Briefing on CDF TAC 24

DocuSign Envelope ID: 97F7FCFF-2202-420E-9566-C4C0E8EF6E5F

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period:				
CREEK SOUTH ZONE	Date From:	9/17/2020	Date To:	9/18/2020
	Time From:	0700	Time To:	0700

3. Objective(s):

Management Objectives

- Utilize the risk management process to identify and mitigate hazards to protect firefighters and the public. Emphasize strategies and tactics that have the highest probability of success and the least exposure to firefighters and the public
- Develop strategies to protect life, property, communities, businesses, and infrastructure. Employ tactics that fulfill these strategies while being mindful of the necessity for contingency and emergency plans. Ensure strategies account for incident priorities, applying resources to those with the highest consequences first
- Follow COVID-19, CDC and established local, state and federal guidance to limit virus spread within the incident and surrounding communities near the fire area
- Provide timely and continuous incident information to affected agency partners, cooperators and to the public
- Maintain fiscal accountability and keep costs commensurate with values at risk

Control Objectives

- Keep the fire north of Pine Flat Lake
- Keep the fire south of South Fork of Merced River and the crest of Ansel Adams Wilderness
- Keep the fire east of Highway 41
- Keep the fire west of Minarets Range

General Situational Awareness:

- Utilize IRPG checklists to manage risk.
- Ensure Lookouts are established, Escape Routes and Safety Zones are clearly identified.
- Ensure effective communications are occurring by giving clear instructions and asking clarifying questions.
- Continue to adhere to COVID 19 preventative measures.
- Potential for extreme fire behavior when the air clears.

Creek South Zone Fire Weather Forecast

FORECAST NO: 10

NAME OF FIRE: Creek Fire

PREDICTION FOR: 0700 Thu – 0700 Fri

UNIT: CA-SNF-001391

SHIFT DATE: 09/17-09/18

SIGNED: Matt Mehle

TIME AND DATE FORECAST ISSUED: 1900 09/16/20

Incident Meteorologist - Matt Mehle

...INCREASING SOUTHWEST WINDS...

WEATHER DISCUSSION: A low pressure system approaching far N California will bring stronger winds to the Creek Fire Thursday and more so Friday. Winds will gradually increase through the day with the strongest winds over the higher terrain of Branch XX. Southwest flow aloft will also pull in upper level moisture from dissipating Tropical Depression Karina. Initially the tropical moisture will bring a few clouds and some afternoon virga today. However, by late Thursday night into early Friday morning a slight chance for showers will develop. A slight chance of showers will continue through the day on Friday with gusty winds.

WEATHER FORECAST FOR THURSDAY:

WEATHER: Smoke and Haze with increasing clouds.

TEMPERATURES: Max 2500-5000' 79-85 F ...above 5000' 66-74 F **24 HR Trend:** Cooler 1-3.

HUMIDITY: Min 2500-5000' 10-18% ...above 5000' 12-20% **24 HR Trend:** Little Change.

20-FOOT WIND:

RIDGETOP - East to Northeast 4-7 mph gusts 11 mph in the morning becoming West to Southwest 6-12 mph with gusts 15-20 mph in the afternoon. Winds strongest over higher portions of Branch XX

SLOPE/VALLEY - Downslope/downcanyon 2-5 mph in the morning becoming upslope/upcanyon 4-8 mph with gusts to 15 mph in the afternoon. Strongest San Joaquin River drainage.

STABILITY/INVERSION: Thick smoke again in the morning – stable. Low level smoke will likely lift, but high level smoke will drift in from the south.

WEATHER FORECAST FOR THURSDAY NIGHT:

WEATHER: Increasing clouds. Smoky. Thickest in lower elevations and drainages.

TEMPERATURES: Min 2500-5000' 58-65 F ...above 5000' 47-55 F. **24 HR Trend:** Up 5.

HUMIDITY: Max 2500-5000' 25-35% ...above 5000' 25-40%. **24 HR Trend:** Up 5-10%.

20-FOOT WIND:

RIDGETOP - Southeast to South 5-10 mph with gusts 15-20 mph.

SLOPE/VALLEY - Downslope 3-5 mph with gusts 8 mph overnight...increasing up to 15 mph by morning.

