# INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> <p style="text-align: center;"><b>Creek Fire</b></p>	<b>2. Operational Period:</b>	Date From: 10/29/2020    Date To: 10/29/2020 Time From: 0700    Time To: 1900
<b>3. Objective(s):</b>		
<u><b>Leaders Intent:</b></u> - Suppress and repair the Creek Fire using a full range of management tactics & strategies that minimize exposure to firefighters, communities and reduce the risk to COVID19.		
<u><b>Management Objectives:</b></u> - Ensure safety of emergency responders & public utilizing strategies & risk management processes with the highest probability of success. - Protect natural and cultural resources, commercial timber and critical infrastructure while utilizing resource and agency advisors. - Repair areas disturbed by fire suppression activities to minimize potential for excessive erosion and impacts to natural and cultural resources. - Foster and maintain good relationships with local cooperators, stakeholders and public while providing coordinated, accurate and timely information. - Effectively manage cost and track accountable property to assist with financial reconciliation.		
<u><b>Control Objectives</b></u> - Keep the fire south of the South Fork of Merced River and the Minarets Range. - Keep the fire south and west of Pond Lily Lake and the Silver Divide. - Keep the fire within the existing fire footprint.		
<b>General Situational Awareness:</b>  Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.  In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.  Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

# Creek Fire Weather Forecast (above 5000 ft)

**FORECAST NO:** 52  
**PREDICTION FOR:** 0600 Thu to 0600 Fri  
**SHIFT DATE:** 10/29/20  
**TIME/DATE FORECAST ISSUED:** 1800 10/28/20

**NAME OF FIRE:** Creek Fire  
**UNIT:** CA-SNF-001391  
**Incident Meteorologist:** Angie Enyedi  
**904-318-4041**

## EXTENDED PERIOD OF CRITICALLY LOW HUMIDITY

High pressure will build across the region through the weekend with an extended duration of critically low humidity in the teens to single digits and little nighttime recovery where the fire is active. Only slight humidity recovery is expected in the afternoons and evenings across lower elevations as up-drainage flow develops. Inversion strength will progressively increase each day which will increase both smoke coverage and persistence. Temperatures will trend above normal with terrain driven winds.

**THURSDAY:** Mostly sunny, more lingering smoke. Warmer & very dry. Up-drainage flow by midday.

**Stability:** Stronger morning inversion with more smoke coverage, visibility improvement into afternoon.

Location	Maximum Temperature (F) & Minimum Humidity (%)	20-ft Winds (mph)
Slopes & Valleys	70s                      5-15%	Down drainage ENE 2-4 early morning, gusts 10. Winds becoming up-slope/up-canyon by early afternoon WSW to SSW 5-8, gusts 15.
Ridges & Peaks	60s                      3-10%	ENE 8-12, gusts 15-20. Winds becoming NNW into the afternoon 5-10, gusts 15.

**THURSDAY NIGHT:** Clear, cool with continued poor humidity recovery. Down-drainage winds.

**Stability:** Stronger nighttime inversion below 7 kft. More smoke accumulation in drainages.

Location	Minimum Temperature (F) & Maximum Humidity (%)	20-ft Winds (mph)
Slopes & Valleys	35-45                      15-25%	Up-drainage early evening WSW 3-7, gusts 10. Winds becoming down drainage NNE to ENE 2-5, gusts 12.
Ridges + Peaks	Lows 40 to low 50s      5-15%	WNW early evening 5-10, gusts 15. Winds becoming ENE 5-10, gusts 15-20 by midnight.

## WEATHER OUTLOOK:

- FRI – SUN: Warm & dry, poor RH recovery. Terrain driven winds. Stronger inversions = more smoke.
- MON – WED: Passing clouds, slightly cooler, some RH increase under southerly flow.

## Key RAWs Locations:

Div G Minarets: 5313'  
 Div M Mt. Tom 9000'

Div M High Sierra 7431'  
 Div M Kaiser Ridge 8250'

## Scan for RAWs Obs

**Sunset Thu 10/29: 1804**

**Sunrise Fri 10/30: 0721**

# FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 52	<b>TYPE OF FIRE:</b> Wildfire
<b>FIRE NAME:</b> Creek Fire	<b>OPERATIONAL PERIOD:</b> Day Shift 10/29/20 0700-1900
<b>DATE ISSUED:</b> 10/28/2020	<b>TIME ISSUED:</b> 1830
<b>UNIT:</b> Sierra NF (CA-SNF-001391)	<b>SIGNED:</b> <i>1st Patrick Doyle</i> , FBAN-t

