process through DEMOB, remember to close your training package. To close your training package, bring: 1) A performance rating from your trainer. (ICS 225)
2) Your task book that has as many entries as possible by your Trainer.

MINERAL PUBLIC INFORMATION

Incident Information Line: 559-961-7102

Email pictures to: mineralfire2020@gmail.com

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
