OPERATIONAL PERIOD

8/26/2020 0600
to
8/27/2020 0600

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: SQF COMPLEX	2. Operational Period:	Date From: 8/26/2020	Date To: 8/27/2020
		Time From: 0600	Time To: 0600

3. Objective(s):

Management Objectives

- Provide for firefighter and public safety as the highest priority through sound risk management and life first principles
- Minimize adverse effects from suppression actions on riparian areas, watersheds, Little Kern Golden Trout, Mountain Yellow Legged Frog and Sierra Nevada Bighorn Sheep habitats
- Minimize impacts to Wilderness areas. Use minimum impact suppression tactics (MIST) by utilizing trails, streams, ridges and natural barriers when possible for control lines
- Minimize, to the extent feasible, smoke exposure to firefighters, communities, and other affected areas to reduce susceptibility to the consequences from COVID-19 exposure
- Effectively manage cost of the incident by planning strategies and tactics toward a high probability of success in meeting incident objectives
- Provide accurate and timely information to agencies, stakeholders, backcountry users, and the public

Control Objectives

- Keep the fire North of Forks of the Kern
- Keep the fire South of Sequoia Kings Canyon Wilderness Boundary
- Keep the fire East of 22S82 Road to Freeman Grove to Soda Spring Creek
- Keep the fire West of Toowa Range to King Fisher Ridge to 22S05 Road

COVID Mitigations

- Module of 1, six foot social distancing and wear a mask
- Wash your hands and sanitize surfaces

5. Site Safety Plan Required? Yes No

FIRE WEATHER FORECAST

FORECAST NO: 2
PREDICTION FOR: Aug 26th – Aug 27th 0600

INCIDENT NAME: SQF Complex
UNIT: CA-SQF
SIGNED: *Andrew Gorelow*

TIME AND DATE

FORECAST ISSUED: Tue, Aug 25 @ 1900 hours **Incident Meteorologist – Andrew Gorelow**

WEATHER DISCUSSION: Hot and dry conditions expected over the fire today. Morning inversion will keep smoke trapped in the valleys through late morning before the inversion lifts by 1100. Light mainly drainage winds in the morning will gradually become upslope/up valley through 1100. After 1100, look for south to southwest winds to increase to around 4-7 mph in the lower valley with occasional gusts to 12 mph in the afternoon. Ridgetop winds will generally increase to 8 to 10 mph with gusts up to 14 mph. Transport winds are expected to push the winds northeast through the afternoon. Similar conditions are expected over the next few days.

SKY/WEATHER TODAY (WEDNESDAY): Smokey in the morning with some clearing by early afternoon. Sunny. Inversions expected to lift by late morning. Light drainage winds in the afternoon becoming south to southwest in the afternoon.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

5000 FT: 88 to 94 degrees (Up 1-2 degrees) / 16 to 21% (Down 1-3%)
7000 FT: 78 to 83 degrees (Up 1-2 degrees) / 17 to 22% (Down 1-3%)

EYE LEVEL WINDS:

Slope/Valley: Light drainage in the morning becoming south to southwest 4 to 7 mph with occasional gusts to 12 mph in the afternoon. Winds along the Lower Kern River are expected to remain south with speeds 4 to 6 mph.

Ridges: Southwest 8 to 10 mph occasional gusts to 14 mph in the afternoon, up to 14 mph in more exposed areas.

MIXING HEIGHT...12,400 feet AGL **VENTILATION...**Poor morning, Excellent in the afternoon.

TRANSPORT WIND...Southwest 10 to 20 mph.

CWR (0.10")...0% **LAL....**1

SKY/WEATHER TONIGHT (THURSDAY): Clear. Inversions developing after 2100 with the valleys to become very smoky by morning. Overnight RH expected to be good. Light drainage winds.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

5000 FT: 57 to 62 degrees (Down 1-3 degrees) / 50 to 55% (Up 2-4%)
7000 FT: 56 to 61 degrees (Down 1-3 degrees) / 32 to 35% (Up 1-3%)

20 FOOT WINDS:

Slope/Valley: Light drainage winds developing after sunset.

