INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">CREEK SOUTH ZONE</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">9/21/2020</td> <td style="border: none;">Date To:</td> <td style="border: none;">9/22/2020</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">0700</td> </tr> </table>	Date From:	9/21/2020	Date To:	9/22/2020	Time From:	0700	Time To:	0700												
Date From:	9/21/2020	Date To:	9/22/2020																		
Time From:	0700	Time To:	0700																		
3. Objective(s): <u>Management Objectives</u> <ul style="list-style-type: none"> - Utilize the risk management process to identify and mitigate hazards to protect firefighters and the public. Emphasize strategies and tactics that have the highest probability of success and the least exposure to firefighters and the public - Develop strategies to protect life, property, communities, businesses, and infrastructure. Employ tactics that fulfill these strategies while being mindful of the necessity for contingency and emergency plans. Ensure strategies account for incident priorities, applying resources to those with the highest consequences first - Follow COVID-19, CDC and established local, state and federal guidance to limit virus spread within the incident and surrounding communities near the fire area - Provide timely and continuous incident information to affected agency partners, cooperators and to the public - Maintain fiscal accountability and keep costs commensurate with values at risk 																					
<u>Control Objectives</u> <ul style="list-style-type: none"> - Keep the fire north of Pine Flat Lake - Keep the fire south of South Fork of Merced River and the crest of Ansel Adams Wilderness - Keep the fire east of Highway 41 - Keep the fire west of Minarets Range 																					
General Situational Awareness: <ul style="list-style-type: none"> • Utilize IRPG checklists to manage risk. • Ensure Lookouts are established, Escape Routes and Safety Zones are clearly identified. • Ensure effective communications are occurring by giving clear instructions and asking clarifying questions. • Continue to adhere to COVID 19 preventative measures. • Potential for extreme fire behavior when the air clears.

Creek South Zone Fire Weather Forecast

FORECAST NO: 14

NAME OF FIRE: Creek Fire

PREDICTION FOR: 0700 Mon – 0700 Tue

UNIT: CA-SNF-001391

SHIFT DATE: 09/21-09/22

SIGNED: *Matt Mehle*

TIME AND DATE

Incident Meteorologist - Matt Mehle

FORECAST ISSUED: 1800 09/20/20

WEATHER DISCUSSION: The warming and drying trend will continue today. Large scale winds will be easterly at night and southwesterly during the day. Lower elevations will experience more diurnal terrain driven winds – daytime upslope nighttime downslope. Overnight temperatures will cool off as well, especially over the higher terrain of Branch XX. Smoke will continue to be an issue for the next few days as it settles into the San Joaquin River drainage each night and lift each afternoon. Temperatures will moderate through the middle of the week.

WEATHER FORECAST FOR MONDAY:

WEATHER: Mostly sunny. Areas of smoke.

TEMPERATURES: Max 2500-5000' 77-88 F ...above 5000' 69-74 F **24 HR Trend:** Warmer 1-3.

HUMIDITY: Min 2500-5000' 20-30% ...above 5000' 17-26% **24 HR Trend:** Down 5-10%.

20-FOOT WIND:

RIDGETOP - East to Southeast 4-8 mph in the morning becoming southwest to west 5-10 mph with gusts 20 mph in the afternoon. Winds strongest over higher portions of Branch XX and XXV.

SLOPE/VALLEY - Downslope/downcanyon 2-5 mph in the morning becoming upslope/upcanyon 5-10 mph with gusts to 15 mph in the afternoon. Strongest San Joaquin River drainage and aligned canyons.

STABILITY/INVERSION: Some smoke will be dense along the San Joaquin River in the morning then gradually lift in the afternoon, but not totally clear.

WEATHER FORECAST FOR MONDAY NIGHT:

WEATHER: Smoky. Thickest in lower elevations and drainages.

TEMPERATURES: Min 2500-5000' 55-63 F ...above 5000' 38-46 F. **24 HR Trend:** Little change.

