Fire Information: (559) 549-3781

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> CREEK	<b>2. Operational Period:</b> Date From: 11/5/2020    Date To: 11/5/2020 Time From: 0700    Time To: 1900															
<b>3. Objective(s):</b> <ul style="list-style-type: none"> <li>• Provide for firefighter and public safety by assessing and mitigating risk in order to develop and implement sound tactical operations. Ensure all resources have a clear understanding of assignments and associated hazards.</li> <li>• Protect critical infrastructure, commercial timber, and natural and cultural resources by proactively engaging agencies and incident resource advisors.</li> <li>• Maintain and enhance long-term strategic plan by identifying and implementing suppression options considering probability of success, firefighter exposure, risk mitigation, seasonality, and resource prioritization and allocation.</li> <li>• Repair area impacted by fire suppression activities to minimize potential for excessive erosion, reduce visual impacts, and protect natural and cultural resources from further damage.</li> <li>• Maintain and enhance relationships with agency partners, cooperators, stakeholders, and the public through timely and accurate information exchange. Ensure long-term strategies are communicated.</li> <li>• Follow CDC, local, state, and federal COVID-19 mitigation guidance and protocols to reduce exposure and protect firefighters and the public from virus spread.</li> <li>• Treat all personnel with dignity and respect by providing a harassment free, zero-tolerance work environment.</li> <li>• Ensure financial and documentation packages are prepared in accordance with agency requirements and agreements</li> </ul>																
<b>4. Operational Period Command Emphasis:</b> <p>Several changes are happening in your environment today, including a weather change, new camp, and potential for an increase in fire behavior with high winds before a major cool down for the fire area. There could be an 18 hour window with high winds beginning today before the precipitation arrives Friday. Take appropriate actions to have a productive and safe shift, and prepare your work areas and equipment for freezing temperatures and possible rain and snow this weekend. This may be the last day of "fall".</p>																
<b>General Situational Awareness</b> <p>Winds are forecast to increase significantly throughout today's shift. Fire potential still exists in pockets of unburned fuel containing heat near control lines where single tree and group torching could produce spotting. Hazard trees and snags will be tested with this wind event, as the wind direction is different than previous wind events, causing stress on standing weakened timber from a new direction. Be aware of the changing conditions and adjust tactics accordingly.</p>																
<b>5. Site Safety Plan Required?</b> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> <p style="margin-left: 20px;"><b>Approved Site Safety Plan(s) Located at:</b></p>																
<b>6. Incident Action Plan</b> (the items checked below are included in this Incident Action Plan): <table style="width: 100%; border: none;"> <tr> <td style="width: 33%;"><input checked="" type="checkbox"/> ICS 203</td> <td style="width: 33%;"><input type="checkbox"/> ICS 207</td> <td style="width: 34%;"><b>Other Attachments:</b></td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 204</td> <td><input type="checkbox"/> ICS 208</td> <td><input checked="" type="checkbox"/> IMT Contact List</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 205</td> <td><input checked="" type="checkbox"/> Map/Chart</td> <td><input type="checkbox"/> _____</td> </tr> <tr> <td><input type="checkbox"/> ICS 205A</td> <td><input checked="" type="checkbox"/> Weather Forecast/Tides/Currents</td> <td><input type="checkbox"/> _____</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 206</td> <td></td> <td><input type="checkbox"/> _____</td> </tr> </table>		<input checked="" type="checkbox"/> ICS 203	<input type="checkbox"/> ICS 207	<b>Other Attachments:</b>	<input checked="" type="checkbox"/> ICS 204	<input type="checkbox"/> ICS 208	<input checked="" type="checkbox"/> IMT Contact List	<input checked="" type="checkbox"/> ICS 205	<input checked="" type="checkbox"/> Map/Chart	<input type="checkbox"/> _____	<input type="checkbox"/> ICS 205A	<input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	<input type="checkbox"/> _____	<input checked="" type="checkbox"/> ICS 206		<input type="checkbox"/> _____

