

# INCIDENT ACTION PLAN

## CREEK FIRE

CA-SNF-001391

P5 NJ3F (0515)

Monday

### OPERATIONAL PERIOD

11/16/2020 0700

to

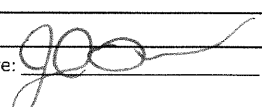

11/16/2020 1900

Fire Information: (559) 549-3781

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b>  <p style="text-align: center;">Creek Fire</p>	<b>2. Operational Period:</b> <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">11/16/2020</td> <td style="border: none;">Date To:</td> <td style="border: none;">11/16/2020</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">1900</td> </tr> </table>	Date From:	11/16/2020	Date To:	11/16/2020	Time From:	0700	Time To:	1900												
Date From:	11/16/2020	Date To:	11/16/2020																		
Time From:	0700	Time To:	1900																		
<b>3. Objective(s):</b> <b>Management Objectives</b> <ul style="list-style-type: none"> <li>- Provide for the safety of incident responders and the public through the application of sound risk management and the implementation of tactics that have a high probability of success with the least amount of exposure including mitigations for COVID-19.</li> <li>- Protect critical infrastructure, commercial timber, and natural and cultural resources by proactively engaging agencies and incident resource advisors.</li> <li>- Maintain and enhance a long term strategic plan by identifying and implementing suppression options considering probability of success, firefighter exposure, risk mitigation, seasonality, and resource prioritization and allocation.</li> <li>- Develop and implement a long-term repair strategy in a coordinated and systematic manner considering repair priorities, seasonal access, and equipment and personnel availability. Repair area impacted by fire suppression activities to minimize potential for excessive erosion, reduce visual impacts, and protect natural and cultural resources from further damage.</li> <li>- Build and maintain positive relationships between assigned resources, cooperators, stakeholders, and affected communities through professional engagement.</li> <li>- Follow CDC, local, state, and federal COVID-19 mitigation guidance and protocols to reduce exposure and protect firefighters and the public from the virus spread.</li> </ul> <p>Ensure financial and documentation packages are prepared in accordance with agency requirements and agreements are closed out when no longer necessary.</p>																					
<b>General Situational Awareness:</b> <ul style="list-style-type: none"> <li>- Resources should take advantage of improving road conditions to access work areas.</li> <li>- In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.</li> <li>- Enhanced hygiene (especially handwashing), PPE &amp; monitoring practices help limit the infection rate of first responders.</li> </ul>

# Creek Fire Weather Forecast and Outlook

PREDICTION FOR: 0600 Mon to 0600 Tue  
SHIFT DATE: 11/16/20  
TIME/DATE FORECAST ISSUED: 1700 11/15/20

UNIT: CA-SNF-001391

## .Discussion...

Dry conditions and a warming trend expected over the next 48 hours. Then on Tuesday evening a cold front will make its way across the region. Rain and high elevation snow is possible Tuesday night and Wednesday, with best chances and accumulations north of Kings River.

## Detailed forecast for North Kings River

### Monday

Sunny. Not as cool. Highs 64 to 70 at 5000 feet...57 to 63 at 8000 feet.

### Monday Night

Mostly clear. Lows 41 to 51 at 5000 feet...31 to 39 at 8000 feet.

### Tuesday

Mostly sunny. Highs 58 to 63 at 5000 feet...48 to 54 at 8000 feet. Over higher elevations, southwest winds around 25 mph in the afternoon. Gusts up to 50 mph over higher elevations.

# CREEK FIRE

Operation Period: 11/16/2020 0700-0700

## SAFETY MESSAGE

### Planning for Medical Emergencies

- Prior to each operational period be able to answer these 3 questions;
  1. **What are you going to do if someone gets hurt?**
    - Where is your closest medical personnel and ambulance?
  2. **How will we get them out of here?**
    - Can you get the injured to a road or helispot, what will it take to do that?
  3. **How long will it take to get them to a hospital?**
    - Where is the closest hospital, air or ground transport, what conditions can change or affect the transportation timeline?

