INPUTS

WEATHER SUMMARY: Moisture from Tropical Storm Kay will continue to impact the area with scattered showers and thunderstorms. Daytime temperatures will increase to 91 degrees with relative humidity values of 40-50%. OUTPUTS

FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE MILES	PROBABILITY OF IGNITION	
GRASS	6	1	.1	30	
SHRUB (1-3' tall)	31	3	.2	30	
BRUSH (4-6' tall)	47 6		.2	30	

GENERAL: ERC's for the area have fallen rapidly due to the recent moisture. 100 and 1000 hour fuels moisture levels will retreat from critical levels over the next 5 days. These fuels will still be able to ignite easily when aligned with wind and topography. Expect smoldering and creeping with slow rates of spread in areas with heavy surface fuels. Deep seated heat will still be found in root wads, heavy fuels, and stump holes. This heat will continue to be a significant source of embers that can travel across control lines.

Values above are accurate for all new fires 10 miles north, west, and south of the incident

SPECIFIC:

- Due to the dry conditions and drought, rainfall alone will not extinguish the heavy fuels.
- Light flashy fuels will not carry fire until the area dries out over the next few days.
- Dense brush and heavy fuels will take longer to absorb the moisture, and will remain dry.

AIR OPERATIONS:

Aircraft may be unavailable due to weather. Have an alternative plan for any support actions. Gusty winds will be present around the ridgetops and canyons.

Sunset 18:59 Sunrise 06:29

SAFETY:

- Fire weakened trees and limbs will have the potential to release during heavy rains and winds.
- Be alert for the afternoon shifting winds and strong gusts in all areas of the incident.
- Review IRPG page 17 for Thunderstorm information, and IRPG page 51 for Lightning Activity Levels.

Jeff Veik- INCIDENT COMMANDER

DEMOBILIZATION PLAN - SUMMARY Fairview Incident CA-RRU-129712

GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

GENERAL GUIDELINES

- NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled demobilization time.
- All Rental Vehicles will receive a safety inspection prior to leaving the incident.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call South Ops at 1-800-237-3703 immediately upon being released from the incident

RESPONSIBILITIES

Unit Leaders will declare resources excess to their Section Chief. Section Chiefs will declare excess resources to the Planning Section Chief through the Resource Unit Leader. This should be done 36 hours in advance of anticipated release. Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the RESOURCE UNIT where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the DEMOB UNIT, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact South Ops or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

RELEASE PRIORITIES

- 1. Organized fire departments
- 2. OES engines
- 3. Hired personnel and equipment
- 4. Other agencies (USFS, BLM, etc.)
- 5. Out of region CAL FIRE forces

Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.