# Creek Fire Weather Forecast (above 5000 ft)

**FORECAST NO:** 59  
**PREDICTION FOR:** 0600 Thu to 0600 Fri  
**SHIFT DATE:** 11/05/20  
**TIME/DATE FORECAST ISSUED:** 1700 11/04/20

**NAME OF FIRE:** Creek Fire  
**UNIT:** CA-SNF-001391  
**Incident Meteorologist:** Angie Enyedi *AE*  
**Please text me obs - TYI 904-318-4041**

## ELEVATED FIRE DANGER TODAY THROUGH FRIDAY MORNING

There is an elevated fire danger Thursday afternoon through Friday morning as strengthening SSW winds, dry fuels and low humidity coincide before Friday's cold front. Thursday is the last day of unseasonably warm temperatures and low humidity prior to the arrival of season's first strong cold front. Humidity will fall into the teens through early afternoon, then humidity will increase Thursday night under strengthening SSW winds.

**THURSDAY:** Mostly clear.

**Stability:** Moderate morning inversion below 7 kft with smoke. **Transport Wind:** SSE 5-10, becoming SSW.

Location	Maximum Temperature (F) & Minimum Humidity (%)	20-ft Winds (mph)
Slopes & Valleys	Upper 60s to mid 70s 12-22%	Down-drainage 2-5 early morning, gusts 8. Winds becoming up-drainage by late morning, 8-12, gusts 15-20. Stronger gusts within aligned SW to NW drainages (San Joaquin basin).
Ridges & Peaks	60s 14-24%	S 5-10 mph in the morning, becoming WSW 10-15 afternoon, gusts 20-25.

**THURSDAY NIGHT:** Increasing cloudiness. **Stability:** Weakening inversion, less lingering drainage smoke. **Transport Wind:** SSW 10-15, increasing to SW 20-30 mph after midnight.

Location	Minimum Temperature (F) & Maximum Humidity (%)	20-ft Winds (mph)
Slopes & Valleys	35-45 25-35%	SSW 5-10, gusts 15-20. Stronger gusts after midnight near 30 on exposed slopes.
Ridges + Peaks	40s 30-40%	SSW 15-20, gusts 30 through midnight. Winds increasing to 20-30, gusts 40 through sunrise.

## WEATHER OUTLOOK (7500 ft elevation – planning purposes only):

Day	Fri	Sat	Sun	Mon	Tue	Wed

# FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 59	<b>TYPE OF FIRE:</b> Wildfire
<b>FIRE NAME:</b> Creek Fire	<b>OPERATIONAL PERIOD:</b> Day Shift 11/05/20 0700-1900
<b>DATE ISSUED:</b> 11/04/2020	<b>TIME ISSUED:</b> 1830
<b>UNIT:</b> Sierra NF (CA-SNF-001391)	<b>SIGNED:</b> <i>1st Byron R. Kimball, FBAN</i>

## INPUTS

**WEATHER SUMMARY:** \*See Fire Weather Forecast for Specifics\*  
**\*\* EXTENDED PERIOD OF CRITICALLY LOW HUMIDITY \*\***

### FUELS:

Grass	GR1
Shrub	SH1
Timber	TU1, TU5, TL2, TL4, TL7
FDPM (1hr)	5
10-hr (%)	5
100-hr (%)	8
1000-hr (%)	8
Live Fuels	2/3 cured

Very low fuel moistures (FM) increase spotting receptiveness.

Seasonal low FM and amplified by critically low Rh.

### TOPOGRAPHY:

- Elevation: 3,000-9,500. Higher elevations will see cold nighttime temps. Nighttime humidity recovery very poor to moderate (25-40%).
- Slopes: 10%-50%. Expect SSW winds near ridgetops, and terrain driven elsewhere with wind direction and speed greatest when slope and fuels align.

