

INCIDENT ACTION PLAN

CREEK FIRE

CA-SNF-001391

P5 NJ3F (0515)

Friday

OPERATIONAL PERIOD

11/13/2020 0700

to

11/13/2020 1900

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Creek Fire</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">11/13/2020</td> <td style="border: none;">Date To:</td> <td style="border: none;">11/13/2020</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">1900</td> </tr> </table>	Date From:	11/13/2020	Date To:	11/13/2020	Time From:	0700	Time To:	1900												
Date From:	11/13/2020	Date To:	11/13/2020																		
Time From:	0700	Time To:	1900																		
3. Objective(s):																					
Management Objectives <ul style="list-style-type: none"> - Provide for the safety of incident responders and the public through the application of sound risk management and the implementation of tactics that have a high probability of success with the least amount of exposure including mitigations for COVID-19. - Protect critical infrastructure, commercial timber, and natural and cultural resources by proactively engaging agencies and incident resource advisors. - Maintain and enhance a long term strategic plan by identifying and implementing suppression options considering probability of success, firefighter exposure, risk mitigation, seasonality, and resource prioritization and allocation. - Develop and implement a long-term repair strategy in a coordinated and systematic manner considering repair priorities, seasonal access, and equipment and personnel availability. Repair area impacted by fire suppression activities to minimize potential for excessive erosion, reduce visual impacts, and protect natural and cultural resources from further damage. - Build and maintain positive relationships between assigned resources, cooperators, stakeholders, and affected communities through professional engagement. - Follow CDC, local, state, and federal COVID-19 mitigation guidance and protocols to reduce exposure and protect firefighters and the public from the virus spread. <p>Ensure financial and documentation packages are prepared in accordance with agency requirements and agreements are closed out when no longer necessary.</p>																					
Control Objectives <ul style="list-style-type: none"> - - - - - 																					
General Situational Awareness: <ul style="list-style-type: none"> - Resources should take advantage of improving road conditions to access work areas. - In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing. - Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

Creek Fire Weather Forecast (above 5000 ft)

FORECAST NO: 67
PREDICTION FOR: 0600 Fri to 0600 Sat
SHIFT DATE: 11/13/20
TIME/DATE FORECAST ISSUED: 1700 11/12/20

NAME OF FIRE: Creek Fire
UNIT: CA-SNF-001391
Incident Meteorologist: Jim Dudley
 Please text obs – TY! 559-707-0964

Increasing Clouds Today Leading To A Chance of Light Rain and High Elevation Snow Tonight...Dry weather Sunday through the Middle of Next Week...

A weak weather disturbance will move through the fire area tonight and early Saturday bringing a chance of some light rain with snow above 8000 feet. Accumulations will not be significant with around an inch of snow expected over the higher terrain before the weather system moves east of the area Saturday morning. Dry weather with a warming trend will be the main weather focus Sunday through the middle of next week before another frontal system arrives by Thursday. Winds will be gusty over the ridges this afternoon and evening before subsiding Saturday.

FRIDAY 0600-1800: Increasing clouds. **Stability:** Moderate after morning inversions break.
Transport Wind: WSW 15-20 mph.

Location	Maximum Temperature (F) & Minimum Humidity (%)	20-ft Winds (mph)
Slopes & Valleys	40-48 53-58%	WNW 3-6 mph gusts to 10 mph in the afternoon.
Ridges & Peaks	36-42 50-55%	WSW 15-30 with gusts to 40 mph.

FRIDAY NIGHT 1800-0600 SAT: Cloudy with a 30 percent chance of rain and high elevation snow. Snow level 8000-9000 feet. Snow accumulation generally an inch or less.
Stability: Moderate. **Transport Wind:** WNW 5-10 mph.

Location	Minimum Temperature (F) & Maximum Humidity (%)	20-ft Winds (mph)
Slopes & Valleys	22-28 85-95%	ESE 2-5 mph.
Ridges + Peaks	23-28 45-55%	SSW 18-28 mph.

WEATHER OUTLOOK (7500 ft elevation – planning purposes only)

6. Work Assignments:											
Task: Systematically move resources aligned with local forest priorities to complete suppression repair.											
Purpose: Restore the lands following suppression activity that has damaged and created hazards on the lands.											
End State: Suppression repair has been completed with Resource Advisor approval and documentation.											
7. Special Instructions:											
Parking not available for heavy equipment/transport at Auberry school.											
Back haul all trash, supplies and excess equipment.											
** denotes resource to assist with IA

