

INCIDENT ACTION PLAN

CREEK FIRE

CA-SNF-001391

P5 NJ3F (0515)

Sunday

OPERATIONAL PERIOD

11/15/2020 0700

to

11/15/2020 1900

Fire Information: (559) 549-3781

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Creek Fire	2. Operational Period:	Date From: 11/15/2020	Date To: 11/15/2020
		Time From: 0700	Time To: 1900

3. Objective(s):

Management Objectives

- Provide for the safety of incident responders and the public through the application of sound risk management and the implementation of tactics that have a high probability of success with the least amount of exposure including mitigations for COVID-19.
- Protect critical infrastructure, commercial timber, and natural and cultural resources by proactively engaging agencies and incident resource advisors.
- Maintain and enhance a long term strategic plan by identifying and implementing suppression options considering probability of success, firefighter exposure, risk mitigation, seasonality, and resource prioritization and allocation.
- Develop and implement a long-term repair strategy in a coordinated and systematic manner considering repair priorities, seasonal access, and equipment and personnel availability. Repair area impacted by fire suppression activities to minimize potential for excessive erosion, reduce visual impacts, and protect natural and cultural resources from further damage.
- Build and maintain positive relationships between assigned resources, cooperators, stakeholders, and affected communities through professional engagement.
- Follow CDC, local, state, and federal COVID-19 mitigation guidance and protocols to reduce exposure and protect firefighters and the public from the virus spread.
- Ensure financial and documentation packages are prepared in accordance with agency requirements and agreements are closed out when no longer necessary.

General Situational Awareness:

- Resources should take advantage of improving road conditions to access work areas.
- In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.
- Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

Creek Fire Weather Forecast and Outlook

PREDICTION FOR: 0600 Sun to 0600 Mon
SHIFT DATE: 11/15/20
TIME/DATE FORECAST ISSUED: 1700 11/14/20

UNIT: CA-SNF-001391

.Discussion...

Temperatures until Sunday will be near normal for this time of year. A warming trend, with decreasing relative humidity values, is expected early next week. A cold front should pass through Central California Tuesday night. Rain and high elevation snow is possible Tuesday night and Wednesday, with lesser amounts expected as far south as Tulare County. Precipitation amounts will generally be light.

Detailed forecast for North Kings River

Sunday

Sunny. Not as cool. Highs 56 to 62 at 5000 feet...50 to 56 at 8000 feet.

Sunday Night

Mostly clear. Lows 38 to 48 at 5000 feet...31 to 39 at 8000 feet.

Monday

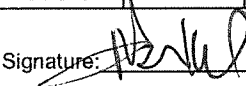

Mostly sunny. Not as cool. Highs 62 to 68 at 5000 feet...56 to 62 at 8000 feet.