EXTENDED FORECAST:

FRIDAY... Partly to mostly cloudy. **Slight chance of showers**. Max temps 72-83 F. Min RH 20-35%. Southwest 7-14 mph with gusts 15-20 mph in the afternoon. Higher elevations in Branch XX gusts up to 25-30 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 11	TYPE OF FIRE: Wildfire
FIRE NAME: Creek SOUTH ZONE	OPERATIONAL PERIOD: 9/17-18/20 0700-0700
DATE ISSUED: 9/16/20	TIME ISSUED: 2200
UNIT: SNF – Sierra National Forest	SIGNED: DWatt Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

The weather will be warm and dry, with temperatures 79-85 degrees below 5000 feet and 66-74 degrees above, and minimum humidity 10-18% lower elevations, and 12-20% higher elevations. Ridge winds will be east to northeast in the morning turning west to southwest 6-12 mph with gust to 15-20 mph in the afternoon. Valleys and slopes will be downslope/canyon in the morning turning to upslope/canyon in the afternoon. Overnight temperatures will be 47-65 degrees and relative humidity 25-40%. Winds overnight will be south to southeast 5-10 mph gust 15-20 mph, on the ridges and downslope 3-5 mph with gusts to 8 mph increasing to 15 mph by morning in the slopes and valleys.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The smoke will have an impact over the fire area in the morning with increased clearing throughout the day, will clouds moving into the area in the afternoon. The humidity will continue to be low even with the cloud cover. The low humidity will allow for fire activity to continue to increase through the day and into the night. The unburned fuel will consume more rapidly and can lead to more extreme fire behavior. Increased rates of spread, intensity and spotting distance. The heavy fuels will retain heat for may days after the fire has passed through. The potential for reburn of overhead fuels, unburned brush and timber, increases as the wind increases. The humidity will rise overnight reducing the availability of the light fuels.

SPECIFIC:

In Divisions X and Z pockets of unburned fuel will continue to burn and flare up, pay attention to any unburned areas near the line or structures.

Divisions V and W the brush and trees will be ember producers when burned, combined with ridge winds, will increase the travel distances. Be aware of wind direction and plan for the shift in winds in the evening hours.

In Divisions R and S, the fire has burned in a mosaic pattern with large areas of unburned increasing in the afternoon and early morning. The wind will be stringer on the upper slopes and ridges increasing fire activity in the afternoon and overnight. The fire will progress downhill with the stronger downslope winds.

Division N and P the fire will continue to burn south along the edge of the South San Joaquin River drainage, narrowing the gap from the fire above Huntington Lake.

AIR OPERATIONS

Smoke will limit aircraft use in the morning, potentially lifting slightly in the afternoon.

SAFETY

Clouds will be moving into the area, however humidity will stay low increasing fire activity in the afternoon. Base your actions for the shift with future weather and fire activity in mind.

6. Work Assignments:

Continue to identify and construct primary, secondary and tertiary control lines

7. Special Instructions:

Contingency line should be constructed in a manner similar to a shaded fuel break where possible

Consider leaving trees 24" dbh and greater where feasible

AIR OPERATIONS SUMMARY ICS-220 NORTH/SOUTH ZONES

Time Prepared	Date Prepared	Prepared By
1700	Wednesday, September 16, 2020	M. Hill

Incident Name / Number	Sunrise	Startup	Cutoff	Sunset	Shutdown	Operational Period - Date	Operational Period - Time
Creek CA-SNF-001391	6:43	7:13	*18:31*	*19:01*	19:31	Thursday September 17, 2020	0700-0700

General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.

TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN.
TRACK ALL DROP LOCATIONS (DIV) / NUMBER OF DROPS / GALLONS DROPPED
All GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES FORMAT.

AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.
If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOBD and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.

Attention Helibase Managers please submit costs daily at end of day to: michelle.smith@usda.gov

SAFETY MESSAGE/PLAN (ICS 208)

Creek CA-SNF-001391	Operational Period: Date From: 9/16/20 Date to: 9/17/20 Time From: 0700 Time to: 0700

//// MAJOR HAZARDS AND RISKS: ////

Hazardous Trees and Snags:
Expect **IMMEDIATE** failure of trees involved with fire. Be alert of snags. When crews are working in a very hazardous area stay diligent and flag hazardous areas. Avoid taking breaks under trees. Park vehicles outside of potential fall zone (1 ½ times tree height).

