## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER: 28</b>	<b>TYPE OF FIRE: Wildfire</b>
<b>FIRE NAME: Dolan</b>	<b>OPERATIONAL PERIOD: Sept, 18, 2020 24hr</b>
<b>DATE ISSUED: 9/17/20</b>	<b>TIME ISSUED: 1930hrs</b>
<b>UNIT: CA-LPF</b>	<b>SIGNED: </b>
<b>Typed/printed: /s/ Alex Enna, FBAN-t</b>	

### Weather Summary

Cooler temperatures, slightly higher humidity values and clearing as the day progresses. NW winds

### FIRE BEHAVIOR

#### GENERAL:

Suppression efforts and moderating weather has tempered fire behavior and growth. However, live and 1000 hour fuel moistures continue to trend downward. With subtle changes in wind and heating the potential for very active fire behavior remains. Probability of ignition of 60-70% with 1/4 mile spotting distances off of ridgetops.

Local Thresholds: Combinations of any of these factors can lead to greatly increased fire behavior: **20' windspeed over 7 mph**, relative humidity <17%, temperature over 98, **10-Hour Fuel Moisture less than 6.**

#### SPECIFIC:

Branch I (Ocean Group): Minimal fire behavior

Branch IV: Continued helicopter bucket drops have effectively checked movement towards Arroyo Seco and Tassajara. Some heat remains but forecasted winds will generally push fire back in on itself.

Branch V: Recent firing operations have secured the edge, however, the potential for spotting and other remain. General winds are relatively light and topography will play a big role in fire growth, any fire outside the containment line will run uphill rapidly (up to 15 acres of growth within 15 minutes in the brush).

Branch VII: At lower elevations, high humidity values associated with the marine layer will temper burning conditions until later in the day. Above the marine layer, fuels combined with slope/wind alignment are conducive to uphill runs of up to 80 ch/h with 20' flame lengths in the brush.

Night: Humidity recoveries and effects of the marine layer vary widely across the fire area. Above the marine layer, probability of ignitions are at 50-60% with spotting distances of a 1/4 mile.

#### AIR OPERATIONS:

Clear air highly dependent on presence of marine layer, inversion expected to lift by noon

#### SAFETY:

Although fire growth and behavior has diminished some during the last couple days, we are a ways out from a season ending event and local conditions are still very conducive to large fire growth. If responding to escapes or new starts, plan on using heavy equipment and air resources or having to utilize indirect tactics. This is a good time to game out some "what if" scenarios.

# COVID-19 Best Practices / Mitigation

Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings, hand washing, and practicing module of one concept.

At the beginning of the shift, supervisors should remind their personnel to self-screen for symptoms.

*Do your part to minimize your risk of exposure and limit the spread COVID-19.*

## King City Considerations

- ⇒ Wear a face covering when in public.
- ⇒ Wash your hands often.
- ⇒ Use hand sanitizer after pumping gas.
- ⇒ Use hand sanitizer prior to getting into your vehicle after visiting the grocery store or a restaurant.
- ⇒ Set the example while in the public eye.

*\*Keep in mind that fire camp is in a city with a populous and the potential for the COVID virus to be present is greater.*

If you answered Yes to these symptoms, report it to your supervisor immediately, self-isolate away from other people until given direction and call **206.940.2913** or **253.222.2464**.

Document all contacts with anyone other than your “module of one” for potential contact tracing (on your 214 Unit Activity Log)

*Examples of when & what to document:*

1. An STL is sitting in a vehicle with a Division Supervisor for 10-15 minutes or greater without wearing a face covering...Document this!
2. Someone from another work group enters your work space without a face covering for 10-15 minutes or greater...Document this!
3. Personnel from Division Alpha ties in with Division Bravo without a face covering and no proper social distancing...Document this!

*Arrive healthy, go home healthy!*