HUMIDITY: Max 2500-5000' 25-35% ...above 5000' 30-40%. **24 HR Trend:** Little change.

20-FOOT WIND:

RIDGETOP - Southwest in the evening shifting to the East overnight 5-10 mph with gusts 15.

SLOPE/VALLEY - Downslope 3-5 mph with gusts 8 mph overnight.

EXTENDED FORECAST:

TUESDAY... Mostly sunny. Areas of smoke. Max temps 75-85 F. Min RH 20-30%. Southwest to west 5-10 mph with gusts 15-20 mph in the afternoon.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 15	TYPE OF FIRE: Wildfire
FIRE NAME: Creek SOUTH ZONE	OPERATIONAL PERIOD: 9/21-22/20 0700-0700
DATE ISSUED: 9/20/20	TIME ISSUED: 2200
UNIT: SNF – Sierra National Forest	SIGNED: <u>Don Watt</u>
	Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

The weather will be cooler, with temperatures 77-88 degrees below 5000 feet and 69-74 degrees above, and minimum humidity 20-30% lower elevations, and 17-26% higher elevations. Ridge winds will be southwest to west 5-10 mph with gust to 20 mph. Valleys and slopes will be downslope/canyon in the morning turning to upslope/canyon in the afternoon, 5-10 mph and gust to 15 mph. Overnight temperatures will be 38-63 degrees and relative humidity 25-40%. Winds overnight will be east 5-10 mph gust 15 mph on the ridges, and downslope 3-5 mph with gusts to 8 mph on the slopes and valleys.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The weather continues to get warmer and dryer increasing the fire activity. The northern and eastern portions of the fire continue to burn actively in the heavy fuels. The smoke has been clearing in many areas of the fire in the afternoon allowing for more solar heating. This will increase the potential for island within the burn to become active. The spotting potential will continue to increase with this weather pattern. Heavier material which has been smoldering for the past several days will also become more active with flaming combustion and more ember production. Portions of the fire which have been inactive or limited activity will increase in the afternoon. The overnight hours will have less humidity recovery, increasing active burning in the heavier materials.

SPECIFIC:

In Divisions X and Z the heavy fuels will continue to consume, pay attention to any heavy fuels near unburned fuels and structures.

Divisions V and W the unburned pockets of fuel will have potential to flare up in the afternoon.

In Divisions R and S, the activity will continue to increase as the humidity decreases. The smoke will clear in the late morning and remain clear in the afternoon, increase fire activity.

Division N and P the fire will continue to burn south along the edge of the South San Joaquin River drainage, narrowing the gap from the fire above Huntington Lake.

AIR OPERATIONS

Smoke will continue to settle in the valley and drainage bottoms limiting aircraft. The smoke should clear more in the afternoon, mainly on the ridges and in some of the valley bottoms.

SAFETY

The fuels continue to become more receptive with the weather, unburned fuels will become more active within the fire area, be aware of your surroundings.

SAFETY MESSAGE/PLAN (ICS 208)

Creek CA-SNF-001391	Operational Period: Date From: 9/21/20 Date to: 9/22/20 Time From: 0700 Time to: 0700	
<div style="display: flex; justify-content: space-between;"><div>////</div><div>MAJOR HAZARDS AND RISKS:</div><div>////</div></div> <p><u>Hazardous Trees and Snags:</u> Expect IMMEDIATE failure of trees involved with fire. Be alert of snags. When crews are working in a very hazardous area stay diligent and flag hazardous areas. Avoid taking breaks under trees. Park vehicles outside of potential fall zone (2 ½ times tree height).</p> <p><u>Mop Up/Back Haul:</u> Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for stump holes and root cavities. Evaluate unburned islands, and consider re-burn potential. Back haul all trash and dispose of in approved incident dumpsters.</p> <p><u>Firing Operations:</u> Follow the Firing Operation Checklist. Assure that: Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Also, it has been approved and relayed to all adjoining forces.</p> <p><u>Fatigue – Physical and Mental:</u> Continually monitor your crew. Hydrate and increase your caloric intake when performing arduous work during long shifts. Monitor work / rest cycle.</p> <p><u>Complacency:</u> All PPE must be worn when working on the fire line. Having the same assignment on the same ground day after day can lead to complacency and make us more vulnerable to accidents.</p> <p><u>Extreme Fire Behavior:</u> Expect intense fire runs. Take weather regularly. Maintain situational awareness specific to wind direction changes and increased fire spread.</p> <p><u>Entrapment Avoidance:</u> Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.</p> <p>“To be fair, not every error is going to generate a tragedy, but if you make enough errors sooner or later all the holes in the Swiss cheese will line up and you will have that perfect storm for a tragedy.” Gordon Graham</p>