Mop Up:
Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for stump holes and root cavities. Evaluate unburned islands, and consider re-burn potential.

Driving:
The early morning hours have produced dangerous driving conditions due to the thick smoke. Reduce your speeds, drive with lights on and drive as if you are driving in foggy conditions.
Special Notice One-way traffic control in effect areas of Highway 168 for hazard tree felling.

Fatigue – Physical and Mental:
Continually monitor your crew. Hydrate and increase your caloric intake when performing arduous work during long shifts. Monitor work / rest cycle.

Complacency:
All PPE must be worn when working on the fire line. Having the same assignment on the same ground day after day can lead to complacency and make us more vulnerable to accidents. Maintain your situational awareness through to the end of your assignment.

Extreme Fire Behavior:
Expect intense fire runs. Take weather regularly. Maintain situational awareness specific to wind direction changes and increased fire spread.

Entrapment Avoidance:
Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.

Safety Zones:
Locations where the threatened firefighter may find refuge from the danger. Safety zones should be conceptualized and planned as a location where no shelter is needed.

CAL FIRE IMT COVID-19 ACTIONS

PERSONNEL WITH COVID-19 SYMPTOMS

- **Symptoms per the CDC's current guidelines include the following:**
  - Cough, fever(100.4), chills, muscle pain, shortness of breath, sore throat, new loss of taste or smell
- **Incident Base or Fire Line**
  - Maintain appropriate face covering
  - Notify supervisor and proceed to CALMAT
  - Isolate and assess patient
  - Medical direction to test, return patient to home unit/agency for testing

CONTACTED OR EXPOSED PERSONNEL AND ASYMPTOMATIC

- Notify supervisor
- Maintain appropriate face covering
- Self-monitor for symptoms
- Employee will continue assignment with preventative measures

PREVENTATIVE MEASURES TO SLOW THE TRANSMISSION COVID-19:

- Wash your hands regularly with soap and water, or clean them with alcohol-based hand rub.
- Maintain at least six feet distance between you and people coughing or sneezing.
- Avoid touching your face.
- Cover your mouth and nose when coughing or sneezing.
- Stay home if you feel unwell.
- Refrain from smoking and other activities that weaken the lungs.
- Practice physical distancing by avoiding unnecessary travel and staying away from large groups of people.
- Maintain proper personal care (healthy diet and rest)

CAL FIRE IMT 1 COVID SELF CHECK

DATE	Self Check Completed:	Sanitized:	TIME	COMPLETED BY:

SCREENING QUESTIONS

1. Are you feeling ill?
2. Are you having chills?
3. Do you have a new or worsening cough?
4. Do you have a new or worsening shortness of breath?
5. If thermometer is available, Check temperature. If >100.4

Contact supervisor immediately
IF YES to ANY of these questions!

REMIND EMPLOYEES AFTER THE SCREENING TO:

- Wash their hands or use alcohol-based hand sanitizer often
- Do not shake hands, touch or hug others.
- Use physical distancing of 6 feet or greater whenever possible.

VALLEY FEVER

Coccidioidomycosis or "cocci"

Do you work outdoors?
Have you had a cough, fever, or painful breathing for more than two weeks?

REPORT SYMPTOMS TO YOUR EMPLOYER AND SEE A DOCTOR ABOUT VALLEY FEVER

Valley Fever is caused by a fungus that lives in soil or dirt in some areas of California. You can get it by breathing in dust where the fungus grows.

ANYONE can get Valley Fever. Even healthy people.