## INPUTS

**WEATHER SUMMARY:**      **\*See Fire Weather Forecast for Specifics\***  
**EXTENDED PERIOD OF CRITICALLY LOW HUMIDITY**

1000-hr(%)	6																
Live Fuels	2/3 cured																

## OUTPUTS

<p><b>FIRE BEHAVIOR</b></p> <p><b>GENERAL:</b></p> <ul style="list-style-type: none"> <li>• Currently very low fuel moistures, from dry grass/needle-cast (1-hr) on up to heavy 1000-hour (3"-8" dia.) fuels are receptive to spotting and carrying fire.</li> <li>• Heavy fuels will burn readily and hold heat. Resistant to control. Increase in activity in interior creeping and smoldering in the duff and heavy fuels. Some individual &amp; group tree torching.</li> <li>• Expect fire behavior where alignment of slope and fuels align to send embers increase spotting ahead 0.10 mile (528 ft.).</li> <li>• Nighttime humidity will do little (down to 5% ridges) to moderate fire activity and diminish fire activity overnight. Shorter day-lengths will continue to reduce active burn period.</li> </ul>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td colspan="6"><b>Probability of Ignition (4-8,000')</b>: 90%/80% (Unshaded/Shaded)</td> </tr> <tr> <td colspan="6"><b>Spotting Potential:</b> Minimal-Low</td> </tr> <tr> <td colspan="6"><b>Spotting Distance:</b> .10-.30 mile (short range)</td> </tr> <tr> <th>Fuel Model</th> <th>FL (Ft.)</th> <th>ROS (Ch/Hr)</th> <th>NFDR Index</th> <th>Value</th> <th>%</th> </tr> <tr> <td>TU5</td> <td>6-11</td> <td>6-8</td> <td>ERC</td> <td>89</td> <td>99th</td> </tr> <tr> <td>TL7</td> <td>2-4</td> <td>6-12</td> <td>BI</td> <td>97</td> <td>99th</td> </tr> <tr> <td>SH1</td> <td>2-4</td> <td>4-8</td> <td colspan="3">High Sierra RAWS (44520) Years 2000-2020 (present)</td> </tr> </table>	<b>Probability of Ignition (4-8,000')</b> : 90%/80% (Unshaded/Shaded)						<b>Spotting Potential:</b> Minimal-Low						<b>Spotting Distance:</b> .10-.30 mile (short range)						Fuel Model	FL (Ft.) **SPECIFIC:**

- DIV M: Activity near confluence of Middle Fork and Fish Creek spotting and spreading intermittently through the rocks and patchy fuels. Individual and group tree torching and spotting factor for all of DIV M; smoldering/creeping in areas with less fuels or slope. Areas west, north, and east of Vermillion Camp, north of Edison Lake will remain most active with spread in the Graveyard Meadows area. Spread dependent on terrain will primarily to the E-NE.
- DIV J – Little fire activity, edged in by rocks at higher elevations where fire is following green vegetation and timber stringers. Low to moderate activity in clumps of remaining island of fuels, very low potential to move. Active fire spread along the southern edge 2018 Lion Fire, moving east through pockets of fuel near confluence of Middle Fork & Fish Creek.
- DIVS E – DIVS I: Little activity, with few interior fuels and deep duff consuming and burning. Expect to see this continue, with increased consumption with lower Rh and dry fuels. Area in DIV E, smoldering and creeping in area by Little Shuteye Peak.
- DIVS (C–A, Z–N): No activity near line except what is near Cascadel Point, but with scattered heat throughout interior of divisions, creeping and smoldering where fuels exist. Potential torching and spotting if exposed to the sun.

## SAFETY

*If slop-overs or spot fires occur expect rapid fire growth and moderate to extreme behavior. "One foot in the black" or "inside out" tactics will be the safest approach.*

**6. Work Assignments:**  
**DIVISION E/F/G**  
**Task:** Monitor and secure line where needed from Grizzly Road to Little Shuteye. Continue to secure and mop-up from 5S10 to Grizzly Road. Secure unburned islands that have spotting potential.  
**Purpose:** Protect private inholdings, government buildings, and developments  
**End State:** No further damage to private and government property.

**7. Special Instructions:**  
 Use the Accountable Property report to identify or return incident property. ie. Mark III pumps, water tanks, UTVs, sprinkler systems. Send a picture of the label, LAT/LONG or add to collector map and location to Josh\_Ramsey@firenet.gov or text to 530.277.1213

**DIVISION I:**  
**Task:** Continue to hold and mop up control lines south of Red Top Mountain down to DP57. Continue snagging hazard trees in work areas and adjacent to the fire lines.  
**Purpose:** Limit fire spread to the north and west protecting values at risk in those areas.  
**End State:** Direct attack was successful stopping fire progression to the north and west.