CAL FIRE IMT COVID-19 ACTIONS

PERSONNEL WITH COVID-19 SYMPTOMS

- **Symptoms per the CDC's current guidelines include the following:**
 - Cough, fever(100.4), chills, muscle pain, shortness of breath, sore throat, new loss of taste or smell
- **Incident Base or Fire Line**
 - Maintain appropriate face covering
 - Notify supervisor and proceed to CALMAT
 - Isolate and assess patient
 - Medical direction to test, return patient to home unit/agency for testing

CONTACTED OR EXPOSED PERSONNEL AND ASYMPTOMATIC

- Notify supervisor
- Maintain appropriate face covering
- Self-monitor for symptoms
- Employee will continue assignment with preventative measures

PREVENTATIVE MEASURES TO SLOW THE TRANSMISSION COVID-19:

- Wash your hands regularly with soap and water, or clean them with alcohol-based hand rub.
- Maintain at least six feet distance between you and people coughing or sneezing.
- Avoid touching your face.
- Cover your mouth and nose when coughing or sneezing.
- Stay home if you feel unwell.
- Refrain from smoking and other activities that weaken the lungs.
- Practice physical distancing by avoiding unnecessary travel and staying away from large groups of people.
- Maintain proper personal care (healthy diet and rest)

[illegible]

CAL FIRE TAILBOARD SAFETY TOPICS

TREE MORTALITY / HAZARD TREE AWARENESS

YOU ARE WORKING IN A TREE MORTALITY AREA

Watch Out For

- Rapid fuel driven fire spread – Expect the Unexpected!
- Short and Long Range Spotting
- Tree fall during firefighting and Overhaul Operation
- The need to support early and immediate evacuation of civilians
- One way in One Way Out Situations

Mitigation

- Initial Attack Plan – Consider transitioning from the normal aggressive direct attack operations to indirect operations earlier than normal.
- React early to not being able to contain small fires and sudden rapid fire growth.
- Don't be Complacent – these are not "routine fire" areas
- React to unstable fire behavior indicators – Spotting, Torching, ROS
- Assess parking locations and work areas prior to engagement
- Park vehicles outside of potential fall zone (1 ½ times tree height)
- LCES Early!
 - L-ookouts posted (Fire Behavior, Weather Changes, and Aircraft in-bound)
 - C-ommunications (Establish a Plan and make it known using Face to Face and Radios)
 - E-scape Routes are recognized and made known to suppression personnel
 - S-afety Zones are identified and large enough for a "Tree Mortality" or "Hazard Tree" area
- Recognize the potential for:
 - Limbs and Trees falling during helicopter and tanker operations
 - Domino effect of when falling limbs and trees come in contact with one another

STATUS	
Incident Start Date: September 4, 2020	Incident Start Time: 6:33 P.M.
Cause: Unknown	Acres:
Containment	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information room; they will be reviewed and possibly uploaded to our many social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident located in *Room 13, PIO Section*.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail to the following address.