## OUTPUTS

### FIRE BEHAVIOR

#### GENERAL:

- All fuel classes very dry, dead fuels are all single digit, live fuel moistures are at critical levels, entire fuel profile available
- Heavy fuels will burn readily and hold heat. Resist control. Creeping and smoldering in the duff and heavy fuels. Some individual & group tree torching contributing to spotting.
- Expect increased fire behavior where alignment of slope and winds occur, and potentially spotting ahead up to 0.10 mile (528 ft.).
- Nighttime humidity recovery (25-40%) starting to moderate fire activity and diminish overnight activity. Shorter day-lengths will continue to reduce active burn period.

<b>Probability of Ignition (4-8,000')</b> : 60%/60% (Unshaded/Shaded)					
<b>Spotting Potential:</b> Minimal-Low					
<b>Spotting Distance:</b> .10-.20 mile (short range)					
Fuel Model	FL (Ft.)	ROS (Ch/Hr)	NFDR Index	Value	%
TU5	6-11	6-20	<b>ERC</b>	78	90th
TL7	2-4	4-12	<b>BI</b>	77	97th
SH1	2-7	6-25	High Sierra RAWS (44520) Years 2000-2020 (present)		

#### SPECIFIC:

- Timber Knob Area – Fire activity reduced, edged in by rocks at higher elevations where fire is following green vegetation and timber stringers, some potential to move towards Lillian Lake and Lady Lake
- Middle Fork San Joaquin: Activity continues between Middle Fork and Fish Creek, spotting and spreading intermittently through the rocks and patchy fuels. Activity continues east with west wind.
- Pincushion: Activity continues with individual and group tree torching being problematic. Ground spread dependent on alignment with slope and wind.
- Cold Creek: Cold Creek area north of Edison Lake much reduced with limited heat still present. Spread dependent on terrain will primarily to the E-NE.
- Remainder of Fire Area: limited heat remains. Some islands of fuel continue to consume, POTENTIAL still exists for wind and residual heat to result in spread from quiet area,

#### SAFETY

*Snags and green trees present a hazard with long term fire in the timber. Heads up working around any standing timber. Compromised root structures and burned soil can result in loss of stability.*

7. Control Operations  
**Task:** Systematically move resources aligned with local forest priorities to complete suppression repair.  
**Purpose:** Restore the lands following suppression activity that has damaged and created hazards on the lands.  
**End State:** Suppression repair has been completed with Resource Advisor approval and documentation.

8. Special Instructions  
**\* IA Resource      Parking not available for heavy equipment/transports at Auberry School.**  
Backhaul all trash and excess supplies and equipment.  
Use the Accountable Property report to identify or return incident property (i.e., Mark III pumps, water tanks, UTVs and sprinkler systems).  
Send a picture of the label, LAT/LONG or add to collector map and location to [Josh\\_Ramsey@firenet.gov](mailto:Josh_Ramsey@firenet.gov) or text to 530-277-1213.

**AIR OPERATIONS SUMMARY ICS-220 CREEK FIRE**

Incident Name / Number  
Creek, CA-SNF-001391

Sunrise  
0627

Sunset  
1657

General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.  
TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN. TRACK ALL DROP LOCATIONS (DIV) / NUMBER OF DROPS / GALLONS DROPPED  
ALL GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES, FORMAT.

*If Retardant / Foam / Agent is Dropped Within 300' of a waterway, Notify the AOB/D and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.*

Time Prepared 1600

Helibase Information  
Mammoth  
Latitude 37° 37.443  
Longitude 118° 50.325  
Auberry  
Latitude 37° 03.937  
Longitude 119° 29.307

<b>Mike Norman</b> Creek Fire Comms Routine (916) 591-9026 and EMERGENCY (925) 532-5464				County: Fresno State: CA		Latitude: " N		Longitude: W			

The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio.

