

Woolsey Incident

CA-VNC-91023

Incident Action Plan

Operational Period

Nov 18th - Nov 19th 2018

0700 - 0700

BOX

FTP

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Woolsey</p>	2. Operational Period:	Date From: 11/18/2018 Time From: 0700	Date To: 11/19/2018 Time To: 0700
--	-------------------------------	--	--------------------------------------

3. Objective(s):

Management Objectives

- Provide for emergency personnel and public safety at all times by ensuring hazards and risks are identified, communicated and mitigated through the hazard risk assesment process.
- Protect property, improvements, and infrastructure.
- Ensure an appropriate evacuation and repopulation plan is in place and communicated.
- Foster and strengthen relationships by recognizing the needs of all unified, assisting and cooperating agencies.
- Accurately track costs and provide fiscal accountability while ensuring the needs of the incident are met.
- Ensure timely and accurate information is coordinated and provided to the public and cooperators.

Control Objectives

- Keep the fire within current control lines.

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

The fire area has a significant history for firefighter entrapments and injuries.

5. Site Safety Plan Required? Yes No

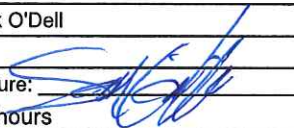

Approved Site Safety Plan(s) Located at:

INCIDENT Weather Forecast

FORECAST NO: 9 **NAME OF FIRE:** Woolsey

PREDICTION FOR: 24 hour **SHIFT** **UNIT:** VNC/CalFire

SHIFT DATE: 11/18/18-11/19/18 (0700-0700) **SIGNED:**

[Signature]
Rich Thompson
Incident Meteorologist

TIME AND DATE
FORECAST ISSUED: 11/17/18 @ 1900

WEATHER DISCUSSION: Weak northeasterly flow this morning will shift to a southwesterly/upcanyon direction this afternoon and evening with wind gusts around 15 MPH. For tonight in early Monday morning, north to northeast winds will increase across the area with gusts around 25 MPH early Monday morning. Due to the developing offshore flow, temperatures today will be a couple degrees warmer and relative humidity lower. Humidity recovery tonight will be poor to moderate.

On Monday, north to northeast winds will prevail across the area with wind gusts between 25 and 35 MPH likely in the morning to early afternoon hours. The increased offshore winds will bring warmer and drier conditions to the area. For Monday night and Tuesday, the north to northeast winds will weaken with some weak onshore winds possible Tuesday afternoon.

For Wednesday through Friday, cooler and more unsettled weather is anticipated. There will be the chance for wetting rainfall Wednesday and Wednesday night. At this time, this rainfall does not look to be too intense. So, no significant burn areas issues are anticipated at this time.

WEATHER FORECAST:

WEATHER: Partly cloudy. Patchy fog along the coast this morning.

TEMPERATURES: Max: 68-76.
Min: 46-56.

HUMIDITY: Min: 20-40%.
Max: Below 1500 feet: 40-60%.
Above 1500 feet: 25-35%.

20 FT WINDS:
RIDGETOP - 0700-1200: Northeast to east 5-10 MPH Gust 15 MPH.
1200-2000: Northwest 5-10 MPH Gust 15 MPH.
2000-0300: Northeast 6-12 MPH Gust 20 MPH.
0300-0700: Northeast 8-15 MPH Gust 25 MPH.

SLOPE/VALLEY - 0700-1100: North to northeast 3-6 MPH Gust 10 MPH.
1100-2000: Southwest/upcanyon 5-10 MPH Gust 15 MPH.
2000-0400: North to northeast 4-8 MPH Gust 15 MPH.
0400-0700: North to northeast 8-15 MPH Gust 25 MPH.

EXTENDED FORECAST:

Monday-Tuesday: Weak north to northeast winds will prevail through Tuesday morning with weak onshore flow possible Tuesday afternoon. The offshore winds will allow for warmer temperatures and lower relative humidity.

Wednesday: Mostly cloudy with wetting rain likely Wednesday afternoon and night. Temperatures will be cooler with a noticeable increase in relative humidity.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 9	TYPE OF FIRE: Wildland Fire
FIRE NAME: Woolsey	OPERATIONAL PERIOD: 24hr 11/18 (0700-0700)
DATE ISSUED: 11/17	TIME ISSUED: 2100
UNIT: VNC/LAC	SIGNED: //Troy Velin// 

INPUTS

WEATHER SUMMARY

See attached Incident Weather Forecast in IAP

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels in the area consist of cured annual and coastal grasses and coastal chaparral and sage. Rains in early October did not have a lasting effect and fuels are critically dry. The Topography is steep, broken and drainages are predominantly arranged in alignment with critical winds.

Local Thresholds – Combinations of any of the following factors can greatly increase fire behavior in the Santa Monica Mountains.

- 20' Wind speeds over 30 MPH
- RH less than 20%
- Burning index above 77

Local Thresholds for Increased Fire Behavior

	Nov 18	Nov 19	Nov 20	Nov 21
20' Wind > 30 MPH	No	No	No	No
RH < 20%	Marginal	Marginal	No	No
BI > 77	No	No	No	No

Local Thresholds – Combinations that lead to fuel moisture recovery that decreases fire behavior in the Santa Monica Mountains.