CAL FIRE FKU-Creek Fire ~Name & Request Number ~ 210 S. Academy Avenue ~Sanger, CA 93657

CREEK INCIDENT ***CAL FIRE IMT 1*** Finance

- **This fire is under Cost Apportionment**, All DIVS and OPBD will need to do a daily de-brief with the Cost Apportionment Team by calling 925-532-5453
- Finance is located in the school library
- Please come by the Time Unit and start your and update your FC-33
- Vendors please drop off your agreements to the Time Unit
- Shift Tickets need to be completed by line supervisor and turned in at the end of each shift.
- All injuries need to be reported to the COMP / CLAIMS Unit
- All property Damage must be reported and documented
- Please report any Vehicle Damage, this includes Rental Vehicles
- Local Government please check in with OES Agency Representative
- Federal CTRs, Shift Tickets, Manifests, and Casual Hire forms can be dropped off at CAL FIRE Finance. We will ensure they are submitted to the Federal Finance Team.

CA-SNF-001391

P5NJ3F 0515

FINANCE MESSAGE – FEDERAL RESOURCES

AVAILABLE OPTIONS FOR SUBMITTING TIME:

Resources can submit time electronically (email below) or hard copy. There will be drop boxes for CTRs and shift tickets in each spike camp and at ICP. Documents will be picked up daily at spike camps and ICP and transported to Finance.

Any resource that will be paid through the federal system will have their paperwork/time processed by North Zone Finance. Any resource that will be paid through the Cal Fire system will have their paperwork/time processed by South Zone Finance. This applies to all resources – no matter which zone you're assigned to. Documents are being exchanged between the finance sections so if you're working on the north zone but your time will be processed by the south zone....not to worry....north zone finance will get your documents to south zone, and vice versa. And if you're not sure if you would be paid by through the federal system or the Cal Fire system, again, don't worry....the finance sections will get it figured out.....just turn in your documents!

When you're ready to demob, you will demob through whichever Finance Section is processing your time.

If you opt to use the fillable PDF CTR or Shift Ticket you have a couple of options for submitting them to Finance:

Option 1- Resource fills out fillable PDF and submits to Supervisor for signature. Supervisor digitally signs PDF, sends signed copy back to Resource **AND** on to Finance.

Option2 - Resource fills out fillable PDF, Supervisor (if comfortable) signs directly on the same device. Resource e-mails the PDF directly to Finance.

Crews: please submit a copy of your manifest to Finance – it can be electronic or hard copy. Please note any AD crew members on the manifest with their position code and ECI number if known.

Single Resource ADs: Please submit your Single Resource Casual Hire form to Finance – it can be electronic or hard copy.

Contractors/Cooperators: Please submit the finance portion of your contract/agreement and resource order to Finance – either electronically or hard copy.

Please try and submit time at least every other day. You may choose from any of the options above as long as the copy we receive in finance is legible. What works best for you, will work for us.

WATER USAGE REPORT

DATE: _____

Division / Group: _____

AGENCY ID / VENDOR: _____

I.e., Strike Team 1110C, Acme Water Tenders

REQUEST # _____

TURN INTO FINANCE DAILY

WATER SOURCE LOCATION	Hydrant	Open source i.e. pond	Tank	Gallons Used	Property Owner / Contact Number if known **

**Please note if you made contact with property owner and their contact.

(Use reverse side if needed.)

Information: _____.

The intent of this document is intended to track, record and validated the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

Peer Support Team Message:

INCIDENT PEER SUPPORT:

We have a few people on the incident for any peer support related needs. The best way to get a hold of them is to call them directly.

Amber Henderson 805 794-1690

Mike DeLeo 805 573-2419

or

CAL FIRE Peer Support/Helpline

916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543

Mike Aiello 916-584-0548

Warren Parrish 916-823-6641

Shawna Powell-530 717-0667

Nikole Schutz 916-709-0434

Jeremy Sanders- 916 281-6472

Amy Head 916-956-3277

Chris Lomanto 916-247-6974

Connie Quarisa 916-213-8697

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

Training Specialist Message

****SOUTH ZONE ONLY****

All State, Federal and local government agency trainees working on Position Task Books will need to register with the incident Training Specialist. This will ensure that each trainee receive proper credit and documentation for their assignment.

