OPERATIONAL PERIOD

8/22/2020 0600

to

8/23/2020 0600

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <div style="text-align: center;">Dome</div>	2. Operational Period:	Date From: 8/22/2020 Time From: 0600	Date To: 8/23/2020 Time To: 0600
---	-------------------------------	---	-------------------------------------

3. Objective(s):

Leaders Intent:

- Suppress the Dome Fire using management strategies and tactics that minimize the risk to responders and the public while reducing potential exposure to COVID-19.

Incident Objectives:

- Ensure the safety of emergency responders and the public by utilizing a sound risk management process to make informed decisions on strategies and tactics prior to engagement.
- Minimize exposure to responders and the public by using the COVID 2020 "California Interagency Incident Management Team Incident Response Guide".
- Protect critical habitats and natural resources of the; desert tortoise, Joshua Tree Forest, Mojave Tui Chub, Wilderness areas and adjacent hi-voltage power lines while utilizing Resource Advisors and Agency Representatives.
- Foster good relationships with local cooperators, stakeholders and the public by providing coordinated, accurate and timely information.
- Assist with initial attack efforts when requested by the California Desert Interagency Fire Program.
- Keep costs commensurate to values at risk by working with the local unit, coordinating with the Agency Administrator and Incident Business Advisor.

Control Objectives

- Keep the fire within its current perimeter.

Covid Mitigations

- Module of 1, six foot social distancing or wear a mask.
- Wash your hands and sanitize surfaces.

Transition Of Command

At 1800 on Saturday August 22nd transition of command will occur with JT Sohr ICT3 taking command.

FIRE WEATHER FORECAST

FORECAST NO: 4
PREDICTION FOR: Aug 22nd 0600 – Aug 23rd 0600

INCIDENT NAME: Dome
UNIT: CA-MNP
SIGNED: *Andrew Gorelow*

TIME AND DATE
FORECAST ISSUED: Fri, Aug 21 @ 1900 hours

Incident Meteorologist – Andrew Gorelow

WEATHER DISCUSSION: Moisture from former Hurricane Genevieve will push into the region bringing higher RH, more clouds, and a slight chance of afternoon showers and thunderstorms through the weekend. Thunderstorms are expected to remain over the higher terrain and remain isolated. However, gusty outflow winds will remain a concern from nearby storms. If a storm does develop over the fire it could produce brief heavy rain and lightning. Outside of any potential outflow winds, winds will generally remain south to southwest 5 to 10 mph with occasional gusts to 15 mph in the afternoon.

SKY/WEATHER TODAY (SATURDAY): Partly cloudy with a chance of afternoon showers and thunderstorms. Storms are expected to mainly develop over the higher terrain, so gusty outflow winds and potential lightning will be the main concerns. Hazy. Slightly cooler temperatures and higher RH.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

5000 FT: 89 to 94 degrees (Down 2-4 degrees) / 22 to 27% (Up 6-8%)

EYE LEVEL WINDS:

Slope/Valley: Southwest 5 to 10 mph. Occasional gusts to 15 mph in the afternoon, especially in exposed areas.

Ridges: Southwest 10 to 15 mph.

MIXING HEIGHT...10,500 feet AGL

TRANSPORT WIND...Southwest 10 to 15 mph.

HAINES....4 CWR....5% LAL....2

SKY/WEATHER TONIGHT SATURDAY NIGHT): Partly cloudy. Overnight RH expected to be good.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

5000 FT: 70 to 75 degrees (Little Change) / 45 to 50% (Up 10%)

20 FOOT WINDS:

Slope/Valley: South 3 to 6 mph.

Ridges: South to Southwest 5 to 7 mph.

HAINES....4 CWR....0% LAL....1

SUNDAY: Partly cloudy with a slight chance of afternoon showers and thunderstorms. Mainly over the higher terrain.
Max Temps: 88 to 93. **Min RH:** 24 to 29% **Winds:** Light drainage wind in the morning, becoming southwest 4 to 8 mph after 1200 with gusts to around 15 mph.
LAL: 2 CWR: 10% Haines: 4.

OUTLOOK:

MONDAY and TUESDAY: Weather: Partly Cloudy. Slight chance of late morning and afternoon thunderstorms.

High Temp: 88-93 **Min RH:** 22-27%

Wind: S 5 to 15 mph gusts to around 15 mph.

