0700 - Operations Briefing

1700 - Planning Meeting

Fire Information: (559) 549-3781

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> <div style="text-align: center; font-family: monospace;">CREEK</div>	<b>2. Operational Period:</b> Date From: 11/1/2020    Date To: 11/1/2020 <div style="text-align: center; font-family: monospace;">Time From: 0700                      Time To: 1900</div>															
<b>3. Objective(s):</b> <ul style="list-style-type: none"> <li>• Provide for firefighter and public safety by assessing and mitigating risk in order to develop and implement sound tactical operations. Ensure all resources have a clear understanding of assignments and associated hazards.</li> <li>• Protect critical infrastructure, commercial timber, and natural and cultural resources by proactively engaging agencies and incident resource advisors.</li> <li>• Maintain and enhance long-term strategic plan by identifying and implementing suppression options considering probability of success, firefighter exposure, risk mitigation, seasonality, and resource prioritization and allocation.</li> <li>• Repair area impacted by fire suppression activities to minimize potential for excessive erosion, reduce visual impacts, and protect natural and cultural resources from further damage.</li> <li>• Maintain and enhance relationships with agency partners, cooperators, stakeholders, and the public through timely and accurate information exchange. Ensure long-term strategies are communicated.</li> <li>• Follow CDC, local, state, and federal COVID-19 mitigation guidance and protocols to reduce exposure and protect firefighters and the public from virus spread.</li> <li>• Treat all personnel with dignity and respect by providing a harassment free, zero-tolerance work environment.</li> <li>• Ensure financial and documentation packages are prepared in accordance with agency requirements and agreements</li> </ul>																
<b>4. Operational Period Command Emphasis:</b> Communicate firefighter successes to incident stakeholders and public. Use appropriate resources for the mission for the safest and most effective results. Know your environment and time necessary to accomplish the task.																
<b>General Situational Awareness</b> Be vigilant. Stay aware and anticipate increased fire activity, and have plans for potential fire spread outside of control lines. Keep apprised of weather pattern changes and wind direction in the coming days that will test fire weakened timber.																
<b>5. Site Safety Plan Required?</b> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> <b>Approved Site Safety Plan(s) Located at:</b>																
<b>6. Incident Action Plan</b> (the items checked below are included in this Incident Action Plan): <table style="width: 100%; border: none;"> <tr> <td style="width: 33%;"><input checked="" type="checkbox"/> ICS 203</td> <td style="width: 33%;"><input type="checkbox"/> ICS 207</td> <td style="width: 34%;"><b>Other Attachments:</b></td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 204</td> <td><input type="checkbox"/> ICS 208</td> <td><input checked="" type="checkbox"/> IMT Contact List</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 205</td> <td><input checked="" type="checkbox"/> Map/Chart</td> <td><input type="checkbox"/> _____</td> </tr> <tr> <td><input type="checkbox"/> ICS 205A</td> <td><input checked="" type="checkbox"/> Weather Forecast/Tides/Currents</td> <td><input type="checkbox"/> _____</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 206</td> <td></td> <td><input type="checkbox"/> _____</td> </tr> </table>		<input checked="" type="checkbox"/> ICS 203	<input type="checkbox"/> ICS 207	<b>Other Attachments:</b>	<input checked="" type="checkbox"/> ICS 204	<input type="checkbox"/> ICS 208	<input checked="" type="checkbox"/> IMT Contact List	<input checked="" type="checkbox"/> ICS 205	<input checked="" type="checkbox"/> Map/Chart	<input type="checkbox"/> _____	<input type="checkbox"/> ICS 205A	<input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	<input type="checkbox"/> _____	<input checked="" type="checkbox"/> ICS 206		<input type="checkbox"/> _____

# Creek Fire Weather Forecast (above 5000 ft)

**FORECAST NO:** 55  
**PREDICTION FOR:** 0600 Sun to 0600 Mon  
**SHIFT DATE:** 11/01/20  
**TIME/DATE FORECAST ISSUED:** 1800 10/31/20

**NAME OF FIRE:** Creek Fire  
**UNIT:** CA-SNF-001391  
**Incident Meteorologist:** Angie Enyedi  
**904-318-4041**

## CRITICALLY LOW HUMIDITY CONTINUES

High clouds increase Sun as a broad upper level low moves over southern CA. Despite the increase in cloud cover, a dry low level air mass will continue with unseasonably warm high temperatures. Breezy early morning easterly winds across ridges will transition to up-drainage into the afternoon with some humidity recovery. Mid and high clouds thicken Sun night, however, dry ESE ridge winds will continue poor humidity recovery. Upper level instability increases Sun and Sun night, however low level stability will continue, continuing mid-slope thermal belts and persistent smoke in drainages.