The Training Specialist is located next to Check -in. Please utilize the QR code below for remote check-in.

Dave Randolph
Training Specialist

RESOURCE ADVISOR MESSAGE

Reporting of Cultural Sites

- Do not use the radio. Looters listen to our frequencies and will note where you find things.
- Grab a GPS point, bump it up the chain of command or directly inform a Resource Advisor on the line or in camp.

Stay Out! – Flagging Combinations for Sensitive Areas

- READs will be using flagging for areas to avoid suppression activities. There are two pieces to watch for.
 - Strip of white and a strip of blue/black.
- For more information, please consult with a READ.

Food on the Line Attract Wildlife Over Time.

- Keep food off the line as much as possible. It lures in wildlife, especially on indirect and contingency lines. Food associate's wildlife to humans and could bring about a dangerous situation to others on the line.

Riparian Areas

- Meadows are natural barriers. Tie the line to them and not through them.
- Stream and creeks should be approached with care. If needing to cross, minimize damage (i.e. on a dozer lift the blade and only track over) to prevent post-fire stability issues. Do not push or cut line through.

Water Drafting Sites

- Access the water source while trying your best to minimize damage to the soil and vegetation.
- If using a portable pump, make sure there is a spill kit and absorption pads to catch any accidental spills.
- Place portable pumps as far away as you can from the water source. Use screens on the intakes.
- Store fuel cans away from the water source and on a flat surface.

Tree Felling During Fire Line Creation

- Only cut down trees that are necessary during line construction.
 - Ask yourself, "do I really need to remove this tree? Would removal of lower hanging limbs be sufficient?"
- Avoid cutting hardwoods like black oaks when possible.

Removing Fuels in the Forest

Trees across the Sierra National Forest have a monetary value. If this can be done safely and without compromising the line, consider creating a shaded fuel break. A shaded fuel break means some trees will remain with a certain spacing as stated below. This more commonly applies to indirect and contingency lines.

1. Cut trees with a 20' x 20' crown spacing. This means leave one tree untouched every 20 feet with all other trees removed. The 20 feet spacing is measured from the edge of the untouched tree's branches to the next untouched tree (see image to the right). The single tree left should be undamaged and appear healthy. *Healthy = no dead tops, multi tops or obvious signs of disease*
2. Deck all trees cut over a 10" DBH. Decking is to stack the trees in a linear fashion.

RESOURCE ADVISOR MESSAGE

Removal of Trees on Federal Land along Roadways

Clearing trees along the roadways on National Forest land needs to follow the following guidelines:

Cut trees that:

- No longer have any needles left or remaining needles are black, charred and dry
- Have 60% or more of the green crown (branches with needles) that is scorched
- Have deeply charred bark that no longer has any defining characteristics such as bark shows no grooves, no fissures, and no possible puzzle like appearance and/or natural coloration.

Keep trees that are:

- Vigorous and most likely to survive. These should have green, pliable needles, and have 40% or more of a green crown.
- If a tree has 40% or more of a green crown and the bole of the tree is not burnt through, consider leaving the tree.
- Tree has defining characteristics like bark shows grooves, fissures, and may have a puzzle like appearance and/or natural coloration.
- Not a hazard to the road.

OHV Routes (Brewer, Red Mtn, & Coyote Lakes Areas)

- Do not use heavy equipment on these routes. They will also likely damage the heavy equipment due to large cobbles and boulders. These are highly prized 4x4 routes that attract people from all over the country.
- Constructing line to meet up with the OHV routes is allowed.
- Using existing OHV routes as a firing line is allowed.

Keep up the good work for cultural and natural resources by doing the following:

- Picking up trash/micro-trash.
- Removing unused flagging.
- Sharing information and working alongside READs.
- To the extent possible, when moving on to a new area leave the former better than you found it.