Ridges: Northwest 1 to 3 mph.

CWR (0.10")...0% **LAL....**1

FRIDAY: Sunny. Inversions expected to lift by late morning. Little change in temperatures and RH.
Max Temps: 77 to 93. **Min RH:** 18 to 30%. **Winds:** Morning drainage winds becoming generally upslope/up valley on in the lower elevations with a southwest wind 5 to 10 mph on the ridges in the afternoon.
LAL: 1 **CWR (0.10"):** 0% **MIXING HEIGHT:** 12,500 feet AGL

OUTLOOK:

SATURDAY and SUNDAY: **Weather:** Sunny with daily morning inversions. Minimal changes in temperature and RH.
High Temp: 78-91 **Min RH:** 18-25% **CWR:** 0% **LAL:** 1
Wind: Morning drainage winds becoming mainly upslope/up valley with southwest 5 to 10 mph ridges.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 5	TYPE OF FIRE: Wildland
FIRE NAME: SQF Complex	OPERATIONAL PERIOD: Aug 26, Day/Night 24 Hr
DATE ISSUED: August 25, 2020	TIME ISSUED: 1800
UNIT: CA-Sequoia National Forest	SIGNED: /s/ Dan O'Connor FBAN/ Lauren Blake FBAN(t)

WEATHER SUMMARY

Hot and dry conditions expected over the fire today. Morning inversion will keep smoke trapped in the valleys through late morning before the inversion lifts by 1100. Light mainly drainage winds in the morning will gradually become upslope/up valley through 1300. After 1300, look for south to southwest winds to increase to around 4-7 mph in the lower valley with occasional gusts to 12 mph in the afternoon. Ridgetop winds will generally increase to 8 to 10 mph with gusts up to 14 mph. Transport winds are expected to push the winds northeast through the afternoon. Similar conditions are expected over the next few days.

FIRE BEHAVIOR

GENERAL

Fuels The Fire is burning in an area of the SQF backcountry that doesn't have a lot of recent fire history. To the East and South of the fire is the 2002 McNally and 2017 Schaeffer burn scars, to the West the Pier (2017), the Lion (2017) to the north, and directly adjacent is the smaller George Fire (2012). The Pier, Lion, and Schaeffer should offer solid opportunities to slow fire spread.

Topography Complex terrain features of the Golden Trout Wilderness will highly influence fire spread direction and speed. Higher terrain will be exposed to SW flow, while the drainages will see more Southerly up drainage afternoon winds and Northerly down drainage winds at night.

Weather: Smoky in the morning with some clearing by early afternoon. Sunny. Inversions expected to lift by late morning. Light drainage winds in the afternoon becoming south to southwest in the afternoon.

	Rate of Spread	Flame Lengths	Spotting Distances	POI
Head	180-270 ch/hr.	12'++	¼-½ mile	83%
Flanking	24-30 ch/hr.	8-12'	¼ mile	83%
Backing	2-4 ch/hr.	1-3	0	83%

SPECIFIC

Div. A Minimal Backing fire into the southwest wind but on the northwest portion of the fire where may be light flanking fire where southerly winds align with terrain...

Div. G Where the fire has crossed on the Kern River and the fire comes into alignment with drainages, movement will be to the North towards Kern Ridge and Overlook Peak. On the east flank the fire has not reached the Kern River like previously thought so backing and light flanking towards the Kern can be expected.

Div. M Down canyon winds after 2000 to move the fire towards the Forks of the Kern confluence. 2017 Schaeffer fire is slowing spread rates but the southwest side has more fuel to make small terrain driven runs.

Division. Z Flanking fire will continue as winds follow the drainages in a southerly alignment but otherwise should continue minimal backing into Southwest flow.

Shotgun Fire: Fire has a large rock component to the north and east. To the southwest is the 2011 Lion Fire and the Southeast is the 2017 Lion Fire. Potential for large fire growth is minimal with the current predicted winds.

