In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.

Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

HEADS UP!!! Lookout for SNAGS when working around areas with burned trees. Evaluate all wind damaged trees with large limbs before working under or around them.

Avoid complacency!!!! It is well documented that serious injuries have occurred on fires in the mop up phase.

Ensure radios are properly programmed for today's IAP and that crews are trained in communications procedures for the incident.

Maintain situational awareness. Look up, Look down, Look around. Watch out for ash pits and stump holes.

Stay hydrated!!! Time to think = time to drink. Document rest and hydration on 214.

Stay situationally aware! LCES!

Be aware of rotary wing aircraft dropping in all divisiions.

COVID Please follow Covid 19 protocol. Social distance when you can. Wear your mask when appropriate. Frequent hand washing / sanitizing.