People who work outdoors in dirt or dusty areas where the Valley Fever fungus grows may be at more risk of getting sick, especially those who do activities such as:

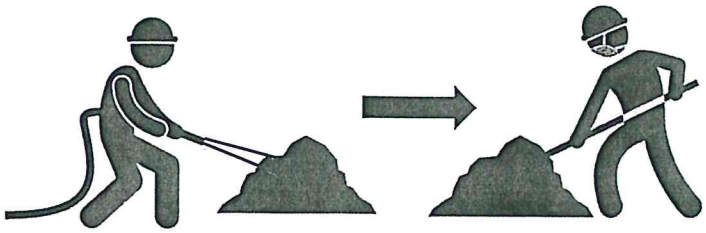

- Digging
- Truck driving
- Construction work
- Operating heavy machinery

If you work outdoors in such areas:

- Stay upwind of dirt disturbance,
- Wet soil before digging,
- Wear a respirator, or
- Ask your employer about other ways to keep dust down

For more information, visit http://bit.ly/cdphvfwork
or call the CDPH Workplace Hazard Helpline (866) 282-5516

California Department of Public He[illegible]

www.cdph.ca.gov

CAL FIRE TAILBOARD SAFETY TOPICS

TREE MORTALITY / HAZARD TREE AWARENESS

YOU ARE WORKING IN A TREE MORTALITY AREA

Watch Out For

- Rapid fuel driven fire spread – Expect the Unexpected!
- Short and Long Range Spotting
- Tree fall during firefighting and Overhaul Operation
- The need to support early and immediate evacuation of civilians
- One way in One Way Out Situations

Mitigation

- Initial Attack Plan – Consider transitioning from the normal aggressive direct attack operations to indirect operations earlier than normal.
- React early to not being able to contain small fires and sudden rapid fire growth.
- Don't be Complacent – these are not "routine fire" areas
- React to unstable fire behavior indicators – Spotting, Torching, ROS
- Assess parking locations and work areas prior to engagement
- Park vehicles outside of potential fall zone (1 ½ times tree height)
- LCES Early!

  L-ookouts posted (Fire Behavior, Weather Changes, and Aircraft in-bound)

  C-ommunications (Establish a Plan and make it known using Face to Face and Radios)

  E-scape Routes are recognized and made known to suppression personnel

  S-afety Zones are identified and large enough for a "Tree Mortality" or "Hazard Tree" area
- Recognize the potential for:
  - Limbs and Trees falling during helicopter and tanker operations
  - Domino effect of when falling limbs and trees come in contact with one another

6. Special Medical Emergency Procedures:

LINE EMERGENCY:

Crew Supervisor to contact Division Supervisor with patient complaint/condition, location, and resource needs.

- **Division Supervisor contacts and gives report on conditions, complaint/condition, and resource needs to:**
  1. **Nearest Line FEMT/FEMP**
  2. **Communications Unit**
- **Emergency or Priority traffic received: Communication Unit will clear the command channel for emergency traffic only, for the duration of the MAJOR IWI**
- **Communications Unit will make proper notifications**
- **OPERATIONS can declare a MAJOR IWI based on the report on conditions from the division supervisor**
- **Division Supervisor or designee will serve as point of contact (IWI SUPERVISOR) and run the emergency utilizing the COMMAND CHANNEL and CALCORD for the tac net during the IWI**
- **An Agency Rep Shall go with the Patient to the hospital whenever possible.**

****ALL EMERGENCIES: Secure the area and identify witnesses for later investigation. Keep an accurate log of events****

BASE CAMP EMERGENCY:

CONTACT COMMUNICATIONS UNIT at 805-741-8530

_ report patient complaint/condition and location.

Medical Staff will respond to stabilize incident

- **COMMUNICATIONS Unit contacts:**
  1. **Operations**
  2. **Medical**
  3. **Safety**
  4. **Logistics**

Containment	**Total Personnel:**

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

FEDERAL FIRE SOCIAL MEDIA POLICY
Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy here.

PHOTOGRAPHS AND VIDEOS OF INCIDENT The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information room; they will be reviewed and possibly uploaded to our many social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident located in *Room 13, PIO Section.*

MAIL SERVICE – The Information Section can assist you with sending and receiving mail to the following address.