INCIDENT RISK ANALYSIS (ICS 215A) Creek Fire 11/13/2020 Day Shift

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	Hazard Trees/ High Tree Mortality	<ul style="list-style-type: none"> • Large amount of tree mortality (>50%). • Follow "Hazard Tree Safety" guidelines, IRPG pgs. 22- 23. • Post lookouts, road guards, spotters in areas where mop up/felling is happening. • Establish trigger points for disengagement during high wind events. • Limit exposure to work area as much as possible.
ALL	Driving	<ul style="list-style-type: none"> • Long drive to work areas. • Practice Defensive Driving Techniques. • Snow and black ice possible. • Use spotters when backing. • Always use headlights. • Use warning lights when working on roads or traveling in smoke. • Observe posted speed limits.
ALL	Fatigue	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor resources for level of fatigue.
ALL	Rough and Narrow Roads	<ul style="list-style-type: none"> • Narrow, steep, unforgiving native surfaced roads within the fire area. • Roads not maintained regularly, muddy, look for holes, dips and road sluff offs. • One-way roads. Scout for access and egress. • Have a plan for if you have traffic coming towards you.
ALL	Heavy Equipment Operations- Dozers/ Masticators/ Excavators/Feller Buncher	<ul style="list-style-type: none"> • Ensure communications are established with operators. • Use hand signals if other communications are unavailable. • Maintain a 50'-100' at a minimum exclusion area around equipment. • Use a spotter when backing.
ALL	Chipping Operations	<ul style="list-style-type: none"> • Ensure JHA is reviewed and signed by all personnel involved in chipping operations. • Only qualified personnel will feed the chipper. • Ensure appropriate PPE is used. • Do not walk in front of chipper discharge.
ALL	ATV/UTV Use	<ul style="list-style-type: none"> • Ensure equipment is inspected and safe to use. • Ensure operator is trained and certified to operate. • Ensure operator has proper PPE according to the redbook/RMA.
ALL	Spike Camp	<ul style="list-style-type: none"> • Establish and maintain 24-hour positive radio comms with communications. • Assign line medics and Safety officers.
ALL	Steep Terrain	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Don't work above any personnel. • Evaluate necessity to send personnel in areas with limited access.
ALL	Air Operations	<ul style="list-style-type: none"> • Follow "Aviation Watch-Out Situations" on page 46, IRPG. • Don't plan on air resources for medical transport or resupply. • Refer to page 58, IRPG for directing bucket drops. • Ensure positive communication with all air resources.
ALL	Communications	<ul style="list-style-type: none"> • Share your Situational Awareness (hazards, changes, etc.) with incoming resources. • Answer questions when asked by others. Ask for intel if and when you don't know. • Ensure all personnel are familiar with the incident and IA communications plans.
ALL	COVID	<ul style="list-style-type: none"> • Maintain 6' foot distance whenever possible. • Utilize masks, frequent handwashing/sanitizing, disinfect common surfaces. • Follow County Public Health guidelines. Monitor for symptoms. • Notify COVID coordinator if any symptoms arise.
ALL	Complacency	<ul style="list-style-type: none"> • Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. • Situational awareness must be maintained for the duration of the incident. • Stay focused on your task and the surrounding environment.
ALL	Public in area	<ul style="list-style-type: none"> • Hunting season. Be aware of public in fire area. • Educate and advise public of fire area closure. • Use chain of command to request Law Enforcement if needed.
INCIDENT NAME <div style="text-align: center; font-size: 24pt; font-weight: bold;">Creek</div> ICS 215a		DATE PREPARED: <div style="text-align: center;">November 12, 2020</div> TIME PREPARED: 1700 HOURS

Creek Fire
Operation Period: 11/13/2020 Day

SAFETY MESSAGE

Transition Day- Be Prepared For Change

- **Ensure you are getting complete briefings.**
- **Validate the plan to ensure it matches the current situation.**
- **Pass on Situational Awareness gained from previous operational periods.**
- **Know the who, what, when, where, why and how?**
- **Ask for clarification if something does not make sense or if there are questions. You are probably not the only person with that concern or question.**
- **If you see something, say something!**

MAJOR HAZARDS AND RISKS

Driving Traffic Public in Fire Area	Hazard Trees Transfer of Command Heavy Equipment	Fatigue Environmental Conditions Steep/ Rough Terrain
--	--	--

Be sure all elements of your safety plan are in place prior to engagement

Planning for Safety

Have multiple plans and make them know

P – Primary Plan (Offense)

Focused on firefighter safety and mission objectives

A – Alternate Plan (Offense)

A fall back plan that closely supports the primary

C- Contingency Plan (Defense)

Entirely focused on firefighter safety

E – Emergency Plan (Defense)

Entirely focused on individual firefighter survival

Planning for Medical Emergencies

Ask and be able to answer these 3 questions:

1. What are we going to do if someone gets hurt?
2. How will we get them out of here?
3. How long will it take to get them to a hospital?

All operational activities should be based on answers to these questions. See page 2 of the IRPG for more guidance.

IMT COVID-19 INTENT for the Creek Fire

If you are feeling COVID like symptoms, first call COVID Coordinator

925-532-5564

All wildland firefighters must take COVID-19 messaging seriously and demonstrate consistent, preventative measures known to be effective in limiting viral spread. California Team 10 is reminding firefighters to apply the core values of wildland fire management community of “Duty, Respect, and Integrity” and apply these values to the COVID mitigation requirements:

- **Duty:** To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect:** To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- **Integrity:** To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond, then we are not the source of an outbreak within the public we are assigned to protect.