INCIDENT RISK ANALYSIS (ICS 215A) Creek Fire 11/15/2020 Day Shift

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	Hazard Trees/ High Tree Mortality	<ul style="list-style-type: none"> • Large amount of tree mortality (>50%). • Follow "Hazard Tree Safety" guidelines, IRPG pgs. 22- 23. • Post lookouts, road guards, spotters in areas where mop up/felling is happening. • Establish trigger points for disengagement during high wind events. • Limit exposure to work area as much as possible.
ALL	Driving	<ul style="list-style-type: none"> • Long drive to work areas. • Practice Defensive Driving Techniques. • Snow and black ice possible. • Use spotters when backing. • Always use headlights. • Use warning lights when working on roads or traveling in smoke. • Observe posted speed limits.
ALL	Fatigue	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor resources for level of fatigue.
ALL	Rough and Narrow Roads	<ul style="list-style-type: none"> • Narrow, steep, unforgiving native surfaced roads within the fire area. • Roads not maintained regularly, muddy, look for holes, dips and road sluff offs. • One-way roads. Scout for access and egress. • Have a plan for if you have traffic coming towards you.
ALL	Heavy Equipment Operations- Dozers/ Masticators/ Excavators/Feller Buncher	<ul style="list-style-type: none"> • Ensure communications are established with operators. • Use hand signals if other communications are unavailable. • Maintain a 50'-100' at a minimum exclusion area around equipment. • Use a spotter when backing.
ALL	Chipping Operations	<ul style="list-style-type: none"> • Ensure JHA is reviewed and signed by all personnel involved in chipping operations. • Only qualified personnel will feed the chipper. • Ensure appropriate PPE is used. • Do not walk in front of chipper discharge.
ALL	ATV/UTV Use	<ul style="list-style-type: none"> • Ensure equipment is inspected and safe to use. • Ensure operator is trained and certified to operate. • Ensure operator has proper PPE according to the redbook/RMA.
ALL	Spike Camp	<ul style="list-style-type: none"> • Establish and maintain 24-hour positive radio comms with communications. • Assign line medics and Safety officers.
ALL	Steep Terrain	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Don't work above any personnel. • Evaluate necessity to send personnel in areas with limited access.
ALL	Air Operations	<ul style="list-style-type: none"> • Follow "Aviation Watch-Out Situations" on page 46, IRPG. • Don't plan on air resources for medical transport or resupply. • Refer to page 58, IRPG for directing bucket drops. • Ensure positive communication with all air resources.
ALL	Communications	<ul style="list-style-type: none"> • Share your Situational Awareness (hazards, changes, etc.) with incoming resources. • Answer questions when asked by others. Ask for intel if and when you don't know. • Ensure all personnel are familiar with the incident and IA communications plans.
ALL	COVID	<ul style="list-style-type: none"> • Maintain 6' foot distance whenever possible. • Utilize masks, frequent handwashing/sanitizing, disinfect common surfaces. • Follow County Public Health guidelines. Monitor for symptoms. • Notify COVID coordinator if any symptoms arise.
ALL	Complacency	<ul style="list-style-type: none"> • Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. • Situational awareness must be maintained for the duration of the incident. • Stay focused on your task and the surrounding environment.
ALL	Public in area	<ul style="list-style-type: none"> • Hunting season. Be aware of public in fire area. • Educate and advise public of fire area closure. • Use chain of command to request Law Enforcement if needed.

CREEK FIRE

Operation Period: 11/15/2020 Day Shift

SAFETY MESSAGE

REDUCING RISK WHILE DRIVING

- Keep your seat belts on, Keep your eyes on the road, Keep your speed down.
- Drive defensively, anticipate traffic where you have poor sight lines.
- Expect to see locals and non-fire traffic on the roads traveling fast.
- In inclement weather, reduce speeds, check road systems for traction and braking with a small vehicle before allowing engines, water tenders, and heavier vehicles to proceed, especially on uphill and downhill sections of non-paved roads.
- Use headlights and warning lights when in poor visibility conditions.
- Watch for debris and road hazards where rolling material impacts roads.

MAJOR HAZARDS AND RISKS

DRIVING COMMUNICATIONS PUBLIC IN FIRE AREA	HAZARD TREES FATIGUE COLD WEATHER	HEAVY EQUIPMENT TRAFFIC COMPLACENCY
---	---	--

Be sure all elements of your safety plan are in place prior to engagement

Communication Responsibilities

All firefighters have five communication responsibilities:

- Brief others as needed.
- Debrief your actions.
- Communicate hazards to others.
- Acknowledge messages.
- Ask if you don't know or are unclear.

In addition, all leaders of firefighters have the responsibility to provide complete briefings that include a clearly stated "Leader's Intent."

- Task = What is to be done
- Purpose = Why it is to be done
- End State = How it should look when done

Hazard Tree Safety

- Inspect area for hazard trees before starting work. Are there trees that have been falling, leaning, hung up, or have broken tops? Are there high-risk species? How long has the fire been burning in the area?
- Identify hazards and fell or avoid the hazard and flag.
- Take down hazard trees only with qualified sawyers and then only if necessary.

CIIMT 10 Safety Officers: Frank Pingiczer, Robert Hilfer(t)

IMT COVID-19 INTENT for the Creek Fire

If you are feeling COVID like symptoms, first call COVID Coordinator

925-532-5564

All wildland firefighters must take COVID-19 messaging seriously and demonstrate consistent, preventative measures known to be effective in limiting viral spread. California Team 10 is reminding firefighters to apply the core values of wildland fire management community of “Duty, Respect, and Integrity” and apply these values to the COVID mitigation requirements:

- **Duty:** To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect:** To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- **Integrity:** To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond, then we are not the source of an outbreak within the public we are assigned to protect.

Concept of “Module as One:”

Team members, crews, and other resources should use a “Module as One” approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

By insulating as a unit, crews and modules can limit outside viral exposure and may safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their “**Module as One**” concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regarding mitigations.
- Identify select individuals on a crew or module that will interact with the public, ensuring this person relies on social distancing, wears a cloth face covering, and practices hand hygiene during or after every interaction.
- When the “Module as One” has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.