AIR OPERATIONS

Smoke should lift between 1000-1100 to support air missions.

SAFETY

When the smoke lifts out expect the fire behavior to increase dramatically.

Health & Safety Message

Incident: SQF Complex CA-SQF-002622	Date/Op Period: Day Shift 0600-0600 08/26-27/ 2020
---	---

RISKS & HAZARDS

Fuel Geysers: Fuel geyser events continue to be reported from the field resulting in injuries to personnel.

Review these geyser mitigation measures:

- Assume all gas powered equipment and fuel transport containers are pressurized. Treat them accordingly when opening, especially near any potential ignition source. Always wear PPE.
- When refueling, move at least 20 feet away from any ignition source.
- Let the saw cool five minutes.
- Turn the saw so the fuel cap is pointed away from you, cover it with a cloth and slowly open the cap to vent away from you.
- If any fuel gets on your clothing, do not go back to sawing without getting fuel free clothes/PPE on. Tell your supervisor.
- Be careful to reseal and close the fuel cap so it closes completely and the threads do not get crossed. Let any over-fill evaporate before starting.

Air Operations: With air operations over the fire; both fixed and rotary wing aircraft, comes a unique set of hazards and risks. Reference the blue pages in your IRPG. Consider mission need and aviation risk factors. Establish good communications with the aircraft and ensure ground personnel are aware of drop zones during paracargo, retardant and water dropping operations.

Review Aviation Watch Out Situations!

Firefighter Health: With multiple days of working on the fireline; cuts, abrasions, rashes and blisters are accumulating on your body. Prevent infections by washing your hands often, take daily showers, wash or change your clothes frequently and care for minor wounds each shift. Treatment early-on will help prevent larger medical problems later!

6. Work Assignments:
TASK: Construct dozer and hand line between Summit trailhead & Jerky Meadow utilizing existing road & trail systems
PURPOSE: Keep the fire spread East of Lloyd Meadow Rd and North of the Forks of the Kern and South of Angora Peak
END STATE: Limit fire spread into additional values at risk to protect communities and infrastructure

7. Special Instructions:
 Use caution when driving on roadways and on the fire line. Be aware of wildlife in the fire area and use caution when encountered.
 Coordinate with Power Company for utility concerns. Backhaul excess equipment and trash.
 Monitor command, air to ground, and respective tactical frequencies. Identify potential Drop Point locations.
 Follow all COVID protocols and precautions, stay safe and cover your face and maintain your space.
 Castle Ambulance 1 available from Whitsett Spike Camp and FEMP Swenson available from Peppermint Helibase.

MEDICAL PLAN (ICS 206 WF) CIIMT 12

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<p>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i></p> <p>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i></p> <p>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i></p>	
Nature of Injury or Illness Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Finance Message

Due to Covid-19, Finance staff are working towards minimizing everyone's exposure at incidents. An electronic submission of CTR, Shift ticket, contract, crew manifest, and resource order are encouraged when possible.

Please send the signed documents to the email address below. In the subject line, please put your resource number and the lead's last name.

We accept:

- Photo/image of the traditional hardcopy w/wet signature, or
- PDF w/electronic signature
- Use your original incident number and pay code from your resource orders

HARASSMENT FREE WORKPLACE POLICY

The Forest Service strives for a harassment-free work environment where people treat on another with respect. Managers, supervisors, and all employees, as well as our contractors, cooperators and volunteers have the primary responsibility for creating and sustaining this harassment-free environment.

All employees, contractor personnel, and visitors must take personal responsibility for maintaining conduct that is professional and supportive. There is a zero tolerance for harassment based on race, national origin, religion, age, mental or physical disability, color, sex, or any other nonmerit factors.

Managers and supervisors must take immediate action to stop harassment (or any other inappropriate behavior), to protect the people targeted and to take all reasonable steps to ensure that no further harassment or retaliation occurs. Employees who witness harassment should report it to the proper authority.

