HEALTH AND SAFETY MESSAGE

SAFETY starts with ***YOU***

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: Dolan & Coleman Fires

DATE: October 27, 2020

TIME: 0700-1930

Major Hazards and Risks:

Hiking/working in rough, extremely steep terrain.

Health and Sanitation - Keep camp and staging areas as clean as possible to reduce encounters with unwanted critters & camp crud.

Dehydration - Continue to drink fluids.

Transportation - Drive defensively with lights on. Maintain a safe speed for roadway conditions.

Aircraft Operations - Wear all required PPE when being transported by helicopter. Follow all helitack instructions when approaching, loading, and unloading from the aircraft.

Transitioning – The Eastern Area IMT will be transitioning late in the week with the local type III team.

Make sure instructions are clearly understood!!

Fire Order of the Day –Give clear instructions and be sure they are understood

Narrative: Keep the following in mind as we trend toward transition this week. The transition period between incident management teams can be one of the most confusing times on a fire. If there was going to be a Watch Out Situation #19 added, this would be a good candidate. Communicating with new people means we can't take anything for granted. Please take the time today to make sure instructions given and received are clearly understood. Don't assume anything and don't be afraid to ask questions. We can make this transition clean and seamless if everyone pays particular attention to communication today. Most of all, we can ensure that this transition is SAFE AND ACCIDENT FREE! Stay heads up and have a safe day.

Watch Out Situation of the Day