Concept of “Module as One:”

Team members, crews, and other resources should use a “Module as One” approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

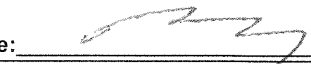

By insulating as a unit, crews and modules can limit outside viral exposure and may safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their “Module as One” concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regarding mitigations.
- Identify select individuals on a crew or module that will interact with the public, ensuring this person relies on social distancing, wears a cloth face covering, and practices hand hygiene during or after every interaction.
- When the “Module as One” has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.

Essential Mitigations:

- **Pre-Screening and Regular Monitoring:** Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- **Wearing a Mask:** Employees should always wear a facemask or face covering when social distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks, social distancing practices should be implemented.
- **Disinfect and Clean:** Clean and disinfect all areas, particularly “high touch surfaces” such as engine compartments, bathrooms, common areas and shared electronic equipment routinely.
- **Empower** all individuals to ask co-workers to follow social distancing guidelines.

NIMS IAP

Creek Fire Incident Training Program

A TNSP is assigned to this incident. Although physically on the incident, the majority of TNSP duties will be conducted “virtually” to limit exposure.

To receive documented credit for your assignment, scan the QR Code or click on the link below to access and complete the Trainee Registration Form. Once registered you will receive additional instructions via text and/or email. For training related questions, call Brad Smith (TNSP) at 209-770-4809 or email bradley_smith@firenet.gov

[Creek Fire Trainee Registration Link](#)

**Creek Fire
Human Resource Message
November 13, 2020**

The following are some tips for a slow, safe withdrawal from fire line life.

- Your first evening at home, start a roaring fire in the fireplace, turn off all the lights, and read a comic book by flashlight. Partially shut the flue damper and have a little smoke back up into the house, enough that it stings your eyes a little bit.
- When it's time for bed, turn on all the lights in your room. Leave them on all night. Sprinkle some dirt and pine needles on your sheets. Put some rocks and your dirty socks beneath your pillow. When you get into bed, be sure you've still got your boots or shoes on. Wear the same clothes you've had on all day. If your bed is too comfortable, sleep in an old, dirty sleeping bag near the fireplace and/or as close to the kitchen as possible.
- Have a friend come over, have him use a bullhorn outside your bedroom all night, using phrases such as "will the crew boss from San Carlos #6 report to plans," "ground support report to the Logistics Chief immediately," and the perfunctory "Ops Chief to Communications ASAP." Have him blow into the bullhorn at least two times before making each announcement.
- Have a couple of people who don't know you and have not been in your house before, wander in between 2 and 3 a.m. with huge red packs, pull out their sleeping bags, and sleep on the floor. Have them leave a radio on, switched on to one of the incident's tac channels all night.
- Lock the bathroom door. Arrange to have a porta-potty placed in your driveway. Have it delivered full, after being used by at least a couple of hundred people. Make sure the latch on the door doesn't work. Have someone open the door a couple times while you are using it. Make sure the porta-potty is placed somewhere very dark, and forget to bring your flashlight when you use it.
- Ask the person who delivers your paper to honk the car horn for you as early as possible – preferably around 4 a.m.
- Acquire a taste for half melted 'energy bars', made mostly from sawdust.
- Wear a stuffed backpack all day at work; if it is too comfortable, put some rocks in it.
- At lunch time, take your sandwich outside in drop it in a flower bed. Retrieve it and stand beside a full garbage can while you eat it. Wash it down with a drink that's been in the car trunk all morning.
- Several times during the day, hit yourself in the shins with a hammer.
- During the day take a break by lying down in the dirt outside, if it is too comfortable, lay on a few rocks. Use your hard hat as a pillow by putting it in the crook of you neck, below the back of your head. It is preferable if you find a steep slope in the sun to lie down, steep enough that you have to plant your feet on some downhill boulders to keep from slipping down the slope.

**Janine Summy, Human Resource Specialist, 509-429-1206
Eric Bracken, HRSP (trainee) 509-207-0677**

DMOB process for the Creek Fire

Resources flying home need to contact DMOB 3-4 days prior to their demob date so that their flight can be arranged. We will need: Your Name as it appears on the picture ID you use at airport security, your Date of Birth, Gender, and a few other questions. Call: **DMOB at (916) 591-9008** if you have any questions.

Mill Forward Operating Base (FOB)/Auberry

All Resources will report to DMOB at Mill FOB at Auberry to pickup the ICS221 DMOB checkout sheet and start the DMOB process. DMOB and Finance are located in trailers.

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			Air Ambulance / Short Haul/Hoist Ground Ambulance / Other		
Patient Location			Descriptive Location & Lat. / Long. <i>(WGS84)</i>		
Incident Name			Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>		
Patient Care			Name of Care Provider <i>(Ex: EMT Smith)</i>		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Agency Affiliation: (NO NAMES OR CREW NAMES) Federal Contractor Local Government					
Assessment: Age: Weight: Chief Complaint:					
(If Pertinent to Injury) Skin Signs: Level of Consciousness: B/P: HR: RR:					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): <i>(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)</i> Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
8. ADDITIONAL INFORMATION: Updates/Changes, etc.					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
