

## Incident Status Summary (ICS-209)

Incident: **SQF COMPLEX**

1. Incident Name: <b>SQF COMPLEX</b>		2. Incident Number: <b>CA-SQF-002622</b>											
3. Report Version (check one box): Initial <input checked="" type="checkbox"/> Update Final	4. Incident Commander(s) & Agency or Organization: <b>Brian Pisarek, Eastern Area IMT</b>	5. Incident Management Organization: <b>Type 2 Team</b>	6. Incident Start Date/Time: Date: <b>08/24/2020</b> Time: <b>1125 PDT</b>										
7. Current Incident Size or Area Involved (use unit label – e.g., "Acres", "Square Miles"): <b>170165 Acres</b>	8a. Percent (%) Contained or Completed: <b>80 %</b>	9. Incident Type: <b>Complex</b> B. Incident Description: <b>Wildfire</b> C. Cause: <b>Unknown</b> D. Fire Suppression Strategy: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%;">Strategy</th> <th style="width: 50%;">Percent (%)</th> </tr> </thead> <tbody> <tr> <td><b>Monitor</b></td> <td></td> </tr> <tr> <td><b>Confine</b></td> <td></td> </tr> <tr> <td><b>Point Zone Protection</b></td> <td></td> </tr> <tr> <td><b>Full Suppression</b></td> <td style="text-align: center;"><b>100</b></td> </tr> </tbody> </table>		Strategy	Percent (%)	<b>Monitor</b>		<b>Confine</b>		<b>Point Zone Protection</b>		<b>Full Suppression</b>	<b>100</b>
	Strategy			Percent (%)									
	<b>Monitor</b>												
	<b>Confine</b>												
<b>Point Zone Protection</b>													
<b>Full Suppression</b>	<b>100</b>												
b. Total Percentage (%) of Perimeter that will be Contained or Completed: <b>100 %</b>													
10. Incident Complexity Level: Single <input checked="" type="checkbox"/> Complex													
11. Report Time Period: From Date/Time: <b>10/29/2020 1730 PDT</b> To Date/Time: <b>10/30/2020 1600 PDT</b>													
12. Prepared By: Print Name: <b>Bryan Vergne</b>  Date/Time Prepared: <b>10/30/2020 1730 PDT</b>		13. Approved By:  Print Name: <b>Brian Pisarek</b>  Signature: _____											
14. Date/Time Submitted: <b>10/30/2020 1750 PDT</b>		15. Primary Location, Organization, or Agency Sent To: <b>CA-OSCC</b>											
16. State: <b>CA</b>	17. County / Parish / Borough: <b>Tulare</b>		18. City:										
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): <b>CA-SQF</b>											
22. Latitude/Longitude: Latitude: <b>36° 15' 18"</b> Longitude: <b>118° 29' 48"</b>		23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:											
		24. Legal Description: Principal Meridian: Township:      Range:      Section: 1/4 Sec: of 1/4 Sec:											
25. Short Location or Area Description (list all affected areas or a reference point): <b>25 miles north of Kernville, CA</b>			26. UTM Coordinates: Zone:      Easting: Northing:										
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): <b>All geospatial data and products are uploaded to FTP site.</b>  <b><a href="https://ftp.nifc.gov/public/incident_specific_data/calif_s/!2020_Incidents/CA-SQF-002622_SQF%20COMPLEX/GIS/Products/">https://ftp.nifc.gov/public/incident_specific_data/calif_s/!2020_Incidents/CA-SQF-002622_SQF%20COMPLEX/GIS/Products/</a></b>													
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):													

## Incident Status Summary (ICS-209)

Incident: **SQF COMPLEX**

**Active  
Flanking  
Backing  
Single Tree Torching**

Narrative:

**Divisions D/I/N/L/T/Y/Z: Isolated heat confined to heavy fuels and stump holes will continue to smolder and burn out.**