**Safety Message**  
**Creek Fire**  
**November 5, 2020**

**If Curly didn't forget to get his radio cloned, he would  
of had an easier time talking to Moe!**

- **Always Check you radio before you commit to shift!**
- **Have the current clone and have fresh batteries!!!**
- **Be respectful when you communicate, be a good listener, ask clarifying questions & take good notes!**

**Prepared by Robert Bertolina SOF2 & Kim Lemke SOF2 11/4/2020**

## DRIVING SAFETY

Vehicles/Roads Category

**Driving is one of the most hazardous things we do because we literally perform the task hundreds of times in the course of our daily lives we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.**

- To be a safe driver you have to *want* to be one. Take a good hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15-20 minutes we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving such as: fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle and music.
  - ✓ Drive only when you are well rested and alert and avoid driving during the hours of 10:00 PM and 6:00 AM. Take a 10 to 15 minute break after every 2 hours.
  - ✓ Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
  - ✓ Never drive when taking medications that make you drowsy.
  - ✓ Delegate navigation and communication to a passenger or pull over.
  - ✓ By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
  - ✓ Avoid eating or drinking while driving.
  - ✓ When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
  - ✓ Do not be in a hurry, be patient.
- Safe driving starts with a safe vehicle. Something as simple as under-inflated tires can have serious consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle, make yourself aware of where everything is.

**Creek Fire**   
**Human Resource Message**  
**November 5, 2020**

What is **motivation**? **Motivation** is the drive that encourages action or feeling. To **motivate** means to encourage and inspire. **Motivation** can also mean igniting the spark for action.

**Motivation** is a powerful force. It can persuade, convince and propel you into action. It can be defined as **motive** for action. It is a driving force in our lives and comes from the desire to **succeed**. The greatest enemy of motivation is complacency. Complacency leads to lack of effort and thus a lack of **success**.

Now is the time to keep your eyes wide open for symptoms of complacency. Now is the time to stay **motivated**. Now is the time to recognize the **success** that has been achieved and strive for more.

**When you know who you are;  
when your mission is clear and you  
burn with the inner fire of unbreakable will;  
no cold can touch your heart;  
no deluge can dampen your purpose.  
You know that you are alive.-Chief Seattle-**

*Janine Summy, Human Resources Specialist, 509-429-1206  
Eric Bracken, Human Resource Specialist (Trainee), 509-207-0677*

## CREEK FINANCE MESSAGE

All incident personnel (crews, engines, contractors, and overhead resources) need to turn in daily CTR's and Shift Tickets either electronically or via hard copy.

ELECTRONICALLY: Email to [2020.creek.finance@firenet.gov](mailto:2020.creek.finance@firenet.gov)

In the **email subject line**, please put resource number, your company/engine name, your assigned camp name, followed by the date.

**Example:** *E-400005 American Fire Rescue - China Peak - 11-02-20*

HARD COPY: Drop at one of the following finance locations:

- Auberry Camp – Briefing Area (Drop Box Only)
- Mill FOB – Finance Trailer
- China Peak Spike Camp (Drop Box Only)
- ECCO Camp
- Mono Hot Springs Camp (Drop Box Only)

---

### **Shift Ticket Requirements:**

If you have equipment or an engine that has a secondary rate for mileage, additional operators, and/or a lowboy (or other transport), please ensure your shift tickets reflect the necessary justification for both the start and stop odometer readings, any additional operator names, and "transport attached" if applicable. You need to also write your resource number in the upper right corner of the ticket.

### **CTR Requirements:**

Please verify you have accurately notated any travel time, hazard pay, excess shift hours, or meal breaks with proper justifications as needed. Due to Region 5 restrictions, finance is unable to sign for travel. It must be signed by an incident supervisor.

### **Finance Demobing:**

If you are within two (2) days from your scheduled demob date, please take a few minutes to review all your time submissions and ensure that they were properly completed and signed. Any missing CTRs/Shift Tickets or other payment processing documents (EERAs, VIPRs, AD Hire Forms) could significantly delay your demob process.