**SUNDAY:** Increasing high clouds. Continued warm and very dry.  
**Stability:** Morning inversion, generally below 7 kft with smoke. Unstable aloft in the afternoon.

Location	Maximum Temperature (F) & Minimum Humidity (%)		20-ft Winds (mph)
Slopes & Valleys	Upper 60s to low 70s	7-17%	Down-drainage 2-5 early morning, gusts 10. Winds becoming up-drainage early afternoon 6-10, gusts 15-20.
Ridges & Peaks	Upper 50s to 60s	5-15%	E to ESE 15, gusts 20-25 early morning. Winds becoming terrain driven up-drainage 5-10, gusts 15-20 afternoon.

**SUNDAY NIGHT:** Mostly to partly cloudy under passing high clouds.  
**Stability:** Unstable aloft, low level inversion in drainages with smoke. Mid-slope thermal belt 5-7 kft.

Location	Minimum Temperature (F) & Maximum Humidity (%)		20-ft Winds (mph)
Slopes & Valleys	35-45	25-40%	Up-drainage early evening 3-7, gusts 15. Winds becoming down-drainage 2-5, gusts 10 by midnight.
Ridges + Peaks	40s to low 50s	12-22%	Up-drainage 10-15, gusts 15. Winds becoming ESE 10-15, gusts 20-25 late.

### WEATHER OUTLOOK:

- MON – WED: Continued warm, very low RH & poor recovery. Waves of passing mid/high clouds.
- THU – FRI: **Elevated fire danger potential.** Increasing pre-frontal SW winds. More clouds, cooler.
- SAT: Colder following frontal passage, some RH recovery. Gusty WNW to NNW winds.

### Key RAWs Locations:

Div G Minarets: 5313'  
 Div M Mt. Tom 9000'

Div M High Sierra 7431'  
 Div M Kaiser Ridge 8250'

Sunset Sun 11/01: 1700

Sunrise Mon 11/02: 0624

# FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 55	<b>TYPE OF FIRE:</b> Wildfire
<b>FIRE NAME:</b> Creek Fire	<b>OPERATIONAL PERIOD:</b> Day Shift 11/01/20 0700-1900
<b>DATE ISSUED:</b> 10/31/2020	<b>TIME ISSUED:</b> 1830
<b>UNIT:</b> Sierra NF (CA-SNF-001391)	<b>SIGNED:</b> /s/ Byron R. Kimball, FBAN

## INPUTS

**WEATHER SUMMARY:** \*See Fire Weather Forecast for Specifics\*  
**\*\* EXTENDED PERIOD OF CRITICALLY LOW HUMIDITY \*\***

### FUELS:

Grass	GR1
Shrub	SH1
Timber	TU1, TU5, TL2, TL4, TL7
FDFM (1hr)	3
10-hr (%)	4
100-hr (%)	8
1000-hr (%)	8
Live Fuels	2/3 cured

**Very low fuel moistures (FM) increase spotting receptiveness.**

**Seasonal low FM and amplified by critically low Rh.**

### TOPOGRAPHY:

- Elevation: 3,000-9,500. Higher elevations will see cold nighttime temps. Nighttime humidity recovery very poor to moderate (10-40%).
- Slopes: 10%-50%. Expect E-ESE winds near ridgetops, and terrain driven elsewhere with wind direction and speed greatest when slope and fuels align.

## OUTPUTS

### FIRE BEHAVIOR

#### GENERAL:

- All fuel classes very dry, dead fuels are all single digit, live fuel moistures are at critical levels, entire fuel profile available
- Heavy fuels will burn readily and hold heat. Resist control. Creeping and smoldering in the duff and heavy fuels. Some individual & group tree torching contributing to spotting.
- Expect fire behavior where alignment of slope and fuels align, and potentially spotting ahead up to 0.10 mile (528 ft.).
- Nighttime humidity recovery will do little (down to 10-20% ridges) to moderate fire activity and diminish overnight activity. Shorter day-lengths will continue to reduce active burn period.