**Divisions U and E: Active flanking, backing, and short range spotting with single tree torching. Spotting distances of 300-600 and the POI will be 60% at all elevations of the fire.**

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Timber (Litter and Understory)  
Chaparral (6 feet)  
Timber (Grass and Understory)**

Narrative:

**Fuel models located within the fire area vary with elevation and live fuels are curing. These include stands of dense mixed conifer with heavy brush below timber lines. Fire is burning within areas of significant tree mortality contributing to a high resistance to control efforts.**

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

**Damage inspection has been completed. The Final Numbers are 10 single residences damaged, and 173 Destroyed, 2 Other minor structures damaged, and 55 destroyed.**

**EVACUATION ORDERS-Communities and Areas under an Evacuation Order:  
-NONE**

**EVACUATION WARNING-Communities and Areas open to Residents ONLY:  
-NONE**

**AREA CLOSURES:**

**Sequoia National Park- OPEN. Exception: Mineral King area and some wilderness lands, which will remain closed due to wildfire concerns, and facilities that are closed due to the pandemic.**

**Sequoia National Forest- Western Divide (M107) CLOSED, while the Hume Lake and Kern River Ranger Districts remain OPEN.**

**Inyo National Forest- OPEN. Exception: All**

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	<b>1,075</b>	<b>10</b>	<b>173</b>
F. Multiple Residences	<b>0</b>	<b>0</b>	<b>0</b>
G. Mixed Commercial / Residential	<b>0</b>	<b>0</b>	<b>0</b>
H. Nonresidential Commercial Property	<b>0</b>	<b>0</b>	<b>0</b>
I. Other Minor Structures	<b>0</b>	<b>2</b>	<b>55</b>

## Incident Status Summary (ICS-209)

Incident: **SQF COMPLEX**

<b>33. Life, Safety, and Health Status/Threat Remarks:</b> <b>Safety and health threats to suppression personnel includes long travel routes of narrow mountain roads through rural, farming, and ranching communities with limited visibility due to smoky conditions. Congested roadways and heavy traffic in and around the incident. Drought, bug kill, &amp; fire Weakened trees all have accident potential. Steep, terrain will bring footing issues, access issues creates alignment and safety issues. The changing weather conditions will affect the work zones.</b>  <b>-Non-reportable illnesses: 16 Poison Oak related; 3 Positive Covid Tests</b>	<b>34. Life, Safety, and Health Threat Management:</b> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th></th><th style="text-align: center;">Active?</th></tr> </thead> <tbody> <tr><td>A. <b>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):</b> <b>Quiet weather again. Temperatures 64-75 degrees, humidity 9-14 percent with ridges lowest late overnight. Winds were completely terrain driven with peak gusts around 15 mph on the most exposed</b>																									

## Incident Status Summary (ICS-209)

Incident: **SQF COMPLEX**

<b>locations.</b>  <b>No change to the forecasted concerns. High pressure remains in place to bring above normal temperatures and very dry humidity for at least the next several days. There will be very little diurnal and daily change through early next week. The only minor concern is from Sunday through Tuesday when a weak upper low pressure area moves across southern California. It will bring increased instability and moderately deep mixing potential.</b>		Active?
	L. Mass Immunization Complete	
	M. Quarantine in Progress	
	N. Area Restriction in Effect	
	O. Road Closure	<b>X</b>
	P. Trail Closure	<b>X</b>
	Q. Area Closure	<b>X</b>

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

**Active fire mostly confined to the northwest corner of the fire in Division U and T around Homers Nose and Cahoon Meadow.**

12 hours: **The Northeast corner of the fire on the west side of the Kern River remains active in fuel concentrations on the lower slope of the drainage.**

24 hours: **Active surface fire on the northwest and northeast corners of the fire due to low RH and extremely dry surface fuels. Weather has returned to seasonal normal.**