Essential Mitigations:

- **Pre-Screening and Regular Monitoring:** Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- **Wearing a Mask:** Employees should always wear a facemask or face covering when social distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks, social distancing practices should be implemented.
- **Disinfect and Clean:** Clean and disinfect all areas, particularly “high touch surfaces” such as engine compartments, bathrooms, common areas and shared electronic equipment routinely.
- **Empower** all individuals to ask co-workers to follow social distancing guidelines.

MEDICAL PLAN (ICS 206)

Creek Fire Incident Training Program

A TNSP is assigned to this incident. Although physically on the incident, the majority of TNSP duties will be conducted "virtually" to limit exposure.

To receive documented credit for your assignment, scan the QR Code or click on the link below to access and complete the Trainee Registration Form. Once registered you will receive additional instructions via text and/or email. For training related questions, call Brad Smith (TNSP) at 209-770-4809 or email bradley_smith@firenet.gov

[Creek Fire Trainee Registration Link](#)

Human Resource Message

Creek Fire
November 15, 2020

It was
CHARACTER
that got us out of bed,
COMMITMENT
that moved us into action, &
DISCIPLINE
that enabled us to follow through
--Zig Ziglar

Janine Summy, Human Resource Specialist, 509-429-1206
Eric Bracken, HRSP (trainee), 509-207-0677

FINANCE MESSAGE

All incident personnel (crews, engines, overhead and contractor resources) need to turn in daily CTRs and Shift Tickets either electronically or via hardcopy.

ELECTRONICALLY: Email to 2020.creek.finance@firenet.gov

In the email subject line, please put resource order number, your company/engine name, followed by the date

Example: E-400005 American Fire Rescue 11/13/20

HARDCOPY: Drop at either:

Mill FOB – Equipment or Personnel Trailers

Auberry Camp – Briefing Area Drop Box

Shift Ticket Requirements:

If you have equipment or an engine that has a secondary rate for mileage, additional operators, and/or a lowboy (or other transport), please ensure your shift tickets reflect the necessary justification. You need to also write your resource order number in the upper right corner of the ticket.

CTR Requirements:

Please accurately notate any travel time, hazard pay, excess shift hours or meal breaks with proper justifications as needed.

Finance is unable to sign for travel – it must be signed by an incident supervisor

Contact Finance with any questions at 2020.creek.finance@firenet.gov or via phone 925-532-5492

DMOB process for the Creek Fire

Resources flying home need to contact DMOB 3-4 days prior to their demob date so that their flight can be arranged. We will need: Your Name as it appears on the picture ID you use at airport security, your Date of Birth, Gender, and a few other questions. Call: **DMOB at (916) 591-9008** if you have any questions.

Mill Forward Operating Base (FOB)/Auberry

All Resources will report to DMOB at Mill FOB at Auberry to pickup the ICS221 DMOB checkout sheet and start the DMOB process. DMOB and Finance are located in trailers.

*****All Resources needing an F42 signed must get one signed before leaving the incident by the Finance Section Chief and OES Rep (if possible) at the Mill in Auberry.*****

ECCO CAMP – updated process

All Resources will report to DMOB at Mill FOB to pickup the ICS221 DMOB checkout sheet and start the DMOB process. DMOB and Finance are located in trailers.

ICP

All Resources will report to DMOB to pickup the ICS221 DMOB checkout sheet and start the DMOB process.

Any questions call DMOB at (916) 591-9008
2020.creek.dmob@firenet.gov

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>				
<input type="checkbox"/> YELLOW / PRIORITY 2 Serious injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i>					
<input type="checkbox"/> GREEN / PRIORITY 3 Minor injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>					
Nature of Injury or Illness & Mechanism of Injury			Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			Air Ambulance / Short Haul/Hoist Ground Ambulance / Other		
Patient Location			Descriptive Location & Lat. / Long. <i>(WGS84)</i>		
Incident Name			Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>		
Patient Care			Name of Care Provider <i>(Ex: EMT Smith)</i>		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Agency Affiliation: (NO NAMES OR CREW NAMES) Federal Contractor Local Government					
Assessment: Age: Weight: Chief Complaint:					
(If Pertinent to Injury) Skin Signs: Level of Consciousness: B/P: HR: RR:					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): <i>(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)</i> Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: <u>Considerations:</u> If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
8. ADDITIONAL INFORMATION: Updates/Changes, etc.					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