WHAT HARASSMENT IS: Harassment is coercive or repeated, unsolicited, and unwelcome verbal comments, gestures or physical contacts and includes retaliation for confronting or reporting harassment. Some examples include but are not limited to the following: unwelcome touching, inappropriate references to body parts, derogatory or demeaning comments, jokes, or personal question, sexual innuendoes, inappropriate comments, or other verbal abuse.

Individuals who believe they are being harassed or retaliated against should exercise any one or more of the following options as soon as possible: Tell the harasser to stop the offensive conduct; and/or Tell a manager or supervisor about the conduct; and/or any other individual you trust who would act. In addition, you may seek help from the Human Resource Specialist on the incident.

Please let me know if I can be of assistance. You may reach me by calling **707-373-0204** or by **email at: virgil.morrow@usda.gov**. Although practicing social distancing, I will arrange an in-person meeting to discuss any concerns.

Smoke Outlook for 8/25 - 8/26
Southern Sierra - Sequoia Complex
 Issued at: 2020-08-25 10:57 PDT

Special Statement

This outlook addresses and is based on PM2.5 concentrations due to wildfire smoke only.

Fire

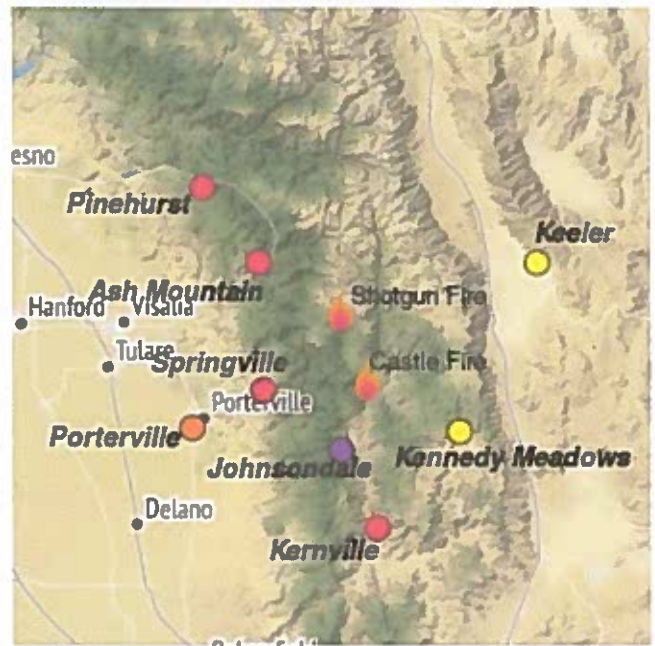

The Sequoia Complex consists of the Castle Fire (14,750 ac) and the Shotgun Fire (250 ac). A mix of grass, brush, and timber fuels are burning in complex, steep backcountry terrain. Active fire behavior is occurring with running, flanking and backing. For more information visit <https://inciweb.nwcg.gov/incident/7048/>.

Smoke

Generally Unhealthy AQI conditions are expected today and tomorrow. Overnight down-canyon drainage from the Castle Fire will bring smoke to Kernville for the morning. A southwesterly flow in the afternoon will push the plume to the northeast. Smoke from fires burning elsewhere in the state will also impact communities from Kernville to Pinehurst.

Notes

In areas experiencing sustained dense smoke even healthy people will start feeling effects from the smoke. Limit outdoor activities and watch out for each other.

Daily AQI Forecast* for Aug 25, 2020

Station	Yesterday hourly	Mon 8/24	Forecast* Comment for Today -- Tue, Aug 25	Tue 8/25	Wed 8/26
Kernville			Unhealthy conditions throughout the day.		
Kennedy Meadows			Moderate most of the day. Unhealthy conditions possible in the afternoon		
Keeler			Moderate most of the day. Unhealthy for Sensitive Groups possible the afternoon.		
Johnsondale			Very Unhealthy conditions most of the day. Possible improvement in the afternoon.		
Porterville			Unhealthy for Sensitive Groups throughout the day.		
Springville			Unhealthy conditions throughout the day.		
Ash Mountain			Unhealthy conditions throughout the day		
Pinehurst			Unhealthy conditions throughout the day.		