### MAJOR HAZARDS AND RISKS

<b>DRIVING</b> FATIGUE PUBLIC IN FIRE AREA	<b>HAZARD TREES</b> CHIPPING OPERATIONS COVID	<b>HEAVY EQUIPMENT</b> ROUGH ROADS COMPLACENCY
--	---	--

*Be sure all elements of your safety plan are in place prior to engagement*

### Watch for Over Confidence During Suppression Repair

**\*Driving:** As you become more familiar with the road systems, we tend to increase speeds. Please be aware of this and keep speeds down, watch for people and vehicles along the roads, and drive defensively.

**\*PPE:** Please recognize that in low stress situations, it is easy to over-look the importance of wearing the appropriate PPE include eye protection.

**\*Work Area:** Familiarity with your work area can result in a lowering of awareness, especially as conditions change.

### Helicopter Operations

Be aware that multiple agencies and companies have aircraft in the area.

Their standard operational procedures may differ from ours and look unsafe but are within their standards.

They have good communications with our air resources.

Are ground crews clear of the area?

Are their operations interfering with our ground operations?

Give feedback back to your supervisor if you have concerns.

**CIIMT 10 Safety Officers: Frank Pingiczer, Robert Hilfer(t)**

## IMT COVID-19 INTENT for the Creek Fire

If you are feeling COVID like symptoms, first call COVID Coordinator

925-532-5564

All wildland firefighters must take COVID-19 messaging seriously and demonstrate consistent, preventative measures known to be effective in limiting viral spread. California Team 10 is reminding firefighters to apply the core values of wildland fire management community of “Duty, Respect, and Integrity” and apply these values to the COVID mitigation requirements:

- **Duty:** To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect:** To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- **Integrity:** To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond, then we are not the source of an outbreak within the public we are assigned to protect.

### Concept of “Module as One:”

Team members, crews, and other resources should use a “Module as One” approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

By insulating as a unit, crews and modules can limit outside viral exposure and may safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their “Module as One” concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regarding mitigations.
- Identify select individuals on a crew or module that will interact with the public, ensuring this person relies on social distancing, wears a cloth face covering, and practices hand hygiene during or after every interaction.
- When the “Module as One” has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.

### Essential Mitigations:

- **Pre-Screening and Regular Monitoring:** Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- **Wearing a Mask:** Employees should always wear a facemask or face covering when social distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks, social distancing practices should be implemented.
- **Disinfect and Clean:** Clean and disinfect all areas, particularly “high touch surfaces” such as engine compartments, bathrooms, common areas and shared electronic equipment routinely.
- **Empower** all individuals to ask co-workers to follow social distancing guidelines.

# Creek Fire

## Incident Training Program

Tomorrow, Tuesday, 11-17 will be the last day to register a training assignment under the Type 2 complexity on the Creek Fire.

Evaluations and electronic Final Interview forms, must be completed and submitted to the TNSP by Wednesday, 11-18. Date your Close-Out Documents to coincide with your projected demob date.

Trainees needing to register their assignment, scan the QR Code or click on the link below to access and complete the Trainee Registration Form. Once registered, you and your trainer will receive electronic evaluation forms and a link for your Final Interview by email and text.

For training related questions, call Brad Smith (TNSP) at 209-770-4809 or email [bradley\\_smith@firenet.gov](mailto:bradley_smith@firenet.gov)

[Creek Fire Trainee Registration Link](#)

**Creek Fire  
Human Resource Message  
November 16, 2020**

On an incident there is a common mission objective; to manage the fire while protecting firefighter and public safety. These objectives are what we get paid to do and are an imperative part of our job in protecting the public. When personal feelings, politics, or mistrust get in the way of our work, we are not meeting the common objective most effectively. A way to gain trust and understanding between human resources is in finding *common ground*.

Common ground provides for the building of a pathway of good, clear communication, which leads to trust. During unstructured gathering times, find topics of common ground to discuss; (i.e., football, travel, favorite past times etc)— all these activities allow for a discussion of common experience.

- **Start:** What motivates me to find common ground, and why do I care about doing so?
- **Trade places:** Look at an issue from my opponent's perspective and speak in the language of the listener. We all have an innate biased value system and blind spots that cause us to see the world through tinted glasses.
- **Empathy:** Understand and share the feelings of others. The SALT principle is very useful: Start a conversation, Ask a question, Listen, and then Talk. We need to have a civil and respectful dialog by separating position from person, policy from value, and be willing to examine the basis and validity of our own narrative by asking ourselves, "Is there a chance I could be wrong?" And if so, "Why do I think I might be wrong?"
- **Partnership:** Have a partner who shares my passion and works together with me.
- **Seek common ground:** This is the final, call-for-action step which includes: Have the vision, see the need, take the lead, face the facts and don't lose heart. Even if we can only find a small amount of common ground, it still could have a significant and transformative effect overall.

