The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio.

Safety Message

Creek Fire

November 11, 2020

"Now if you are going to win any battle you have to do one thing. You have to make the mind run the body. Never let the body tell the mind what to do. The body will always give up. It is always tired morning, noon, and night. But the body is never tired if the mind is not tired. When you were younger the mind could make you dance all night, and the body was never tired... You've always got to make the mind take over and keep going".

George S. Patton
U.S. Army General
1912 Olympian

Today is the day to remember and pay respect to all our Veterans who have and continue to sacrifice for our freedom!!!

- This is the time of year where firefighters bodies are broke down and the residule fatigue is getting the best of people, supervisors need to take this into consideration and manage the production pace to keep everyone safe!
- Please look at the changes in your 204 today! Do not engage until you know what frequency you are working on and who you are working for!
- Keep a close eye on road conditions with the thaw and freezing, Drive slow!

**Creek Fire
Human Resource Message
November 11, 2020**

Dear Veterans,

We know how hard that you have worked for all of us and that you are still working now; even today on this holiday **honoring you**.

We want you to know that we appreciate all the work that you have done, and the work that you continue to do for our **great nation**. You are doing the **right thing, the honorable thing**; protecting the forests and the people who live near them the same way that **you have always protected us**. Although we don't always let you know it, **we appreciate you** and all your dedicated hard work.

Sincerely,
Your Fellow Americans

"Nothing in life is more liberating than to fight for a cause larger than yourself, something that encompasses you but is not defined by your existence alone."

-Senator John McCain-

You need to also write your resource number in the upper right corner of the ticket.

AK IMT COVID-19 Purpose and Intent

If you are feeling COVID like symptoms, first call Medical Unit Leader:

925-532-5564

The Alaska IMT is reminding firefighters to apply the core values of wildland fire management community of “Duty, Respect, and Integrity” to our COVID mitigations. Core values include:

- **Duty:** To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect:** To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- **Integrity:** To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond. Ensure we are not the source of an outbreak within the public we are assigned to protect.

Essential Mitigations:

- **Pre-Screening and Regular Monitoring:** Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- **Wearing a Mask:** Employees should always wear a facemask or face covering when social distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks, social distancing practices should be implemented.
- **Disinfect and Clean:** Routinely clean and disinfect all areas, particularly “high touch surfaces” such as engine compartments, bathrooms, common areas and shared electronic equipment.
- **Empower** all individuals to ask co-workers to follow social distancing guidelines.

Concept of “Module as One: “By insulating as a unit, crews and modules can limit outside viral exposure, safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their “**Module as One**” concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regarding mitigations.
- Identify select individuals on a crew or module that will interact at briefing or with the public, ensuring this person relies on social distancing, wears a cloth face covering, and practices hand hygiene during or after every interaction.
- When the “Module as One” has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.
- Team members, crews, and other resources should use a “Module as One” approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o - 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o - 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>
