16. State: 17. County / Parish / Borough: 18. City: Aguanga								
19. Unit or Other: 20.	Incident Jurisdi	ction: 21. Inc		on Owr	nership (if differer	nt thai	n jurisdiction):	
22. Latitude/Longitude: Latitude: 33º 26' 18' Longitude: 116º 49'	rid Referend	ence: 24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:						
25. Short Location or Ar Community of Aguan						Z	. UTM Coordinates: Yone: Easting: Horthing:	

28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Minimal

Incident: **HIGHLAND**

Backing Creeping Smoldering

Narrative:

Fire behavior overnight was minimal with no significant growth.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Brush (2 feet) Short Grass (1 foot)

Narrative:

Fuels have been relatively wet with little precipitation since March. Fuel moistures have been above average for the season. RH's have dropped due to the Santa Ana Wind Event.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Damage Assessment continues as crews make access into the interior of the burned area.

DINS team is on order.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	2,356	6	7
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	0	0	0
I. Other Minor Structures	0	0	0

31. Public Status Summary:

C. Indicate the Number of Civilians (Public) Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to- date
D. Fatalities	0		0
E. With Injuries/Illness	0		0
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	4,270	0	4,270
I. Sheltering in Place	0		0
J. In Temporary Shelters	11	0	11
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Civilians (Public) Affected:	4,281	0	4,281

32. Responder Status Summary:

C. Indicate the Number of Responders Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to- date
D. Fatalities	0		0
E. With Injuries/Illness	1	0	1
F. Trapped/In Need of Rescue	0		0

I. Sheltering in Place	0		0
J. In Temporary Shelters	0		0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Responders Affected:	1	0	1

Incident: **HIGHLAND**

33. Life, Safety, and Health Status/Threat Remarks:

The terrain has made it difficult for the crews to fight fire direct.

The area is very rocky with heavy fuels. Firefighters will be exposed to heavy smoke laying low from erratic winds. Due to the Santa Ana Wind event fire activity will be extreme with spotting potential.

EVACUATION ORDERS

South of Sage Road / Golden Creek North of Cottonwood Creek
West of Boulder Vista East of Becker Lane

North of the County line South of Highway 79 East of Forest Route 8S07 West of Crosley Truck Trail

South of Highway 371 West of Soreson North of County Line Road

East of Vail Lake Resort West of Shirley Way North of David Street South of Pueblo Rd/Exa Ely Rd

EVACUATION WARNINGS

West of Cahuilla Tribal Reservation Boundary and North of County Line Rd

North of Cleveland National Forest South of Watts Road, Esplendida Way, Avenida Bravura East of Pauba Road, De Portola Road West of Round Top Canyon Road

EVACUATION CENTERS

A reception and care center has opened at: Great Oak High School 32555 Deer Hollow Way, Temecula, CA 92592 Large and small animals can be taken to: San Jacinto Animal Shelter 581 South Grand Avenue, San Jacinto, CA 92582

ROAD CLOSURES

HWY 79 from Vail Lake to San Diego County line. Sage Rd from HWY 79 to Wilson Valley Rd Wilson Valley Rd from Sage Rd to HWY 371 HWY 371 from HWY 79 to Wilson Valley Rd

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):

Into Wednesday, the offshore winds will trend weaker. East and southeast winds are expected overnight, highest in the early

34. Life, Safety, and Health Threat Management:

	Active?
A. No Likely Threat	
B. Potential Future Threat	X
C. Mass Notifications in Progress	
D. Mass Notifications Completed	
E. No Evacuation(s) Imminent	
F. Planning for Evacuation	
G. Planning for Shelter-in-Place	
H. Evacuation(s) in Progress	
I. Shelter-in-Place in Progress	
J. Repopulation in Progress	
K. Mass Immunization in Progress	
L. Mass Immunization Complete	
M. Quarantine in Progress	
N. Area Restriction in Effect	
O. Road Closure	X
P. Trail Closure	
Q. Area Closure	х

Incident: **HIGHLAND**

evening,
with surface wind gusts near 25 mph. Winds will weaken a bit
overnight then increase slightly by late Wednesday morning,
weakening again by Wednesday afternoon. Overnight recovery will
remain very poor, though slightly improved from earlier this
week. Humidity recoveries will improve later in the work week.
Today (WEDNESDAY)
Today (WEDNESDAT)
Sky/weatherPartly cloudy (25-35 percent) then becoming
mostly sunny (5-15 percent).
Max temperatureAround 77.
Min humidity10 percent.
Eye level windsEast winds up to 11 mph. Gusts up to 24 mph.
Wind (20 ft)
Slope/valleySoutheast winds 6 to 14 mph. Gusts up to 32
mph.
RidgetopEast 15 to 20 mph decreasing to 5 to 10 mph in
the afternoon.
CWR0 percent.
LAL1.
Mixing height4600 ft AGL.
Transport windsSoutheast 6 to 15 mph shifting to the east 3 to
5 mph late in the afternoon.
.WEDNESDAY NIGHT
WEDNESDAT RIGHT
Sky/weatherMostly clear (5-15 percent).
Min temperatureAround 56.
Max humidity21 percent.
Eye level windsSoutheast winds 5 to 7 mph. Gusts up to 18 mph
after sunset.
Wind (20 ft)
Slope/valleyEast winds 8 to 10 mph. Gusts up to 23 mph after
sunset.
RidgetopEast around 5 mph.
CWR0 percent.
LAL1.
Mixing height300 ft AGL.
Transport windsEast 5 to 10 mph.

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

With predicted weather, there is potential for fire to continue to move in a westerly direction if 12 hours: Santa Ana winds continue. Once the Santa Ana winds subside, the fire will burn in the normal SW wind upslope direction. Potential for growth on the flanks if established in the terrain.

Nov 1, 2023 4 7:57:08 AM

Incident: **HIGHLAND**

24 hours. Anticipate the Santa Ana Wind event to conclude. If fire suppression activity is not handled

aggressively with ground crews, fire will substantially grow.

48 hours: Fire is expected to stay within the containment lines.

72 hours: Fire is expected to stay within the containment lines.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Keep the fire:

South of Lake Riverside
West of Puckett Rd

North of the Riverside and San Diego County Line

East of Deportola Rd

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours:

Continued threat to SRA watershed, federal land, Aguanga Kangaroo Rat, and the federally listed Stephens Kangaroo Rat. Several campgrounds, RV parks, and residents are threatened ahead of the fire. Long-term road closures to major commerce and residents in the communities of Aguanga and Sage. 12KV power lines along HWY 79 are threatened.

24 hours:

Continued threat to SRA watershed, federal land, Aguanga Kangaroo Rat, and the federally listed Stephens Kangaroo Rat. Several campgrounds, RV parks, and residents are threatened ahead of the fire. Long-term road closures to major commerce and residents in the communities of Aguanga and Sage. Threats remain to 12KV power lines along HWY 79.

48 hours: Minimal threat is expected.

72 hours: Minimal threat is expected.

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: None 24 hours: None 48 hours: None 72 hours: None

Anticipated after 72 hours:

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Moderate Santa Ana winds are contributing to fire growth and reducing the effectiveness of aircraft. Type 3 engines, crews, and dozers are needed to access fire in remote areas. Small and winding dirt roads make accessing the fire difficult for firefighters and difficult for the public to evacuate from the fire.

41. Planned Actions for Next Operational Period:

Continue to hold and build direct lines, mop up and patrol, protect structures, and evaluate damage.

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):

Incident: **HIGHLAND**

43. Anticipated Incident Containment or Completion Date: 11/08/2023

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: \$800,000.00

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