<b>Probability of Ignition (4-8,000'): 80%/80%</b> (Unshaded/Shaded)					
<b>Spotting Potential: Minimal-Low</b>					
<b>Spotting Distance: .10-.20 mile (short range)</b>					
Fuel Model	FL (Ft.)	ROS (Ch/Hr)	NFDR Index	Value	%
TU5	6-11	6-20	<b>ERC</b>	77	90th
TL7	2-4	4-12	<b>BI</b>	67	90th
SH1	2-7	6-25	High Sierra RAWS (44520) Years 2000-2020 (present)		

#### SPECIFIC:

- Timber Knob Area – Some fire activity, edged in by rocks at higher elevations where fire is following green vegetation and timber stringers, very low potential to move.
- Middle Fork San Joaquin: Activity near confluence of Middle Fork and Fish Creek, spotting and spreading intermittently through the rocks and patchy fuels. Individual and group tree torching and spotting factor for all of DIV M; smoldering/creeping in areas with less fuels or slope.
- Pincushion: Activity continues with individual and group tree torching being problematic. Ground spread dependent on alignment with slope and wind.
- Vermillion Cliffs: Areas north and east of Vermillion Camp, north of Edison Lake will remain most active with spread to the NE. Spread dependent on terrain will primarily to the E-NE.
- Remainder of Fire Area: limited heat remains. Some islands of fuel continue to consume, POTENTIAL still exists for wind and residual heat to result in spread from quiet area,

### SAFETY

*Snags and green trees present a hazard with long term fire in the timber.*

7. Control Operations  
**Task:** Systematically move resources aligned with local forest priorities to complete suppression repair.  
**Purpose:** Restore the lands following suppression activity that has damaged and created hazards on the lands.  
**End State:** Suppression repair has been completed with Resource Advisor approval and documentation.

8. Special Instructions  
Use the Accountable Property report to identify or return incident property (i.e., Mark III pumps, water tanks, UTVs and sprinkler systems).  
Send a picture of the label, LAT/LONG or add to collector map and location to [Josh\\_Ramsey@firenet.gov](mailto:Josh_Ramsey@firenet.gov) or text to 530-277-1213.

The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio.

# Safety Message

## Creek Fire

November 1, 2020

## Another Reason to Wash Your Hands and Wear your Mask!!!

- Heads up increased winds coming from the southwest this week, your proximity to snags, your relation to the live fire edge and possibility of spot fires
- There's an uptic with vehicle accidents, it's a lot easier to avoid animals and vehicles when you slow your roll and drive defensibly, again, there's no reason to be in a hurry, slow down!!!
- Snags are still one our biggest Safety Issues!!!! Stay Clear of falling operations unless you are a part of it!!!

Prepared by Robert Bertolina SOF2 & Kim Lemke SOF2 10/31/20

# Human Resource Message

*We are only as blind as we want to be.*

Maya Angelou, American writer and poet

My HR message today will hopefully prompt some thought on our current events.

For some of us this is one of many fire incidents during a worldwide pandemic. We're all trying to figure out what is best for us and being told what to do and what not to do. The problem is, we might have a different vision of what that looks like. We have been bombarded with so much information that very often is conflicting. This makes it difficult to decide what is fact and what is fiction. This is in part because the Covid-19 virus is new to all, including the medical experts. They are trying to deal with it as the pandemic is happening. Unfortunately, there is also information out there that is totally incorrect which preys on vulnerable people. Then there are those that don't believe the virus is a big threat at all. What's right and what's wrong to each of us really depends on a litany of inputs; what we read, who we listen to, who we talk to, how we were raised, on and on.

This is when it becomes an HR issue because conflict occurs when we disagree on what's right and what's wrong. There are probably as many opinions on how to work in a Covid-19 environment as there are people assigned to this incident. When we close our eyes to the thoughts and experiences of another, we are making a conscious choice to be blind.

Today's message is this: **Choose how blind you want to be.** I'm suggesting that you not blind yourself to different perspectives but just agree to disagree with no judgment.

Take a deep breath, savor the day, wear your mask inside, when you can't social distance and wash your hands. It's all good. Be careful but don't let it consume you.

***Be Patient, Tolerant, Honest and most important Be Kind!***

***Tony Torres – Human Resource Specialist

NOTE: If you believe your demob date is wrong, please contact DMOB ASAP by calling (916) 591-9008

### **DMOB process for the Creek Fire**

Resources that are flying home need to contact DMOB 3-4 days prior to their demob date so that their flight can be arranged. Use the QR code located on the IAP cover to complete the Resource Air Travel Request Form. We will need: Your Name as it appears on the picture ID you use at airport security, your Date of Birth, Gender, and a few other questions. Call: DMOB at (916) 591-9008 if you have any questions.