---

Contact Finance with any questions at [2020.creek.finance@firenet.gov](mailto:2020.creek.finance@firenet.gov) or via phone:

ICP: PJ Tillman FSC2(t) - (970) 456-6396

# Training Specialist Creek Fire (Virtual)

The Training Specialist is working remotely. Training Specialist Contact Information:

- Joe Labak
- Call/Text: 951-202-0627
- Email: joseph.labak@usda.gov
- Available between 0630-2130 (Daily)

**How to register as a Trainee:**

- Use the QR code below. If you're unable to register using the QR code, please call me at 951-202-0627.

**To close-out your training assignment:**

1. **Trainer:** Complete and Evaluation Record in the back of the Position Task Book and make as many entries as possible within the individual tasks. Discuss this with your Trainee.
2. **Trainer:** Complete an individual performance rating (ICS 225) and go over the performance rating with your Trainee.
3. **Trainee:** Complete the Exit Interview by following the QR code below.
4. Once completed, the Trainee and the Training Specialist will have a brief conversation to discuss the Position Task Book.

Training QR Code Registration:

Trainee QR Code Exit Interview:

**NOTE: If you believe your demob date is wrong, please contact DMOB ASAP by calling (916) 591-9008**

### **DMOB process for the Creek Fire**

Resources flying home need to contact DMOB 3-4 days prior to their demob date so that their flight can be arranged. Use the QR code located on the IAP cover to complete the *Resource Air Travel Request Form*. We will need: Your Name as it appears on the picture ID you use at airport security, your Date of Birth, Gender, and a few other questions. Call: **DMOB at (916) 591-9008** if you have any questions.

#### **Auberry School and China Peak**

All Resources, including CalFire Contractors (Except Cal Fire) will report to DMOB at Mill FOB at Auberry to start the DMOB process.

- Finance – 925-532-5492

Resources requiring a OES 42 for time keeping will have to report to Clovis ICP to get the OES 42 signed by the OES Rep.

CalFire Resources will DMOB at Auberry Elementary School.

- Contact Matt Dunham (559) 281-4312 to start the DMOB process
- Resources will have to have a Mechanical Inspection and weed wash, contact Billy Greenwood (559) 218-4330
- All Cal Fire resources (including contract) need to call CalFire Finance before leaving incident (925) 532-5446
- All CalFire resources (including contract) need to call FKU expanded (559) 294-6818 to be released from the incident
- FKU expanded will notify Creek DMOB (916) 591-9008 to notify which resources have been released

#### **ECCO CAMP**

All Resources will report to Episcopal Conference Center, Oakhurst to DMOB (no ICS 221 Demobilization Checkout Sheet will be provided). Return any checked out supply items to the Base Camp Manager, go through Ground Support, Comms and finish at Finance. When complete use the QR code located at Finance to complete the *Virtual DMOB Form*, or call DMOB at (916) 591-9008, to complete the DMOB process in order to be released from incident.

- Finance – 916-203-7438

Resources requiring a OES 42 for time keeping will have to report to Clovis ICP to get the OES 42 signed by the OES Rep.