Finance

- **<u>This fire is under Cost Apportionment</u>**, All DIVS and OPBD will need to do a daily de-brief with the Cost Apportionment Team by calling 925-532-5453
- Finance is located in the school library
- Please come by the Time Unit and start your and update your FC-33
- Vendors please drop off your agreements to the Time Unit
- Shift Tickets need to be completed by line supervisor and turned and the end of each shift.
- All injuries need to be reported to the COMP / CLAIMS Unit
- All property Damage must be reported and documented
- Please report any Vehicle Damage, this includes Rental Vehicles
- Local Government please check in with OES Agency Representative
- Federal CTRs, Shift Tickets, Manifests, and Casual Hire forms can be dropped off at CAL FIRE Finance. We will ensure they are submitted to the Federal Finance Team.

WATER USAGE REPORT

DATE: _____ **Division / Group:** _____

AGENCY ID / VENDOR: _____

I.e.. Strike Team 1110C, Acme Water Tenders

REQUEST # _____

TURN INTO FINANCE DAILY

WATER SOURCE LOCATION	Hydrant	Open source i.e. pond	Tank	Gallons Used	Property Owner / Contact Number if known **

**Please note if you made contact with property owner and their contact.
(Use reverse side if needed.)
Information:_____.

The intent of this document is intended to track, record and validated the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

Peer Support Team Message:

INCIDENT PEER SUPPORT:
We have a few people on the incident for any peer support related needs. The best way to get a hold of them is to call them directly.

Amber Henderson 805 794-1690
Mike DeLeo 805 573-2419
or
CAL FIRE Peer Support/Helpline
916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543
Mike Aiello 916-584-0548
Warren Parrish 916-823-6641
Shawna Powell-530 717-0667
Nikole Schutz 916-709-0434
Jeremy Sanders- 916 281-6472
Amy Head 916-956-3277
Chris Lomanto 916-247-6974
Connie Quarisa 916-213-8697

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

Training Specialist Message

****SOUTH ZONE ONLY****

All State, Federal and local government agency trainees working on Position Task Books will need to register with the incident Training Specialist. This will ensure that each trainee receive proper credit and documentation for their assignment.

The Training Specialist is located next to Check -in. Please utilize the QR code below for remote check-in.

Dave Randolph
Training Specialist
(805) 857-4820

RESOURCE ADVISOR MESSAGE

Reporting of Cultural Sites

- Do not use the radio. Looters listen to our frequencies and will note where you find things.
- Grab a GPS point, bump it up the chain of command or directly inform a Resource Advisor on the line or in camp.

Blue/Black Flagging and White Flagging Together

- READs will be using flagging for areas to avoid suppression activities.
  - The two flagging colors used are a strip of white and a strip of blue/black.
- For more information, please consult with a READ.

Food on the Line Attract Wildlife Over Time.

- Keep food off the line as much as possible. It lures in wildlife, especially on indirect and contingency lines. Food associate's wildlife to humans and could bring about a dangerous situation to others on the line.

Sensitive Areas

- Meadows are natural barriers. Tie the line to them and not through them.
- Stream and creeks should be approached with care. If needing to cross, minimize damage (i.e. on a dozer lift the blade and only track over) to prevent post-fire stability issues.

Water Drafting Sites

- Access the water source while trying your best to minimize damage to the soil and vegetation.
- If using a portable pump, make sure there is a spill kit and absorption pads to catch any accidental spills.
- Place portable pumps as far away as you can from the water source.
- Store fuel cans away from the water source and on a flat surface.
- Use screens on the intakes.

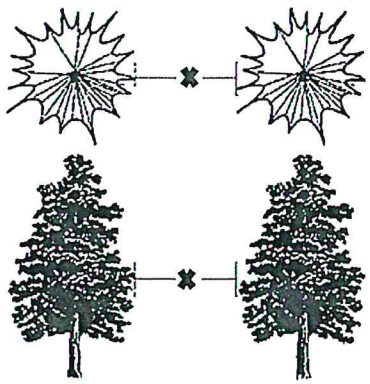

Tree Felling During Fire Line Creation

- Only cut down trees that are necessary during line construction.
  - Ask yourself, "do I really need to remove this tree? Would removal of lower hanging limbs be sufficient?"
- Avoid cutting hardwoods like black oaks when possible.

