6. Work Assignments:									
TASK: Construct containment line around the Coleman Fire.									
PURPOSE: Create line that will prevent the fire from spreading.									
END STATE: Containment line around the entire fire and fireline is secure.									
RISK ASSESSMENT: Very steep terrain, heavy air operations, and emerging incident in wilderness.									
7. Special Instructions:									
-All medical resources MUST check in with Los Padres Dispatch and Division Supervisor once in place, see medical plan for REMS availability.									
-READS and the BAER Team will check in and out with Division.									
-Assume all divisions have Sudden Oak Death Pathogen and clean and disinfect everything. No weed wash is available use a commercial wash station where sump collection is done to prevent the further spread.
