Use anchor and flank tactics if the fire gets established.

HEADS UP!!! Lookout for SNAGS when working around areas with burned trees. Evaluate all wind damaged trees with large limbs before working under or around them.

Avoid complacency!!!! It is well documented that serious injuries have occurred on fires in the mop up phase.

DRIVING: Be cognizant of your speed. As we learn our routes our speed tends to increase.

Maintain situational awareness. Look up, Look down, Look around. Watch out for ash pits and stump holes.

Use caution when loading hose, loose couplings can cause serious injury.

Use extreme caution when using mechanized hose rollers.

Be mindful of contaminants on dirty hose, take time to gross decon and clean nomex.

COVID Please follow Covid 19 protocol. Social distance when you can. Wear your mask when appropriate. Frequent hand washing / sanitizing.

Our safety record is a direct reflection on your professionalism and commitment to safety. Thank you !