***"I think in most relationships that have problems, there's fault on both sides. In order for it to work, there has to be some common ground that's shared, and then it's not just one person making amends."*** -Steve Carell-

## FINANCE MESSAGE

All incident personnel (crews, engines, overhead and contractor resources) need to turn in daily CTRs and Shift Tickets either electronically or via hardcopy.

**ELECTRONICALLY:** Email to [2020.creek.finance@firenet.gov](mailto:2020.creek.finance@firenet.gov)

In the email subject line, please put resource order number, your company/engine name, followed by the date

**Example:** E-400005 American Fire Rescue 11/13/20

**HARDCOPY:** Drop at either:

Mill FOB – Equipment or Personnel Trailers

Auberry Camp – Briefing Area Drop Box

---

### **Shift Ticket Requirements:**

If you have equipment or an engine that has a secondary rate for mileage, additional operators, and/or a lowboy (or other transport), please ensure your shift tickets reflect the necessary justification. You need to also write your resource order number in the upper right corner of the ticket.

### **CTR Requirements:**

Please accurately notate any travel time, hazard pay, excess shift hours or meal breaks with proper justifications as needed.

**Finance is unable to sign for travel – it must be signed by an incident supervisor**

---

Contact Finance with any questions at [2020.creek.finance@firenet.gov](mailto:2020.creek.finance@firenet.gov) or via phone 925-532-5492

## DMOB process for the Creek Fire

Resources flying home need to contact DMOB 3-4 days prior to their demob date so that their flight can be arranged. We will need: Your Name as it appears on the picture ID you use at airport security, your Date of Birth, Gender, and a few other questions. Call: **DMOB at (916) 591-9008** if you have any questions.

### Mill Forward Operating Base (FOB)/Auberry

All Resources will report to DMOB at Mill FOB at Auberry to pickup the ICS221 DMOB checkout sheet and start the DMOB process. DMOB and Finance are located in trailers.

\*\*\*\*\*All Resources needing an F42 signed must get one signed before leaving the incident by the Finance Section Chief and OES Rep (if possible) at the Mill in Auberry.\*\*\*\*\*

### ECCO CAMP – updated process

All Resources will report to DMOB at Mill FOB to pickup the ICS221 DMOB checkout sheet and start the DMOB process. DMOB and Finance are located in trailers.

### ICP

All Resources will report to DMOB to pickup the ICS221 DMOB checkout sheet and start the DMOB process.

Any questions call DMOB at (916) 591-9008  
[2020.creek.dmob@firenet.gov](mailto:2020.creek.dmob@firenet.gov)

## MEDICAL PLAN (ICS 206 WF)

Medical Incident Report					
<b>FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.</b> <b>FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.</b>					
<b>Use the following items to communicate situation to communications/dispatch.</b>					
<b>1. CONTACT COMMUNICATIONS / DISPATCH</b> (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
<b>2. INCIDENT STATUS:</b> Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			Air Ambulance / Short Haul/Hoist Ground Ambulance / Other		
Patient Location			Descriptive Location & Lat. / Long. <i>(WGS84)</i>		
Incident Name			Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>		
Patient Care			Name of Care Provider <i>(Ex: EMT Smith)</i>		
<b>3. INITIAL PATIENT ASSESSMENT:</b> Complete this section for each patient as applicable (start with the most severe patient)					
Agency Affiliation: <b>(NO NAMES OR CREW NAMES)</b> Federal                      Contractor                      Local Government					
Assessment:      Age:                      Weight:                      Chief Complaint:					
(If Pertinent to Injury)      Skin Signs:                      Level of Consciousness:                      B/P:                      HR:                      RR:					
Treatment:					
<b>4. TRANSPORT PLAN:</b>					
Evacuation Location (if different): <i>(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)</i> Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
<b>5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:</b>					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i>					
<b>6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable</b>					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
<b>7. CONTINGENCY: Considerations:</b> If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
<b>8. ADDITIONAL INFORMATION:</b> Updates/Changes, etc.					
<b>REMEMBER:</b> Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