Working in Plantations

Trees within a plantation have monetary value. If this can be done safely and without compromising the line, consider creating a shaded fuel break. A shaded fuel break means some trees will remain with a certain spacing as stated below:

1. Cut trees with a 20' x 20' crown spacing. This means leave one tree untouched every 20 feet with all other trees removed. The 20 feet spacing is measured from the edge of the untouched tree's branches to the next untouched tree (see image to the right). The single tree left should be undamaged and appear healthy. *Healthy = no dead tops, multi tops or obvious signs of disease*
2. Deck all trees cut over a 10" DBH. Decking is to stack the trees in a linear fashion.

✖ = 20 Feet Spacing

Keep up the good work for cultural and natural resources by doing the following:

- Picking up trash/micro-trash.
- Removing unused flagging.
- Sharing information and working alongside READs.
- To the extent possible, when moving on to a new area leave the former better than you found it.

FIRING OPERATION CHECKLIST

Location: _____

Date: _____ **Time:** _____

Firing Supervisor: _____

1. Personnel Briefing

- ☐ Objectives
- ☐ Conditions (fire environment)
- ☐ Resource assignments identified
  - ☐ Firing personnel
  - ☐ Holding forces
  - ☐ Lookouts
- ☐ Ignition plan/sequence
- ☐ Communication Plan

6. Control Operations/Work Assignments:

Task: Improve control lines that have not been completed. Mop-up and patrol fire edge so there is little threat to the containment lines. Continue snagging hazard trees along fire lines and roadways from Cascadel to DP-41.
Purpose: Protect life, property and inholdings.
End State: Minimal loss to private property, no injuries or loss of life. The community of South Fork, North Fork and Cascadel has no addition loss or damage. Fire does not impact containment lines.

7. Special Instructions:

Supervisors are responsible for ensuring daily Covid-19 symptom checks. Communicate any developing symptoms to 213-431-4043.

6. Control Operations/Work Assignments:

Task: Scout for opportunities to establish control lines from Jackass Meadow south towards San Joaquin River. Construct control lines using natural barriers, dozer lines and handlines. Take suppression action on isolated residence, property, and inholdings, both private and federal. Clear roads to provide access into the area. Wrap structures based on input from ARCH.

Purpose: Protect private inholdings, government building and developments. Minimize fire damage and increased burned acres.

End State: Minimal damage to private and government property. Reduce fire spread towards Yosemite National Park

6. Control Operations/Work Assignments:

Task: Continue establishing control lines from Highway 81 east towards Miller Creek to keep the fire from spreading both south and to the east. Take action on isolated residence, property, inholdings, both private and federal. Clear roads to provide access into the area as needed.
Purpose: Protect private inholdings with minimal fire damage where there is a high probability of success.
End State: Minimal damage to private and government property. Reduce fire spread towards Yosemite National Park, Devils Postpile and Red Meadows.

6. Control Operations/Work Assignments:

Task: Assess, evaluate and triage infrastructure at Reds Meadow, Devils Postpile National Monument. Develop a point protection plan based on sound risk management. Install sprinkler system around structures, clear hazard fuels adjacent to building. Develop a plan of action and organization for a Type 3 Incident Management Team.
Purpose: Reduce fire impacts to Reds Meadow, Devils Postpile National Monument and other improvements within the area. Keep fire out of the town of Mammoth Lakes. Have a pre identified Team and plan of action if one of the MAP is crossed.
End State: Point protection plan is completed and ready to implement. If fire spreads into the above areas, the structural protection keeps fire from damaging private or government property.

7. Special Instructions:

Coordinate with local resources regarding infrastructure.

6. Control Operations/Work Assignments:

Task: Monitor Mammoth Pool Road and Highway 81 for downed trees and hazards. Clear roads that provides access into the fire area as directed by Operations.
Purpose: Keep roads open for fire traffic and safe access for the public using Highway 81. Clearing of roads and right of way is completed so public can access Mammoth Pool.
End State: Major roads are clear of hazards. Firefighters and public can access the areas with minimal risk. Roads are kept open and access into the fire area is not compromised.

7. Special Instructions:

Supervisors are responsible for ensuring daily Covid-19 symptom checks. Communicate any developing symptoms to 213-431-4043.