### **China Peak, Auberry School and Vermilion Camps**

All Resources, including CalFire Contractors (Except Cal Fire) will report to DMOB at China Peak at their assigned times to start the DMOB Process.

- DMOB - (916) 591-9008
- Finance – 970-456-6396

Resources requiring a OES 42 for time keeping will have to report to Clovis ICP to get the OES 42 signed by the OES Rep.

CalFire Resources will DMOB at Auberry Elementary School.

- Contact Matt Dunham (559) 281-4312 to start the DMOB process
- Resources will have to have a Mechanical Inspection and weed wash, contact Billy Greenwood (559) 218-4330
- All Cal Fire resources (including contract) need to call CalFire Finance before leaving incident (925) 532-5446
- All CalFire resources (including contract) need to call FKU expanded (559) 294-6818 to be released from the incident
- FKU expanded will notify Creek DMOB (916) 591-9008 to notify which resources have been released

### **ECCO CAMP**

All resources will report to Episcopal Conference Center, Oakhurst to DMOB (no ICS 221 Demobilization Checkout Sheet will be provided). Return any checkout supply items to the Base Camp Manger, go through Ground Support, Comms and finish at Finance. When complete use the QR code located at Finance to complete the DMOB process in order to be released from incident.

- Finance – 916-203-7438

Resources requiring a OES 42 for time keeping will have to report to Clovis ICP to get the OES 42 signed by the OES Rep.

The DMOB list can be found by scanning the QR Code on the cover of the IAP and clicking on the DMOB list Button.

Any questions call DMOB at (916) 591-9008

# AK IMT COVID-19 Purpose and Intent

If you are feeling COVID like symptoms, first call Medical Unit Leader:

970-690-2211

The Alaska IMT is reminding firefighters to apply the core values of wildland fire management community of "Duty, Respect, and Integrity" to our COVID mitigations. Core values include:

- **Duty:** To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect:** To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- **Integrity:** To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond. Ensure we are not the source of an outbreak within the public we are assigned to protect.