**DIVISION J:**  
**Task:** Monitor fire activity from the air and IR as smoke conditions allow. Identify opportunities to limit fire spread towards Red's Meadow and Devils Postpile. Protect private inholdings and government property where fire conditions allow and resources can safely engage.  
**Purpose:** Protect private inholdings with minimal fire damage and there is a high probability of success.  
**End State:** Reduce fire spread towards Yosemite National Park, Devils Postpile and Red's Meadow. Damage to private and government property is minimal.

**7. Special Instructions:**  
 Use the Accountable Property report to identify or return incident property. ie. Mark III pumps, water tanks, UTVs, sprinkler systems. Send a picture of the label, LAT/LONG or add to collector map and location to Josh\_Ramsey@firenet.gov or text to 530.277.1213

<b>6. Work Assignments:</b>									
<p><b>Task:</b> Mop up and patrol fire edge, mop up around Central Camp. Continue road improvement, snagging hazard trees in work areas and adjacent to the fire lines. Continue structural protection throughout division. Backhaul hose and trash. Identify suppression repair needs and accomplish objectives as established by suppression repair plan.</p> <p><b>Purpose:</b> Protect life and property with minimal fire spread threatening North Fork and Bass Lake and other private inholdings. Keep roads open for fire traffic. Provide safe access for firefighting resources, cooperators, and the public.</p> <p><b>End State:</b> Control lines are completed and no threat of fire spread. Bass Lake and adjacent communities are not impacted. No damage to private property. Major roads are clear of hazards. Firefighters, cooperators, and the public can travel major roads with minimal risk. Roads are kept open and access into the fire area is not compromised.</p>									
<b>7. Special Instructions:</b>									
<p>Use the Accountable Property report to identify or return incident property. ie. Mark III pumps, water tanks, UTVs, sprinkler systems. Send a picture of the label, LAT/LONG or add to collector map and location to Josh_Ramsey@firenet.gov or text to 530.277.1213</p>

# SAFETY MESSAGE

## SAFETY IS OUR FIRST PRIORITY

Fire fighter safety comes first on every fire, every time

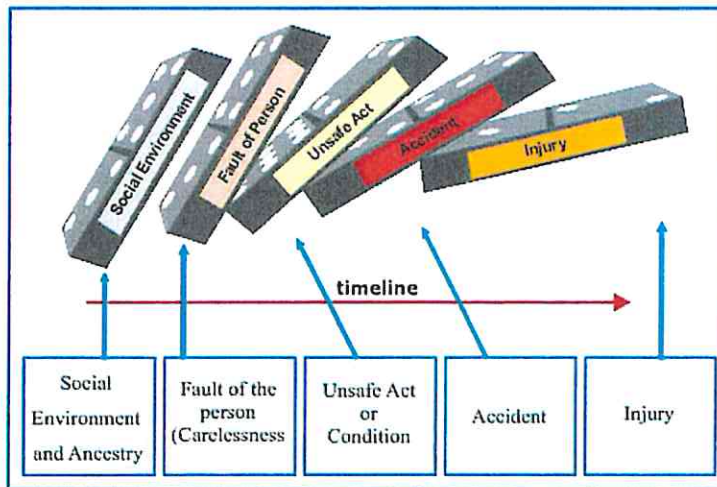

Incident :Creek	Date: October 29, 2020	Shift: Day
-----------------	------------------------	------------

### SAFETY THOUGHT

#### Safety Domino Effect

- How many unsafe acts have you seen?
- How many bumps, scrapes, and minor injuries/accidents?
- Take time to recognize that removing a key factor prevents the start of the chain reaction.

Heinrich's Domino Theory states that accidents result from a chain of sequential events, metaphorically like a line of dominoes falling over. When one of the dominoes falls, it triggers the next one, and the next... - but removing a key factor (such as an unsafe condition or an unsafe act) prevents the start of the chain reaction.

**“As soon as you see a mistake and don't fix it, it becomes your mistake”**

Prepared By (Communications Unit Leader)  **Scott La Rue** Routine (916) 591-9026 and EMERGENCY (925) 532-5464  
 Incident Location: **Sierra National Forest**  
 County: State: CA Latitude: "N" Longitude: W

The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeaters (and depending on use, base stations) must be programmed with the Rx and Tx reversed.

cover

### CODE OF CONDUCT

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Other violations of USDA and Forest Service standards of conduct

Each firefighter is expected to be physically and mentally prepared to perform emergency duties at any time.