#### **ICP**

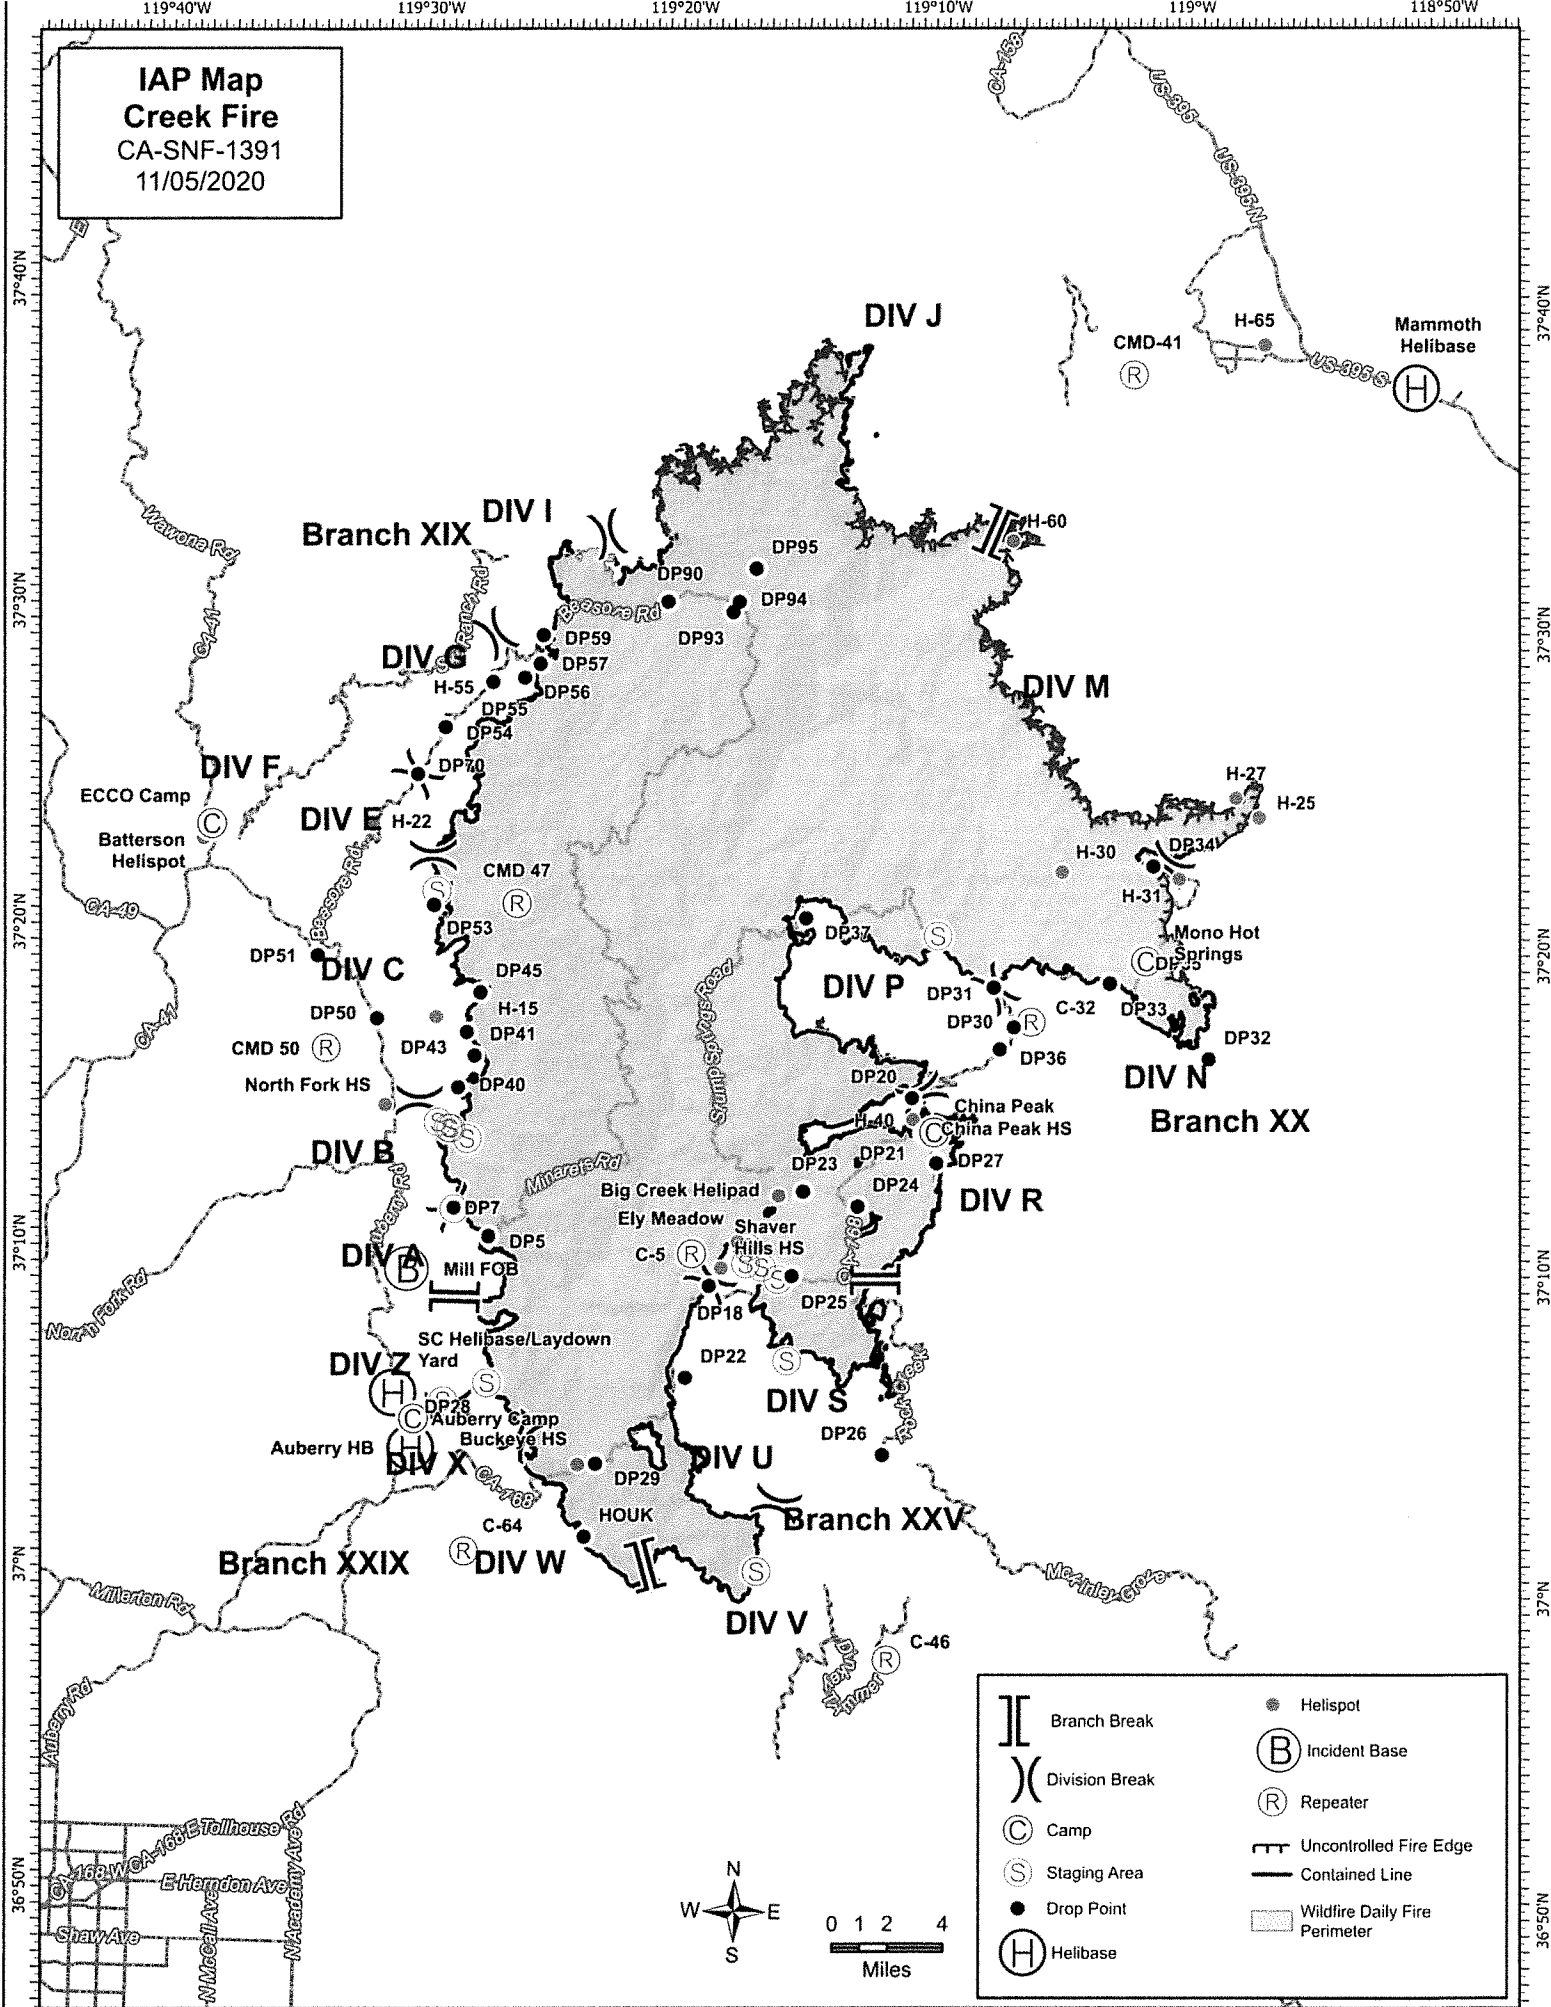

All Resources will report to DMOB to start the DMOB process. When finished at Finance use the QR code located on the IAP cover to complete the *Virtual DMOB Form*, or report back to DMOB, to complete the DMOB process in order to be released from incident.

- Finance – 970-456-6396

Any questions call DMOB at (916) 591-9008  
[2020.creek.dmob@firenet.gov](mailto:2020.creek.dmob@firenet.gov)

The DMOB list can be found by scanning the QR Code on the cover of the IAP and clicking on the DMOB list Button.

## AK IMT COVID-19 Purpose and Intent

The Alaska IMT is reminding firefighters to apply the core values of wildland fire management community of “Duty, Respect, and Integrity” to our COVID mitigations. Core values include:

- **Duty:** To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect:** To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- **Integrity:** To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond. Ensure we are not the source of an outbreak within the public we are assigned to protect.

### Essential Mitigations:

- **Pre-Screening and Regular Monitoring:** Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- **Wearing a Mask:** Employees should always wear a facemask or face covering when social distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks, social distancing practices should be implemented.