Issued 2020-08-25 10:57 PDT by Paul Schlobohm, ARA, pschlobo@gmail.com

Air Quality Index (AQI)	Actions to Protect Yourself
Good	None
Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.
USG	People within Sensitive Groups* should reduce prolonged or heavy outdoor exertion.
Unhealthy	People within Sensitive Groups* should avoid all physical outdoor activity.
Very Unhealthy	Everyone should avoid prolonged or heavy exertion.
Hazardous	Everyone should avoid any outdoor activity.

*Disclaimer: This forecast is based on fine particulates only; ozone is not included. Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Difficulty breathing
 - Loss of taste or smell
 - Fever
 - Chills
 - Sore throat
 - Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least SIX feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

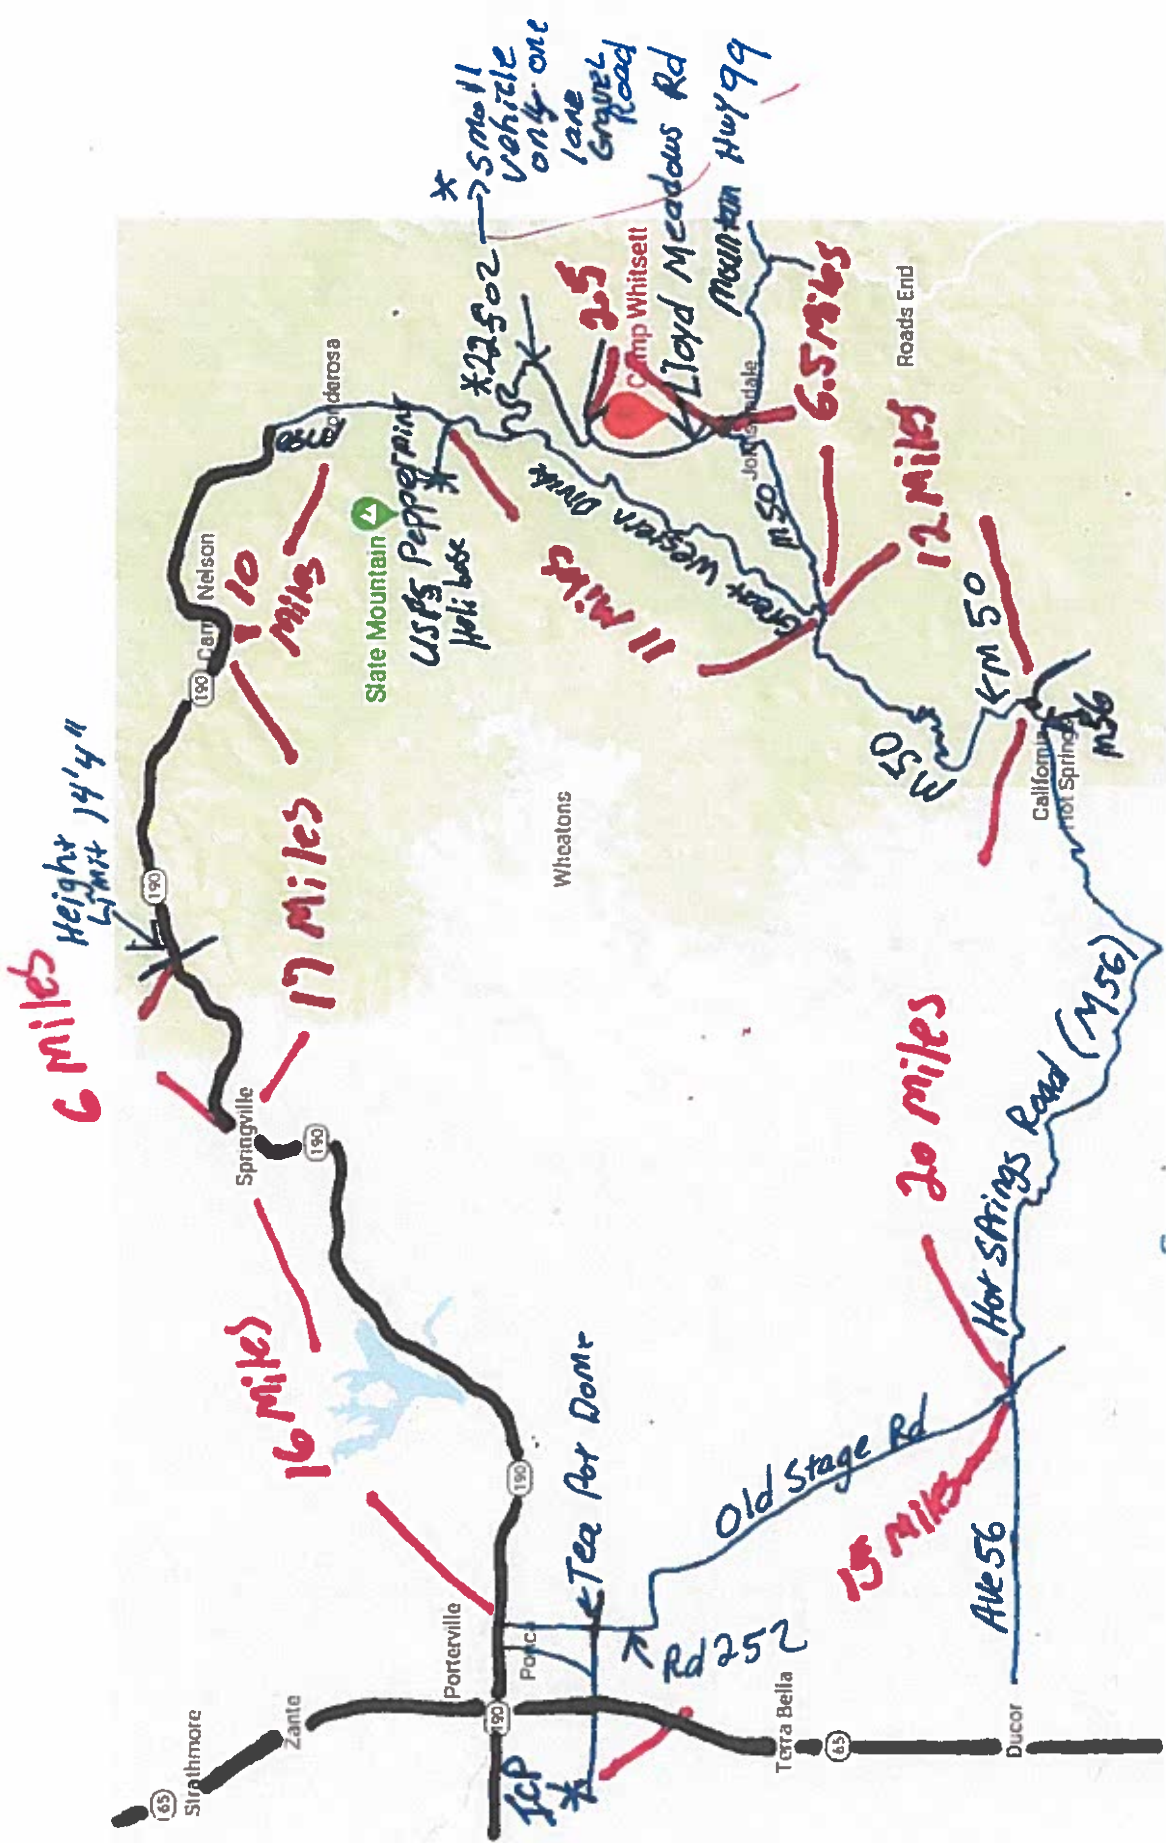

Communications

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!