## Essential Mitigations:

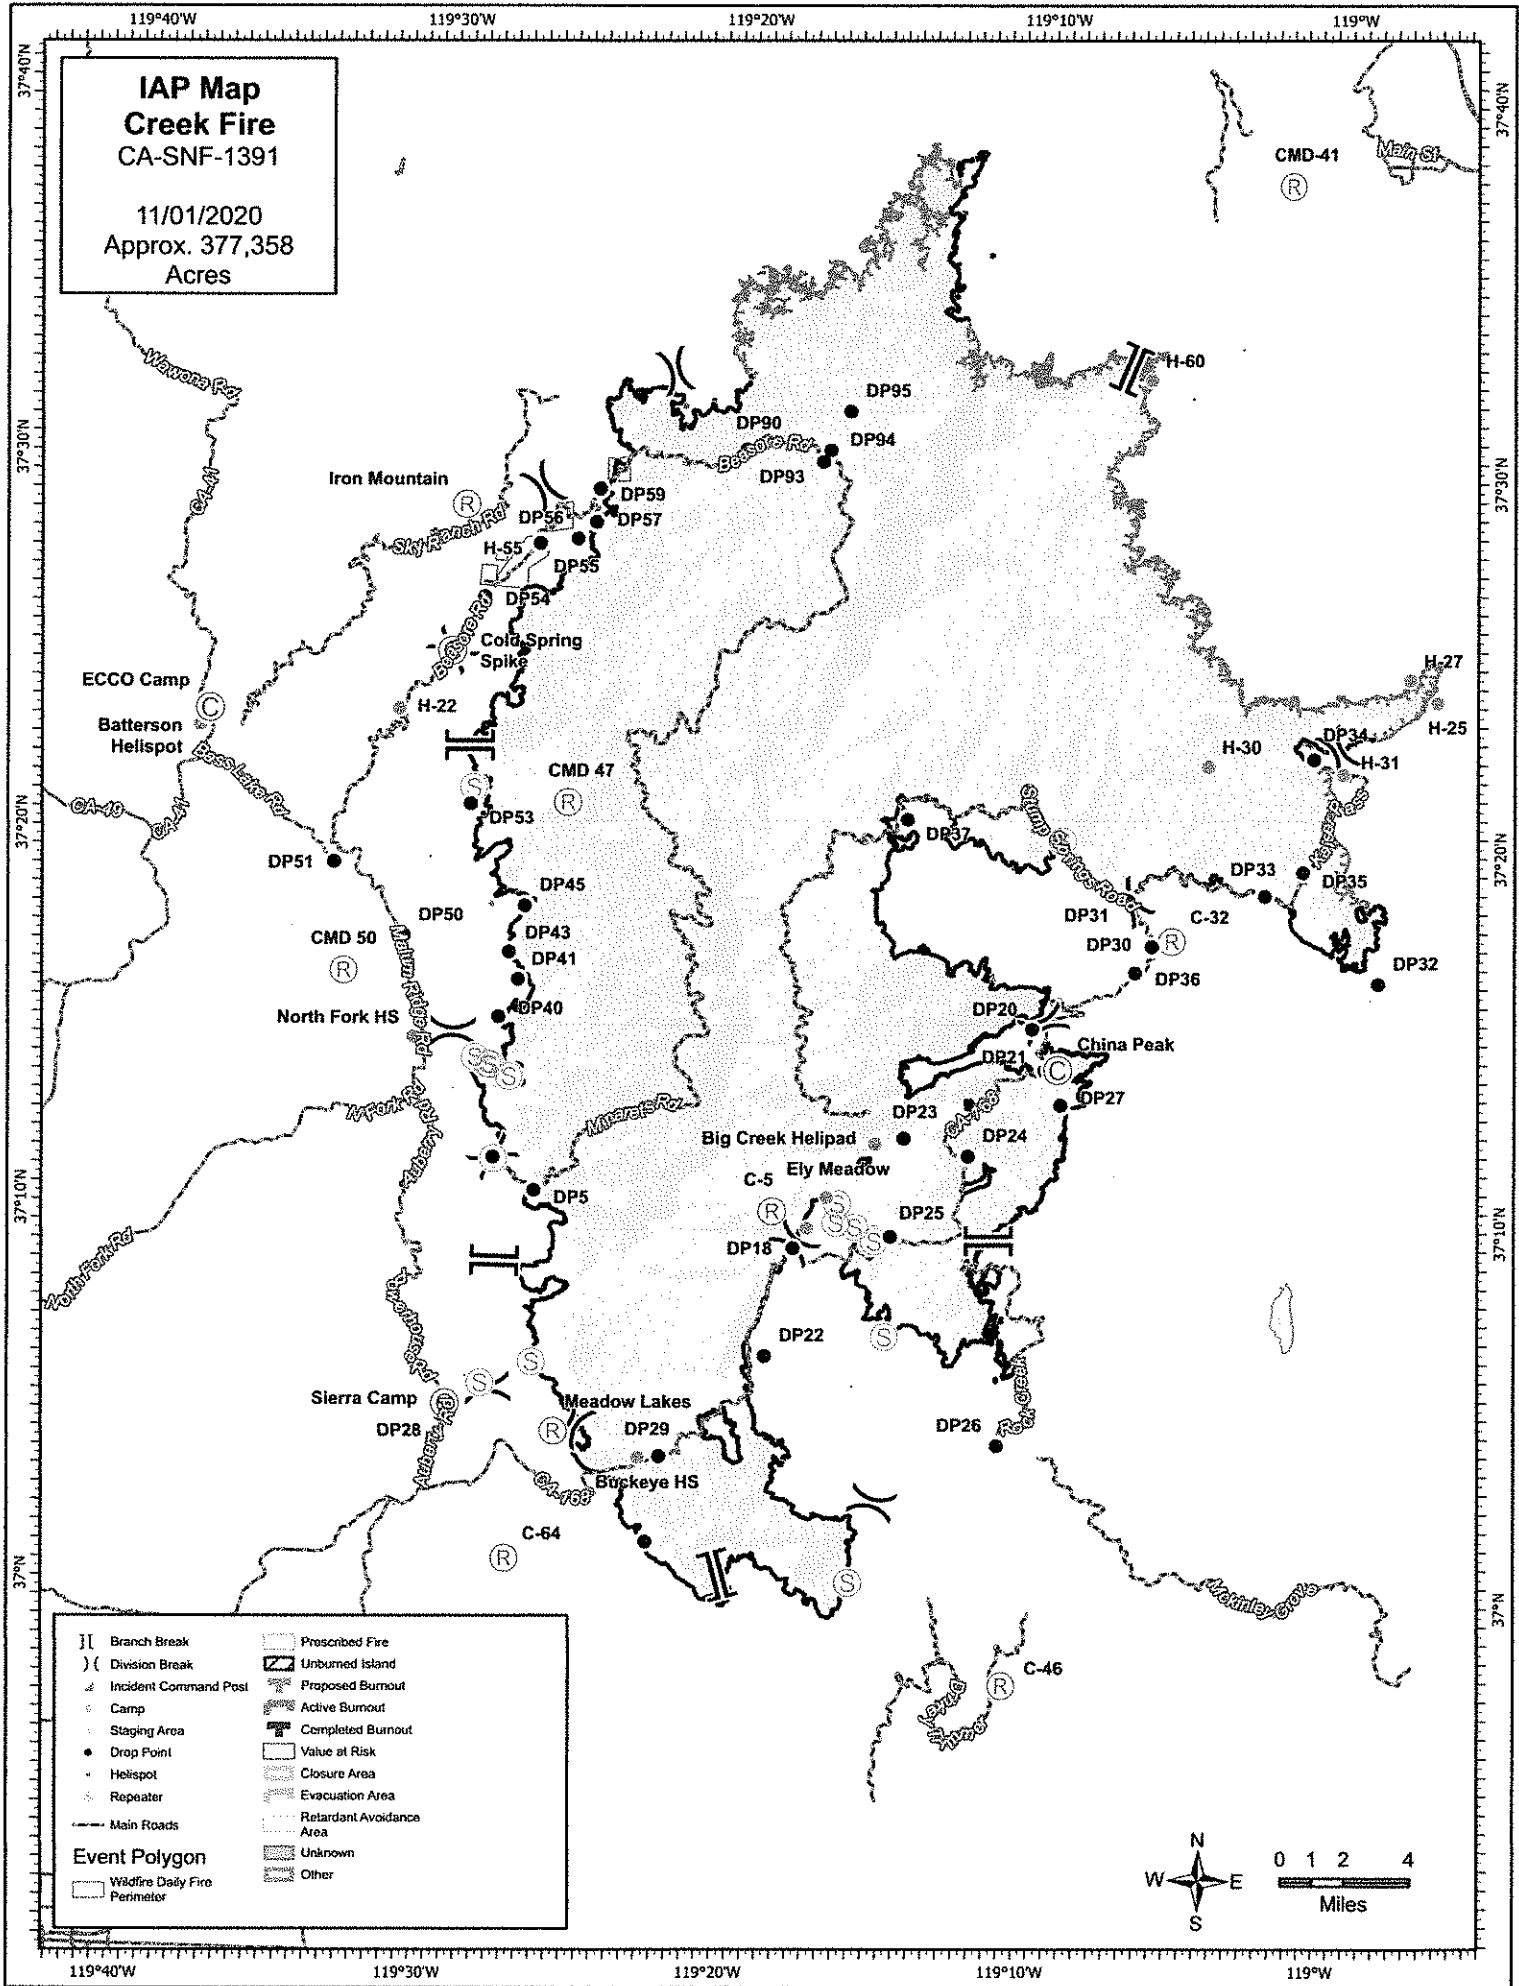

- **Pre-Screening and Regular Monitoring:** Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- **Wearing a Mask:** Employees should always wear a facemask or face covering when social distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks, social distancing practices should be implemented.
- **Disinfect and Clean:** Routinely clean and disinfect all areas, particularly "high touch surfaces" such as engine compartments, bathrooms, common areas and shared electronic equipment.
- **Empower** all individuals to ask co-workers to follow social distancing guidelines.

**Concept of "Module as One:** "By insulating as a unit, crews and modules can limit outside viral exposure, safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their "Module as One" concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regarding mitigations.
- Identify select individuals on a crew or module that will interact at briefing or with the public, ensuring this person relies on social distancing, wears a cloth face covering, and practices hand hygiene during or after every interaction.
- When the "Module as One" has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.
- Team members, crews, and other resources should use a "Module as One" approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

**Use the following items to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1</b> Life or limb threatening injury or illness. Evacuation need is <b>IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2<sup>o</sup> - 3<sup>o</sup> burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2</b> Serious injury or illness. Evacuation may be <b>DELAYED</b> if necessary. <i>Ex: Significant trauma, unable to walk, 2<sup>o</sup> - 3<sup>o</sup> burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3</b> Minor injury or illness. <b>Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

**6. COMMUNICATIONS:** Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY:** Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, etc.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