- **Disinfect and Clean:** Routinely clean and disinfect all areas, particularly “high touch surfaces” such as engine compartments, bathrooms, common areas and shared electronic equipment.
- **Empower** all individuals to ask co-workers to follow social distancing guidelines.

### Concept of “Module as One:”

By insulating as a unit, crews and modules can limit outside viral exposure, safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their “**Module as One**” concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regarding mitigations.
- Identify select individuals on a crew or module that will interact at briefing or with the public, ensuring this person relies on social distancing, wears a cloth face covering, and practices hand hygiene during or after every interaction.
- When the “Module as One” has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.
- Team members, crews, and other resources should use a “Module as One” approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

### Special Instructions:

#### Medical Emergency Procedures:

Follow the Medical Incident Report (MIR) on the back of the IAP

#### Fireline/ Spike Camp Medical Transports and Emergencies:

**Green** - Provide immediate patient care, Notify Division Medic or EMT on Tac. Medic or EMT will contact MEDL by phone at earliest convenience. Minimize, non-critical, operational radio traffic on Command and maintain situational awareness.

**Yellow/Red**- Contact Communications on Command with a Medical Incident Report.

**ICP**- Call 911 and contact MEDL as soon as possible.

**Spike Camps after hours**- Call phone number posted in the Medical Unit or phone number listed above for the specific spike camp aid station.

#### **Covid- 19 Tip of the day:**

Preventing the spread of Covid is like firefighting, **the way you stop the spread is by starving it of fuel...us.** Social distancing is our fuel break!

If you have symptoms or a fever, contact the Covid Coordinator at 925-532-5564

# MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

**Use the following items to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1</b> Life or limb threatening injury or illness. Evacuation need is <b>IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2</b> Serious Injury or illness. Evacuation may be <b>DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3</b> Minor Injury or illness. <b>Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY: Considerations:** If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, etc.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