CWR: 10%

LAL: 2

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 6	TYPE OF FIRE: Wildland
FIRE NAME: Dome	OPERATIONAL PERIOD: 8/22 0600 - 8/23 0600
DATE ISSUED: August 21, 2020	TIME ISSUED: 1800
UNIT: CA-Mojave National Preserve	SIGNED: /s/ Dan O'Connor FBAN

WEATHER SUMMARY From NWS LV- CA Zone 228

Thunderstorm activity will focus south and east of Interstate 15. Through Tuesday, thunderstorm development ramps up each afternoon favoring the higher terrain as moisture spreads from the Colorado River Valley north through the region. Dry thunderstorms look to be few and far between, with an isolated dry storm in our far northern zones not out of the question and gusty outflow winds being the primary concern area wide.

Max Temp: 106-111 **Min Humidity:** 13-23% **Winds:** S 10-15 **LAL:** 2 **Haines:** 5

FIRE BEHAVIOR

GENERAL:

Fuels Fire is generally burning in grass and desert shrub, with occasional torching of individual or dense clusters of Joshua Trees. A very warm spring and summer has resulted in **ERC values currently setting record highs**.

Topography Due to the wide-open nature of the Mojave Region, with limited terrain features directly impacting spread, expect the fire area to be **highly susceptible** to collapsing thunderstorm cells from long distances away (10-20 miles, occasionally up to 50-100 miles from the strongest storms).

Lava rock to the South and Southwest of the fire area has the potential to enhance convection from its daily heat absorption.

Weather Predominant winds come from the Southwest, and will usually become diurnal down slope, down valley in the evenings. Watching potential impacts from approaching Hurricane Genevieve.

	Rate of Spread	Flame Lengths	Spotting Distances
Mop up Operations	0-5 ch/hr	0-4'	Less than 50'
Initial Attack	10-20 ch/hr	4-6'	Up to 400'
IA Outflow	80-160 ch/hr	12'++	Up to ¼- ½ mile

SPECIFIC:

Divisions A/M/Z: Continued smoldering of heavy fuels with decreasing threat to containment lines. Afternoon winds may look for opportunities to expose holdover heat.

AIR OPERATIONS:

Local sunset time: 1923 (1949 civil) Sunrise: 0610 (0544 civil)

Days are getting shorter. Winter is coming.

Great Basin Fuels and Fire Behavior Advisory- August 2020

Record low live and dead fuel moisture along with significant carryover fine fuels from the 2019 fire season exist over Eastern and Southern Nevada into Utah. Continuous fine fuel beds are being observed in parts of Nevada and Western Utah, along with fuel loading 200-300% of average.

Health & Safety Message

Incident: Dome Fire CA-MNP-012356	Date/Op Period: 08/22/20 0600 – 08/23/20 0600 hrs
---	---

RISKS & HAZARDS

Risk Management Process: Whether you are engaging in a complex operation or a simple task, the five step Risk Management process should be followed. These five (5) primary elements include:

- *Identify Hazards* through your Situational Awareness; gather information relevant to you situation/task
- *Assess those Hazards.* Rely on 10 & 18's; tactical watchouts; Look Up, Down, Around indicators, etc.
- *Develop Controls & Make Risk Decisions.* Rely on LCES, Checklists, PPE, Engineering controls, Avoidance, etc. Follow IRPG decision matrix.
- *Implement Controls.* Ensure controls are in place & being implemented by personnel. Integrate controls into the operational plan.
- *Supervise & Evaluate.* Determine if the controls/mitigations are working. Assess human factors and changing conditions and restart the process when conditions and or tactics are changing.

Refer to your IRPG to detailed guidance

Planning for Medical Emergencies: Prior to each operational period, IC's, supervisors and firefighters need to ask and be able to answer three questions:

1. What are we going to do if someone gets hurt?
2. How will we get them out of here?
3. How long will it take to get them to the hospital?

All operational activities should be based on the answers to these questions. If the answers are insufficient, STOP, reassess and consider alternate strategies & tactics.

BE COVID 19 CONSCIOUS!

Follow the guidelines

MEDICAL PLAN (ICS 206 WF) CIIMT 12

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location *(if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Human Resource Message

ATTITUDE

The longer I live, the more I realize the impact of attitude on my life. Sometimes it is more important than education, than money, than circumstances, than failures, than successes, than what other people think or say or do.

It will make or break a person, a business or a home. The remarkable thing is we have a choice every day regarding the attitude we will embrace for that day.

“I am convinced that life is 10% what happens to me, and 90% how I react to it.

And so it is with you. You are in charge of your attitude.”

~ Anonymous ~

Thought of the Day

“A bad attitude is like a flat tire, you can't go anywhere until you change it.”

Feel free to call/text me if you have questions, concerns, or just want to chat.

Todd Morrow - (HRSP) – (707) 373-0204

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Difficulty breathing
 - Loss of taste or smell
 - Fever
 - Chills
 - Sore throat
 - Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least SIX feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

Communications

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!