Human Resources Message

### "Harassment Free Zone"

Harassment – in any form – can result in poor team performance. Everyone on this incident has a right to work in a harassment-free environment.

A harassment-free environment is one where individuals treat one another with *courtesy, dignity and respect.*

"I need your help. Someone is stalking me..."

## \$\$\$ Finance \$\$\$

You may either turn in your CTR or shift ticket hardcopy or take a picture of in and send it electronically to this email address.

[2020.creek.finance@firenet.gov](mailto:2020.creek.finance@firenet.gov)

Please turn in your CTR or shift ticket at least every other day and make sure it is legible, includes your resource order number and is signed by your supervisor.

Call Clovis ICP at 951-205-3819 if you have questions.

### Training Specialist - Creek Fire

The Training Specialist is working remotely. Training Specialist Contact Information:

- Bob Rivelle (Available daily between 0630 and 2200 Hours)
- Call/Text: 707.498.1761
- Email: [robert\\_rivelle@nps.gov](mailto:robert_rivelle@nps.gov)

How to register as a Trainee:

- Use the QR code below. If you're unable to register using the QR code, please call 707.498.1761.
- Once registered, you will receive text and email updates.

To close-out your training assignment:

1. **Trainer:** Complete and Evaluation Record in the back of the Position Task Book and make as many entries as possible within the individual tasks. Discuss this with your Trainee.
2. **Trainer:** Complete an individual performance rating (ICS 225) and go over the performance rating with your Trainee.
3. **Trainee:** Complete the Trainee Exit Questions located at the QR Code below.
4. **Trainee:** Text or email the individual performance rating (ICS 225) to the Training Specialist.
5. Once completed, the Trainee and the Training Specialist will have a brief conversation.

# DAILY COVID QUESTIONS:

Have all employees apply this self-assessment prior to entering any work location every day.

Can you answer "YES" to either question? If so, report to the Medical Unit immediately:

- 1) In the last 14 days have you had a fever or chills, shortness of breath, body-aches, coughing or new loss of taste or smell (not attributable to something else, e.g. allergies)?
  
- 2) In the last 14 days have you had close contact with someone who may have COVID-19? This includes anyone with a positive COVID-19 test or who has COVID-19 symptoms.

• Cough	• Muscle or Body Aches	• Fatigue
• Shortness of breath	• Sore Throat	• Nausea/Vomiting
• Fever (100.4 or more) or Chills	• Cough	• Diarrhea
• New loss of Taste or Smell	• Headache	• Congestion/Runny Nose

Persons who are displaying symptoms that the medical unit feels are suspicious for COVID-19 will be tested. This will be coordinated by the incident COVID taskforce and the local public health department.

If a person has mild symptoms that might be caused by other conditions (like heat illness, dehydration, etc.), the medical unit may isolate, treat and observe for up to 24 hrs. to determine if COVID testing is needed.

## **DMOB process for the Creek Fire**

### **China Peak, Auberry School and Vermilion Camps**

All Resources, including CalFire Contractors (Except Cal Fire) will report to DMOB at China Peak at their assigned times to start the DMOB Process.

Resources requiring a OES 42 for time keeping will have to report to Clovis ICP to get the OES 42 signed by the OES Rep.

CalFire Resources will DMOB at Auberry Elementary School.

- Contact Matt Dunham (559) 281-4312 to start the DMOB process
- Resources will have to have a Mechanical Inspection and we wash, contact Billy Greenwood (559) 218-4330
- All Cal Fire resources (including contract) need to call CalFire Finance before leaving incident (925) 532-5446
- All CalFire resources (including contract) need to call FKU expanded (559) 294-6818 to be released from the incident
- FKU expanded will notify Creek DMOB (916) 591-9008 to notify which resources have been released

### **ECCO Camp**

All resources will report to Episcopal Conference Center, Oakhurst to DMOB (no ICS 221 Demobilization Checkout Sheet will be provided). Return any checkout supply items to the Base Camp Manger, go through Ground Support, Comms and finish at Finance. When complete use the QR code located at finance to complete the DMOB process in order to be released from incident.

Resources requiring a OES 42 for time keeping will have to report to Clovis ICP to get the OES 42 signed by the OES Rep.

The DMOB list can be found by scanning the QR Code on the cover of the IAP and clicking on the DMOB list Button.

Any questions call DMOB at (916) 591-9008

# MEDICAL PLAN (ICS 206 WF) CIIMT 1

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

**Use the following items to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location &amp; Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY: Considerations:** If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, et c.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