48 hours: **Fire activity will continue to be focused on the northwest and northeast corners of the fire mainly confined to dry surface litter and heavy fuel concentrations.**

72 hours: **Warm and dry trend continues. Fire activity will continue to be focused on the northwest and northeast corners of the fire mainly confined to dry surface litter and heavy fuel concentrations.**

Anticipated after 72 hours: **Warming and drying trend returns**

37. Strategic Objectives (define planned end-state for incident):

### **Strategic Framework**

**Implement a full suppression strategy on the Castle and Shotgun Fires. Values at risk include human safety, private property and residences, infrastructure, utilities, developed sites, facilities, Giant Sequoia groves and archaeological and cultural sites. Apply tactics that offer the highest probability of success.**

### **Control Objectives**

**To prevent the fires from spreading to private property, surrounding communities, and values at risk, keep the fire:**

**-North of Durrwood Camp and the Tule River Reservation to protect communities and infrastructure along the Kern River and within the Reservation.**

**-West of Toowa Range to Kingfisher Ridge to 22S05 Road to protect recreational and administrative infrastructure.**

**-South of Mineral King Road to Lost Canyon to Whitney Meadow to limit fire growth to the north.**

**-East of Springville to Blue Ridge to South Fork to protect communities west of the fire.**

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources,

## **Incident Status Summary (ICS-209)**

Incident: **SQF COMPLEX**

cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **Threat to structures: Hockett Meadows Ranger Station, Peck's Cabin, Kern Cabin, Ming Cabin, and Quinn Patrol Cabin. Wilderness values within the Sequoia National Park.**

24 hours: **Threat to structures and critical infrastructure in the South Fork Canyon, Case Mountain Sequoia groves, and wilderness values within the Sequoia National Park.**

48 hours: **Same as 24 hour threats.**

72 hours: **The communities of Silver City, Mineral King, and Three Rivers East.**

Anticipated after 72 hours: **Same as 72 hour threats.**

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

**4 HEQB  
1 HLCO  
1 HMGB  
1 WFMU  
3 Excavators**

12 hours:

24 hours: **Same as 12 hour.**

48 hours: **Same as 12 hour.**

72 hours: **Same as 12 hour.**

Anticipated after 72 hours: **Same as 12 hour.**

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

**The fire behavior on the east, south and west sides are expected to be minimal. The uncontained fire's edge to the north and northeast continues to burn. Continue to confine/ contain on the southern edge of the park.**

**Heavy vegetation, snags, and steep terrain make it difficult to access the fires edge and contain. Management Action Points and responses to the MAPs have been developed.**

**Objective concerns are high due the remoteness of fire, proximity to the Giant Sequoia groves, steep terrain, threats to structures, and other areas popular with tourism.**

41. Planned Actions for Next Operational Period:

## Incident Status Summary (ICS-209)

Incident: **SQF COMPLEX**

**Point protection for critical values at risk continue to be evaluated in Div U/E**

**Continue to identify containment opportunities in the north and northeast corners of the fire.**

**Continue direct attack and suppression repair.**

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"): **200,000**

43. Anticipated Incident Containment or Completion Date: **11/20/2020**

44. Projected Significant Resource Demobilization Start Date: **11/02/2020**

45. Estimated Incident Costs to Date: **\$110,303,023.00**

46. Projected Final Incident Cost Estimate: **\$144,000,000.00**

47. Remarks (or continuation of any blocks above – list block number in notation):

**Block #9 Cause of both fires was determined to be lightning strike.**

### **Block #42 Projected Final Size**

Incident Name	Suppression Strategy	Area	Area Measure	% Ctn/Comp	% Ctn/Comp Measure	Est. Cost to Date	Est. Comp Date	Perimeter
<b>CASTLE</b>	<b>Full Suppression</b>	<b>169,324</b>	<b>Acres</b>	<b>80</b>	<b>Percent</b>	<b>110,303,023</b>	<b>11/01/2020</b>