- RH > than 60% for 6 hours or more for at least 2 days in a row.
- Eye level winds =/< 8 mph

Local Thresholds for Fuel Moisture Recovery (using Cheeseboro RAWs)

	Nov 18	Nov 19	Nov 20	Nov 21
MFW < 8 MPH (Day time)	Yes	Yes	Yes	Yes
RH > 60% for 6 hours	Yes	Yes	Yes	Yes
Projected 10 FM	10	11	11	12
Projected 100 FM	8	11	9	9

SPECIFIC:

All Branches – Interior hotspots will remain through the next several days, perimeter growth is not expected.

AIR OPERATIONS:

High clouds. Marine layer near the coast

SAFETY

Obtain weather and fire behavior forecasts and make them known
 Become familiar with local weather conditions that influence fire behavior

Woolsey Incident Safety Message

November 18, 2018

Everyone is a Safety Officer

INCIDENT: Woolsey

DATE: 11-18-18

TIME: 0700- 0700

MAJOR HAZARDS and RISKS: FIRE BEHAVIOR – STEEP and ROCKY TERRAIN –NARROW ROADWAYS to FREEWAYS and ROLLING MATERIALS

ALL PPE – ALL the TIME – On the FIRELINE – NO EXCEPTION!

FIRE ORDER of the DAY – POST LOOKOUTS WHEN THERE IS POSSIBLE DANGER

“Situational Awareness” at all Times.

Do Not become Complacent in your work assignments.

Identify Travel Routes in Division/Branches with Infrastructure Damage. As your position changes ensure you identify new safety zones and escape routes.

Perform your Risk Assessment BEFORE engaging and identify decision points for DISENGAGING. IRPG Page 1

Identify Safe work areas around Utility repairs. Identify Hazards of Repairs in Divisions/Branches.

Provide for frequent rest breaks and adequate hydration. Monitor yourself and those around you for heat related illnesses. DON'T LET THE TEMPERATURE FOOL YOU!

Drive with caution on all narrow roads and when in neighborhoods. Remember drive defensively!

Document all tailgate safety briefings on your 214's (to include subject matter) for each operational period

Watch Out Situation of the Day

13.ON A HILLSIDE WHERE ROLLING MATERIAL CAN IGNITE FUEL BELOW

Escape Route/Safety Zone Checklist

Escape Routes:

- *More than one escape route
- *Scouted – soils, vegetation, slope
- *Timed – slowest person, fatigue, dozer speed
- *Marked – flagged for day and night use

Safety Zone:

- *Survivable without a shelter
- *Natural – clean burn, water, bare soil/rock
- *Manmade – constructed sites, roads
- *Scouted for size and hazards
- *Close enough considering escape time needed

Remember and Follow:

- *The 10 Standard Fire Orders
- *The 18 Situations That Shout Watch Out
- *The Common Denominators of Fire Behavior on Tragedy Fires
- *The Downhill Line Construction Guidelines

INCIDENT SAFETY ANALYSIS

WOOLSEY FIRE

DIV	HAZARDS	MITIGATIONS
All	Fire Behavior	<ul style="list-style-type: none"> • LCES • Risk Assessment IRPG
All	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Don't work above any personnel • Be aware of travel times to Safety Zones
All	Fatigue Management	<ul style="list-style-type: none"> • Get adequate rest.....follow the 2:1 work/rest guidelines • Get proper hydration & nourishment, take frequent breaks on fireline
All	Communication	<ul style="list-style-type: none"> • Use human repeaters when necessary • Review radio communication plan prior to committing resources
All	Driving & Traffic	<ul style="list-style-type: none"> • Use spotters and honk horn when backing • Always use headlights and seatbelts • Use chock blocks, emergency brakes, and turn wheels in high bank • Areas are being repopulated, expect residents to be on the roads
All	Infrastructure Repair	<ul style="list-style-type: none"> • Identify travel routes in Division/Branches during repairs • Identify hazards of repairs in Divisions/Branches • Identify damaged weak bridges • Maintain egress to safety zone
All	Utilities Repair	<ul style="list-style-type: none"> • Identify through Marking Safe Work areas around Utility Repairs • Identify Hazards of repairs in Divisions/Branches • Maintain egress to Safety Zone
All	Air Ops	<ul style="list-style-type: none"> • Communications • Leave area for VLATS when needed • ID Drop Areas
All	Power Lines	<ul style="list-style-type: none"> • Treat All Power Lines Down as "LIVE" • Mark areas with Caution Tape when possible • Notify Branch/Division of locations
All	Complacency	<ul style="list-style-type: none"> • Expect the unexpected • Monitor each other
All	Mechanized Equipment	<ul style="list-style-type: none"> • Create positive communication with operator, hand, radio, etc • Always work 100' or greater from dozer, depending on vegetation height • Know Capability of Dozer
All	Structure Overhaul	<ul style="list-style-type: none"> • Wear appropriate PPE to include respiratory protection as needed • Wear eye protection when appropriate

STATUS	
Incident Start Date: 11/08/2018	Incident Start Time: 2:30 PM
Cause: Under Investigation	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE San Luis Obispo Unit.

MAIL SERVICE – The Information Section will assist you in getting items mailed from the incident as well as receiving items, the address is: 480 Skyway Dr Camarillo, CA 93010

TRAINING SPECIALIST MESSAGE

Today, Sunday November 18 at 1200 hrs. is the deadline to close the training package for the Hill and Woolsey Incidents.

Regardless of home agency, in order to ensure incident documentation of any training assignment – You must close your assignment with Training.

Bring a completed individual performance rating,
